I’m going to finish what I started.
About Sage Graduate School

The Professional Connection

Mission and Purpose

The mission of Sage Graduate School is to educate men and women professionals to develop exemplary career competencies by combining sound theoretic preparation with professional practice. Graduate education at Sage shares a common bond with the undergraduate vision of liberal, professional and specialized study. At the graduate level, this vision has produced highly distinctive programs addressing a broad spectrum of human concerns while focusing on the acquisition of knowledge in the context of work. Sage graduate programs also reflect our sensitivity and responsiveness to the communities in which The Sage Colleges reside and to the demands of the broader society around us.

Serving Today's Professionals

Sage Graduate School offers master's degree programs, certificates of study, and post-master's certificate programs in the professional areas of management, health sciences, psychology and education. The doctorate is offered in physical therapy. Classes are offered evenings, weekends, in one-day-a-week formats, in special short-term "institutes" involving weekend study, on-line and partially on-line. Courses are scheduled to meet the needs of busy professionals.

Sage graduate faculty members, both full-time and adjunct, are trained practitioners as well as teachers who understand the needs of adult students and the needs of the workplace and the larger community. They have been successful in their professions, giving them the best combination of practical experience and advanced academic training.

Research is integrated into coursework to give students the skills to evaluate pertinent literature and to apply that information in the real world. Graduate students develop skills in research methodology and most conduct independent research. Others are involved in faculty-sponsored research. Faculty members in every graduate program have strong connections as consultants and board members with a wide variety of community organizations. Sage Graduate School’s Community Resource Teams, where faculty and students develop research projects in conjunction with community needs or initiatives, take advantage of these connections.

Sage’s first master’s degree was granted in 1942 by Russell Sage College. A full graduate program, operating under the charter of Russell Sage College as part of its coeducational Albany Division, was established in Albany in 1949. In 1995 Sage Graduate School was granted its own degree-granting powers as a member of The Sage Colleges.
The Sage Colleges

An Overview of The Sage Colleges

The Sage Colleges is a private institution of higher education delivering degrees in seventy-one major areas of study through three freestanding colleges. Sage serves more than 3,000 students each year on two campuses, in Albany and Troy, New York; on the campus of Hudson Valley Community College with joint degree programs in childhood education and physical education; and through Sage Online for distance learning courses and programs.

Russell Sage College, in Troy, was founded in 1916 to prepare women to participate fully and actively in the life and work of society. Russell Sage offers bachelor’s degrees in the traditional liberal arts and sciences as well as in selected professional fields, including business, communications, creative arts in therapy, criminal justice, education, health sciences, nursing, nutrition science, and theatre. More than 50% of graduates each year pursue advanced degrees, many through accelerated programs with Sage Graduate School.

The coeducational Sage College of Albany grew out of an Albany division established in 1949. Sage College of Albany offers applied associate and bachelor’s degrees in a “two plus two” structure that allows students to design their own area of study. Areas of specialty include art and design, computing technologies, communications, business, and legal studies. Innovative interdisciplinary programs include applied biology, creative studies, and information design. Through its Sage After Work program, Sage College of Albany also offers bachelor’s degree completion programs designed specifically for working adults.

Sage Graduate School, also established in 1949, is a coeducational environment offering advanced study for practice and leadership through master’s degrees and post-master’s certification in professional disciplines, as well as the doctorate in physical therapy. Areas of specialty include business and management, education, health services administration, nursing, nutrition, occupational therapy, physical therapy, psychology, and public administration. Sage Graduate School serves both recent college graduates and individuals already at work in their professions.

The motto of Russell Sage College, “To Be, To Know, To Do,” also informs the educational purpose of The Sage Colleges, where the common effort is to translate learning into action and application, within a framework of the value that recognizes the obligation of educated persons to lead and serve their communities.

Presidents of Sage

- Eliza Kellas 1916-1928
- Dr. James Laurence Meader 1928-1942
- Helen McKinstry 1942-1946
- Dr. Lewis A. Froman 1948-1969
- Dr. Charles U. Walker 1970-1975
- Edgar S. Pitkin, Interim President 1975
- Dr. William F. Kahl 1976-1988
- Dr. Sara S. Chapman 1988-1995
- Dr. Jeanne H. Neff 1995-present

Accreditation

The Sage Colleges is chartered by the Board of Regents of the University of the State of New York. The Sage Colleges is accredited by the Middle States Commission on Higher Education, 3624 Market Street, Philadelphia, PA 19104. Individual programs are accredited by the National Association of Schools of Art and Design (NASAD), 11250 Roger Bacon Drive, Suite 21, Reston, VA 20190 (703) 437-0700; the Accreditation Council for Occupational Therapy Education of the American Occupational Therapy Association (ACOTE), 4720 Montgomery Lane, PO Box 31220, Bethesda, MD (301) 652-2682; the Commission on Accreditation in Physical Therapy Education of the American Physical Therapy Association (CAPTE), Trans-3245; Potomac Plaza, 1111 North Fairfax Street, Alexandria VA 22314-1448 (703) 706-3245; the National Council for the Accreditation of Teacher Education (NCATE), 1001 Massachusetts Ave. NW, Suite 500, Washington, DC 20036-1023 (202) 466-7496; the National League for Nursing Accrediting Commission (NLNAC) 61 Broadway, 33rd Floor, New York, NY 10005 (900) 669-1656 and the Commission on Collegiate Nursing Education (CCNE) One Dupont Circle, NW, Suite 530, Washington, DC (202) 887-6791; and the Commission on Accreditation for Dietetics Education of the American Dietetic Association (CADE) 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606-6995 (312) 899-4872. The Chemistry department offers a degree option that is certified by the American Chemical Society (ACS) 1155 16th St. NW, Washington DC (202) 872-4600.

Organizations & Affiliations

The Sage Colleges holds memberships in the following:

- Associated New American Colleges (ANAC)
- American Council on Education (ACE)
- Association of American Colleges and Universities (AAC&U)
Equal Opportunity and Non-Discrimination

It is the policy of The Sage Colleges to comply with applicable federal, state and local laws and regulations regarding equal opportunity and non-discrimination. Employment practices will not be influenced or affected in an illegally discriminatory manner by an individual’s race, color, religion, marital status, gender, sexual orientation, national origin, age, disability, veteran status or any other characteristic protected by law. Likewise, admission, financial aid, and access to programs will not be influenced or affected in an illegally discriminatory manner by an individual’s race, color, religion, marital status, gender, sexual orientation, age, disability, veteran status, national origin, or any other characteristic protected by law. Russell Sage College for Women, a member of The Sage Colleges, is exempt from gender discrimination requirements with respect to admission, aid, and programs under Title IX. Inquiries with respect to the specifics of the laws governing these matters or with respect to the application of these policies should be directed to the Director of Human Resources, The Sage Colleges, Plum Building, 45 Ferry Street, Troy, New York 12180 — (518) 244-2391.

ACADEMIC STANDARDS

Academic Standing/Criteria for Continuation

Students maintain acceptable academic standing by meeting the following criteria:

- an average of “B” or above (GPA of 3.0 or above on a 4.0 scale)
- completion of program within the specified time limits
- no more than two “Incomplete” or “RP” grades on the transcript
- a ratio of “Attempted” to “Completed” credits, excluding credits in the current semester, of .75 or better
- an acceptable level of professional behavior

To maintain matriculation students must complete one course each year (September-August) at Sage Graduate School.

Students who do not maintain acceptable academic standing are subject to dismissal from the program, based on the recommendation of the program director. If such dismissal becomes necessary, fees will not be refunded or remitted, in whole or in part, and neither Sage nor any of its officers shall be liable whatsoever for such exclusion.

Academic Standing/Criteria for Graduation

To be eligible to receive a graduate degree, a student must have a “B” average (3.0 on a 4.0 scale) at the time of graduation in the graduate courses taken as part of the degree program at Sage.

Time Limit for Degree Completion

A graduate degree program requiring fewer than 42 credit hours must be completed within six years from the end of the semester of completing the first applicable course. Seven years is allowed for completion of graduate programs 42 credit hours or more.

Academic Dishonesty/Misconduct

Academic dishonesty and misconduct violate the essential mission of an academic institution and will not be tolerated at The Sage Colleges in any of its forms. Academic dishonesty and misconduct include: cheating, failing to obtain Institutional Review Board (IRB) approval before beginning any research, plagiarism, multiple submissions, complicity in academic dishonesty/misconduct, abuse of materials or alteration of records. Following are several definitions and examples of academic dishonesty:

- **Academic Fraud** = The alteration of documentation relating to the grading process (e.g., changing exam solutions to negotiate for a higher grade or tampering with an instructor’s grade book).

- **Collaboration** = Deliberate facilitation of academic dishonesty in any form (e.g., allowing another student to observe an exam paper or recycle one’s old term paper).

- **Copying** = Obtaining information pertaining to an exam question by deliberately observing the paper of another student.

- **Cribbing** = Use or attempt to use prohibited materials, information, or study aids in an academic exercise.

- **Fabrication** = Unauthorized falsification or invention of any information in an academic exercise (e.g., use of a purchased term paper; falsifying lab records).

- **Plagiarism** = Representing the work or words of another as one’s own through deliberate omission of acknowledgment or reference.

- **Sabotage** = Destruction of another student’s work related to an academic exercise (e.g., destroying a model, lab experiment, computer program, or term paper developed by another student).

- **Substitution** = Using a proxy, or acting as a proxy, in any academic exercise.

A faculty member may take any of the following disciplinary actions when a student engages in an act of academic misconduct:

- a written reprimand
- A zero or “F” on the assignment(s) involved,
- An “F” in the class involved,
- Revocation or a change of grade.
Sanctions beyond those listed here, including suspensions or dismissal in serious cases, may be issued by the institution only, not by an individual faculty member. To view the complete Student Conduct Code, see http://www.sage.edu/sgs/academics/policiescodeofconduct.php#Conduct

Sage Graduate School Grievances and Appeals

Students who wish to request reconsideration of academic decisions made with regard to their progress and performance in the academic program may appeal to the Academic Standards Subcommittee of the Sage Graduate School Curriculum Committee. Students who wish to appeal to the Academic Standards Subcommittee must write to the Dean of Sage Graduate School, explaining the nature and rationale for the request. The student’s program director and the dean each make a recommendation to the Academic Standards Subcommittee, which then makes a determination regarding the student’s request. The Dean of Sage Graduate School communicates the determination to the student.

The Sage Graduate School Grievance Appeals Panel reviews student grievances which have been acted upon by the Academic Standards Committee of the SGS Curriculum Committee. The Grievance Appeals Panel will consider student grievances concerning academic matters including:

- the degree process such as grading, evaluation, or status;
- allegedly unprofessional conduct toward students;
- allegedly unfair or discriminatory treatment of students;
- allegedly unfair disciplinary actions.

The request for an appeal must be made in writing to the Dean of Sage Graduate School, within 30 days of the student’s receipt of the determination of the Academic Standards Subcommittee. The letter requesting an appeal must state the basis of the grievance and the facts that support it. It should include a summary of steps already taken (or why steps were omitted). The student/appellant must state why the resolution is unfair or unsatisfactory. The student must state what the desired remedy is. The Dean will transmit the appeal to the Sage Graduate School Curriculum Committee (SGSCC) Chairperson to determine whether or not the appeal will be accepted for review. If the appeal involves a student from the program in which the Chair of the SGSCC serves, the Chair will designate a member of the SGSCC who is not affiliated with the appellant’s program to determine whether or not the appeal will be accepted for review. If an appeal is accepted for review, a Grievance Appeals Panel will be formed to hear the case within 20 business days of receipt of the student’s request.

Conditions for Dismissal

The administrative officers at Sage reserve the right to require at any time the withdrawal of students for reasons of health or conduct or whose academic standing does not comply with the regulations; in such cases fees will not be refunded or remitted, in whole or in part, and neither Sage nor any of its officers shall be under any liability whatsoever for such exclusion.
COURSEWORK

Characteristics of Graduate Study

The Sage Graduate School Curriculum Committee requires that graduate courses exhibit the following characteristics categorized by content, role of the instructor, and role of the student.

Content

- An emphasis on theory and the translation of theory into practice.
- A greater reliance on the development of critical evaluation skills through analysis of research literature.
- The range of content covered addresses the depth and complexity of recent developments in the field at a substantial, professional level.

Role of the Instructor

- The role of the instructor goes beyond that of a conveyor of information.
- The instructor of a graduate course develops a learning environment that allows students to construct their own knowledge and understanding.
- Graduate courses rely on interactive, collaborative problem solving to a greater extent, allowing students the opportunity to integrate and apply what is learned to relevant and current situations.

Role of the Student

- Graduate students are expected to assume responsibility for their own learning.
- Graduate students are presumed to have knowledge based in the discipline that prepares them for independent pursuit of knowledge, expertise and skills.
- Graduate students are expected to be proficient in written and spoken communication.

Class Attendance

Prompt attendance at all academic appointments (classes, lectures, conferences, and examinations) is an essential part of the educational plan for degree programs and is expected of students. In the event of a class absence, it is the student’s responsibility to contact the instructor directly, by phone, voice mail or e-mail. The responsibility for work missed because of absence rests entirely upon the student.

Special Academic Courses

Online Courses

Sage offers a number of courses online, which not only provides flexibility and convenience for students with busy schedules, but also provides an opportunity to explore new avenues of learning. Online courses are coordinated through the Sage Online program.

Reduced Seat Time Courses

Sage offers courses that are partially taught online, thus reducing the number of times students need to appear in a classroom. Such classes provide flexibility and convenience to students with heavy work and family obligations.

Weekend and Institute Courses

Sage frequently offers weekend or institute courses designed to meet the needs of busy professionals. Weekend format courses typically meet Friday nights and Saturdays and Sundays for two or more consecutive weekends. Institutes will be scheduled in concentrated periods of time suitable for that profession.

Independent Projects

An independent project is endorsed at the graduate level when such study contributes significantly to the student’s overall objectives and satisfies the academic standards of Sage Graduate School. Graduate students undertaking an independent project must be matriculated, and have at least a 3.0 cumulative grade point average. No more than six credit hours of independent study may be counted as credit toward graduation. All independent projects must have the written approval of the student’s program director and the Dean of Sage Graduate School before registering for and beginning the independent project. The required independent project form is available from the graduate school, program director, or
Clinical Courses, Field Placements, Externships and Internships

Clinical courses, internships and field placements are an integral part of the curricula of graduate programs. The specific objectives and learning outcomes for these are determined by the faculty. The clinical or field placement is approved by the faculty. The student is evaluated by the clinical and field supervisor, as well as program faculty. Unsatisfactory performance, as defined by course objectives, may be grounds for immediate removal from the placement, required remediation, failure in the course, and/or dismissal from the graduate program, based on the recommendation of the program director.

In addition the Center for Academic Advising and Career Planning, with offices on both campuses (John Paine Building in Troy and Kahl Campus Center in Albany) has extensive listings of internship opportunities, job resources, an employer database, alumni career networks, links to job sites on the Internet, and access to local and national job banks. Career counselors are also available to help with career assessment, guidance, and placement. Students may wish to explore these opportunities before discussing options with their program director or advisor.

Accelerated Undergraduate/Graduate Programs

Students of Russell Sage College and Sage College of Albany can take advantage of policies that allow acceleration of programs offered at Sage Graduate School. Undergraduate students in good standing, with a GPA of 3.0 or better may take graduate courses for undergraduate credit, with advisor approval and permission of the Dean of Sage Graduate School.

Undergraduate students who are seniors and who have a GPA of 3.0 or better may take two graduate courses for graduate credit, with advisor approval and permission of the Dean of Sage Graduate School. These courses may satisfy undergraduate requirements, or if they are completed beyond the 120 credits required for the baccalaureate degree, may satisfy graduate requirements.

Undergraduate students hoping to enroll in graduate coursework should be aware of the restrictions on the policies that support acceleration. No undergraduate degree can be completed with fewer than 120 credits. The graduate degree must include a minimum of 30 credits beyond the 120 required for the baccalaureate degree. Students in undergraduate programs should seek advisement from their program advisor and from the graduate program to which they will apply, to ensure that the courses selected apply to the appropriate programs.

Accelerated programs allow highly qualified students earn both a bachelor’s and master’s degree in a continuous course of study, saving both time and money. Sage offers the following accelerated programs:

- Pre-Law/Law (a 3+3 program with Albany Law School, for Russell Sage students only)
- BA or BS and Master’s in Business Administration (M.B.A.) at Sage
- BA or BS and MS in Education at Sage
- BA and M.A.T. in adolescence (secondary) education for Art, Biology, English, Mathematics or Social Studies at Sage
- BS and MS in Nursing at Sage
- BA or BS leading to the MS in Occupational Therapy at Sage
- BA or BS leading to the DPT in Physical Therapy at Sage
- Dual BS degrees in Mathematics and Engineering (Rensselaer)
- BA or BS and MS in Public Administration at Sage

The Nursing program requires both the graduate and undergraduate degree in that discipline. Other accelerated programs allow students to choose their undergraduate major from a large roster of arts and science as well as professional majors. Indeed, combinations of undergraduate work in the liberal arts (e.g., a major in English, Sociology, or Psychology) with graduate professional work, are considered particularly effective.

In all accelerated undergraduate/graduate programs, students must maintain certain minimum GPA requirements and meet specific program requirements. See the appropriate catalog pages or consult with the program directors in the specific disciplines for more information.

Academic Adjustments for Students with Disabilities

Academic requirements must be modified, on a case-by-case basis, to afford qualified handicapped students and applicants an equal education opportunity. Complete information on these policies and procedures for requesting these adjustments at http://www.sage.edu/current/handbook/sca/support.php
CREDIT

Transfer of Credit

A maximum of nine semester hours or 25 percent of the degree program, whichever is greater, may be transferred from another accredited institution toward a master’s degree at Sage Graduate School. Transfer credits must be graduate courses and must have been completed within five years preceding the first course taken at Sage that counts toward the graduate degree. Transfer credit is granted at the discretion of the graduate program director and the Dean of Sage Graduate School. Courses with grades of "Pass", "Satisfactory" and grades below "B" will not be transferred. The student should initiate a request for transfer of credit by making a written request to the program director.

Students who wish to complete a course or courses at another institution while enrolled in a degree program at Sage Graduate School must seek written approval from the program director before taking the course and requesting transfer of the credits.

Repeat Course Policy

Students are permitted to retake any course at Sage Graduate School. Credits and grade points for the first grade will be deleted from the cumulative record, while the grade itself will remain on the transcript and the repeat noted. The course information will be listed in the usual manner the second time it appears on the transcript. Generally, the course should be repeated in the following semester. However, it may be repeated any time prior to graduation. No matter which grade is higher, the most recent grade counts in calculating the cumulative grade point average.

Repetition of coursework for which credit has been granted may jeopardize financial aid eligibility. It is the student’s responsibility to understand their financial aid situation and the possible consequences of repeating courses. Students with questions regarding the impact of course repeats on financial aid should consult the Office of Student Services.
EVALUATION OF ACADEMIC WORK

Grading Policy

Written coursework that does not conform to the fundamentals of good English usage will be returned to the student for revision or adversely graded at the discretion of the instructor.

At the end of each term, the standing of a student in each of his/her courses is reported by the instructor to the Registrar and is entered on the student’s permanent record. Standing is expressed according to proficiency using a grading system with plus and minus designations, which is also used to determine quality points for calculating grade point averages. At Sage Graduate School the grades of A+ and D are NOT used. Sage uses the following grading systems:

<table>
<thead>
<tr>
<th>Undergraduate</th>
<th>Graduate</th>
</tr>
</thead>
<tbody>
<tr>
<td>A = Excellent</td>
<td>A = Distinguished Work</td>
</tr>
<tr>
<td>B = Good</td>
<td>B = Average Work</td>
</tr>
<tr>
<td>C = Satisfactory</td>
<td>C = Below Average Work</td>
</tr>
<tr>
<td>D = Passing</td>
<td>F = Failure</td>
</tr>
<tr>
<td>F = Failure</td>
<td></td>
</tr>
</tbody>
</table>

I (grade) = Incomplete

A grade of Incomplete ("I") may be awarded at the discretion of the faculty member if a student is unable to complete all the work for a course due to illness or a comparable emergency. In order for a grade of "I" to be granted, a student should have completed most of the work for the course in the opinion of the instructor. If an "I" is granted, the student has the right to complete the work by the date specified by the faculty member. The grade of "incomplete" at the end of any term must be removed before the end of that term the following year. When an instructor assigns a grade of incomplete, they must also assign a parenthetical grade indicating the grade to be assigned if no change of grade notice is filed with the Office of Student Services by the completion date.

Students with two or more incompletes will have a Dean's hold on placed on their registration, until their continued status in the program is reviewed by the program director. The student will not be allowed to re-register for the course (either for credit or audit) in a subsequent semester until the Incomplete is removed.

Z = Absent, No Credit

This grade will be given if the instructor makes the judgement that not enough work has been submitted to assign a grade. A “Z” could be assigned in the following circumstances: (a) students who registered for a class and never attended but remained enrolled; (b) students who stopped attending prior to the due date for any graded work and neither withdrew nor dropped the course according to procedure; or (c) students whose work during the course received passing grades but who stopped attending, did not withdraw from the course, and did not make arrangements with the instructor for completion of the course.

The “Z” grade does not award credit and does not afford the opportunity to finish the incomplete work after the end of the term. Students must re-register and pay for the course and complete work in order to receive course credit.

Graduate students who have two or more incompletes will be placed on a “Graduate Dean Hold” and will not be allowed to register for subsequent semesters without clearance from the program director and dean.

P = Passing

Indicates that the student has passed the course (for courses designated as Pass/Fail)

W = Withdrawal

This grade can only be assigned by the Registrar’s Office, when a student officially withdraws from a class.

RP = Research in Progress

In designated courses such as theses, research projects, honors projects, and independent projects, incomplete work may be assigned a grade of “RP.” “RP” grades indicate that the initial expectation was that the work to be evaluated normally requires more than one semester. The “RP” grade may not be used in place of an incomplete (“I” grade) for any course which students are normally expected to complete within the original semester. Within one year from the time the “RP” grade is assigned, students must complete a course for which the “RP” grade was given. A student whose research requires longer than one year may request an extension of the “RP” for up to one additional year. The program director may grant the request for an extension of the “RP” grade, depending on the degree of completion of the project. The extension will be granted only if there has been substantial progress. Failure to complete the work within the timeframe described above will result in the conversion of the grade from “RP” to “Z.”
Calculating Grade Point Average (GPA)

To determine a student’s grade point average (GPA), Sage uses the following system of quality points:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>3.3</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
</tr>
<tr>
<td>C+</td>
<td>2.3</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>C-</td>
<td>1.7</td>
</tr>
<tr>
<td>F</td>
<td>0.0</td>
</tr>
</tbody>
</table>

(I, P, NP, W, and Z grade designations not calculated in grade point average.)

Audit

Students who wish to audit a course must have the instructor’s permission to do so and will be permitted to audit a course on a space-available basis, limited to not more than 10 percent of class enrollment. They are not required to submit credentials if they intend only to audit, but they must declare their request to audit a course at registration or no later than the end of the Add-Drop period. Auditors pay all fees and partial tuition (see Section on Tuition, Fees and Deposits for tuition charges). Auditors may elect to take the final examination but do not receive academic credit for the audited course. Graduate students auditing an undergraduate course must comply with the policies that govern the undergraduate program.

Change of Final Grade

Final grades recorded by the faculty are permanent and remain so with the exception of “I” (Incomplete). The grade of “Incomplete” at the end of any term must be removed before the end of that term the following year, unless an extension has been granted.

Except for mathematical errors, the registrar may alter final grades only after the Dean of the College has granted approval. The instructor must initiate corrections by submitting a grade change form with the explanation for the change of grade to the Dean of the College.

A student who believes he/she has been penalized unjustly in the final grade received should follow the appeals procedure outlined in the Academics Standards section above.
HONORS and GRADUATION

Honor Societies

Phi Kappa Phi - Founded in 1897 at the University of Maine, Phi Kappa Phi is an honor society that draws its members from all academic disciplines within colleges and universities. Selected outstanding graduate students of The Sage Colleges are invited to become members of Phi Kappa Phi. See [http://www.phikappaphi.org](http://www.phikappaphi.org)

Outstanding Graduate - Each year the College recognizes the outstanding graduate for each degree program at the annual Spring Research Symposium.

Broughton Fellowships - The Fellowship is intended to create opportunities for advanced scholarly work for graduate students doing creative, advanced study and research, including preparing a dissertation, thesis or final project for a graduate degree, at Sage Graduate School. Students in all graduate programs are eligible. Each Broughton Fellow is required to give a public lecture at the Sage Graduate School Annual Research Symposium. Broughton Fellows are recognized at commencement by wearing blue cord. The Broughton Fellowship was established by the late William G. Broughton of Schenectady, New York, in honor of his parents, Henry Primm Broughton and Jane Tinkham Broughton [Visit the Broughton Fellows](http://www.phikappaphi.org).

Graduation

The Sage Colleges confers degrees three times each year: in August, December and May. However, a Commencement ceremony is now held only in May. Students become candidates for graduation upon filing a completed “Graduation Application” with the filing fee and submitting it to the Office of Student Services. The filing deadlines are:

February 1   for  May degree conferral
June 1       for  August degree conferral
October 1    for  December degree conferral

For participation in Commencement, students must meet all degree requirements before Commencement day or must have fulfilled all their degree requirements except the completion of their final internships, externships, clinicals, student teaching or practica in which they must be enrolled during the term preceding Commencement. These students will be allowed to participate in Commencement, but are not eligible for degree conferral.
REGISTRATION

Registration Guide

For the current registration procedures visit the Sage Graduate School Registration Guide.

Who May Register - Student Status

Students returning to academia or attending graduate school for the first time who are uncertain of their program may take up to 9 credits without applying for admission to the College. To enroll for additional credits, students must either apply for admission (matriculate) and gain acceptance to a graduate certificate or degree program before completing 9 credit hours or indicate visiting-student status.

Matriculation

A student who begins coursework as a non-matriculated student and who wishes to pursue a degree is required to apply for admission and gain acceptance to a graduate program before completing 9 credit hours of graduate coursework. For application apply on-line.

In order to maintain matriculated status, a student must satisfactorily complete at least one course each year (September – August) with an overall cumulative grade point average of 3.0 or better.

Non-Matriculation

Students who do not matriculate before completing 9 credit hours and who do not intend to earn a certificate or degree from Sage should indicate visiting-students status. Credits accumulated as a visiting student do not necessarily count toward a certificate or degree program.

Registration Requirements

To register for a graduate-level course, a student is required at the time of registration to hold a bachelor’s degree from an accredited institution. For a student to receive credit for a graduate course, the official undergraduate transcript with bachelor’s degree posted must be on file in the office of graduate admission. This is required for non-matriculated as well as matriculated students. If the transcript is not on file at the time of registration, the student must have it sent directly to the office of graduate admission from the degree-granting institution before mid-semester. Transcripts, credit for the course, and permission to register for the next semester will be withheld if the undergraduate transcript is not received as required.

Russell Sage College and Sage College of Albany seniors may be admitted to graduate courses on a strictly controlled basis requiring written permission from the Dean of Sage Graduate School.

Semester Course Load

Full-time student...................... 9 or more credits per semester*

Part-time student..................... fewer than 9 credits per semester

* Some financial aid programs require a minimum of 12 credits per semester.

Registration, Course Planning, and Catalog Year

To plan a curriculum or a semester’s course of study, students should use the Catalog printed the year they entered the College or any subsequent Catalog. It is the student’s responsibility to use the appropriate Catalog to outline course requirements and to inform the Registrar, in writing, of any desired change in catalog year. The catalog year may only be advanced; it may not be reversed. Degrees from accredited programs, or degrees that qualify students for certification, may require that students follow requirements subsequent to those in effect when the student matriculated.

A student must be sure to consider the prerequisite requirements for each course when planning their schedule; a student must have credit for or be enrolled in all prerequisites before enrolling in any course. A student may get permission to override a prerequisite only from the faculty member teaching the course or from the program coordinator in the discipline where the course is offered.

The College reserves the right to add, change, or delete curricular offerings and/or to make curricular refinements.

Student Responsibility
The ultimate responsibility for fulfilling graduation requirements rests with the individual student. In consultation with his/her advisor, each student reviews his/her academic program to make certain that requirements for the degree are being met satisfactorily. In addition to the requirements listed here, programs may have additional requirements. Each student is responsible for communicating with program advisors to ensure that all prerequisite and required coursework and associated activities such as internships, theses and portfolios are identified, scheduled and completed.

**Change of Program or Advisor**

Students wishing to change their program or advisor should consult with their program director or assigned faculty advisor to discuss the advantages and disadvantages of such a change. To initiate a change of program, students must submit a completed “Sage Graduate School Program Change Program Form”. Forms are available on the Sage Graduate School Web Site, the SGS Office in Frear House in Troy, the Office of Student Services (Cowee Hall, Troy campus, or Administration Building, Albany campus). The form should be submitted to the new program director for approval and signature. If the student is admitted to the new program, the program director will complete a new program of study with the student and submit the program of study and the change form to the Sage Graduate School Office to complete the change of program.

**Add - Drop - Withdraw from a Course**

- Students may not enter a course after the add/drop period.
- Courses which the student drops prior to the end of the first five days of classes will not be recorded on their academic record.
- Students who withdraw from a course after the add/drop period will receive a grade of “W” on their academic record for that course.
- All withdrawals from courses must be initiated by the student through the Registrar’s Office.
- The last day to withdraw from a course is the last day of the last day of class.
- Students who withdraw from a course must be aware that the withdrawal may affect their financial aid.

**Leave of Absence**

Students who need to suspend their studies must request a leave of absence in writing from their graduate program director. Leaves of absence are granted by the Dean of the Graduate School in consultation with other administrators. Students should be aware that changing their status might affect their financial aid eligibility. A leave of absence does not necessarily stop the academic time clock (see “Time Limit for Degree Completion”).

**Inactive Student Status**

Any matriculated student who does not take at least one course during any one year period of time will be classified as inactive. Upon returning such students should meet with their program director to update their program of study and change their status to active. Note that the hiatus from courses does not change the time limit for degree completion.

**Reenrollment/ Readmission**

Former matriculated students whose time limits have expired must contact the Office of Admission for a readmission/re-enrollment application. If any post-secondary institutions (college, university, technical, proprietary school, etc.) were attended while away from The Sage Colleges, official transcripts must be forwarded to the Student Services Office. Upon re-enrolling, students are newly matriculated for the program of study in the catalog year for which they are re-enrolling.
Academic Technology and Libraries

Libraries

http://library.sage.edu

Libraries on both the Albany and Troy campuses serve The Sage Colleges. The collections, hours, services and policies reflect usage by The Sage Colleges’ diverse student body of full- and part-time students in a range of programs from associate through graduate degree levels. The two Libraries’ combined holdings include more than 370,000 volumes of books, serials and microforms, almost 16,000 printed and electronic periodical subscriptions (with more than 55,000 volumes of bound periodicals) and more than 34,000 media items, including 21,000 art slides in the Albany Library, covering sculpture, painting, printmaking, drawing and more. Other collections include: College Archives and Special Collections; the Helen L. Verschoor Fine Arts Collection (Albany); and the Carol Ann Donohue Memorial Poetry Collection of 20th century poetry in English (Troy).

The Libraries actively collect materials to support all programs at The Sage Colleges, and maintain particular strength in women's studies, fine arts, nursing and allied health, health management, and physical and occupational therapy. Direct loan of library materials is available to Sage-affiliated students, faculty, administrators, staff, alumni and retirees of The Sage Colleges, and to holders of valid library cards issued by the Capital District Library Council's Direct Access Program. The Sage Libraries are active in regional and national library resource-sharing networks, thereby expanding materials available to students and faculty working in virtually any discipline.

The Libraries are equipped with computers and wireless networking, which provide access to the online library catalog, and to an abundance of networked research databases, as well as to the Internet. Online databases for research are accessible from on- and off-campus locations 24 hours a day, every day. Librarians are available at the reference desks during virtually all library hours to answer questions and provide assistance in the use of the varied information resources and services.

Individual and group library orientations are arranged through the reference librarians. Full-scale bibliographic instruction class programs are also given. Faculty may schedule specialized instruction classes with the librarian who serves as the liaison to their department. For complete details on the services and resources of the Libraries, visit the Libraries web page.

Computer Centers

The Albany Computer Center is located in Froman Hall and consists of one open lab, four teaching labs and one networking lab. These labs are equipped with up-to-date Windows based computers. The Albany Campus also features three specialized labs that are staffed by professionals and student consultants:

1. a lab equipped for AutoCad in the Interior Design Building;
2. an Apple-based digital imaging lab in the Graphic Design Building; and
3. a learning support computer lab in the Kahl Campus Center.

The Troy Computer Centers are located in Education Building basement, in Ricketts Hall, and in Hart Hall. The Education Building houses two up-to-date Windows-based computer classrooms and an open lab. The computer classroom in Ricketts Hall also serves as an open lab. And the Academic Support Center in Hart Hall sponsors a computer-based writing center.

A Sage ID is required to use the computer centers.

Technology Use

Through SageNet, the computer network of The Sage Colleges, students, faculty and staff can access networked software, e-mail, the Internet, and library resources. Rooms in the residence halls are hardwired into SageNet. SageNet is also accessible via a bank of dial-up high speed modems. Many of the campus classrooms are equipped with computer demonstration and network access equipment.

Upon registering at Sage, all students are issued the following accounts:

- A SageNet account, which provides access to disk storage space on SageNet, electronic media at the Sage Libraries, and dial-up access to SageNet;
- A Campus Cruiser account, which supports our e-mail service, is the official college information distribution system, and provides basic online academic support;
- A Blackboard account, which is our online tool for all of the College's courses. Blackboard is a course management system, which facilitates sharing of information within class populations; and
- A SageAdvisor account, which is our online interface for student and employee activities such as online registration, paying registration fees, viewing grades and schedules, and other official academic and advising activities. Your SageNet ID and password grants you access to this system.

If you have trouble with any of your College user IDs or passwords, contact the Help Desk at (518) 244-4777 or helpdesk@sage.edu.

THE SAGE COLLEGES ADMINISTRATION

Office of the President

Jeanne H. Neff, Doctor of Arts, Carnegie-Mellon University; M.A., Rice University; B.A., Wheeling Jesuit University; President and Professor of English

Mary Van Ryn, B.A., State University of New York at Albany; Assistant to the President

Academic Affairs

Sally A. Lawrence. Ph.D., University of Madrid; M.A., State University of New York at Albany; B.A., Adelphi University; Vice President for Academic Affairs and Professor of Spanish

Colleges and Schools

Connell G. Frazer. Ed.D., University of Northern Colorado; M.S. Ed., B.S. Ed., Valdosta State College; Dean, School of Education and Associate Professor of Education

James Dayton Gunn. Ph.D., Michigan State University; M.B.A., Rockford College; M.A., The University of the Americas; B.A., Kalamazoo College; Dean, Sage College of Albany and Professor of International Business (Acting Dean, School of Professional Studies)

Sharon P. Robinson. Ph.D., University of Toledo; M.A., Johns Hopkins University; A.B., Vassar College; Dean, Russell Sage College and Associate Professor of English (Acting Dean, School of Arts and Sciences)

Kevin Stoner. Cand. Ph.D. State University of New York at Albany; M.A., University of Oklahoma School of Journalism; B.S., Northern Arizona University; Interim Dean, Sage After Work and Associate Professor of Communications; Chair, Department of Communications and Information Design

John A. Tribble. Ph.D., Utah State University; M.A., University of Maine; B.A. Boston College; Dean, Sage Graduate School and Lawrence Professor of Economics (Acting Dean, School of Nursing and Health Sciences)

Academic Departments

Raul Acero. M.F.A., Ohio University; B.A., State University of New York at Fredonia; Chair, Department of Visual Arts

Karen Balter. M.A., Western Michigan University; B.S., State University of New York at Cortland; Chair, Department of Athletic Training

Melodie J. Bell-Cavallino. M.S., Russell Sage College, B.S., Rochester Business Institute of Technology; Chair, Department of Nutrition

Barry Jones. M.S., Marist College, B.S., The Cooper Union; Chair, Department of Mathematics and Computing Sciences

Thomas Keane. Ph.D., M.S., Rensselaer Polytechnic Institute; B.A., Hunter College; Chair, Department of Chemistry and Physics

Glenda Kelman. Ph.D., New York University; M.S., Sage Graduate School; B.S., Russell Sage College; Chair, Department of Nursing

Wendy Krupnick. Ph.D., Nova Southeastern University; M.B.A., The George Washington University; B.S., Boston University; Chair, Department of Occupational Therapy

Maureen McLeod. Ph.D., M.A., State University of New York at Albany; B.A., Mundelein College; Chair, Department of Sociology and Criminal Justice

James Murtagh. Ph.D., Rensselaer Polytechnic Institute; M.B.A. University of Northern Colorado; B.S., United States Military Academy; Chair, Department of Management

Michael Musial. M.M., M.A., B.F.A., State University of New York at Buffalo; Chair, Department of Creative and Performing Arts

Jean Poppei. Ph.D., M.A., University of Chicago; M.S.W., State University of New York at Albany; A.B., Oberlin College; Chair, Department of Psychology
Mary Rea, Ph.D., Rensselaer Polytechnic Institute; M.S., University of Ottawa; B.S., The Ohio State University; Chair, Department of Biology

David Salomon, Ph.D., University of Connecticut; M.A., Herbert Lehman College of the City University of New York; B.A., Fairleigh Dickinson University; Chair, Department of English and Modern Languages

Marjane Selleck, M.S., The College of Saint Rose; B.S., State University of New York at Upstate Medical Center, Syracuse; Chair, Department of Physical Therapy

Kevin Stoner, Cand. Ph.D. State University of New York at Albany; M.A., University of Oklahoma School of Journalism; B.S., Northern Arizona University; Chair Communications and Information Design

Instructional Support

Janice M. Bonaccorso, B.A., University of Massachusetts; Lab Coordinator, Sciences

Carol DiMambro, M.A., Cand. Ph.D., State University of New York at Albany; B.S., University of Kentucky; Director of Sage Online and Associate Professor of Criminal Justice

Deborah Guiley, B.S., Colgate University; Lab Coordinator, Sciences

Elliott H. Mazer, M.S., State University of New York at Albany; B.S., Columbia University; Lab Coordinator, Sciences

James R. Wilson, B.A., State University of New York at Potsdam; Director of the Opalka Gallery

Libraries

Kingsley W. Greene, M.L.S., State University of New York at Albany; B.S., Dickinson College; Director of Libraries and Associate Professor

Margaret A. Lanoue, M.L.S., State University of New York at Albany; M.A., University of Maine; B.A., University of Kansas; Associate Director of Libraries and Assistant Professor

Dianne Roosa, B.A., Russell Sage College; Head of Circulation

Paula Selmer, A.A.S., Sage Evening College; Bibliographic Records Manager

Campus Life

Patricia A. Cellemme, M.S.E., The College of Saint Rose; B.S., Russell Sage College; Dean of Campus Life

Athletics and Recreation

Danielle Drews, M.A, University of Connecticut, B.A Hamilton College, Director of Athletics and Recreation, TSC

Jill Grebert, B.S.Ed., State University of New York at Cortland; Director of Recreation and Fitness, TSC

Lisa Greiner, B.A., State University of New York at Albany; Assistant Director of Athletics and Recreation, Senior Woman Administrator and Head Volleyball Coach, Russell Sage College

Jackie Luszczek, B.A, Oswego State University, Sports Information Director/Head Basketball Coach, RSC

Academic Services

Laureen Anderson, B.M., Concordia College, Senior Career Specialist, Russell Sage College

Jennifer Cole, M.A, Indiana University of Pennsylvania, B.A. Cedar Crest College, Assistant Director of HEOP/Learning Support RSC

Brian Durant, M.S.E.D, College of St. Rose, B.A., Plattsburgh State, Senior Career Specialist
Jessica Gahring, M.S, State University of New York at Albany, B.A, Russell Sage College Assistant Director HEOP/Academic Support Center, SCA

Alexander Gyamfi, Ph.D, State University of New York at Albany, M.L.S, State University of New York at Albany, M.A., State University of New York at Albany, B.S., University of Cape Coast, Director HEOP/Academic Support Center, SCA

Jonathon Mahoney, BA, Framingham State College

Sharon E. Murray, M.S., Long Island University; B.A., State University of New York at Oswego; Associate Dean for Academic Services

M. Katherine Norman, M.A., Sage Graduate School, B.A., Russell Sage College; Coordinator of Disabilities Services

Patricia Roberts, B.A, Sage College of Albany, Career Specialist

Karen Schell, M.S., The College of Saint Rose; B.A., State University of New York at Binghamton; Director, Center for Academic Advisement and Career Planning, Sage College of Albany

Marianne C. Singer, J.D., New England School of Law; B.A. Wheaton College; Director of Advisement and Career Planning, Russell Sage College

Derek Westbrook, M.A, Ohio State University, BA,State University of New York at Albany; Director of HEOP, TSC

Cultural Enrichment and Diversity

Michelle Lawson, M.P.A, State University of New York at Albany, B.A. Howard University, Director of Cultural Enrichment and Diversity

Health and Counseling Services

Holly Bahn, M.P.H, University of North Carolina at Greensboro, B.A., D’Youville College, Mental Health Counselor/Art Therapist

Donna Barkhuff, F.N.P, Russell Sage College, MSN, Russell Sage College, BSN, Syracuse University, Nurse Practitioner, SCA

Kate Dahlstedt, M.A., Commonwealth University; B.S., Empire State College; Mental Health Counselor

Jeanne A. Elisha, M.S., Sage Graduate School, B.S., Russell Sage College; Nurse Practitioner, RSC

Marcia Hancox, R.N., Immunization Coordinator

M. Jean Hynes, Ph.D., Ed. S., M.S., B.S., State University of New York at Albany, M.A.T., Cornell University; Director of The Wellness Centers

Eileen Santoro, MSN, FNP-C, Sage Graduate School, BS, Russell Sage College, AAS, Syracuse University, Nurse Practitioner, RSC

Terri St. George, M.A., Lesley College; B.A., St. Lawrence University; Counselor/Coordinator, Alcohol and Drug Education

Public Safety

Robert C. Grebert, M.A., State University of New York at Albany; B.A., Manhattan College; Director of Public Safety

Student Affairs/Student Development

Michael Duignan, B.S., Utica College of Syracuse University; Coordinator of Student Development and Campus Programming, Sage College of Albany

Kristen Felthousen, M.S., Rochester Institute of Technology, B.A. Russell Sage College; Coordinator of Student Development and Campus Programming, Russell Sage College

Kristin P. Gleason, B.S., B.A., Russell Sage College; Associate Dean of Campus Life, Dean of Students, SCA
Sabrina McGinty, M.E.S., State University of New York at Potsdam College, B.A. SUNY Potsdam, Director of Residence Life

David Milford, M.S., State University of New York at Albany; A.B., Vassar College; Senior Associate Dean of Campus Life, Dean of Students, RSC

Kelly O’Brien, B.S, State University of New York at Oneonta, Assistant Director of Residence Life, SCA

**Finance and Administration**

Gerald O. Silver, B.B.A., Siena College; A.S., Hudson Valley Community College; Vice President for Finance and Administration

Amy I. Edmans, B.A., Russell Sage College; A.A.S. Jefferson Community College; Budget Analyst

**Auxiliary Enterprises**

Laura J. D’Agostino, B.A., State University of New York at Genesseo; Assistant Director of Conferences and Special Events, Troy

Joanne M. Diedrich, Assistant Director of Conferences and Special Events, Albany

William B. Limer, B.A., St. Lawrence University; Director of Conferences and Special Events

Carol Pett, B.A., Siena College; Manager, Follett Higher Education Group, Troy campus

Thomas Rice, Manager, Follett Higher Education Group, Albany campus

Michelle Schifley, M.B.A., The College of Saint Rose; B.A., Wells College; General Manager, Sodexho Campus Services

**Facilities Planning and Management**

Robert K. Pattee, B.S., Texas A&M University; Director of Facilities Planning and Management

Timothy J. Maki, Assistant Director of Facilities Operations

**Finance and Business Services**

David D. Boughton, B.A., St. Lawrence University; Director of Finance and Business Services

Mark S. Fusco, Director of College Services

Jeff D. McKenzie, Manager of Student Accounting

Jamie-Lyn M. Maaz, B.A., Gordon College; Interim Coordinator of Purchasing

Karen J. Martin, A.A.S., Hudson Valley Community College; Assistant Director, Finance and Business Services

Katherine E. Norman, Restricted Funds Accountant

**Human Resources**

Rosemary L. Grignon, B.S., Russell Sage College; Director of Human Resources

Catherine A. Wheland, Payroll Supervisor

**Institutional Advancement**

Mary K. Bayly, B.S., Rensselaer Polytechnic Institute; Vice President for Institutional Advancement

**Advancement Services and Stewardship**
Shelly Goldman Black, B.S., University at Albany; A.S., Broome Community College; Director of Advancement Services and Stewardship

Heidi LaPorte, B.A., Oswego State University; Assistant Director of Development Research

Cary Ann Lombardo, B.A., Dickinson College; Assistant Director for Stewardship

Erica Cumo, Associate Director of Advancement Information Services

Annual Giving and Alumnae/i Relations

Paula Bentley, B.A., Siena College; Director of Annual Giving and Alumnae/i Relations

Carly Capitula, B.A., Hamilton College; Special Projects Coordinator

Anne Marie Judge, A.A.S., B.S., Sage College of Albany; Assistant Director of Annual Fund Programs and Special Gifts

Tish LaTorre, B.S., Canisius College; Director of Alumni Relations, Sage College of Albany, Sage Graduate School

Mary Magnan, B.A., Smith College; Director of Alumnae Relations, Russell Sage College

Nancy Whalen, Senior Assistant Director of Annual Giving

Corporate, Government and Foundation Relations

Shirley Hamilton Hartman, B.A. Political Science, B.A. Economics, Hartwick College; Director of Corporate, Government and Foundation Relations

Gift Planning

Daniel P. Christopher, M.B.A., Union College; B.B.A., Siena College, Director of Gift Planning

Marketing and Enrollment Management

Kathy Fitzgerald, B.A., Siena College; Vice President for Marketing and Enrollment Management

Richard A. Naylor, Ph.D., State University of New York at Albany; M.A.T., Antioch Graduate School of Education; B.A., Bucknell University; Director of Articulation Programs

Admission

Shannon Easton, B.S., Clarkson University; Director of Graduate and Adult Admission, The Sage Colleges

Sherylee Grimm, B.A. Sage After Work, Assistant Director of Graduate and Adult Admission, The Sage Colleges

Christy Haynes, B.A., State University of New York at Oneonta; Admission Counselor, Russell Sage College

Huthaifah Kareem, B.S. Sage College of Albany; Admission Counselor, Sage College of Albany

Amanda Lanoue, B.S., Syracuse University; A.A.S., Hudson Valley Community College; Director of Admission, Sage College of Albany

James V. Luciano, B.A., College of Saint Rose; Admission Counselor, Sage College of Albany

Kate Reis, B.S., Roger Williams University; Admission Counselor, Russell Sage College

Elizabeth M. Robertson, M.Ed, Massachusetts College of Liberal Arts; B.S., Southern Vermont College; Associate Vice President for Admission, The Sage Colleges

Kathy A. Rusch, B.S., Southern Vermont College; Director of Admission, Russell Sage College
Kathleen Stockton. M.S., Sage Graduate School; B.A., University of Buffalo, Assistant Director of Admission, Russell Sage College

Jennifer Whittemore. B.S. Union College, Assistant Director of Admission, Sage College of Albany

Communications

Shannon Ballard. B.A., James Madison University; Content Manager for Electronic and Print Communications

Megan Galbraith. B.A., The Pennsylvania State University; Director of Communications

Elizabeth Gallagher. M.S. Rensselaer Polytechnic Institute. B.A., Siena College; Publications Manager

William Gill. B.S. Rensselaer Polytechnic Institute; Webmaster

Joely Johnson. B.A., State University of New York at Stony Brook; Director of Media Relations

Isadora Meinel. B.S., Sage College of Albany; Publications Coordinator

Sarah Statham. B.A., University of Georgia, Senior Graphic Designer

Student Services

Kristen Constantino, Coordinator of Student Information Services

James K. Dease. M.A., Johns Hopkins University; B.S., Florida State University; Associate Vice President of Student Services

Mary Dirolf. B.S. Fine Arts, New York State College, A.A.S., Junior College of Albany, Assistant Director of Transfer Evaluations

Gina Gaetano. Student Services Manager

Kathleen Goff. M.Ed., Massachusetts College of Liberal Arts, B.S. North Adams State College, Registrar

Katherine Kwiatkowski. M.A., Sage Graduate School, B.A., Russell Sage College; Assistant Director for Degree Audits

Lisa M. Kuban. B.A., Pace University; Director of Financial Aid Services

Toni Naughton. B.A., Missouri Baptist College; Assistant Director of Financial Aid Services

Carlos M. Nazario. M.S. Sage Graduate School; B.A., Siena College; Assistant Director of Financial Aid Services

Patricia L. Schumann. B.A., State University of New York at Albany; Assistant Director for Degree Clearance

Kim Lee Taylor. B.S., State University of New York at Oneonta; Assistant Director of Student Services/Student Accounts

Planning and Information Resources

Deirdre L. Zarrillo. B.A. Villanova University; Vice President for Planning and Information Resources

Laureen A. Kile. Coordinator of Institutional Research

Ellen Murphy. B.S. State University of New York at Albany, Director of Technology Integration

Academic Technologies and User Support Services

Phyllis S. Conroy. B.A., Mount St. Mary College; Director of Academic Technologies and User Support Services

Bruce G. Hettesheimer. B.A., State University of New York at Albany; Assistant Director of Academic Technologies and User Support Services
Management Information Systems

Todd Gunter, B.S., Park College; Director of Management Information Systems and IT Project Manager

Darcianne Leizer, B.S., State University of New York at Brockport, Assistant Director for Telecommunications

Raymond S. Lukas, M.S., B.S., State University of New York at Albany; Colleague System Administrator

William J. Pizer II. Assistant Director of MIS and Benefactor System Administrator

Network and Systems Administration

Scot Seguine, B.S., State University of New York at Geneseo, Network Administrator
Admission Policies

- International Students
- Immunization Requirements

For Undergraduates Only

- Transferring to Sage
- Advanced Placement Program
- Credit for Prior Learning
- International Baccalaureate (IB)
- College Level Examination Program (CLEP)
- College Proficiency Examinations (CPE)
- Accredited Proprietary Schools
- Non-Accredited Institutions
- Armed Services Training
- Non-Collegiate Programs
- Former Students Seeking to Return to The Sage Colleges
- Fresh Start Program
- Deferred Admission

International Students (does not apply to Sage After Work students)

International students must submit all pertinent information to The Sage Colleges and meet the individual admissions criteria established for that program. Applicants will complete the following steps:

- Submit high school/secondary school records (translated to English, if necessary).
- Submit official transcripts from each post-secondary institution (college, university, technical, proprietary school, etc.) previously attended. If credit has been earned at institutions outside the United States, forward the official transcripts for evaluation (and translation if necessary) to World Education Services (WES). Application materials for this service are available from World Education Services, P.O. Box 745, Old Chelsea Station, New York, NY 10013 or on the web at [www.wes.org](http://www.wes.org). Direction on whether WES evaluation is necessary can be secured from the Office of Admissions.
- Submit the Student Financial Statement (undergraduate or graduate) with other application materials. The completed Student Financial Statement, along with supporting bank documents, and acceptance and enrollment deposit, are required before The Sage Colleges can issue the I-20 form necessary to secure a student visa. Note: Financial assistance is not available to international students.
- If native language is not English, submit one of the following:
  - Results from the Test of English as a Foreign Language (TOEFL)— the minimum score requirements at Sage is 500 (paper) or 205 (computerized).
  - Results from the SAT I— the minimum composite score for Sage is 800.
  - A transcript from an English Language School (ELS) documenting fluency at Level 109 or above.

Applicants must also submit the results from the Test of Spoken English (TSE).

Note: Information regarding TOEFL and TSE dates and locations are available from the Educational Testing Service, Box 899-TOEFL, Princeton, NJ 08541, and on-line at [www.ets.org](http://www.ets.org).

Note: Financial assistance other than Graduate Assistantships is not available to international students.

Nursing applicants who have completed programs outside of the United States or Canada must take the Commission on Graduate and Foreign Nursing Schools examination. Information is available from the Director, Credential Services, Commission of Graduate and Foreign Nursing Schools, 3600 Market St., Suite 400, Philadelphia, PA 19104-2651.

Immunization Requirements

New York State Public Health Law requires that individuals born after December 31, 1956, provide evidence of immunization against measles, mumps, and rubella. Compliance forms are provided with admission materials and must be submitted prior to class registration by each student enrolled for 6 credits or more in a semester.

Students in nursing and other health professional programs have additional requirements, which are available from the appropriate academic department.

Transferring to Sage
Sage is committed to help transfer students bring in a maximum number of credits and make the transfer process seamless. Sage has established transfer agreements with many area colleges. New schools and additional programs are always being added to the growing list of transfer articulation agreements. See the full list at: http://www.sage.edu/academics/transfer.php

For further information about transferring to Sage, contact Richard Naylor, Director of Articulation Programs at (518) 292-1752 or naylor@sage.edu.

**Transfer Credit Policies**

Generally, the Office of Student Services evaluates credit earned at other accredited institutions soon after admission. To be eligible for credit consideration at The Sage Colleges, final transcripts from all post-secondary institutions (college, university, technical, proprietary school, etc.) previously attended must be received before students have completed their first semester. For credit earned through traditional classroom work, evaluation is on a course-by-course equivalence basis for all work in which grades of “C-” or above have been earned. Up to 9 credit hours may be awarded for courses that are not comparable to courses offered at The Sage Colleges. Specific policies and credit limits regarding transfer work from all sources are as follows:

Undergraduate credit at The Sage Colleges is applied equally. Credit is not transferred among the colleges. All undergraduate credit earned at The Sage Colleges is applied toward the completion of requirements for associate and baccalaureate degrees, the calculation of cumulative grade points, and the determination of eligibility for honors in the respective colleges.

**Four-Year Colleges**

A maximum of 75 credit hours is applicable toward the baccalaureate degrees at Russell Sage College and at Sage College of Albany. Students must complete a minimum of 45 additional hours while at the college.

**Two-Year Colleges**

A maximum of 60 credit hours is applicable toward baccalaureate degrees at Russell Sage College and Sage College of Albany.

**Note:** Where transfer students have credits from both two- and four-year institutions, no more than 75 total hours (maximum of 60 from the two-year level) can be applied to baccalaureate degrees. As a general program rule, a student who has achieved junior status will not receive transfer credit for work at the two-year college level.

**Advanced Placement (AP Credit)** (does not apply to Sage After Work students)

The Sage Colleges recognize achievements of secondary students who participate in the Advanced Placement Program (APP) of The College Board. Generally, scores of 3, 4, and 5 on AP examinations will result in credit hours and/or advanced placement. Academic departments and the registrar administer specific AP policies.

**Credit for Prior Learning**

Baccalaureate students at least 25 years of age may be eligible to receive credit for a variety of prior college-level learning through such activities as community service, military or employer-sponsored training, work experiences, or self development. Students must complete one course from The Sage Colleges to participate in this option. Consult Sage's website for information on Credit for Prior Learning.

**International Baccalaureate (IB)**

International Baccalaureate diplomas will generally be treated as certificates for advanced placement and/or transfer credit, with final determination made by the individual academic program.

**College Level Examination Program (CLEP)**

Credit and/or placement is possible for qualifying scores from the College Level Examination Program. At Sage, up to 60 credit hours may be received for students entering Bachelor’s programs and 30 credit hours for Associate degree programs. Normally, credit is awarded for acceptable scores in subject examinations and is applied to general education and elective requirements. (See page 13 for details)

**College Proficiency Examinations (CPE)**

Credits from this program, sponsored by Excelsior College, are available in the same manner as for CLEP. The maximum of 60 credits hours toward bachelor’s degrees and 30 toward associate degrees are aggregates for a combination Excelsior College Examinations and CLEP.

**Accredited Proprietary Schools**
Students who have achieved a minimum 2.5 cumulative grade point average (4.0 system) for work done at a proprietary school accredited by the Association of Independent Colleges and Schools can petition for transfer credit according to two-year college guidelines. Most credit awarded will be applicable to electives and general education requirements, with decisions on major field credit resting with the academic department.

Non-Accredited Institutions

Students transferring from non-accredited schools may petition for credit evaluation after they have attended Sage for two consecutive semesters and earned a minimum 2.0 cumulative grade point average (2.2 in the major field).

Armed Services Training

Training on military installations may lead to credit awarded on the basis of guidelines from the “Guide to Evaluation of Educational Experiences in the Armed Services.”

Non-Collegiate Programs

Credit may be available for courses sponsored by organizations which are recommended in “The Directory of The National Program on Non-collegiate Sponsored Instruction” of The University of the State of New York.

Students Moving Between The Sage Colleges

Continuing students should contact the Office of Admission at the college they plan to attend. For Russell Sage College, call (518) 244-2217; Sage Graduate School, call (518) 244-6878; Sage College of Albany, call (518) 292-1730.

Note: Some academic programs have specific requirements for continuation of study. Information on any such requirements is available from the Office of Admission.

Former Students Seeking to Return to The Sage Colleges

Matriculated students who have been away from The Sage Colleges (leave of absence, withdrawal or suspension) should contact the Office of the Dean to confirm what return procedures and policies apply. A readmission application and interview may be required. If any post-secondary institutions (college, university, technical, proprietary school, etc.) were attended while away from The Sage Colleges, official transcripts should be forwarded to the Office of Admission.

Fresh Start Program (does not apply to Sage After Work students)

A student who is seeking readmission to Sage and who has not attended any of The Sage Colleges in four or more years may choose to have all Sage course work that is at least four academic years old be exempt from the calculation of the grade point average.

In choosing this option, such a student would receive credit for courses in which a grade of “C-” or better was earned; the grades for such courses however, would not be included in the computation of the grade point average. In effect, students electing the Fresh Start policy will have old course work treated as transfer credit in the calculation of credit for courses, grade point average, and the determination of eligibility for honors in the respective colleges. The decision to declare a “Fresh Start” must be made to the Office of Admission at the time of re-enrollment and can be claimed no more than once in a student’s career at The Sage Colleges.

Deferred Admission (does not apply to Sage After Work students)

Offers of admission can be deferred for one calendar year if circumstances cause students to delay the start of their studies at The Sage Colleges. Students desiring to defer their admission must notify the appropriate Office of Admission by September 1 or January 1. Attendance at any other post-secondary institution (college, university, technical, proprietary school, etc.) during the deferral period cancels the deferment and requires that students submit a new application and official college transcripts.
Sage Graduate School Admission Policies

Sage Graduate School application materials and complete information, procedures and timelines regarding the available graduate programs and certificate programs are available from:

Sage Graduate School
Office of Admission
45 Ferry St., Troy, NY 12180
1-888-VERY SAGE
(518) 244-6878
sgsadm@sage.edu
www.sage.edu/admission

Criteria for Admission to Sage Graduate School

Applicants to Sage Graduate School must have a minimum grade point average of "B-" (2.75 on a 4.0 scale) for their cumulative undergraduate work, and must possess a baccalaureate degree from an accredited college or university. Those lacking the minimum grade point average may be able to demonstrate their readiness for graduate success by completing nine credit hours at Sage as a non-matriculated student with a minimum grade of “B” in each course.

Prospective applicants should obtain a self-managed application packet from the Sage Graduate School Office of Admission. The self-managed process ensures that individuals know when each required piece of the application has been submitted. The packet will include instructions to collect the following items and forward them as a package to the Office of Admission:

- A completed application;
- A non-refundable $40 fee (waived for all graduates of The Sage Colleges, students applying through the Collaborative Programs, and employees of Sage Health Systems Alliance and Corporate Reimbursement Program);
- A current resume;
- A one to three-page career goals essay (typewritten and double spaced) indicating the reasons for seeking a graduate degree from Sage;
- Official transcripts from each previous college attended; and,
- Two letters of recommendation from individuals able to assess the applicant’s ability to successfully complete graduate-level academic work.

Any student applying through the Sage Colleges Collaborative Agreements should contact the Sage Graduate School Office of Admission at (518) 244-6878.

Applications and Deadlines

Applications are processed on a rolling basis throughout the year. Admission decisions are communicated within four weeks. The priority application filing dates are April 1 for summer and fall terms and November 1 for the spring term. Students are welcome to begin their studies in fall, spring, or summer terms for most programs. The following programs require a higher GPA, additional admission materials (contact the Office of Admission for further information) and have specific entrance terms and admission deadlines.

<table>
<thead>
<tr>
<th>Program</th>
<th>Deadline</th>
<th>Start Term</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dietetic Internship</td>
<td>2/15</td>
<td>Fall only</td>
</tr>
<tr>
<td>Master of Arts in Teaching</td>
<td>4/1</td>
<td>Fall only</td>
</tr>
<tr>
<td>Occupational Therapy</td>
<td>2/1</td>
<td>Fall only</td>
</tr>
<tr>
<td>Physical Therapy</td>
<td>1/15</td>
<td>Summer only</td>
</tr>
</tbody>
</table>

Prerequisites to the Master of Arts in Teaching, Occupational Therapy, and Physical Therapy programs may be taken in the spring or summer terms as a provisionally matriculated student with permission from the program director.

Regular Admission

Applications are processed on a rolling basis throughout the year with the exception of the Dietetic Internship, Occupational Therapy and Physical Therapy programs. Admission decisions are communicated within four weeks. The priority application filing dates are April 1 for summer and fall terms and November 1 for the spring term. Students are welcome to begin their studies in fall, spring, or summer terms for most programs, except, the Dietetic Internship, Occupational Therapy and Physical Therapy programs which have application deadlines. These programs also have higher GPA requirements. Some programs may require additional supplemental application materials so please contact the Office of Admission.
Provisional Admission

A provisional admission is offered when a student must complete additional requirements in order to be offered a regular admission, such as completion of undergraduate or graduate prerequisites or coursework to satisfy other requirements, such as equivalence to an undergraduate major. The specification of the provisional admission to Sage Graduate School will be noted in the student’s acceptance letter and on the program of study by the program director and constitutes the conditions the student must meet for regular admission. Students must satisfy the provisions of admission before completing 50% of their program of study. Students who do not satisfy the provisions of admission before completing 50% of their program of study will be subject to dismissal, based on the recommendation of the program director.

Transfer Credit

A maximum of nine graduate credits or 25 percent of the degree program, whichever is greater, may be transferred from another accredited institution toward the master’s degree at Sage Graduate School if such work was taken within five years of the first course counted toward the degree at Sage. Transfer credit is granted at the discretion of the Graduate Program Director and the Dean of Sage Graduate School. Transferred courses must be a “B” or better (“B-“, “S” and “P” grades may not be transferred). The student should initiate a request for transfer of credit by making a written request to the program director.

Advanced Standing

Students who have previously completed a master’s degree in a related area may be eligible for Advanced Standing. Advanced Standing allows coursework from a previous master’s degree to satisfy up to 30% of the credit requirements in the Sage program, if the program director determines the previous coursework to be acceptable demonstration of program competencies.

CAMPUS LIFE

Campus Life Mission Statement

The Campus Life division of The Sage Colleges provides programs, services, opportunities, and environments for students to become involved in educationally purposeful activities outside of the formal classroom. The comprehensive program is intended to build responsible communities of learners, support the overall educational and personal development of each student, assist students with accomplishing their educational goals, and prepare students to lead in finding solutions to major societal challenges. These goals are implemented through purposeful programs in the following functional areas:

- athletics and recreation
- student life
- student leadership
- spiritual development
- cultural enrichment and diversity
- residence life
- public safety
- health and counseling services
- academic services

CAMPUS LIFE RESOURCES & SERVICES

Residence Life, Housing & Dining

Residence Life

Living on campus is a very important aspect of a college education. Residence halls are more than just dormitories or places to eat and sleep. They are places where students can develop meaningful friendships, explore new ideas and become involved with the College community as a whole. The residence halls are active living and learning centers that complement the academic programs of the College and offer students the opportunity to become involved in their own learning and development through participation in intellectually challenging and engaging programs.

Successful living in the residence halls is dependent upon balancing the greatest possible freedoms for the individual with sensitivity to and respect for the rights of others. A willingness to discuss, negotiate, and compromise is essential for all students. Individual and cultural differences contribute to the unique texture of the residence hall and students are encouraged to take advantage of the opportunities to learn from one another.

Residence Halls

Russell Sage College

Russell Sage College is committed to the belief that living in residence enhances a student’s overall education. There are nine distinct residence halls on the Troy campus that provide settings conducive to co-curricular activities intended to compliment each student’s academic learning and personal growth. Thus, full-time students at Russell Sage are required to live in college housing.

Some exceptions to this policy include: students who are married; students living in their parents’ or guardians’ residences within
commuting distance; students who have already obtained a baccalaureate degree; and students who are 23 years or older. Generally, a reasonable commute is thought to be from a home within a 30-mile radius of the college. Requests for exemptions to the residence requirement must be submitted in writing to the office of the Dean of Students. The Dean of Students or designee reserves the right of decision in such residential matters as reassigning rooms or canceling residence contracts if such action is determined to be in the best interest of the individual or the college.

Sage College of Albany

The Albany campus boasts a striking modern co-ed residence hall, which provides a lively living and learning environment on the picturesque campus quad, close to all classrooms and campus resources. **First-year full-time students are required to live in the Albany Residence Hall.** Some exceptions to this policy include: students who are married; students living in their parents’ or guardians’ residences within commuting distance; and students who are 23 years or older. Generally, a reasonable commute is thought to be from a home within a 30-mile radius of the college. After their first year, students may choose to live in the Residence Hall (they must be in good academic standing to be eligible) or may elect to live in the **University Heights College Suites** adjacent to campus or off campus.

University Heights College Suites

This apartment-style housing complex adjacent to the Sage College of Albany campus is open to students of Sage College of Albany, Sage Graduate School and other adjoining colleges in the University Heights neighborhood. The co-ed **University Heights College Suites** are two- and four-bedroom units with fully furnished living rooms and bedrooms, and fully equipped kitchens. This housing option offers undergraduate students who have completed their first year and graduate students a more independent style of living with the convenience of being close to campus. Information regarding housing at University Heights can be obtained through the Residence Life Office.

Sage Graduate School Housing

Housing is available to Sage Graduate School female students on a limited basis on the Troy campus. Students must be registered for at least six credits and be matriculated in the graduate school. This living experience is customized for graduate students who want the convenience of on-campus housing but need the flexibility found in off-campus living.

Off-Campus Housing

The Residence Life offices on both Sage campuses maintain information about off-campus housing options (apartments to rent etc.) available to qualified students. (Note: Full-time Russell Sage College students are required to live on campus, with some exceptions (detailed above); and first-year Sage College of Albany students are required to live in the Residence Hall for at least one year). For more information about off-campus housing, contact Residence Life at (518) 244-2208 (Troy campus) or (518) 292-7711 (Albany campus).

Meal Plans

Undergraduate students who live in residence halls on the Troy and Albany campuses are required to select a meal plan option. To meet the varying needs of students’ class schedules, work schedules, off-campus internships, and involvement in activities, Sage offers a variety of meal plan options to residents. These options include “munch money,” which can be used like cash at any of the campus retail dining locations.

Meal plans are also available for students living at the University Heights College Suites. While these students are not required to have a meal plan, it is strongly recommended that they purchase a minimal plan for convenience. There are several different meal plans available to students residing at University Heights and most of these plans include “munch money,” which can be used like cash at any of the retail locations on campus.

For graduate students living on campus, meal plans are available but not required. A variety of meal plans are available, including “munch money,” which can be used like cash at any of the campus retail dining locations. Full details on meal plans are available from **Dining Services** or Residence Life offices.

Public Safety

The Sage Colleges are committed to providing the safest and most secure environment possible on both campuses. Toward that goal, a staff of professional public safety officers utilizes contemporary technologies and strategic programming to enhance the learning environment. Students, staff and faculty play an important role in this process through the Public Safety Advisory Committees, which exist on both campuses.

**Public Safety** offices are located on the Albany campus in Kahl Campus Center (second floor) and on the Troy campus in the John Paine building (first floor). In an emergency, Public Safety can be reached at 244-3177 or by simply dialing 3177 from any telephone on the Sage network. Non-emergency calls can be made to 244-4741 or to 4741 from the Sage network.

Under the Campus Security Act, the College is required to publish certain information such as **campus crime statistics**. The statistics are published in a safety and security brochure, are available online (see the Clery Report for the **Troy campus** and **Albany campus**) and can be obtained from the Office of Public Safety on either campus. The Office of Public Safety also publishes the Policy on Sexual Assault, found in the Campus Policies section of your College's **Catalog** online.
Parking

All students and employees of The Sage Colleges who wish to park on either campus must register their vehicles and purchase a parking permit from the Office of Public Safety (Troy campus) or the Office of Student Services (Albany campus). The exception is first-year Russell Sage College resident students, who are not allowed to have a vehicle on campus. Parking permits are valid for the entire academic year, beginning in September, and are good for both campuses, including the UHA campus during designated hours. The fee for the entire year is $30. Permits purchased after January 1 are $20 and permits purchased after June 1 are $10. Purchasers should be prepared to produce a valid Sage ID card (see below) as well as a valid motor vehicle registration for the vehicle to be registered. Violators of The Sage Colleges' parking policies may be subject to ticketing, towing and revocation of parking privileges.

Sage Identification Cards

Sage students must have a valid Sage photo ID card in order to use the Sage libraries or computer facilities or be issued a parking permit. With proof of registration, returning students may obtain an Update sticker free of charge. Photo IDs and Update stickers can be obtained in the Office of Public Safety in the John Paine Building (Troy campus) or the Campus Life Office (Albany campus). Students are reminded that they are required to display their ID card to any College official upon request.

Weather-Related Emergencies

In the event of snow or other weather-related emergencies, Sage will remain open, if at all possible, to serve students and faculty who are able to get to class. The institution will officially close only when it is impossible to clear the parking lots and sidewalks. Students should use individual judgment in deciding whether they can and should travel in any weather-related emergency.

Classes Delayed

An announcement that the start of day classes has been delayed means that staff and administrators are expected to report at the delayed opening hour indicated. Classes scheduled to begin prior to the delayed opening hour will not be held. Students and faculty are expected to meet for classes held at or after the hour of campus opening.

Classes Cancelled

An announcement that classes have been cancelled means that students and faculty do not attend classes, but administrative offices are open and staff and administrators are expected to report to work at the usual time. The cancellation of day classes does not automatically mean that evening or weekend classes and events or activities are also cancelled. When this is the case, every effort will be made to post a separate message before 3 p.m.; however, the rapid change in a situation may require a later cancellation time. For updates, check the Times Union SourceLine at (518) 446-4000 (at the prompt, enter code 9826), TV and radio stations or CampusCruiser under Campus News & Events.

Colleges Closed

An announcement that The Sage Colleges are closed means that classes have been cancelled, and no public events or activities will be held. (Be aware that New York State Theatre Institute (NYSTI) productions on the Troy campus are an exception; please contact NYSTI directly at (518) 274-3200 for information about specific events.) Students, faculty, staff, and administrators should not report to class or work. However, essential services for the campuses will be provided (residence halls and dining services). The Colleges will only be closed in extreme circumstances. These may require closing after classes have begun for the day. Students, faculty, staff and administrators will be notified of the closing time via broadcast voicemail and Campus Cruiser.

For Sage weather-related information, contact the Times Union Sourceline at (518) 446-4000. After the greeting, enter the 4-digit code 9826.

The following radio and TV stations have agreed to carry any announcements of cancellation or delay of start for Sage:

TV: Channels 6, 9, 10 and 13

Radio: 590AM, 810AM, 92.3FM, 95.5FM, AND 99.5FM

The Sage Colleges Emergency and Weather-Related Information Line is (518) 244-4548; a recorded message provides a brief announcement regarding Sage’s status. This should be used as a last resort for getting information, as the volume of calls can be heavy and can clog Sage’s telephone system.

Athletics & Recreation

The Sage Colleges has many opportunities for students to participate in intercollegiate athletics (at Russell Sage College), club and intramural sports, and fitness and recreation programming using the excellent facilities on both campuses.
Russell Sage College

Russell Sage College students are eligible to compete in the intercollegiate programs described below. Additionally, students may participate in club, intramural, fitness and recreation opportunities. For more information on club, intramural, and recreation programs, or for facilities hours of operation, call (518) 244-2283 or email athletics@sage.edu.

Intercollegiate Athletics

Russell Sage College sponsors five National Collegiate Athletic Association (NCAA) Division III women’s teams including basketball, soccer, softball, tennis, and volleyball. Russell Sage College, with a rich history of 34 years of intercollegiate athletics, is a member of the New York State Women’s Collegiate Athletic Association and the Eastern College Athletic Conference. To be eligible to compete on an intercollegiate team, a student-athlete must be registered for 12 or more credits at Russell Sage College, be in good academic standing, and meet satisfactory progress requirements. Additionally, a physician must clear student-athletes for sports participation. For information on participating in athletics, contact Dani Drews, Director of Athletics and Recreation, at (518) 244-2283 or drewsd@sage.edu.

Facilities

In Troy, the commitment to Athletics and Recreation was strengthened by the acquisition of an additional facility to complement the existing Robison Athletic and Recreation Center. The new facility, currently known as the Center for Recreation and Field Sports, boasts two full gymnasiuums, two mirrored fitness rooms, and outdoor space for field development. Plans are being developed for this center to house not only Recreation and Fitness programming, but also serve as the home site for the Gators outdoor varsity and club teams and summer sports camps.

The Robison Center houses two gymnasiuums, the Multi-Purpose Room (MPR), the Gator Pit Fitness and Weight Center, and an Athletic Training Room. The Gator Pit Fitness and Weight Center offers an 11-station Life-Fitness strength circuit, exercise bicycles, steppers, treadmills, and other cardio equipment as well as free weights. Both facilities offer excellent locker room and athletic training room space. Also on the Troy campus are four lighted tennis courts, an outdoor grass athletic field and a 20 yard, four lane pool.

Club Sports

Students interested in competing in sports not currently offered at the intercollegiate level may explore developing a club team. Club sports teams are student-driven with guidance from the Athletics and Recreation staff. Sports in which club teams have been active at Russell Sage College in recent years include crew, equestrian, field hockey, ice hockey, lacrosse, skiing, competition cheerleading, and track and running.

Intramurals

Russell Sage College offers intramural sports that encompass individual and team competitions at all skill levels. Competitions are developed based on student interest and include leagues and single day events. Intramural programs at Russell Sage have included badminton, basketball, flag football, floor hockey, indoor soccer, inner tube water polo, kickball, STX ball, volleyball, ping pong tournaments, swim-in movies, destination anywhere, class Olympics and pie eating contest.

Fitness and Recreation

Sage offers a wide array of fitness programs as well as formal and informal recreation opportunities. Robison Athletic and Recreation Center and the pool are open a variety of hours for informal recreation. All hours are posted at the beginning of each semester. During breaks, certain facilities are open but with limited hours. A current Sage ID must be presented when using these facilities. Formal recreation programs have included aerobics, cardio-kickboxing, self-defense, Aikido Kokikai, Tai Chi, yoga, water aerobics, pilates, and Red Cross certification courses in CPR and First Aid. For more information, contact the Director of Recreation and Fitness, Jill Grebert, at (518)244-2416 or grebej@sage.edu.

Sage College of Albany

The Recreation and Fitness Department at Sage College of Albany promotes lifelong health and wellness through diverse and comprehensive programs, while fostering a sense of identity for those in the SCA community. Through THEFITSTOP, group fitness classes, club sports, intramural sports, outdoor education, and various partnerships within Sage and with outside agencies, the Recreation and Fitness Department:

- Provides fitness opportunities for people of all abilities
- Creates a fun and competitive environment
- Promotes leadership and team building skills for participants as well as student employees
- Develops problem solving skills
- Challenges community members to try new activities
- Encourages positive lifelong health and wellness habits
- Educates community members regarding health, wellness and safety life skills

The FitStop: The new fitness center is located in the Kahl Campus Center, lower level. The FitStop provides a complete line of fitness
equipment, including: Precor EFX546 Cross Trainer, Precor EFX556 Total Body, and Concept II Rowers and Cybex Eagle Strength Machines. There is also a free weight section with three benches, a smithrack and an ample supply of dumbbells.

**Group Fitness:** The Recreation and Fitness Department provides students with diverse group fitness classes. Classes meet different times during the day and evening in order to reach individual needs. Recent classes have included: Pilates, B.A.S.I.C Training, Self Defense, Hip Hop Dance, and Yoga.

**Intramurals:** Intramurals are offered throughout the academic year. Competitions are developed based on student interest. The Recreation Staff creates a fun competitive environment for students who participate. Intramurals have included: Flag Football, 5-on-5 Basketball, 3-on-3 Basketball, Indoor Soccer, Ultimate Frisbee, Volleyball, Floor Hockey, Pickleball, and Badminton.

**Club Sports:** Students interested in competing in sports may explore developing a club team. Sports in which club teams have been active in recent years include: Women’s Ice Hockey, Crew, Running, Skiing, and Cheerleading.

**Education Programs:** The Recreation and Fitness Department provides educational programming on a variety of health and wellness topics. Programs that have been offered include: CPR/First Aid, Weight Training, and Nutrition.

**Recreation Programs:** One-day events are designed to reach individuals of varying ability and interest. Recreation programs are developed based on student interest. These programs are designed to be fun, while giving students the opportunity to get to know other members of the Sage community. Recreation programs have included: Sage Olympics, Sage Games, Ski Trips, Snow Tubing Trips, Ice Skating, Employee-Student Softball Game and Open Gym.

For more information on the Recreation and Fitness Department, visit our website, stop by, or e-mail SCAFitness@sage.edu.

**Sage Graduate School & Sage After Work**

Graduate students are encouraged to participate in club sports, intramural programs and fitness and recreation opportunities available on both campuses. Some examples of formal recreation programs have included yoga, cardio-kickboxing, self-defense, pilates, Tai Chi, aerobics, water aerobics, and Red Cross certification courses in CPR and First Aid. Robison Athletic and Recreation Center in Troy and The FitSTOP in the Kahl Campus Center - lower level in Albany are open a variety of hours for informal recreation. All hours are posted at the beginning of each semester. During breaks, certain facilities are open but with limited hours. A current Sage ID must be presented when using these facilities. For more information on club, intramural, and recreation programs or for hours of operation on the Troy campus call (518) 244-2283 or e-mail athletics@sage.edu and on the Albany campus call (518) 292-1967 or e-mail SCAFitness@sage.edu.

**Health & Counseling Services**

The health and counseling services provided by The Sage Colleges are intended to assist students in reaching an optimal level of health and wellness by providing physical, preventive, psychological, and supportive services. Staff provides direct service and treatment to students and implements health and wellness promotion projects that empower students to increase their sense of well-being, satisfaction and self-esteem.

**Wellness Center**

The Sage Colleges Wellness Center is a member of the American College Health Association and is dedicated to the wellness, health, safety and academic success of our students. The Wellness Center provides information to students on improving all aspects of their personal wellness: physical, intellectual, emotional, social, spiritual and occupational. The center has brochures available on everything from "AIDS" to "Zen Meditation."

The Wellness Center is located in Kellas Hall on the Troy campus and Kahl Campus Center (lower level) on the Albany campus. Wellness Center services are available to all full-time undergraduate students free of cost, and to graduate students and part-time undergraduate students on a fee basis. Health services include a wide range of acute and preventive health care and are available regardless of personal health insurance. Consultations and referrals to off-campus professionals and agencies are available.

A complete and current (within the past 12 months) medical history and physical is required of every full-time undergraduate student, and any other student who wishes to use Wellness Center health services.

**Counseling Services**

Confidential, professional counseling is available regarding a wide range of personal issues and concerns. Certified clinicians provide counseling by appointment. Consultation and referrals to off-campus professionals and agencies are also provided. Counseling services are located in the Wellness Center in Kellas Hall (Troy campus) and Kahl Campus Center, Lower Level (Albany campus). A satellite office of the Rensselaer County Sexual Assault Care Program is located in the Troy Wellness Center for support and advocacy, crisis intervention and other services.

**Health Insurance**
All full-time undergraduate students must provide documentation of health insurance or purchase health insurance through The Sage Colleges at the Office of Student Services, with offices in Cowee Hall (Troy campus) and the Administration Building (Albany campus). Full-time students can utilize the Wellness Center regardless of what type of health insurance they have.

Immunization Requirements

New York State Public Health Law requires that individuals born after December 31, 1956, and taking six credits or more in a semester, provide evidence of immunization against measles, mumps, and rubella. In addition, as of August 15, 2003, New York State Public Health Law requires any student taking six or more credits, regardless of date of birth, to complete a Meningitis Response form and return it to the Wellness Center by mail or fax. Compliance forms are provided with admission materials or may be found on the Student Services website under Forms, and must be submitted prior to class registration.

Students in nursing and other health professional programs have additional requirements, which are available from the appropriate academic department.

Workshops/Support Groups

The wellness staff offers a wide range of support and skill-building groups each year depending on student interest. Eating disorders and recovery support groups, assertiveness training workshops, smoking cessation groups, and stress and relaxation hour are some of the groups available. Contact the Wellness Center if you are interested in being part of a group.

Nutrition Education

Students have the opportunity to meet individually with a graduate assistant who can offer education about healthy eating and nutrition. The graduate assistant providing this service is usually enrolled in the graduate-level Dietetic Internship (DI) at Sage Graduate School or is pursuing a master’s degree in Applied Nutrition from Sage Graduate School.

Spirituality Center

The Spirituality Center offers ongoing service opportunities ranging from volunteer work for Habitat for Humanity, to working in nearby Troy soup kitchens. In these ways, students are consistently encouraged to become advocates in the local and global communities. This center also serves as a valuable resource for speakers for the campus community and often works in collaboration with other campus departments to further the well-rounded and inclusive education of our students. It is the responsibility of this center to provide opportunities for worship on campus for those who desire it and to aid and direct students who desire to worship off-campus. For more information on Spirituality Center programs and services, visit the website or call (518) 244-4507.

The Jane Haight Wells Spirituality Center on the Russell Sage College campus offers Sage community members a place where they can nourish the spiritual dimension of their lives. The center offers a safe place for spiritual gatherings, religious ritual, healing, celebration, educational events and social justice activities. In addition, the Spirituality Center offers a variety of social, communal and service activities through which students are encouraged to live the spirituality they embrace. Spiritual Advisors for RSC are available for individual guidance regarding a student’s spiritual life.

LEARNING OUTSIDE THE CLASSROOM

Academic Services

Designed to enhance the academic experience for all Sage students, Academic Services offers the resources of the Academic Support Center, the Higher Education Opportunity Program (HEOP), The Writing Studio, the Center for Advisement and Career Planning, and New Student Orientation. With offices on both the Albany and Troy campuses, we provide services to assist, support, and guide students in reaching their educational, professional, and personal goals. The Academic Services staff is eager to be part of student success.

Center for Advisement and Career Planning

Russell Sage College

The Center for Advisement and Career Planning, located in Hart Hall, 2nd Floor (Troy Campus), is home to both Academic Advisement and Career Planning. With a focus on assisting students in achieving educational, professional and personal goals, the center strives to ensure all Sage students feel connected, remain goal oriented and develop the skills essential for success. As the entry point for all new students, the center staff stresses the value of building successful connections and making sound and realistic choices. The center’s model of educational planning encourages students to consider in and out of the classroom experiences, offers opportunities to enhance their skill sets and promotes self-reliance. An integrated service center with an eye on the future, the center is every student’s first step for successful planning.

Sage College of Albany
The Center for Academic Advising and Career Planning (CAACP) is located in Kahl Campus Center-Lower Level (Albany Campus), and is home to Academic Advising, Career Planning, Internships and Orientation Programs. The Center for Academic Advising and Career Planning operates as a comprehensive integrated advising system to provide students with a coherent educational plan. The Center is dedicated to providing all students with a sense of direction. Whether students are sure of what they want to do after leaving Sage, or are just beginning to think about what lies ahead, there is something helpful at the CAACP. As an integrated service center, we aim to ensure students are: pursuing a career plan they are passionate about, developing a professional resume they can be proud of, and furthering life long learning skills related to the workplace of the 21st century. The role of the CAACP is to assist students in understanding the relationship between college experiences and future professional roles. This is done by guiding students in developing plans of action -- including course selection, community service, internships and work experiences--all which lead to the achievement of academic and career goals.

SCA students are encouraged to make use of all career planning services beginning with their first semester. Career Specialists in the CAACP help students with all aspects of the career decision making process while incorporating information on current employment trends. Experienced professionals in the CAACP assist students with employment preparation and in developing impressive and professional job search skills and materials needed for the contemporary workplace, such as a professional resume that includes multiple relevant work experiences, also known as internships. To further students' understanding of careers and the workplace, Career Specialists assist students in obtaining internship experiences. At SCA, students complete internships part-time during a regular semester or full-time during summer and winter breaks. Internship experiences help students become aware of the skills and competencies needed for career success in their field of study.

It is the mission of the CAACP to actively work with all students to help them develop an increasingly self-managerial role in establishing and meeting important life goals. In turn, students are responsible for learning College policy and degree program requirements, for being full partners in the creation of a career plan, and for taking full advantage of faculty advisors and career specialists as educational planning resources.

New Student Orientation

Russell Sage College

Recognizing the important link between positive college experiences, feelings of connectedness to the College, and individual student success, The Sage Colleges hold comprehensive orientation programs in the early summer and at the start of each academic semester. Undergraduate students and families become linked to the College through carefully designed activities and interactions with faculty, college staff and administrators, and current Sage students who serve as mentors. Welcoming each student into an academic community, and introducing her to the tools and information needed to start her college journey, orientation is the first step in a student's successful transition to RSC.

Sage College of Albany

The CAACP facilitates comprehensive New Student Orientation programs in early summer and at the start of each academic semester. Orientation programs and events contain carefully designed activities to assist students with the transition from high school or transfer college to Sage. Orientation involves all departments of the College community. Important information is provided on academic and career planning, College policies, campus life, and technology. Orientation is also the place for new students to meet other students, who can then later serve as life long friends or as supportive classmates.

Academic Advising

Russell Sage College

At Russell Sage, we value academic advising and the role faculty play assisting students in creating sound educational plans. New students at Russell Sage (both first-year and transfer) are encouraged to begin academic planning with their faculty advisors as soon as they enroll at the college. All Sage students plan and register for courses for the entire academic year. Full year registration allows students to secure their courses, plan ahead, and begin to develop an educational plan that includes co-curricular, experiential, and leadership components. Our faculty advising model connects students with faculty in their major and minor, providing an opportunity to build connections with those most knowledgeable in their field. The Academic Advising Office also offers the FastL.A.N.E. (Liberal Arts in the New Economy) Program. FastL.A.N.E. is designed to provide structured guidance to selected students in undecided majors through course exploration, diagnostic assessment and career exploration opportunities. Students benefit from the program throughout their Russell Sage education and as they transition into the workplace.

Sage College of Albany

Sage College of Albany students begin their academic planning with faculty advisors the moment they enroll. At Sage, students register online for their courses for the entire academic year. This requires careful and advance planning for students to be sure their academic and career needs are met. Faculty advisors are experienced in assisting students in selecting courses to meet College and major requirements, in encouraging use of support services and opportunities that strengthen their educational objectives at the College, and in providing information about related career fields. In addition to receiving an assigned faculty advisor, all new students, in accordance with their major are assigned a career specialist. The SCA faculty advisor and career specialist team are real world experts who assist students in making an educated choice of major and in clarifying career goals consistent with their interests and abilities. Because these individuals work with particular majors they understand College policy and degree requirements and are up-to-date on current employment trends.
First Year Experience

The transition to College is made easier for our first year students by allowing them to participate in the First Year Experience Program. First year students who are assigned into "mentor groups" meet weekly with their mentors, providing not only a sense of connectedness for students but the opportunity to build critical skills, offer support, and create connections during the important first semester. The combination of connecting with faculty, and a weekly opportunity to meet with their mentor team plays a key role in assisting students in making a successful transition to Sage.

Academic Support Center

Russell Sage College

The Academic Support Center at Russell Sage college, located on the second floor of Hart Hall, is devoted to enhancing the academic skills of all students. The center offers individual and small-group peer tutoring, study groups, as well as workshops on test preparation, time management and study skills. The Center is also home to our Writing Studio which is staffed by experienced graduate and upper-class undergraduate student writers who are specially trained to help students improve students’ writing skills. Students are encouraged to meet with an academic counselor to identify which services effectively address their needs.

Sage College of Albany

The Academic Support Center at Sage College of Albany, located on the lower level of the Kahl Campus Center, serves all students looking to enhance their academic skills. Offering individual peer tutoring, and study groups, the Academic Support Center also schedules workshops on topics such as time management, note taking, and test preparation. Additional services include both a writing and math lab offering specialized support. Students are encouraged to meet with the academic support staff to identify which services will most effectively address their needs.

Higher Education Opportunity Program (HEOP)

The Higher Education Opportunity Program (HEOP) is designed to provide comprehensive support services to talented and motivated students who, despite academic and economic disadvantages in their backgrounds, have the potential to earn a Sage degree. Our program includes a summer institute (prior to the first year of study - required for Sage College of Albany students), as well as supplemental instruction, assessments, tutorial services, financial support and counseling in academic, social, career and personal concerns. The HEOP program is administered through Academic Services; offices are located in Hart Hall, second floor (Troy Campus) and Kahl Campus Center - Lower Level (Albany Campus).

To apply for the HEOP program, students must: be residents of New York State; possess a New York State high school diploma or equivalent; and meet academic and financial criteria set by the College and the New York State Education Department. Transfer students can also take advantage of the HEOP program at Sage if they have previously been enrolled in an approved HEOP, EOP, SEEK or College Discovery Program. For more information, call (518) 244-2210 or 1-888-VERY SAGE.

Office of Cultural Enrichment and Diversity

The Office of Cultural Enrichment and Diversity’s mission is to foster an atmosphere of appreciation of and respect for all dimensions of diversity. The Office promotes the celebration of diversity by exposing the Sage community to a variety of academic, cultural and social activities, from lectures, discussions and training workshops to cultural celebrations, poetry readings, receptions, art exhibits and more.

The Office works with students, staff, and faculty to develop and implement plans that help build a more diverse community and enhance the value of the community for each of its members. The Office’s activities are guided by the fundamental principle that students, faculty, administrators, and staff are empowered as a result of participating in ongoing diversity efforts, exploring perceptions, challenging stereotypes, and encouraging collaborative efforts.

The Office also oversees the Cultural Enrichment Center, located on the Troy campus in Hart Hall. The Center houses a collection of art, books, artifacts, and videos and is perfect for informal gatherings, club meetings, mentor groups, seminars, and receptions. The space is available for use by all members of the Sage community.

Student Development

Enrichment of student life at The Sage Colleges is achieved through a blending of academic experiences with co-curricular opportunities for involvement, leadership, social interaction, and community building. Special efforts are made to complement classroom learning with co-curricular activities. Student-led events such as the Activities Fair, Earth Day, and Orientation provide fun and learning for the entire campus community.

Leadership Development

Sage offers many leadership development opportunities, both in and out of the classroom. The programs model an emergent leadership paradigm and recognize the leadership potential of all students. Active participation in college leadership activities prepares students to be
effective leaders, role models, and change agents in their careers, families and communities.

**Russell Sage College**

The Leadership for Life Program offers workshops throughout the year that are designed to assist emerging and experienced women leaders to become Women of Influence. Campus Life staff, faculty and alumnae collaborate to help students sharpen their leadership skills.

**Sage College of Albany**

Leadership opportunities for learning outside the classroom are plentiful at Sage College of Albany. Some examples include the Learning CAFÉ and the Leadership Getaway. The Learning CAFÉ (Career, Activities, Finance, Education) is a co-curricular program that focuses on essential skills that are necessary in having a successful college experience. The Learning CAFÉ is designed to assist students who want to learn how to enhance their leadership abilities, career preparation, and understanding of their finances. Recognizing that our students come with a variety of skills and backgrounds, Learning CAFÉ will sharpen their skills through their choice of a variety of workshops and hands-on experiences. The Leadership Getaway is an annual spring leadership workshop that allows students the opportunity to get away for the weekend to develop all forms of leadership skills. Students learn to increase self-confidence, trust, networking, communication skills, and develop a keen insight into the role that a student leader plays in the college.

The Leadership Selection Process is a program through the Campus Life division to select highly qualified students for vital positions on campus. These positions are important to the success of all our students, and provide the candidates with an opportunity to gain valuable leadership experience. Here at Sage, students have the opportunity to explore leadership in a variety of ways - as a mentor, RA, lifeguard, tutor and many other exciting positions. The positions require a wide range of qualifications, which include: leadership potential, a positive attitude, and a willingness to learn.

**Student Government**

Student Government functions as a legislative advisory group to address student concerns and issues. Student Government allocates funds to student organizations, clubs and classes, and also coordinates social, cultural, and educational programming. Student Government funds the Sage Recreation Association (SRA) at Russell Sage College and the Association of Campus Events (ACE) at Sage College of Albany, both of which offer students opportunities for off-campus trips and tours, and sponsors traditional campus events. Each organization plans and organizes a lively selection of campus programming throughout the year.
CAMPUS POLICIES

- **Student Handbook**
- **Religious Policy**
- **Alcohol and Drug Policies**
- **Smoke-Free Environment**
- **Sexual Assault Policy**
- **Students with Disabilities**
- **Student Right to Know, Privacy & Records Policies**
- **Campus Crime Statistics**

**>Student Handbook**

Students share responsibility with the faculty and administration for establishing and maintaining standards of behavior that enhance learning and growth for the entire community. Students are expected to become familiar with the content of the **Student Handbook** and review the Student Conduct Code, available on the Sage website and in the Dean of Student’s offices on both campuses. The handbooks for each College contain additional information regarding student life, extracurricular activities, and academic policies.

**>Religious Policy Statement**

The Sage Colleges recognize the value of participation in and observance of religious obligations and practices by individual students. No student will be denied admission or suspended because a religious observance prevents participation in any examination, study, or work requirement. A student who intends to be absent from classes for a religious observance must notify each instructor in advance and make arrangements to complete the examination, study, or work missed. An opportunity will be provided for each student to make up any examination, study, or work requirement for an absence due to religious observance.

**>Policies on Alcohol and Other Drugs**

The Drug-Free Schools and Communities Act Amendments of 1989 require each educational institution, as a condition of receiving funds or any form of financial assistance under any federal program, to certify that it has adopted and implemented a program to prevent the unlawful possession, use, and distribution of alcohol or illicit drugs by students and employees.

The Sage Colleges Alcohol and other Drug Prevention Program is designed to:

1. Promote student adherence to applicable federal and state laws;
2. Stress safety, responsibility, and individual accountability for those who choose to drink alcohol;
3. Provide an environment free of coercion for those who choose not to drink;
4. Promote an environment that is incompatible with the abuse of alcohol and other drugs and in which healthy, low-risk behaviors are emphasized;
5. Provide information and education for all members of the college community; and
6. Provide counseling and/or referrals to students with substance abuse concerns.

In compliance with these standards, the College must disseminate its Alcohol and other Drug Policies in writing to all students and employees, on a yearly basis. The College will also conduct a biennial review of its program to determine its effectiveness, implement needed changes, and ensure that disciplinary sanctions are consistently enforced.

Each member of the community is responsible for contributing actively to and sustaining a healthy campus environment. Community members are expected to be law-abiding, knowledgeable and thoughtful about decisions regarding alcohol consumption. The College provides information about alcohol use and abuse and urges all community members to become informed consumers or non-consumers.

The College encourages those with concerns about their own or others’ possible difficulties with alcohol and/or drugs to seek confidential and private assistance on or off campus. Such assistance is available through the Wellness Center, the Residence Life or Dean of Students Office for each College, or the Human Resources Office.

**Alcohol, Drugs, and the Law**

Laws relating to alcohol and drugs exist at all levels of government. As a general rule, federal and state laws prohibit the manufacture, sale, use or possession of illegal drugs, also known as controlled substances. State and local laws are used to regulate behavior related to alcohol. The primary laws regulating behavior related to controlled substances are ***Title 21 of the U.S. Code*** and the ***New York Penal Law***. Both prohibit the manufacture, sale, use or possession of controlled substances. Both laws also provide penalties for violation of their provisions. Penalties vary in severity, according to many factors such as:
• whether a drug is sold or possessed
• specific drug sold or possessed
• quantity of drug sold or possessed
• age of the person to whom a drug is sold
• location where a drug is sold.
• criminal history of the accused

Those penalties may include any of the following or combinations of the following:

• imprisonment
• fine
• probation
• community service
• asset forfeiture

Both laws classify crimes as either felonies or misdemeanors. Felonies are those crimes that are punishable by more than one year in prison. Misdemeanors are those crimes that are punishable by less than one year in jail. The New York Penal Law has a third classification, called violations, which are not considered to be crimes and which are punishable by no more than 15 days in jail and fines of no more than $100.

New York State Law

Offenses against the Alcohol Beverage Control (ABC) Law are violations and generally punishable by fines of no more than $100, and/or imprisonment of no more than 15 days. Some offenses carry more severe penalties for repeat offenders and some allow the imposition of a community service requirement and/or an alcohol education program.

Sec. 65 provides that no person shall sell, deliver or give away, or cause or permit or procure to be sold, delivered, or given any alcoholic beverages to any person, actually or apparently, under the age of 21 years; any visibly intoxicated person; or any habitual drunkard known to be such to the person authorized to dispense any alcoholic beverages.

Sec. 65-a prohibits the misrepresentation of age of a person under the age of 21 for the purpose of inducing the sale of alcoholic beverages.

Sec. 65-b prohibits the purchase or attempted purchase of alcoholic beverages through fraudulent means by a person under the age of 21.

Sec. 65-c prohibits the possession with intent to consume of an alcoholic beverage by a person under the age of 21.

Vehicle and Traffic Law

Offenses against the Vehicle and Traffic Law may be violations, misdemeanors or felonies, depending generally on the blood alcohol content of the offender or previous convictions. Penalties may include fines, probation, imprisonment, community service, loss of driving privileges and alcohol awareness programs. Be aware that loss of driving privileges may occur prior to a finding of guilt. Also, be aware that automobile crashes that involve an intoxicated operator causing injury or death may result in assault or homicide charges against the operator.

Sec. 1192 prohibits the operation of a motor vehicle while:

• the driver’s ability to operate a motor vehicle is impaired by the consumption of alcohol,
• the driver’s ability to operate a motor vehicle is impaired by drugs, or
• the driver is intoxicated, per se, as determined by a chemical analysis of the blood, breath, urine or saliva measuring the BAC to be more than .08 of one per centum by weight.

Sec. 1192-a prohibits the operation of a motor vehicle by a person under 21 years of age after having consumed alcoholic beverages.

Sec. 1227 prohibits the consumption of alcoholic beverages or the possession of an open container containing an alcoholic beverage in a motor vehicle.

Public Health Law

The New York State Public Health Law regulates behavior considered to be harmful in many areas, such as communicable diseases, sexually transmitted diseases, smoking and drugs. Specifically, Article 3300, also known as the New York State Controlled Substance Act, prohibits the manufacture, sale, or possession of the same drugs as prohibited by the Penal Law. Additional prohibitions of the Public Health Law include:

Sec. 3304.2 prohibits possession of a New York State prescription except as lawfully written by a physician, etc.
Sec. 3345 prohibits the possession of a prescription drug outside the container in which it was originally dispensed.

Sec. 3380 prohibits the use, possession or sale of hazardous inhalants such as glue, cement, gasoline or nitrite compound for the purpose of causing intoxication, inebriation, excitement, etc.

Sec. 3381 prohibits the possession or sale of a hypodermic needle or syringe except pursuant to a lawful prescription.

Sec. 3382 prohibits the growing of a plant of the genus cannabis, or the failure to destroy such a growing plant on one's property.

Sec. 3383 prohibits the manufacture, sale or possession of any substance that appears, either by markings or packaging, to be a controlled substance that, in fact, is not a controlled substance.

Sec. 3397 prohibits persons from obtaining or attempting to obtain a controlled substance, a prescription for a controlled substance or an official prescription form by fraud, deceit, misrepresentation or subterfuge.

Penal Law

Most crimes involving the unlawful possession and distribution of drugs are defined under the New York Penal Law, which contains exhaustive lists of various controlled substances, specific types of offenses, and sanctions ranging from a fine or not more than $100 to imprisonment for life.

Sec. 120.05.5, assault in the second degree, prohibits the administration to another, without his consent, of a drug, substance or preparation capable of causing stupor, unconsciousness or other physical impairment or injury.

Sec. 130.00.6, provides that administration of a narcotic or intoxicating substance to another, without their consent, that causes them to become mentally incapacitated, renders the administrator guilty of rape, sodomy or sexual abuse upon the requisite sexual activity. In more simple terms, sexual conduct following the unwitting consumption of so called "date rape drugs" or "spiked" drinks makes those who administered the drug guilty of rape, sodomy or sexual abuse.

Sec. 170.05, forgery in the third degree, prohibits the making, completing or altering of a written instrument with intent to defraud, deceive or injure another. This section can be used to charge a person who alters a driver's license or other official form of identification for the purpose of obtaining alcoholic beverages.

Sec. 170.20, criminal possession of a forged instrument, prohibits the possession of a written instrument as described above, regardless of who made, completed or altered it.

The Sage Colleges Alcohol Regulations

The Sage Colleges abide by federal and state laws prohibiting the possession, use, or distribution of illegal drugs or narcotics and will not interfere with the legal prosecution of any member of the college community who violates these laws.

- In compliance with New York State law, students at The Sage Colleges under the age of 21 may not purchase, nor possess with the intent to consume, alcoholic beverages.
- Alcoholic beverages may not be sold to anyone on either Sage campus unless it is under the license of an outside vendor or caterer.
- Open containers of alcohol are not permitted in public areas.
- On- and off-campus events sponsored by student organizations must receive prior approval of the Director of Student Development and Campus Programs and comply with party regulations (see Party Regulations in the Student Handbook).
- In the Albany Campus Residence Hall, the use or possession of alcohol by any resident or guest, regardless of age, is prohibited.
- On the Troy campus, students who are under 21 years of age may not consume alcohol in their residence hall rooms.
- Kegs or bulk containers are not permitted in the residence halls.
- Students who violate these regulations are subject to disciplinary sanctions as outlined in the Student Conduct Code.
- Possession or use of illegal drugs or drug paraphernalia, or being present where illegal drugs are being used, is prohibited on the Sage campuses.
- Individuals possessing or using illegal drugs or present where illegal drugs are being used will be subject to a review by the appropriate College administrator.
- The odor of marijuana in student rooms, corridors, lounges, or public areas is sufficient evidence to warrant investigation by a staff member and imposition of sanctions.

Any student judged guilty of illegal drug use on college property will be subject to immediate disciplinary action, which may involve suspension or dismissal. This action will be taken independently of any action that might be taken by municipal, state, or federal agencies.

Disciplinary Sanctions

The Sage Colleges will impose disciplinary sanctions on students and employees who violate the aforementioned standards of conduct.
Among the sanctions which may be imposed on students are the following: warning, fine, parental notification, mandated alcohol/drug assessment, alcohol education, probation, community service, suspension, expulsion, or referral for prosecution. Among the sanctions which may be imposed on employees are: verbal warning, written reprimand, suspension with or without pay, termination or referral for prosecution.

**Health Risks**

Students and employees should be aware of the health risks associated with the use and abuse of alcohol and illicit drugs. Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including domestic violence, child abuse, and rape. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person’s ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants to the central nervous system, much lower doses of alcohol will produce the effects described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can lead to permanent damage of vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with Fetal Alcohol Syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk than other individuals of developing problems with alcohol.

Drugs interfere with the brain’s ability to take in, sort and synthesize information. They distort perception, which can lead users to harm themselves or others. Drug use also affects sensation and impairs memory. In addition to these general effects, specific health risks including substance dependence and death are associated with particular categories of controlled substances.

**Campus & Community Resources for Help**

Students and employees of The Sage Colleges who have concerns about alcohol and/or drugs for themselves or others, can contact any number of resources on campus and in the community for confidential help.

**On Campus**

**Wellness Center**

- Troy Campus, Kellas Hall (518) 244-2261
- Albany Campus, Kahl Campus Center (518) 292-1917

The Sage Colleges Alcohol and Other Drug Education Coordinator

- Troy Wellness Center, Kellas Hall (518) 244-2261
- Provides assessments and interventions, short-term counseling, referrals, consultations, educational programs, literature, and peer education.

*All alcohol and/or drug related services are free and strictly confidential.*

**Off Campus**

Employee Services (Employee Assistance Program)

- 1-800-252-4555
- Provides free, confidential, professional assistance to any Sage employee and/or family member.

**Community/Self Help Resources**

| Albany Citizens Council on Alcoholism and Other Chemical Dependencies (all 518) | 465-5470 |
| Equinox, Albany | 434-6135 |
| Hope House, Albany | 427-8207 |

[http://catalog.sage.edu/06-07sgs.php](http://catalog.sage.edu/06-07sgs.php)
Smoke-Free Environment

The Sage Colleges are committed to providing a smoke-free environment for students, faculty, staff, administrators and visitors. As of 1997, smoking is not permitted in any building on the campuses of The Sage Colleges. Our desire to be an entirely smoke-free environment is consistent with our position as an educational leader in health sciences.

New York State Clean Indoor Air Act

The Sage Colleges’ Smoke-Free Environment Policy was adopted in accordance with Article 13-E of the New York State Public Health Law, “Regulation of Smoking in Certain Public Areas.” It is the intention of this legislation and Sage’s policy to protect members of the community from involuntary exposure to second-hand tobacco smoke.

Sage Policy

Smoking (the burning of a lighted cigar, cigarette, pipe or any other matter or substance which contains tobacco) is expressly prohibited in all indoor areas of the College premises, including vehicles, unless otherwise designated.

Sage Guidelines

- “No Smoking” signs will be displayed at the entrances of buildings on The Sage Colleges campuses.
- Copies of the College’s Smoke-Free Environment Policy will be publicly displayed. Copies of the New York State Clean Indoor Air Act will be available in each campus library.
- The policy will be included in the Student Handbooks and The Sage Colleges’ Employee Handbook.
- The sale of any tobacco products is prohibited on both Sage campuses.

Policy on Sexual Assault

The Sage Colleges, including Russell Sage College, Sage College of Albany, and Sage Graduate School, believe that sexual assault is intolerable, and that the entire Sage community has the right to be free of violence, abuse, force and threats that are sexual in nature. Although the Sage community experiences very little crime on campus (see Campus Crime Statistics below), Sage is particularly concerned that the entire community be aware of behaviors that are intolerable and the consequences of those behaviors. Sex offenses are among the most serious of all criminal offenses because they not only involve physical injury and personal exploitation, but they also frequently result in emotional trauma which stays with a victim long after legal issues surrounding an incident have been resolved. The Penal Law of New York state recognizes this fact and attaches very serious penalty to many of these offenses. The behaviors discussed below are also prohibited by The Sage Colleges, and may result in serious disciplinary actions, whether or not a victim chooses to pursue criminal prosecution.

An evolution in the Penal Law in recent years has made criminal prosecution for sexual assault more likely to be successful. Requirements that a victim demonstrate “earnest resistance,” which frequently resulted in more serious injury to a victim, have been eliminated, and requirements for corroboration, or evidence independent of the victim’s testimony, have been lessened. New York State has also made it possible to convict persons of either gender for these offenses.

The Sage Colleges will not tolerate the behaviors discussed below. The Sage Colleges also find false allegations of sexual offenses to be equally intolerable.

The most serious sex offenses involve lack of consent on the part of the victim. It is important to understand that in the Penal Law, “consent” does not have its ordinary meaning. Lack of consent, for Penal Law purposes, results from:

- **Forcible compulsion**, which means to compel behavior by the use of physical force or a threat - expressed or implied - that puts a person in fear of physical injury to himself, herself or another, or in fear that he, she or another will immediately be kidnapped; or
- **Incapacity to consent**, which occurs when a person is:
  - less than 17 years of age;
  - mentally disabled (which means that a person suffers from a mental disease or defect which renders him or her incapable of appraising the nature of his or her conduct);
The following behaviors, when they involve the circumstances above, are prohibited by law and College policy:

- **Rape**, which is sexual intercourse in its ordinary meaning and occurs upon penetration of the penis into the vagina;
- **Criminal sexual act**, which is oral sexual conduct or anal sexual conduct; or
- **Sexual abuse**, which involves the touching of the intimate parts of another, or the insertion of a foreign object into another.

The “intimate parts of another” include the genitalia, breasts and buttocks. Sexual abuse may involve the touching of the victim by the offender or the touching of the offender by the victim, and may occur directly or through clothing.

Each of the behaviors above may occur in varying levels of seriousness, as determined by the reason for the lack of consent or the age of the victim. Penalties for these offenses vary greatly, depending upon the seriousness of the crime, the age of the victim and the prior criminal history of the offender. Penalties for these offenses may be as serious as incarceration for a period of not less than 25 years. In addition to criminal penalties, the judicial process of The Sage Colleges may be initiated. Penalties will vary according to the specific incident, but may be as serious as permanent expulsion from The Sage Colleges.

Other behaviors may also be considered sex offenses, depending on the circumstances under which they occur. Although the law may consider them less serious, and provide penalties that involve incarceration for less than a year, they are equally intolerable within the College community. They include:

- **Sexual misconduct**, which occurs when a person engages in sexual intercourse, oral or anal sexual conduct with another without their consent, or with an animal or dead human body;
- **Aggravated harassment**, which includes sexually explicit communication with the intent to harass, alarm, threaten or annoy another;
- **Public lewdness**, which involves the exposure of intimate body parts in a lewd manner, or engaging in lewd behavior when observable in public; and
- **Criminal trespass**, which occurs when a person enters an area for the purpose of covertly viewing another, or the behavior of others, for sexual gratification.

For a more complete description of New York state law regarding sexual assault and the penalties for those convicted of sexual assault, please consult the New York Penal Law, Articles 70 and 130.

Victims of sexual assault should immediately get to a safe place and contact Sage’s Office of Public Safety as soon as it is safe to do so by dialing 3177 from any campus phone. Public Safety will summon emergency medical services or law enforcement as necessary. Victims should avoid bathing or any cleaning that might destroy valuable evidence. The Office of Public Safety, as well as other Campus Life offices, will be available to assist the victim in deciding whether or not to pursue criminal charges. The Sage Colleges judicial process will also be invoked as appropriate.

Sexual assault prevention programming begins with a student’s orientation program and is subsequently available from the Office of Public Safety and the Wellness Center. Victims of sex offenses are encouraged to utilize the variety of services available to them, including Public Safety, the Wellness Center and the Office of Campus Life. Students will be assisted and supported in a confidential manner. The student may also be encouraged to utilize Rape Crisis agencies in the appropriate county and participate in the criminal justice process so that offenders are held accountable for their behavior.

**Sexual Offender Registry**

The federal Campus Sex Crimes Prevention Act enacted in 2000 went into effect October 28, 2002. The law requires institutions of higher education to issue a statement advising the campus community where law enforcement agency information provided by a State concerning registered sex offenders may be obtained. It also requires sex offenders required to register in a State to provide notice, as required under state law, of each institution of higher education in that State at which the person is employed, carries on a vocation, or is a student. The New York State sex offender registry may be accessed at [http://www.criminaljustice.state.ny.us/nsor/index.htm](http://www.criminaljustice.state.ny.us/nsor/index.htm).

In addition, the City of Albany maintains a sex offender registry that may be accessed by “Entities of Vulnerable Population.” The University Heights Association’s Office of Public Safety (which provides Public Safety services for Sage College of Albany) has been declared such an entity and the registry may be accessed through the Director of Public Safety.

**Services for Students with Disabilities**

The Sage Colleges promote self-advocacy for students with disabilities and facilitates a positive and adaptive learning environment for such students. Students seeking accommodations are required to present a recent (within the past three years of the current date or as prevailing scientific knowledge warrants) evaluation of their disability conducted by a licensed professional. It is imperative that upon admission, students requesting accommodations contact the Coordinator of Disability Services in the Academic Support Center, with offices in Hart
Rehabilitation Act of 1973, Section 504

From Rights of Individuals with Handicaps under Federal Law

U.S. Department of Education/Office of Civil Rights

As part of the Rehabilitation Act of 1973 (Public Law 93-112), Congress enacted Section 504, the first federal civil rights law protecting the rights of individuals with handicaps. Section 504 provides that “no otherwise qualified handicapped individual in the United States...shall, solely by reason of handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.”

Section 504 covers only those persons with handicaps who are otherwise qualified to participate in and benefit from the programs or activities receiving federal financial assistance. This coverage extends to persons who have handicaps as well as persons who have a history of a handicapping condition and persons perceived by others to have a handicap.

An individual with handicap(s) is anyone with a physical or mental impairment that substantially impairs or restricts one or more major life activities, such as caring for oneself, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working. The term “physical or mental impairment” includes, but is not limited to, speech, hearing, visual and orthopedic impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, diabetes, heart disease, mental retardation, emotional illness, and specific learning disabilities such as perceptual handicaps, brain injury, dyslexia, minimal brain dysfunction, and developmental aphasia. In accordance with a formal opinion issued by the Attorney General in 1977, alcoholism and drug addiction are also handicapping conditions.

Although alcoholism and drug addiction are handicapping conditions, the 1978 amendments to the Rehabilitation Act of 1973 (Public Law 95-602) clarified the status of alcohol and drug abusers as they relate to employment by stating that the term handicapped “...does not include any individual who is an alcoholic or drug abuser and whose current use of alcohol or drugs prevents such individual from performing the duties of the job in question, whose employment by reason of such current alcohol or drug abuse would constitute a direct threat to property or the safety of others.”

For purposes of postsecondary and vocational education services, a qualified handicapped person is an individual with handicap(s) who meets the academic and technical standards requisite to admission or participation in the recipient’s education program or activity. The Sage Colleges are recipients.

The regulation enumerates specific programs and activities which postsecondary and vocational education recipients must operate in a nondiscriminatory manner. This includes, but is not limited to: recruitment, admission, academic programs, research, occupational training, housing, health insurance, counseling, financial aid, physical education, athletics, recreation, transportation, and extracurricular programs. For federally assisted programs or activities operated by postsecondary education recipients, the specific obligations with regard to students with handicaps include the following:

- Qualified handicapped persons must be afforded an equal opportunity to participate in and benefit from all postsecondary education programs and activities, including education programs and activities not operated wholly by the recipient.
- Qualified handicapped persons must be afforded the opportunity to participate in any course, course of study, or other part of the education program or activity offered by the recipient.
- All programs and activities must be offered in the most integrated setting appropriate.

Americans with Disabilities Act (ADA) of 1990

The landmark Americans with Disabilities Act (ADA) enacted in 1990 (104 Stat 327) provides comprehensive civil rights protection to qualified individuals with disabilities in the areas of employment, public accommodations, state and local government services, and telecommunications. A primary goal of the ADA is the equal participation of individuals with disabilities in the “mainstream” of American society. Title II of the Act took effect in 1992 and covers programs, activities, and services of public entities. Most of the requirements of Title II are based on Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination on the basis of disability in federally assisted programs and activities. The ADA extends Section 504’s non-discrimination requirement to all activities of public entities, not only those that receive federal financial assistance. Under Title II, a public entity may not deny the benefits of its programs, activities, or services to individuals with disabilities because its facilities are inaccessible. A public entity’s programs, services, and activities, when viewed in their entirety, must be made readily accessible to and usable by individuals with disabilities, except when doing so would result in a fundamental alteration in the nature of the programs, result in undue financial and administrative burdens, or threaten or destroy the historic significance of an historic property. This standard, known as “program accessibility,” applies to all existing facilities of a public entity. Under this standard, the University/college is not required to make all its facilities or every part of single facility accessible.

Program accessibility may be achieved by a number of methods, including but not limited to: alterations of existing facilities to remove architectural barriers, the relocation of activities or services from inaccessible buildings, the redesign of equipment, the assignment of aides to beneficiaries, home visits, or delivery of services at alternate accessible sites. When choosing a method of providing program access, it is required that priority be given to the one that results in the most integrated setting appropriate to encourage interaction among all users, including individuals with disabilities.
Academic Accommodations

The Sage College is committed to achieving equal educational opportunity and full participation for persons with disabilities. Sage promotes self-advocacy for students with disabilities and facilitates a positive and adaptive learning environment.

Students’ Rights and Responsibilities

Every student with a documented disability has the following rights:

- Equal access to courses, programs, services, jobs, activities and facilities available through the college.
- Reasonable and appropriate accommodations, academic adjustments, and/or auxiliary aids determined on a case by case basis when requested by the student.
- Appropriate confidentiality of all information pertaining to his/her disability with the choice of whom to disclose the disability to, except as required by law.
- Information reasonably available in accessible formats.

Every student with a disability has the responsibility to:

- Meet the college’s qualifications and essential technical, academic, and college standards.
- Identify themselves in a timely manner to the Coordinator of Disabilities Services as an individual with a disability when seeking accommodation.
- Provide documentation to the Coordinator of Disabilities Services from an appropriate professional source that verifies the nature of the disability, functional limitations, and the need for specific accommodations.
- Follow specific procedures for obtaining reasonable accommodations, academic adjustments, and/or auxiliary aids.

Faculty Members’ Responsibilities

- Discuss with the student the accommodation letters presented to them for their review and sign the letters of accommodation with the student.
- Discuss with the Coordinator of Disabilities Services any concerns related to the accommodation or arrangements that have been requested by the student during the initial contact.
- Determine the conditions under which an exam is to be administered (e.g., computer with word processing including use of spell checker, calculator).
- Provide appropriate accommodations.
- Assure the timely delivery of an exam, along with necessary instructions and materials for proper administration, if the exam is to be administered outside of class. The faculty member may also make arrangements for the exam to be given to the student and for delivery and return of the exam.
- Assure confidentiality of information regarding students with disabilities.

The Sage Colleges’ Rights and Responsibilities

The Sage College, through its Coordinator of Disabilities Services, has the right to:

- Maintain the college’s academic standards.
- Request current documentation from a student completed by an appropriate professional source to verify the need for reasonable accommodations, academic adjustments, and/or auxiliary aids.
- Discuss a student’s need for reasonable accommodations, academic adjustments, and/or auxiliary aids with the professional source of his/her documentation with the student’s signed consent authorizing such discussion.
- Select among equally effective and appropriate accommodations, adjustments, and/or auxiliary aids in consultation with the students with disabilities.
- Deny a request for accommodations, academic adjustments, and/or auxiliary aids if: the documentation does not identify a specific disability, the documentation fails to verify the need for the requested services, or the documentation is not provided in a timely manner.
- Refuse to provide accommodations, adjustments, and/or auxiliary aids that are inappropriate or unreasonable, including any that:
  - Pose a direct threat to the health and safety of others;
  - Constitute a substantial change or alteration to an essential element of a course or program; or
  - Pose undue financial or administrative burden on the college.

The Accommodation Process

Any student with a documented disability is eligible to receive accommodations. The purpose of accommodations or modifications is to reduce or eliminate any disadvantages that may exist because of an individual’s disability. The law does not require the College to waive specific courses or academic requirements considered essential to a particular program or degree. Rather, the College is mandated to modify existing requirements on a case by case basis in order to ensure that individuals are not discriminated against on the basis of their disability.
Students wanting to access such services must identify themselves and provide appropriate verification of their disability to the Coordinator of Disabilities Services. Eligibility for reasonable and appropriate accommodations will be determined on an individual basis.

Appropriate documentation will assist the student and the college in determining reasonable accommodations as stipulated under Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, and other pertinent state and federal regulations.

Students requesting accommodations of either an academic or personal nature must meet with the Coordinator of Disabilities Services and present appropriate documentation prior to receiving services. Documentation must be current (in most cases within three years of the current date or as prevailing scientific knowledge warrants) and must be submitted by a qualified practitioner. This documentation must be a comprehensive assessment including recommendations for accommodations. Students must present evidence of a clinical interview by a qualified professional, their complete medical and educational history, and evidence of a diagnosis that substantially limits one or more of the major life functions.

It is the responsibility of the student requesting accommodations to present documentation and request accommodations in a timely manner prior to the beginning of each academic semester.

**Accommodations**

To access services, students must refer themselves to the Coordinator of Disabilities Services and provide adequate documentation from a licensed professional to the Disabilities Office. Since the purpose of the documentation is to assist the student and the college in determining reasonable accommodations (e.g., extended test time, reduced course load, auxiliary aids, etc.), these guidelines must be followed to assure that the diagnostic evaluation report is appropriate for verifying accommodation needs. Specific procedures need to be followed in order to obtain reasonable and appropriate accommodations, academic adjustments and/or auxiliary aids, any deviation from the process may slow down the process or accommodations may not be granted.

Students must meet with the Disabilities Coordinator with current documentation from a licensed professional to request services. Accommodation letters will be developed at this time.

Students must meet with the faculty member to review the accommodation letters and discuss accommodations. It is best to do this review after class or to set up an appointment with the faculty member. The student decides whether to disclose his/her disability to the professor or whether to share any pertinent information with them. Students are not required to identify their disability, although this information is often helpful to the professor. The student may want to explain how his/her disability may affect coursework in general; again this is not required. After the review of your accommodation letter, the faculty member and student both sign the accommodation letter.

Students should then review the accommodations. For testing accommodations, it is important to check in again with the professor at least one week before the exam date as a reminder and to be sure both parties have the same understanding of what is to occur. Meeting with the professor throughout the semester is necessary to discuss your accommodation needs.

**Accommodation Disagreements**

If a disagreement arises concerning specific accommodation requests, a student should immediately inform the Coordinator of Disabilities Services. If there is a conflict with the Coordinator of Disabilities Services, then the Associate Dean for Academic Services may be notified to assist in the resolution process.

**Academic Adjustments**

Academic requirements must be modified, on a case by case basis, to afford qualified handicapped students and applicants an equal education opportunity. For example, modification may include changes in the length of time permitted for completion of degree requirements. However, academic requirements that the recipient can demonstrate are essential will not be regarded as discriminatory. A recipient may not impose upon qualified handicapped persons rules that have the effect of limiting their participation in the recipient’s education program or activity; for example, prohibiting tape recorders in classrooms or guide dogs in campus buildings. Qualified handicapped persons with impaired sensory, manual, or speaking skills must be provided auxiliary aids, such as taped texts, interpreters, readers, and classroom equipment adapted for persons with manual impairments. Recipients can usually meet this obligation by assisting students to obtain auxiliary aids through existing resources, such as state vocation rehabilitation agencies and private charitable organizations. In those circumstances where the recipient institution must provide the educational auxiliary aid, the institution has flexibility in choosing the effective methods by which the aids will be supplied. So long as no handicapped person is excluded from a program because of the lack of an appropriate aid, the recipient need not have all available aids on hand at all times.

**Procedures for Requesting Academic Adjustments**

A student who wishes to request academic adjustments under Section 504 of the Rehabilitation Act of 1973 should do so by writing to the Coordinator of Disabilities Services. The Sage Colleges reserves the right to require medical, psychological, neurological, or psychoeducational verification of the handicap causing the student to seek adjustments of academic conditions. Notification of any request for academic accommodations should be sent to the Coordinator of Disabilities Services immediately. The Coordinator will notify the faculty member(s) of the request; discuss options, if any, to meet the request; agree on the acceptable adjustments; and notify the student seeking the accommodations within 10 working days. **If an agreement cannot be reached, the Dean of the college will be notified for a meeting with all parties.** The Coordinator of Disabilities Services shall file a final report of the discussion and resolutions no later than five working days after the agreement with all parties has been reached.
Procedures for Grievances Alleging Discrimination Based on Disability

Any member of The Sage Colleges community, including faculty, administrators, staff, and students, who has any grievance in relation to the law or any acts prohibited by the law may file a written complaint within 30 working days of the occurrence of the alleged action. The complaint should be filed with the Coordinator of Disabilities Services as the person designated to coordinate the efforts of the college to comply with and carry out its responsibilities under the law. The written complaint should explain who was discriminated against; in what way; by whom; when the discrimination took place; who can be contacted for further information; the name, address, and telephone number of the complainant; and as much background information as possible about the alleged discriminatory act. These are suggestions, not requirements. Within five working days, the Coordinator of Disabilities Services shall acknowledge receipt of the complaint and assign an individual to investigate the complaint. The individual investigating the complaint shall submit a written report to the Coordinator with a copy to the complainant within 10 working days from the date assigned. The complainant shall have 10 working days from receipt of the investigation report to contact the Coordinator to support or refute information contained in the investigation report. The Coordinator of Disabilities Services will review the report and related material, and submit a written recommendation to the college President within five working days after the time period given the complainant to respond. A copy of this recommendation shall be sent to the complainant and the investigator. The President, as chief executive officer of the institution, shall make disposition of the complaint or refer it for the established grievance procedures of The Sage Colleges.

Anyone who believes there has been an act of discrimination on the basis of handicap in violation of Section 504 against any person or group in a program receiving financial assistance from the U.S. Department of Education, may file a written complaint with the Office for Civil Rights of the U.S. Department of Health and Human Services within 180 days of the alleged discrimination (unless the time for filing is extended for good cause by the regional civil rights director), and send it to the regional office that serves the state in which the discrimination allegedly occurred:

Office for Civil Rights, New York Office

>Student Right to Know, Privacy & Records Policies

Student Right to Know Law

The Sage Colleges will provide information regarding graduation and persistence rates, in accordance with provision of the federal Student Right to Know Law. The information is available from the Office of the Registrar. In addition, The Sage Colleges publishes required information under the Campus Security Act in a safety and security brochure and posts the information on the Sage website. The brochure is available from the Office of Public Safety.

Privacy and Confidentiality

The Family Educational Rights and Privacy Act (Buckley Amendment) passed in 1974 regulates the procedures for handling student records. According to the U.S. Department of Health, Education and Welfare, the Act was designed to ensure that students and parents (in cases where the student is considered a dependent) would have specific educational records made accessible for reasons of inspection and correction and to restrict the release of most records so as not to violate their privacy and confidentiality when student consent is lacking.

According to the Act, the following records are not accessible:

- financial records of a student’s parents;
- confidential letters of recommendation received prior to January 1, 1975;
- confidential letters of recommendation for which the student has signed a waiver of access; and
- records created and maintained by a professional for the sole purpose of treating the student (i.e., records kept by a college physician, psychiatrist, or counselor). The student may choose a qualified professional to review these records.

Access to Directory and Records Information

The College is permitted under the Family Educational Rights and Privacy Act (Buckley Amendment) to make directory information about students available to the public. Directory information includes: the student’s name, address, telephone listing, e-mail address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height (for members of athletic teams), dates of attendance, degrees and awards received, and the most recent previous educational agency attended.

If a student would prefer that any or all of this information not be made public, the student may inform the College of this within the first month of his or her first semester of each academic year. Forms are available from the Registrar’s Office with which the student may inform the College what information they do not wish to be made public.

Records Inspection
The following student records are available for inspection at the specified locations:

**Student Services**
- Transcript of grades*
- Grade lists*
- Academic warning, probation and suspension lists*
- Transfer credit records
- Degree information
- General student records
- Parking/traffic violations lists*
- Student payroll records
- Financial Aid files

**Campus Life/Residence Life Offices**
- Judicial records
- Parking/traffic violations lists*

**Dean’s Office**
- Dean's List

**Academic Support Center**
- HEOP records

*The entire content will not be released, only the data directly related to the individual requesting access.*

**Procedures for Review of Records**

The Act specifies that a college official has 45 days to respond to a student’s request to view their records. The Sage Colleges will initially respond to a request by setting up an appointment with the student within the 45 day period. Ideally, the student will be able to access the records within a couple of weeks.

All records must be reviewed in the presence of a College official. The student may be asked to show proper identification to the college official and sign a permit form. Students may request a copy of their records in most cases, but the College is entitled to charge for copies. Copies cannot be made of records when a “hold” status exists or when the names of other students or information related to other students are involved (i.e., restricted records such as a grade list).

**Inspection and Correction of Records**

If a student wishes to challenge any part of a record, it may be done informally by addressing the issue with the administrator in charge of the record in question. If an agreement cannot be reached, the student should request a hearing with the Dean of the College. If the student still believes that his or her rights are being violated after following the above procedure, an investigation can be requested by the Review Board of the Family Educational Rights and Privacy Act Office, U.S. Department of Education, 600 Independence Ave., SW, Washington, DC 20202. An investigation could lead to a hearing.

**Access to Records by Another Party**

Each individual record will include the names of those persons not employed by the College who request or obtain access to a student record. The legitimate interest of the person making the request will also be recorded. The College permits third parties to gain access to students’ records when requests come from:

- a person designated by the student with the student’s written consent;
- an accrediting agency doing a college evaluation;
- certain federal or state agencies;
- parents of dependent students;
- officials of other schools in which a student seeks acceptance or intends to enroll when the student requests that the information be released; or
- other faculty members, administrators, or staff members who either seek access for a legitimate educational reason or who are required to handle the records as part of their official duties at the College.

Student records, except for the permanent transcript and certification of completion required for state licensure in some academic programs, are kept for a period of six years from the date of graduation or last attendance. The permanent transcript is maintained “forever” in the Office of the Registrar. The certification of completion, if required for licensure, is maintained in the academic program office.

Thomas F. Sweeney. Ph.D., M.S., St. Louis University; M.S., Rensselaer Polytechnic Institute; B.S., Fairfield University; Associate Professor of Mathematics

Barbara Thompson. M.S.W., State University of New York at Albany; B.S., University of Florida; Associate Professor of Occupational Therapy

Eileen Throop. M.S., University of Illinois at Urbana-Champaign; B.A. State University of New York at Oswego; Information Literacy Librarian and Assistant Professor

Esther Tornai Thyssen. Ph.D., M.Phil., M.A., Yale University; Associate Professor of Art History

Regina Torian. M.L.S., Rutgers University; B.A., State University of New York at Oswego; Electronic Resource Librarian and Assistant Professor

George F. Tucker. Ph.D., Wesleyan University; B.S., Siena College; Professor of Physics

Joan Van Bramer. Ph.D., State University of New York at Albany; M.A., Castleton State College; Assistant Professor of Childhood Education and Literacy

Cheryl Van De Mark. Ed.D., University of Central Florida; M.S.Ed., B.S., The Sage Colleges; Assistant Professor of Education

Danielle B. Vittone. M.S., Sage Graduate School; B.S., Northeastern University; Assistant Professor of Physical Therapy
Frank R. Vozzo. Ph.D., M.S., B.S., State University of New York at Albany; Associate Professor of Physics

Cynthia J. Ward. Ph.D., Syracuse University; M.A., A.B., Ohio University; Associate Professor of Public Administration

Laurae Wartinger, Ph.D., M.S.E., B.S., Ohio University; Assistant Professor of Guidance and Counseling

Terrance L. Wasielewski, M.L.S., B.A., State University of New York at Albany, M.A., Sage Graduate School, A.A., Hudson Valley Community College; Associate Professor, Libraries

Susan Wheeler-Weeks, Ed.D., M.A., State University of New York at Albany; B.A., Russell Sage College; Associate Professor of Psychology

Christopher White, M.L.S., Louisiana State University; B.A., The Ohio State University; Assistant Professor, Libraries

Faculty Emeritae/Emeriti

Catherine Adams. B.S., M.S., Ed.D.; Professor of Nursing

Donald Andersen, B.A., M.A.; B.A.; Professor of Mathematics

Roger W. Armstrong, B.S., Ph.D.; Professor of Chemistry

Freda Bailey, B.S., M.A., Ed.D.; Associate Professor of Education

J. Albert Barsamian, B.S., L.L.B., J.D.; Professor of Criminal Science

Donald J. Bessette, B.A., M.Ed.; Professor of English

Caroline S. Booth, B.S., M.S.; Associate Professor of Nursing

Mick Brady, B.A., M.A.; Associate Professor of Graphic Design

Fredrick A. Brandt, A.B., M.B.A., Ph.D.; Assoc. Professor of Management

Frank E. Cline. B.A., M.A.; Instructor of Retailing

Edwin J. Cook, B.A., M.S., Ed.D.; Associate Professor of Education

Thomas Cook, B.A., M.A., Ph.D.; Associate Professor of English

Dan T. Craine, B.A., M.A.; Professor of English

Robert Dalton, B.S., M.B.A; Assistant Professor of Management

Virginia Earles, B.S.N., M.S.N.E., D.N.S.; Professor of Nursing

Carmela T. Estes, B.A., M.A.; Associate Professor of Nutrition Science

Ruth Eyers, B.S., M.S.; Associate Professor of Secretarial Science

J. Wilson Ferguson, A.B., M.A., Ph.D.; Associate Professor of History

James W. Flosdorf, B.A., Ph.D.; Professor of English

Robert F. Gehrig. B.S., M.S., Ph.D.; Professor of Biology

Mary (Tina) Goodwin-Segal, B.S., M.S., Ph.D.; Associate Professor of Physical Therapy
Nance Goren, B.F.A., M.A., M.F.A.; Professor of Fine Arts

Robert F. Guerrin, B.A., M.A., Ph.D.; Associate Professor of Public Administration

Mary E. Hogan, B.S., M.A.; Associate Professor of Nursing

Barbara E. Husted, B.S., M.S.; Professor of Physical Therapy

Linnea Jatulis, B.S., M.A., Ph.D.; Associate Professor of Nursing

Nina Kasanof, Ph.D., Associate Professor in Art History

Marjory A. Keenan, B.S., M.A., Ed.D.; Professor of Nursing

K. Scott Kinerson, Ph.D., B.S., M.S.; Professor of Physics & Mathematics

Frank W. Lindsay, A.B., M.A., Ph.D.; Professor of French

Harry A. Little, B.S.Ed., M.Ed., Ed.D.; Professor of Education

Joan T. Maguire, B.S.N, M.S., Ph.D.; Professor of Psychology

Richard Mattox, B.A., M.P.A.; Professor of Public Administration

Francisco Melero, M.S., Ph.D., M.S.; Associate Professor of Economics

Faith J. Meyer, B.S., M.A., D.P.E.; Professor in Physical Education

Heidi Mitchell, Mus.B., M.A.; Assistant Professor of Music and Speech

Lona H. Moore, B.S., M.S.; Associate Professor of Nursing

James P. Moran, B.A., M.A., Ph.D.; Professor of Economics

Rita C. Murray, B.S., M.S., Ed.D.; Professor of Mathematics

Vaughn L. Nevin, B.S., M.Ed., Ed.D.; Associate Professor of Nursing

Judith Odell, B.S., C.P.A.; Associate Professor of Accounting

William R. Owens, B.S., Ed.M.; Professor of Business

Christine Pakatar, B.S., M.S.; Professor of Nursing

Marta Perez-Lopez, B.A., B.S., M.A., Ph.D.; Associate Professor of Spanish

Sandra J. Peterson-Hardt, A.B., M.A., Ph.D.; Professor of Sociology

Shirley S. Phillips, B.S., M.S.; Instructor of Secretarial Science

Teresa V. Pistolessi, B.S., M.S., Ph.D.; Assistant Professor of Nursing

Joseph N. Prenoveau, B.S., M.S., Ed.D.; Assistant Professor of Education

Nina Reich, B.A., M.A., Ph.D.; Professor of French, English

Jeffrey C. Rinehart, B.A., M.A., Ph.D.; Professor of Public Administration

William P. Rockwood, B.S., M.S., Ph.D.; Professor of Biology
Adrienne Rogers, B.A., M.A.; Ph.D.; Professor of French

Shirley Rose, B.S.N., M.S.; Professor of Nursing

Julia Rothenberg, Ph.D., M.A.T., B.A.; Professor of Education

Lilyan Saunders, B.A., M.S.; Instructor of Biology

William B. Schade, B.A., M.F.A., M.A.; Professor of Fine Arts

Eleanore Coty Singer, B.S.; M.Ed.; Associate Professor in Physical Education

Nancy G. Slack, B.S., M.S., Ph.D.; Professor of Biology

Agnes P. Snyder, A.B., M.S.; Professor in Physical Therapy

Sherman D. Spector, A.B., A.M., Ph.D.; Professor of History

Helen R. Staley, B.A., M.A.; Professor of English

Marion E. Stallwood, B.S., M.A.; Associate Professor in Physical Education

Maren A. Stein, M.A., Ph.D., M.A.; Associate Professor of Political Science

Doreen J. Tiernan, Ed.M., B.S.; Assistant Professor of English

Terrance J. Tiernan, M.F.A., B.S.; Associate Professor of Art

Miriam L. Tuck, B.S., M.A., Ed.D.; Professor of Health Education

Jack VanDerhoof, A.B., M.A., Ph.D.; Professor of History

Rosalind M. Wang, B.S., M.N.; Professor of Nursing

George Wasserman, A.B., M.A., Ph.D.; Professor of English

Judy A. Waterman, M.A., M.A., B.S.J; Associate Professor of English

Hannelore M. Wilfert, B.A., M.A., Ph.D.; Professor of German

Arthur C. Young, B.A., M.A., Ph.D.; Professor of English

FINANCIAL AID SERVICES

- To Apply for Financial Aid
- Conditions of Financial Aid Awards
- Federal and State Sources of Financial Aid
- Assistantships, Fellowships and Scholarships

Eligibility

To qualify for financial aid, graduate students must be enrolled as degree or certificate seeking students on at least a half-time basis of 4.5 credit hours per semester (minimum six hours per semester is required for assistantships and fellowships). Eligibility for grants and loans requires United States citizenship or permanent resident status. It should also be noted that federal and state legislation frequently modifies requirements and eligibility standards for financial aid.

Application Procedures

Because financial aid is awarded on an annual basis, these procedures must be followed each year. While admission is not required to initiate an application for financial aid, new students will not receive confirmation of their status until the Office of Financial Aid Services is notified that the admission process is complete.

- The Free Application for Federal Student Aid (FAFSA) should be completed as soon as possible after January 1, but not later than March 1, preceding the academic year for which assistance is requested. Students are requested to file the FAFSA on the internet at [www.fafsa.ed.gov](http://www.fafsa.ed.gov). Electronic filing is an accurate and fast means of filing for financial aid.

- New York State residents should also complete the application for the Graduate Tuition Assistance Program (TAP). The New York State Higher Education Services Corporation will mail this form to your home.

- Upon request, applicants must submit all pages of completed tax forms for verification by the Office of Financial Aid Services.

Conditions of Financial Aid Awards

- All aid is awarded on an annual basis and aid amounts are credited to student accounts for each semester’s charges.

- Refunds of any excess credit will be made approximately halfway through each term through the Student Services Office.

- Since aid is awarded on the basis of annual financial information from students, and college costs change each year, financial aid awards may vary depending on the changing circumstances.

- Outside sources of assistance – such as private scholarships and Vocational and Educational Services for Individuals with Disabilities (VESID) – must be reported to the Office of Financial Aid Services. Financial aid already awarded could be modified as a result.

- All awards of federal or state aid are tentative, pending approval and receipt of funds from the source.

- Costs on which financial aid eligibility is calculated are limited to direct expenses such as tuition, fees, books and supplies.

Federal and State Sources of Financial Aid

**Federal Subsidized Stafford Loans** are available through banks and other lending institutions. Graduate students may borrow up to $8,500 per year, not to exceed their cost of attendance. Insurance and origination fees of approximately three percent are removed from the gross amount before disbursement. For students demonstrating financial need, the loan is subsidized, with interest paid by the Department of Education during school enrollment. The interest rate is variable, but cannot exceed 8.25 percent.

**Federal Unsubsidized Stafford Loans** are available to students who do not demonstrate need or to independent students who are eligible for an additional Federal Unsubsidized Stafford Loan. This loan is available through banks and other lending institutions. Graduate students may borrow up to $10,000 per year, not to exceed their cost of attendance. The loan is for those without need and interest must be paid by the student during school enrollment.

**Veterans Administration Benefits** may be available to those with at least 180 days of continuous active duty between 1955 and 1976. The assistance is in the form of monthly stipends and is dependent on enrollment status. Details are available from the Office of the Registrar on the Albany Campus.
Ombudsman

When reasonable efforts through other channels have not resolved a dispute or problem regarding federal education loans, students can contact the Student Financial Assistance Ombudsman. The U.S. Department of Education’s Ombudsman Office can propose solutions that may help students and other parties come to a final agreement, although an ombudsman can’t reverse a decision or take sides. Reach the ombudsman at:

1-877-557-2575
www.ombudsman.ed.gov
Office of Ombudsman
Student Financial Assistance
Room 3012, ROB #3
7th & D Streets, SW
Washington, D.C. 20202

New York Graduate Tuition Assistance Program provides up to $550 per year for master’s degree students who are New York state residents. Awards can be renewed for up to four years of graduate study. No student may receive TAP awards for more than a combined undergraduate/graduate total of eight years of study.

In addition to the above, New York State administers programs of assistance for children of deceased or disabled veterans, and of deceased corrections officers and fire fighters. Direct grants are available to Vietnam-era veterans. New York state also provides grants and scholarships to students who concentrate in specific fields of study, including education, nursing, physical therapy and occupational therapy. Information may be obtained from the Office of Student Services.

Assistantships, Fellowships and Scholarships

Sage Graduate School is committed to an equitable, supportive and professional environment for graduate education. Graduate assistantships and fellowships provide financial support while helping students develop independent judgment, intellectual breadth, professional and personal accountability, and the ability to communicate effectively.

Graduate Assistantships provide tuition waivers and a stipend for working in an academic or administrative office, assisting faculty in research, or in limited instances, teaching undergraduate classes. For each three-credit tuition waiver plus $1000 stipend, a student works 150 hours or teaches one three-credit course equivalent. Assistantships are awarded on the basis of financial need and academic ability.

To be eligible for assistantships, students must follow the financial aid application procedures described above, including submission of the FAFSA after January 1. Students also must complete by an Application for Assistantship form available from the Sage Graduate School web page (Academics, Forms) or in the Graduate School office. Preference will be given to students who complete this process prior to March 1 of the year preceding the assistantship award.

Upon receipt of FAFSA information, which identifies the level of federal and state aid for which the student is eligible, the Office of Financial Aid Services determines whether or not the student is also eligible for a graduate assistantship and provides that information to the Dean of the Graduate School. The dean and program director conduct an academic review of eligible applicants and select those to receive the assistantships available. Beginning on March 15 of each year students will be notified of their eligibility for an assistantship award.

Students enrolled for six hours per semester, including the summer term, may receive no more than two tuition waivers plus stipend per year. Students enrolled for nine or more hours may receive one tuition waiver plus stipend each semester, including the summer term, but no more than three tuition waivers plus stipend per year.

An assistantship award means that the student is eligible to apply for the open assistantship positions posted at www.sage.edu/sgs/costaid/SGSGraduateAssistantships.php or available in the Graduate School office. Job descriptions allow students to match their skills and experience to the openings. These may be in academic departments or administrative offices; selection is made by the individual supervising the graduate assistant. When a selection has been made, the student assistant receives a contract of employment which must be returned within two weeks of the issue date. If the contract is not returned, the assistantship is released for award to another student.

Student assistants may be asked to perform only duties that are contained in the job description for the position they occupy; they may not be asked or required to perform inappropriate services (e.g., child care, pet care, or other personal services) as part of their responsibilities. Student assistants are expected to be accountable and professional in carrying out the duties of the position; less than satisfactory performance may result in the termination of an assistantship award.

The typical appointment periods are as follows:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall term</td>
<td>September 1 through December 15</td>
</tr>
<tr>
<td>Spring term</td>
<td>January 2 through April 30</td>
</tr>
<tr>
<td>Summer term</td>
<td>May 15 through August 15</td>
</tr>
<tr>
<td>Academic year</td>
<td>September 1 through April 30</td>
</tr>
<tr>
<td>Fiscal year</td>
<td>May 15 through April 30</td>
</tr>
</tbody>
</table>
Graduate stipends are paid twice each month, on the regular pay dates for salaried employees. A form I-90 or other proof of eligibility to work in the United States must be provided to the Office of Human Resources before compensation may begin.

Teaching assistantships may be available to a limited number of students in post-master’s programs who have already earned master’s degrees and who are otherwise qualified to deliver undergraduate instruction. Such awards are contingent on departmental need for such instruction. Teaching assistants are assigned to a departmental faculty mentor who provides supervision and feedback during the teaching assignment. Teaching assistants, as with other instructional faculty, receive course evaluations from students and a final written evaluation from the faculty mentor.

Graduate assistantships are renewable each year for up to four years of study, contingent upon the maintenance of academic good standing in the student’s program of study and satisfactory performance in the assistantship position. To renew an assistantship each year, the student must file the FAFSA between January 1 and March 1 and complete the Application for Assistantship form. In addition, the supervisor must complete the Assistantship Renewal Request Form. Both are available on the Sage Graduate School web page (Academics, Forms) or in the Graduate School office.

**Broughton Graduate Fellowships** provide funding to selected graduate students who demonstrate excellence in research in their fields of study, without regard to financial need. To be eligible for a Fellowship, a student must have completed at least 18 hours of graduate coursework at Sage with a minimum B average and have the recommendation of the research advisor. The Fellowship is intended to create opportunities for advanced scholarly work for graduate students doing creative, advanced study and research, including preparing a thesis or final project for a master’s degree, at Sage Graduate School. Students in all graduate programs are eligible. The criteria for selection of Broughton Fellows are: a record of outstanding academic achievement and evidence of creative and imaginative problem solving. All Broughton Fellows present the results of their research at the Sage Research Symposium in the spring of each year. Applications may be downloaded from www.sage.edu/sgs/research/broughton.php or obtained in the Sage Graduate School office.

Awards are made three times a year: in the fall (October 21) for students working on fall projects to be presented in the spring; in the spring (February 15) for students working on spring projects to be presented in the spring; and in the late spring (April 15) for students who will be working on their projects during the next year and who will be presenting the following spring.

**Daniel A. Cowan Scholarship** For a student at Sage Graduate School who is an entrepreneur or owns their own business and is paying for his or her own education.

**Helen Webb Mancheski Scholarship** For physical therapy students

**Louis & Hortense Rubin Community Fellows Program** This is a cooperative venture among the faculty of Sage, RPI, HVCC, Emma Willard, and participating agencies of Rensselaer County, administered by Sage. The fellowship provides for faculty to strengthen the participating agencies in the region, as well as for part-time consulting. In the fall of each year there is an informational forum followed by an application process. For more information on the Rubin Community Fellowship Program visit www.sage.edu/sgs/research/Rubin

Please refer questions to the Office of Financial Aid Services at (518) 292-1783.
DRIVING DIRECTIONS

Troy Campus

Our Troy campus is a pleasant and quiet oasis in downtown Troy, where historic buildings mix with new for Victorian charm and cutting edge technology.

From the South: Take Exit 23 off the New York State Thruway, which will lead directly onto Route 787 North

Directions from 787 North: Proceed on Route 787 North to the 23rd Street Exit - Watervliet, Green Island. (Do not take the earlier exit marked Troy - Route 378 East.) At the end of the 23rd Street Exit ramp turn right (blinking light). Proceed to the first light, turn right and cross the Green Island Bridge to Troy. Turn right at the end of the bridge onto River Street. Follow River Street (bear right after the statue of Uncle Sam) to Troy City Hall. Just beyond the City Hall, River Street and First Street intersect. Bear left onto First Street and proceed two blocks to the light. The Office of Admission parking lot is to your right. Admission House is directly across Congress Street.

From the West: Take Exit 24 off the New York State Thruway which will lead directly onto Interstate 90 East. Follow the signs for Route 787 North. Proceed on Route 787 North as noted above.

From the East: At the western end of the Massachusetts Turnpike, continue straight on the New York State Thruway Spur to the exit for Troy - B1. After you have taken Exit B1 follow signs for 90 West. Proceed on 90 West to the exit for Route 787 North. Proceed on Route 787 as noted above.

From the North and Route 7: Exit from Route 87 (Northway) at Exit 7, Route 7 East. Take Route 7 East to the exit ramp marked Downtown Troy. Continue straight off the Downtown Troy exit ramp to the third traffic light. The next street (directly across from the Best Western) is Broadway; turn right. Take Broadway to the end, you will be facing the Troy City Hall. Bear left on to River St. and take an immediate left on to First Street (you will see the sign for RSC). At the traffic light; the Admission House parking lot will be to your right. The Admission House is directly across Congress Street.

Parking: You may park in the Admission House Parking Lot at the corner of First and Congress Streets. If no space exists, proceed on First Street, and turn right onto Division Street. Proceed to corner and turn left onto River Street. Turn at first left onto Liberty Street and from Liberty Street turn into parking lot. Then walk back down First Street to Admission House.

Albany Campus

Our 15 acre campus is located in Albany, N.Y. the state capital and a place where things are always happening. Whether you're on campus or in the immediate neighborhood, it’s a convenient and safe place to live, with great old houses and lots of restaurants and shopping.

From the North: Take I-87 south to I-90 east to Route 85 south to Krumkill Road to New Scotland Avenue. Turn left onto New Scotland Avenue, 1 1/2 miles to the Sage College of Albany Campus on the right.

From the NYS Thruway: Take Exit 23, left on Route 9W (Southern Boulevard) into Albany. Turn right onto Hoffman Avenue, left onto Second Avenue. Cross Delaware Avenue and bear left onto Whitehall Road. Turn right onto Marwill Street and cross Hackett Boulevard to Academy Road. Proceed to New Scotland Avenue, turn right to the Sage College of Albany Campus on the right.

From the East: Take I-90 to Albany to Route 787 south to Madison Avenue (Routes 9 and 20). Follow Madison Avenue to New Scotland Avenue. Left onto New Scotland Avenue, four blocks to the Sage College of Albany Campus on the left.

TUITION AND FEES

- Tuition
- Room Charges
- Board Charges (Meal Plans)
- Semester, Program, Activity and Other Fees
- Adjustments for Tuition, Room and Board Charges

The deposits, tuition, room, board and fees noted in the following sections are in effect for the 2006-2007 academic year and are subject to change without prior notice by The Sage Colleges’ Board of Trustees. All policy statements and other information in the following sections reflect information current at the time of this publication.

Payments

All payments for tuition, room, board and fees are due in full by the following dates. Students who register beyond these payment deadlines are expected to pay in full at the time of registration.

<table>
<thead>
<tr>
<th>Semester</th>
<th>Payment Due Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall 2006</td>
<td>Aug. 11, 2006</td>
</tr>
<tr>
<td>Spring 2007</td>
<td>Dec. 29, 2006</td>
</tr>
</tbody>
</table>

Payments can be made at the Office of Student Services, which accepts cash, MasterCard, Visa, and money orders or checks payable to The Sage Colleges.

All student balances must be paid in full unless the student has been awarded financial aid sufficient to cover the outstanding balance or is enrolled in one of the College’s payment plans. Students will be permitted to attend classes and utilize College facilities only after they have settled their financial obligations to the College. Any subsequent modification to an expected amount of financial aid or student loan remains the full responsibility of the student and must be paid in full by the student.

In addition to following application and verification procedures for financial aid, the student’s eligibility must be confirmed and the student must accept offered awards in writing before those amounts can be applied as payment against tuition and fees. Please note that loan programs require an extended period of processing before the loan amount is credited to the student’s account.

Failure to fully pay the student’s liability may result in the removal of registration from any or all classes. In addition, an unpaid financial obligation to the College will result in the withholding of the student’s grades, transcript of credits, diploma, and official reports and make the student ineligible for future financial aid awards, pre-registration, and resident room selections.

Employer Reimbursement

For students who receive full or partial reimbursement from employers, the Office of Student Services has established procedures that comply with both College and employer requirements. Authorizations from the agency or employer must be presented at the time of registration.

Deferred Payment Plans

The Sage Colleges offers a variety of low-cost payment options that allow parents and students to spread the cost of attendance over the period of enrollment. For additional information regarding these payment plans, contact the Office of Student Services at 518-244-2201 (Troy) or 518-292-1781 (Albany).

Deposits

New and returning students, both full- and part-time, must submit a $50 deposit at the time of registration, refundable until the first day of class. This deposit is credited against the student’s tuition, room, board and fees.

Health Insurance

All full-time students must maintain health insurance coverage for all semesters in which they are enrolled. Full-time students may purchase health insurance through The Sage Colleges. For information on this plan, contact the Office of Student Services at 518-244-2201 (Troy) or 518-292-1781 (Albany).

Senior Citizen Tuition Discount

Senior citizens (65 and older) may audit a course at The Sage Colleges without a tuition charge, on a space-available basis. All applicable College fees still apply and are charged accordingly.
Tuition

Tuition charges are not refundable. Adjustments for withdrawals and other circumstances can be found in the Adjustments for Tuition, Room and Board Charges section. All students enrolled in Sage Graduate School pay tuition per credit hour according to the course for which they enroll (refer to the appropriate catalog for tuition rate and fees for Sage College of Albany, Russell Sage College, or Sage Graduate School). Summer tuition rates are published each spring prior to course registration. During summer sessions all students pay tuition per credit hour according to the level (undergraduate and graduate) and discipline of the course.

Declining Balance Meal Plans

The Sage declining balance meal plans are designed to meet the dining needs of students living off campus. Established as a way to provide tax-free purchases on meals, the meal plans provide a 5% discount on all purchases and, depending on the plan chosen, may include bonus money.

Declining balance meal plans can be used to make purchases at any Sage dining operation on the Troy or Albany campus. Declining balance meal plans are maintained on a student’s Sage ID Card and work similar to a debit card. Only the person pictured on the ID card can use the funds on that card. If an ID card is reported lost, funds on the card can be transferred to a replacement ID card. With a commuter meal plan, students only pay for the meals they purchase, and balances can be used to purchase meals for guests.

Meal plans cannot be changed after the first week of classes, at which time all contracts become final and are non-refundable. Additions of $25 or more can be added at Dining Services throughout the semester and can be paid for by cash, check, Visa, or MasterCard. Any additional deposits to a commuter meal plan are also eligible for the 5% discount and tax free status.

Students enrolled in a commuter meal plan for the fall semester will automatically be enrolled and billed for the same plan for the spring semester. If a student chooses not to participate in the spring or would like to change the amount of their meal plan for the spring semester, written notification to the Office of Residence Life must be received prior to the start of spring classes.
Balances remaining at the end of the fall semester will be added to the spring semester starting balance. Balances remaining at the end of the spring semester may not be used to make bulk purchases. These balances are non-refundable in accordance with NYS tax regulations, and they do not carry over to any future semester.

</tbody>
</table>

**Adjustments for Tuition, Room and Board Charges**

A student who notifies the College of his or her withdrawal or leave of absence in writing and in accordance with the College’s withdrawal policy is eligible for an adjustment to tuition, room and board charges in accordance with the following schedules. *Non-attendance does not constitute a withdrawal from a class or the College.*

Any student receiving Federal (Title IV) financial aid may be required to return a portion of their aid to the granting agency if they separate from The Sage Colleges prior to the end of a semester. Any adjustment for tuition, room or board charges may be less than the amount of aid that must be returned and may create a liability to the College that must be paid by the student.

The date of official academic withdrawal as recorded by the Registrar’s Office is the basis of all adjustments for tuition, room and board charges. It is important that the student adhere to the following processes to ensure that the correct adjustment is applied to their account.

**To withdraw from a class**

To withdraw from a class, the student must complete the necessary forms and submit them to the Office of Student Services (the forms are available from this office).

**To withdraw from the college or request a leave of absence**

To withdraw from the College or to request a leave of absence, the student must notify the Dean of the Sage Graduate School. Resident students must also notify the Office of Residence Life.

Students required to withdraw from a class or the College for disciplinary reasons are not entitled to any adjustment to tuition or room charges.
### Tuition Adjustment Schedule for Classes that Meet Regularly Throughout a Semester

<table>
<thead>
<tr>
<th>Withdrawal Date</th>
<th>Adjustment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prior to the start of the second week of classes</td>

Master of Science in Applied Nutrition

The demand for nutrition professionals is on the rise. With the emergence of the obesity epidemic and the new era of nutritional genetics, unprecedented and exciting career opportunities are becoming available for nutrition graduates. In addition, changes in health care, increases in reimbursements, and the need for evidence-based practice require nutrition professionals to obtain advanced clinical and research skills.

The MS in Applied Nutrition is based on a solid scientific foundation with a strong focus in nutritional epidemiology, food and nutrition program evaluation, and the most up to date issues in the nutrition field. This MS degree enhances promotion and job mobility for individuals in health, dietetics, and the food industry, as well as community and public health nutritionists.

The 32-credit M.S. in Applied Nutrition is designed to be flexible and to accommodate the returning adult learner. Emphasis is placed on providing students with the following skills:

- Critical evaluation skills through analysis of research literature.
- Ability to integrate and apply what is learned to relevant and current situations.
- In-depth knowledge and understanding of the most recent developments in the field.
- Strong background in theory of health behavior and the translation of theory into practice, a valuable tool in public health, community as well as clinical nutrition settings.
- Skills in planning, conducting, and evaluating food and nutrition programs and interventions.
- Hands-on experience in designing and conducting research including identifying research hypotheses, developing surveys, collecting and analyzing data, as well as interpreting results and write-up. All students will be encouraged to publish their work.

Admission Requirements

Applicants to the program must meet the general admission requirements for Sage Graduate School (see page 4). An interview with the Director of Graduate Program in Nutrition is recommended.

Registered Dietitians with Graduate Credits

Official transcripts will be evaluated. A maximum of nine graduate credits or 25 percent of the degree, whichever is greater, may be transferred from another institution if such work was completed within five years of the first course counted toward the MS degree at Sage. Transferred credits must be a “B” or better.

Registered Dietitians Who Completed the Sage Graduate School Dietetic Internship

Credits earned through the Sage Graduate School Dietetic Internship will apply to the MS in Applied Nutrition. Students must complete the remaining 18 credits and a master’s project in order to graduate with an M.S. in Applied Nutrition.

Applicants with Bachelor’s Degree in a Field Other Than Nutrition

Official transcripts will be evaluated. Certain undergraduate nutrition prerequisites (normally SCI 120, NTR 311, 502, 504, and 517) will be required in preparation for graduate study.

General Information

Students may attend the MS degree program on a full-time or part-time basis. The program is a minimum of three to four terms for full-time students. Working students and commuting students will find courses conveniently scheduled. Courses are offered during the daytime as well as evenings on a weekly, every-other-week, or weekend institute basis. Some courses are held in convenient one-credit modules. It may be possible to take two or three courses on one particular day. Courses are non-sequential, allowing students to enter the program at any point in time.

Master of Business Administration (M.B.A.)

Twenty-first century business requires competent managers and administrators – women and men with the ability to plan, inspire, and direct the work of others. The professional M.B.A. program at Sage Graduate School is designed to develop leaders who can manage complex organizations and who have the desire and capability to move into high level positions in business, industry, government, and the non-profit sector. Top management positions are well within the reach of Sage M.B.A. graduates. The Sage M.B.A. graduate has met high standards of academic preparation and they will deliver high standards of performance in their organizations.

The Sage M.B.A. is particularly tailored to professionals in the workplace. The M.B.A. program is contemporary and practitioner oriented and includes behavioral aspects of management. The faculty deliver technical, operational, and analytic knowledge and skills to students. Participants in the programs will build M.B.A. knowledge and skill in production, finance, accounting, and marketing. These areas are supported by courses in human resource management, management information systems and executive decision making. The student chooses from among specialized courses in business strategy, finance, marketing, or human services to complete the M.B.A. When combined with business experience, the Sage M.B.A. will develop leaders prepared to make effective decisions in any organization.

Admission Requirements

Applicants to the program must meet the general admission requirements for Sage Graduate School.

Program Requirements

The Sage M.B.A. requires a minimum of 36 semester hours of graduate coursework. If students do not have previous preparation in management/business, proficiency coursework may be required. To determine whether proficiency coursework is necessary, prospective students should meet with the program director. All students taking M.B.A. courses, including non-matriculants, must seek academic advisement on a regular basis by contacting the M.B.A. office at (518) 292–1700.

The Sage M.B.A. assumes a certain level of technical proficiency. The College uses MS-Office ® as the standard for electronic communication. Students should have proficiency with MS-Word ® and a working knowledge of Excel ® and Access ®. The standard statistical software used by the college is SPSS ®. Educational versions of this software are available through the College Bookstores. Most M.B.A. classes are taught in classrooms wired for internet connections. Students are encouraged to bring their own laptops.

Specialization

Sage offers four specializations of 12 credits each. Structured around areas of business strategy, finance, human resources and marketing, these specializations support the M.B.A. foundation. Each Sage M.B.A. specialization is structured to cover the knowledge and skills central to establishing competencies in the specialization chosen. Working with an advisor or program director, students select four courses from the selected area of specialization.

Joint Degree M.B.A./J.D.

Sage Graduate School offers a joint degree program with Albany Law School. Since business and law are complementary, certain courses in each are readily applicable to the other and the total number of credits needed for graduation can be reduced.

Students must meet the admission standards of both Sage Graduate School and Albany Law School. The applicant should apply for the “Joint Degree J.D./M.B.A. Sage” on both the Sage Graduate School and the Albany Law School application. All correspondence from the student should also indicate the joint degree. Each school will evaluate the application based on its own requirements and standards. No special requirements are imposed on applicants to the joint degree program, although the student may still be required to complete the Sage M.B.A. prerequisite sequence if he or she does not have the appropriate preparation.

Applicants must score well on the Law School Admission Test (LSAT) and have a bachelor's degree. Completed application forms must be filed with Albany Law School before March 15 for the fall semester. It is preferable that application to the dual program be made by the end of the first year of study at Albany Law School.

The first year of study is exclusively at Albany Law School, during which time the student should prepare a plan with both schools for completion of all requirements. The student may be able to complete all requirements in less than four years, if summers are fully utilized. Decisions regarding the various scheduling options must be made in collaboration with the student’s academic advisors.

Albany Law School requires 87 credit hours for graduation. The student must satisfy the New York Court of Appeals mandated residence requirement.

---

**Business Strategy Specialization**

Select four of the following:  
MBA 654 Labor and Industrial Relations Policy  
MBA 599 Selected Topics in Management  
MBA 679 Small Business Development  
MBA 683 New Product Development  
MBA 685 Quality Management  

**Finance Specialization**

Select four of the following:  
MBA 597 Selected Topics in Finance  
MBA 664 Investment Analysis and Portfolio Management  
MBA 665 Bank Management  
MBA 666 Financial Markets and Institutions  
MBA 667 Capital Budgeting  

**Human Resources Specialization**

Select four of the following:  
MBA 555 Administrative Organization and Behavior  
MBA 596 Selected Topics in Human Resources  
MBA 653 Compensation Administration  
MBA 655 Interpersonal and Group Communication  
MBA 656 Personal Development for Positions in Management  

**Marketing Specialization**

Select four of the following:  
MBA 582 Consumer Behavior  
MBA 598 Selected Topics in Marketing  
MBA 673 Advertising Theory and Practice  
MBA 681 Marketing Research  
MBA 684 Professional Sales Management  

**Capstone: Integrative Experience**

MBA 554 Competitive Advantage  

**Total credits for the M.B.A.:** 36-51
requirement of six semesters of full-time study, with a majority of credits in day courses. However, in the joint degree program students can satisfy the residency requirement by taking five semesters of residence in the Law School, and the remaining semester full time at Sage. Since 12 Sage credits can be utilized for the J.D. degree, the student must complete 75 credits at Albany Law School.

Full tuition will be paid at the school in which the joint degree student is registered each semester. Any additional fees required by each school must be paid. In any semester in which the student is registered in both schools, each school will bill tuition according to the courses being taken.

Registration procedures will be managed by the registrar in each school so as to accommodate the needs of the joint degree student for that semester.

Students are not eligible to take the New York State Bar Examination until the J.D. degree is awarded.

NOTE: Both Sage Graduate School and Albany Law School reserve the right to alter, amend or change both their individual and/or joint programs. Students should confirm all information.
Master of Science in Childhood Education

The School of Education is accredited by the National Council for the Accreditation of Teacher Education (http://www.ncate.org/).

Conceptual Framework

The Sage Colleges is a federation of three colleges. Sage’s School of Education offers degree programs at all three: Russell Sage College, an undergraduate college for women; Sage College of Albany, an undergraduate coeducational college; and Sage Graduate School, a coeducational graduate college. The motto of Russell Sage College, “To Be, To Know, To Do,” informs the educational purpose of The Sage Colleges, where the common effort is to translate learning into action and application, within a framework that recognizes the obligation of educated persons to lead and serve their communities. In the School of Education, this motto is extended to form the basis for our programs. We expect Sage educators, counselors, and leaders to be well-grounded in knowledge about schools/communities, learners and learning; to know curricular content and models of instruction; and to do what is necessary to ensure the success of all learners, including collaboration with families/community members in respectful, culturally responsive ways. Underlying this motto is a commitment to leadership, regardless of role. We expect Sage students to take ongoing leadership actions in order to create the optimal educational outcome for all learners.

The mission of the School of Education is to prepare highly effective educators, school counselors, and school leaders who believe in full inclusion, value diversity, and are reflective and knowledgeable about best practices. Therefore, we ask Sage students to consider two essential questions throughout their studies and field experiences: “Who am I in the lives of those with whom I work?” “Who am I in the life of my educational community?”

I. To be well-grounded in knowledge about schools/communities, learners and learning, Sage candidates will:

   understand self in relation to learners, their families and others, particularly in terms of power, privilege and knowledge with regard to culture, class, language, ability and gender;

   use collaborative attitudes and skills which result in successful partnerships with colleagues, families and other community members; improve society by promoting/modeling and using democratic practices in their settings;

   demonstrate a commitment to substantive self reflection (including quantifiable and qualitative sources of information), on-going learning and professional development;

II. To know curricular content and models of instruction, Sage candidates will:

   demonstrate an ability to respond to the strengths and needs of all learners, using assessment data to inform instructional decisions;

   use knowledge in their designated fields to inspire learners to grow and to meet high standards;

   employ/promote pedagogical practices that engage learners in active ways;

   demonstrate knowledge in their content areas ensuring maximum achievement for all learners;

III. To do what is necessary to ensure the success of all learners—and to collaborate with families/community members in respectful, culturally responsive ways, Sage candidates will:

   engage in reflective practices;

   demonstrate a positive, respectful view of learners and their families;

   listen deeply to the experiences and perspectives of all those within the community;

   model ethical behavior and active citizenship;

   promote the success of all learners through advocacy and action and support the development of leadership throughout the community.
build trust and garner support for a vision of inclusive schools that value diversity.

National Accreditation Advantage

Sage’s School of Education received accreditation from the National Council for the Accreditation of Teacher Education (NCATE) in October 2001. NCATE accreditation means that graduates are recognized as having completed an Education program that meets the highest standards in the field. Sage graduates should note the NCATE accreditation on their resumes and be prepared to talk about its significance.

- Sage is one of only 28 colleges and universities in New York State to receive prestigious NCATE accreditation. Across the nation, relatively few private colleges can claim this level of excellence in teacher education programs.
- The NCATE accreditation process helped articulate what qualities a Sage educator, counselor, or leader possesses: belief in full inclusion, valuing diversity, reflection, and knowledge about best practices. NCATE accreditation is a mark of assurance that teachers, counselors, and leaders educated at Sage are competent, caring, and highly qualified.
- NCATE accreditation means that Sage graduates are better prepared to help their students reach high standards.
- Graduates of NCATE accredited programs can more easily receive certification and teaching jobs in other states; NCATE is recognized throughout the nation.

M.S. in Childhood Education

Sage’s graduate program in Childhood Education (grades 1-6) is shaped by the conviction that theory and practice are closely interwoven. The program is designed to have a direct and positive impact on the performance of professional educators and master teachers, responding to the need for highly skilled professionals in the elementary schools, a need which will be increasingly evident in the years to come. The program combines advanced study and research with the opportunity to develop, refine, and evaluate leadership and teaching skills.

All matriculated students complete a signed program of study. Any change in stated coursework must receive written approval of the assigned faculty advisor.

Admission Requirements

See the Sage Graduate School Admission section for general requirements. Applicants for admission to the Childhood Education programs must meet the general admission requirements and must have or must complete as a part of their program, the equivalent of a bachelors’ degree in a liberal arts or science area. In addition, applicants to the Childhood Education program complete an:

- Interview with an appropriate advisor after all materials have been submitted
- Assessment of writing skills

This program is designed for candidates who hold a bachelor’s degree with substantial preparation in liberal arts, but who have little or no background in professional education. The undergraduate preparation in liberal arts should represent the minimum requirements for undergraduate students in childhood education at Sage; deficiencies may be satisfied by coursework over and above the requirements of the approved program.

Field Experience Stipend Program

The Field Experience Stipend Program is a collaborative program between The Sage Colleges and local public schools. This collaboration allows Sage to provide graduate students with coursework concurrent with opportunities to build competencies in implementing teaching approaches with children and young adults. The program is a 10 month (September-June) full-time placement in an elementary school setting. Local school districts provide a stipend to interns for the public school year. Placements are open to Sage graduate students who are matriculated in Special Education, Literacy, M.A.T. and Childhood Education programs, and are taking at least one course per semester. For more detailed information, contact Dr. Linda Davern at (518) 244-2277.

M.S. in Childhood/Literacy Education

The Master of Science (M.S.) in Childhood/Literacy Education is a dual program designed for teachers who do not have a background in education and wish to become certified in both Childhood Education and Literacy Education. The program leads to two certificates, a benefit when seeking an elementary school position. Students gain experience in educating children in grades 1 - 6. Student teaching is offered in two placements, one in the early elementary grades and the other in the upper elementary grades, and students complete a clinical sequence in literacy as well.

All matriculated students complete a signed program schedule. Any change in stated coursework must receive written approval of the assigned faculty advisor.

Admission Requirements

Applicants for admission to the Childhood/Literacy Education program must meet the general admission requirements for Sage Graduate School and must have or must complete as a part of their program, the equivalent of a bachelor’s degree in a liberal arts or science area. In addition, applicants to the Childhood/Literacy Education program complete:

- An interview with an appropriate advisor after all materials have been submitted

Underlying this motto is a commitment to leadership, regardless of role. We expect Sage students to take ongoing leadership actions in order to create the optimal educational outcome for all learners.

The mission of the School of Education is to prepare highly effective educators, school counselors, and school leaders who believe in full inclusion, value diversity, and are reflective and knowledgeable about best practices. Therefore, we ask Sage students to consider two essential questions throughout their studies and field experiences: "Who am I in the lives of those with whom I work?" "Who am I in the life of my educational community?"

I. To be well-grounded in knowledge about schools/communities, learners and learning, Sage candidates will:

- understand self in relation to learners, their families and others, particularly in terms of power, privilege and knowledge with regard to culture, class, language, ability and gender;
- use collaborative attitudes and skills which result in successful partnerships with colleagues, families and other community members; improve society by promoting/ modeling and using democratic practices in their settings;
- demonstrate a commitment to substantive self reflection (including quantifiable and qualitative sources of information), on-going learning and professional development;

II. To know curricular content and models of instruction, Sage candidates will:

- demonstrate an ability to respond to the strengths and needs of all learners, using assessment data to inform instructional decisions;
- use knowledge in their designated fields to inspire learners to grow and to meet high standards;
- employ/promote pedagogical practices that engage learners in active ways;
- demonstrate knowledge in their content areas ensuring maximum achievement for all learners;

III. To do what is necessary to ensure the success of all learners--and to collaborate with families/community members in respectful, culturally responsive ways, Sage candidates will:

- engage in reflective practices;
- demonstrate a positive, respectful view of learners and their families;
- listen deeply to the experiences and perspectives of all those within the community;
- model ethical behavior and active citizenship;
- promote the success of all learners through advocacy and action and support the development of leadership throughout the community.
- build trust and garner support for a vision of inclusive schools that value diversity.

M.S. in Community Health Education

http://catalog.sage.edu/06-07sgs.php
The Master of Science (M.S.) program in Community Health Education is designed to prepare students to work as health educators in community settings. Students are employed in not-for-profit organizations (e.g., YMCA, American Diabetes Association, Planned Parenthood), state and local health agencies and organizations, and hospitals. The Community Health Education program allows health educators and physical educators to complete the master’s degree necessary for permanent or professional certification, and offers those already working in related areas such as dietetics or nursing an opportunity to share their expertise in the community setting.

The Community Health Education program is designed to address the increased interest in wellness in the workplace and community. There is rising demand for educators to work in agencies and organizations that promote health and fitness, including corporate fitness programs, managed care organizations, and hospital and community-based health care settings. For many teachers who must complete a master’s degree for certification, especially physical educators, the Community Health Education program provides a master’s degree that does not require a semester of student teaching. Instead, Community Health Education students complete a practicum in a community health setting. The practicum is arranged during evening hours, on weekends, or in the summer, allowing full-time teachers to meet certification requirements without leaving their teaching position.

All matriculated students complete a signed program schedule. Any change in stated coursework must receive written approval of the assigned faculty advisor.

Admission Requirements

In addition to the general admission requirements for Sage Graduate School, students must complete:

- the following prerequisite courses and/or experiences:
  - Anatomy and Physiology (grade C or better), and Human Development (grade C or better) OR Developmental Psychology
  - an assessment of written expression and critical analysis skills.

Electronic Portfolio

The School of Education requires all students to subscribe to LiveText, an electronic portfolio system.
Master of Arts in Community Psychology

This 39-42 credit Master of Arts in Community Psychology focuses on the systems, practices and tools needed to effectively address mental health and community welfare issues.

The goals of the program are to:

- Reorient the student's thinking from individually-focused to more community-focused and systems-oriented models
- Train the student in a variety of prevention and intervention strategies to facilitate alteration of behavior in community settings
- Train the student to evaluate the progress of social service, educational, and other helping programs
- Provide the student with evaluation, assessment, and consultation skills.

Students may pursue a General Track or focus their studies by selecting tracks in either Children's Services or Community Health Education. Certificate programs in Gerontology or Palliative Care are available to Community Psychology students through the Sage Department of Nursing. Course schedules are flexible and include evening and weekend options to meet the needs of working students. Note: Admission to the New York State psychologist licensure examination requires a Ph.D. in psychology. Program Design: The program consists of a community psychology core, required for all students, combined with one track selected from three available: general track, child care/children's services track, or community health education track. The admission and completion requirements may vary depending upon the track selected.

Admission Requirements

Applicants for admission to the community psychology program must meet the general admission requirements:

1. For all tracks:
   1. Official transcripts of ALL previous undergraduate/graduate study.
   2. Two letters of reference (academic or professional).
   3. Undergraduate courses in statistics, history and systems of psychology (not required for undergraduate psychology majors), and at least three other courses in behavioral sciences.
   4. Satisfactory "Personal Prospectus" statement regarding rationale for interest in the program.
   5. Current Resume

2. In addition, for specific tracks:
   1. For child care and children's services track: one year of experience in a child care agency and 24 undergraduate credits in psychology including statistics, and history and systems of psychology.
   2. For general track and community health education track, there are no additional admission requirements.

Applicants who meet all admission requirements will be admitted as regular graduate students. Those who do not fully meet the requirements may be admitted on a provisional basis if they show high promise for success in the program.

Degree Requirements

1. Completion of all required and elective courses.
2. Completion of externship in community settings.
3. Completion of a thesis (3-6 credit hours) or research seminar (3 credit hours).

Master of Arts in Counseling and Community Psychology

This 60-credit program addresses expected competencies for mental health counselors working with individuals, groups and/or families. The program has been registered w/ New York State Education Department as meeting the educational qualifications leading to licensure as a Mental Health Counselor in New York State. Students learn how to provide evaluation, assessment, treatment and consultation services in community agencies serving adults, children and families.

Students enrolled in the Counseling and Community Psychology Masters Program may also elect to pursue a Certificate in Forensic Psychology, through the Psychology Department, or a Certificate in Gerontology or Palliative Care (contact the Nursing Department for further information on these certificates).

Admission Requirements

In addition to the general admission requirements for Sage Graduate School, applicants must:

- have a minimum undergraduate GPA 3.0 for regular admission to the program.
- have completed undergraduate courses in Social Science Statistics and History & Systems of Psychology (not required for undergraduate psychology majors)
- have taken at least three undergraduate courses in Behavioral Sciences (for non-psychology majors)
- schedule an interview with the Graduate Program Director, following submission of all application materials.

Degree Requirements

1. Completion of all required and elective courses (60 credit hours).
2. Completion of an externship and two internships in community settings (3 credit hours each). All placements are after the completion of 45 credit hours.
3. Completion of a thesis (3 credit hours) or research seminar (3 credit hours).

Program Summary  Credit Hours

All courses are three (3) credits

Total degree credit hours: 60

I. Core Counseling Requirements

| PSY 571   | Counseling                        |
| PSY 567   | Group Counseling Dynamics         |

In addition to the above course requirements, student are expected to:

- achieve a grade of B or better in all Core Counseling Requirements.
- demonstrate effective professional behavior, including effective interpersonal skills, sound judgement and ethical behavior.
- complete workshop on Identifying and Reporting Child Abuse Maltreatment, or the equivalent (offered through The Sage Education Department as NCR 070).
Post–Baccalaureate
Certificate in Nursing

Advanced Certificate Program in Counseling for Nurses
Changes in society as well as in the health care system result in increased stress to the population in general and more specifically to health care consumers. Consequently, counseling is often needed for assistance in coping with these changes and stressors. Since nurses are key health care providers throughout the health care system, they can provide this needed counseling with additional knowledge and skills beyond their baccalaureate preparation.

This 15-credit program provides an opportunity for nurses working in a variety of settings (hospice, schools, nursing homes, and other community agencies; in-patient and out-patient psychiatric facilities; and general hospitals) and with different age groups (child, adolescent, adult and aged) to increase their learning and skills in counseling individuals, groups, and families. Nurses can help counsel clients and families to promote mental health in resolving losses and other crises, to adjust to and cope with acute and chronic health challenges, and to deal with mental health issues.

Admission Requirements:
The general admission requirements for Sage Graduate School (see page 4) must be followed. An interview with the Director of the Graduate Program in Nursing is recommended.

Admission Criteria:
- Registered nurses with a baccalaureate degree. If the degree is not nursing, then the required upper department level nursing courses (12 credits maximum) which are comparable to baccalaureate nursing must be taken prior to admission.
- GPA of baccalaureate program must be at least 2.75 GPA. Probationary admission is possible if GPA lower. Probationary is changed to regular admission if first course taken is at least a “B”.
- Two letters of recommendation.
- Career goals statement.

For further information contact the Graduate Program in Nursing at 518-244-2384 or email nursing@sage.edu.

*Required courses in psychiatric-mental health

Master’s of Nursing

Total Credits Hours Required: 15

Since the above courses are included in the master’s of nursing, students can pursue their studies in the master’s psychiatric-mental health nursing track. (Even the 80 hours of practicum can be applied to the total required for the master’s.) If students wish to pursue other nursing program areas for the master’s, nine credits plus the practicum hours can be applied.
Dietetic Internship

Type of Program

Registered Dietitians in the Capital District of New York State and faculty of Sage Graduate School have combined efforts to provide a Dietetic Internship (DI) for students who have successfully completed an accredited American Dietetic Association (ADA) didactic program in dietetics (DPD). Successful candidates for the program qualify to take the registration examination to earn “R.D.” status. Classes begin in late August of each year, and the supervised practice experience is typically completed in late June of the following year.

Philosophy

Dietetics is a profession undergoing many changes as a result of the expanding health care industry, emergence of the obesity epidemic, a new era of nutritional genetics, and reimbursement for medical nutrition therapy (MNT). The Dietetic Internship at Sage Graduate School prepares nutrition students for the future. In this program, students are exposed to the variety and diversity of dietetic practice through planned experiences in multiple settings. Drawing upon the resources and professionals in the Capital District, students work with Registered Dietitians in traditional hospital practice, long-term care facilities, outpatient clinics, government food management programs, and other settings.

With an understanding that learning has theoretical underpinnings, the program also requires students to concurrently complete five graduate classes for 15 credits. Students may choose to apply the graduate coursework to graduate degree programs at Sage Graduate School. Students have access to the Albany Medical College library and The Sage Colleges’ library, periodicals, computers, seminars, and visiting lecturers for further academic development. Thus, the diversity of planned experiences and locations combined with the academic enrichment will serve to position the graduate for a variety of career choices as well as for beginning their graduate education.

Program Goals

It is the expectation of the Sage Graduate School Dietetic Internship that 100 percent of graduates will achieve the first seven goals prior to completion of this program, and that the last goal will be obtained throughout their professional career.

- Graduates will be prepared for an entry-level position in dietetics, and at least 95 percent of graduates will satisfactorily complete the registration examination administered by the Commission on Dietetic Registration.
- Interns will demonstrate the ability to think critically, analytically, and progressively when seeking solutions to practice related issues.
- Interns will possess the aptitude to actively participate as a health care team member.
- Interns will have the capability to impact the legislative and political process.
- Interns will effectively utilize technology in the practice of dietetics.
- Interns will display the capability to conduct research for specific applications in dietetics, such as quality management and outcomes management.
- Graduates will exhibit effective oral and written communication skills.
- Alumni will apply the concept of lifelong learning as a personal and professional obligation for the practice of dietetics.

ADA Accreditation Status

The Sage Graduate School Dietetic Internship is currently granted accreditation by the Commission on Accreditation for Dietetics Education of the American Dietetic Association, 120 South Riverside Drive – Suite 2000, Chicago, IL 60606-9431, (312) 899-0040 x5400. On April 22, 1995, the Commission on Accreditation for Dietetics Education (CADE) of The American Dietetic Association granted a change in status for the Capital Region of New York State Approved Pre-professional Practice Program at Sage Graduate School to developmental accreditation of the Sage Graduate School Dietetic Internship through December 1999. The Dietetic Internship at Sage Graduate School received full accreditation in July 1999. The program may accept up to 16 interns per class.

CADE is the only accrediting agency for dietetics education recognized by the United States Department of Education (USDE) and is affiliated with the Council for Higher Education Accreditation (CHEA). The address and telephone number of CADE are: 120 South Riverside Plaza, Suite 2000, Chicago, IL. 60606-6995, 312-899-4876. Sage Graduate School of The Sage Colleges is accredited by the Middle States Association of Colleges and Secondary Schools and is chartered by the Board of Regents of the University of the State of New York.

Program Format

The Dietetic Internship integrates five graduate courses with more than 1,000 hours of supervised practice experience in a variety of settings within a 50-mile radius of Albany and Troy, N. Y. The program generally follows the Sage Graduate School academic calendar. The experience component includes two weeks of orientation, 13 weeks for clinical, 13 weeks for food service management, and seven weeks
for community nutrition. Field trips and attendance at the New York State Dietetic Association Annual Meeting are also included.

For a list of affiliate institutions, please click here.

**Full Time:** Students attend the supervised practice four days per week for a total of 32 hours per week in the field. Two graduate courses are taken each during the fall and spring terms, and one course is taken during summer session I. The internship director is available for advisement about graduate coursework.

**Part Time:** The internship may be completed on a part-time basis. Part-time participants complete approximately 20 hours of supervised practice per week plus one or two graduate courses each semester. The part-time schedule takes two years to complete all requirements. The DI director works with each part-time intern to arrange the practical experience schedule. One graduate course is taken in the fall semester and continued in the spring semester of the first year. One graduate course is taken in Summer Session I of the first year. Two graduate courses are taken in the fall semester of the second year. One course is taken in the spring semester of the second year.

**Practicum Course Waiver**

In 1994, the American Dietetic Association revised their standards of education for Dietetic Internships to allow credit for prior learning experience toward the supervised practical experience hours. Based on the ADA’s standards of education with corresponding criterion and guidelines, Sage Graduate School has approved a program which enables interns to waive a portion (from 1 to 9 credits) of the Dietetic Internship. Graduate credit will not be awarded; rather, students will be able to complete the program in less time by receiving a waiver for up to three of the three practicum courses: NTR 530 Practicum/Clinical Nutrition; NTR 531 Practicum/Food Service Systems Management; and NTR 532 Practicum/Community Nutrition I. Due to the broad nature of these three courses, it is expected that individuals will rarely meet the criteria to waive all three practicum courses. The waiver option offers a creative and flexible opportunity for non-traditional students and those with extensive experience in nutrition and dietetics practice to complete the Dietetic Internship in a modified format.

Applicants are encouraged to discuss this process with the DI director and submit the Practicum Course Waiver Application* and the portfolio(s) with Dietetic Internship application.

*Practicum Course Waiver Application

**Program Expectations**

Students of the Dietetic Internship will be required to fulfill five program components. Three of the five components are supervised practice experiences and staff relief in:

- Administrative Dietetics (one semester- Fall or Spring)
- Clinical Dietetics (one semester- Fall or Spring)
- Community Dietetics (Summer Session I)

Successful completion of the supervised practice experiences includes the ability to demonstrate entry-level competence in each of the areas of practice. Students are evaluated by facility mentors as well as the DI director. Tools utilized to evaluate entry-level competencies include, but are not limited to: assignments, quizzes, observation during supervised practice experiences, and a final exam. The internship director reserves the right to have students repeat rotations where objectives and competencies have not been met.

The fourth component is the successful completion of five graduate courses, which are integrated with the practical experience, with an average of “B” or better. The option of completing a master’s degree would require that the student coordinate the graduate program with a specific graduate department advisor.

The final component is the successful completion of a comprehensive examination, which simulates the registration examination, with a minimum grade of 70 percent correct.

All five components must be successfully completed to receive a verification statement and qualify for the registration examination. For additional details on program expectations, please click here.

**Admission Requirements**

Students must meet Dietetic Internship requirements and, if appropriate, the requirements for matriculation into Sage Graduate School. Requirements are:

- A baccalaureate degree.
- Completion of an accredited American Dietetic Association (ADA) didactic program in dietetics (DPD) with a verification statement form signed by the undergraduate dietetic program director.
- Overall GPA of 2.75, GPA in Nutrition related courses of 3.0.
- Recency of education: Additional coursework in dietetics or a related area is required to update a degree which was completed four or more years prior to applying to the Dietetic Internship. A minimum of three courses, equivalent to the following Russell Sage College nutrition science courses NTR 404, NTR 415, and NTR 417, are required for degrees completed four or more years...
prior to completing this application.

- Factors considered for admission are recommendation letters, relevant work and/or volunteer experience, extracurricular activities and letter of application. Applicants are considered on the basis of qualifications, without regard to race, color, creed, sex, or national origin.

NOTE: Nutrition degrees meeting ADA’s Plan IV didactic requirements are no longer valid and require a more extensive recency of education.

**Application Process**

Application materials may be downloaded from: ADA application, Waiver and Recommendation Form or requested from:

Office of Graduate Admission  
Sage Graduate School  
The Sage Colleges  
45 Ferry St., Troy, NY 12180–4115  
OR call 1-888-VERYSAGE

Application postmark deadline for the traditional Dietetic Internship 2007-2008 class is on February 15, 2007. Students will be notified of their acceptance status on April 16, 2007 via the computer matching process, from D&D Digital, Inc.

The application package must include:

- DI application form, plus 2 copies.  
- Three letters of recommendation, plus 2 copies of each.  
- Official copies of ALL college transcripts.  
- Verification Statement or Declaration of Intent with original signature.  
- A letter of application, plus 2 copies.  
- An interview with the DI director, either in person or via telephone, may be required.  
- $40 application fee (fee is waived for current RSC students and graduates of The Sage Colleges).

Please click link for details on the application process and ADA application procedures.

**Program Tuition and Fees**

In addition to tuition for 15 graduate credits, there is a Dietetic Internship program fee. A car and valid driver's license are required as travel to facilities is necessary. Students have housing, board and transportation expenses, parking fees, ADA affiliate and district membership fees, and professional liability and health insurance fees. Professional dress clothes, lab coat, and reference books and materials for graduate courses is also necessary for the planned experiences.

Click here for current tuition and fees

Certificate in Forensic Psychology

A graduate Certificate in Forensic Psychology is offered for students enrolled in the MA in Counseling and Community Psychology. This certificate provides students with knowledge in psychology and the workings of the justice system in order to better assist decision makers in forensic settings. Forensic psychology as a research and application specialization in the field of psychology emerges from understanding of theories of counseling, consultation, and the role of community and institutional structures within the legal and mental health systems. This multidisciplinary area of study is closely allied with the fields of criminal justice, sociology, and the law. Students in the M.A. in Counseling and Community Psychology who pursue this certificate gain a knowledge base in forensic psychology that equips them to work in forensic settings.

INSTITUTE FOR PALLIATIVE CARE

Certificate in Gerontology

The certificate program in Gerontology incorporates a multidisciplinary approach to the study of aging, including policies developed and services offered to meet the needs of the elderly in our society. The curriculum blends liberal studies and professional orientations.

The purpose of the program is to provide the formal study of aging and older adults. The goals of the program are as follows:

- Increase students’ knowledge of the aging process,
- Enhance students’ understanding of aging as a developmentally appropriate and expected part of the universal human experience,
- Broaden students’ awareness of and attitudes toward older adults,
- Offer students the basic knowledge and skills that underlie providing services to, and enhancing opportunities, for older adults,
- Provide opportunities for students to interrelate knowledge, experience, and professional application regarding services for older adults.

The Gerontology program encourages students to develop a broad view of aging for professional applications. Upon completion of the program, students will have an excellent foundation in providing services for older adults, working in the fields of policy planning or administration of services for older adults, and working in various health care professions with older adults.

Admission Requirements

Applicants to the Gerontology program must meet Sage Graduate School admission requirements.

Program Requirements

The Gerontology certificate program provides a formal course of the study of aging and older adults. The program is a sequence of four core courses (3 credits each) and a final project (3 credits) for a total of 15 credits. Courses may be used as electives in existing graduate degree programs at Sage, according to the requirements of the particular program. In addition, the certificate program is a concentration in a Master of Science in Health Services Administration.

Master of Science and Post Master's Certificate in Guidance and Counseling

The School of Education is accredited by the National Council for the Accreditation of Teacher Education (http://www.ncate.org/).

Conceptual Framework

The Sage Colleges is a federation of three colleges. Sage's School of Education offers degree programs at all three: Russell Sage College, an undergraduate college for women; Sage College of Albany, an undergraduate coeducational college; and Sage Graduate School, a coeducational graduate college. The motto of Russell Sage College, “To Be, To Know, To Do,” informs the educational purpose of The Sage Colleges, where the common effort is to translate learning into action and application, within a framework that recognizes the obligation of educated persons to lead and serve their communities. In the School of Education, this motto is extended to form the basis for our programs. We expect Sage educators, counselors, and leaders to be well-grounded in knowledge about schools/communities, learners and learning; to know curricular content and models of instruction; and to do what is necessary to ensure the success of all learners, including collaboration with families/community members in respectful, culturally responsive ways. Underlying this motto is a commitment to leadership, regardless of role. We expect Sage students to take ongoing leadership actions in order to create the optimal educational outcome for all learners.

The mission of the School of Education is to prepare highly effective educators, school counselors, and school leaders who believe in full inclusion, value diversity, and are reflective and knowledgeable about best practices. Therefore, we ask Sage students to consider two essential questions throughout their studies and field experiences: “Who am I in the lives of those with whom I work?” “Who am I in the life of my educational community?”

I. To be well-grounded in knowledge about schools/communities, learners and learning, Sage candidates will:

- understand self in relation to learners, their families and others, particularly in terms of power, privilege and knowledge with regard to culture, class, language, ability and gender;
- use collaborative attitudes and skills which result in successful partnerships with colleagues, families and other community members; improve society by promoting modeling and using democratic practices in their settings;
- demonstrate a commitment to substantive self reflection (including quantifiable and qualitative sources of information), on-going learning and professional development;

II. To know curricular content and models of instruction, Sage candidates will:

- demonstrate an ability to respond to the strengths and needs of all learners, using assessment data to inform instructional decisions;
- use knowledge in their designated fields to inspire learners to grow and to meet high standards;
- employ/promote pedagogical practices that engage learners in active ways;
- demonstrate knowledge in their content areas ensuring maximum achievement for all learners;

III. To do what is necessary to ensure the success of all learners—and to collaborate with families/community members in respectful, culturally responsive ways, Sage candidates will:

- engage in reflective practices;
- demonstrate a positive, respectful view of learners and their families;
- listen deeply to the experiences and perspectives of all those within the community;
- model ethical behavior and active citizenship;
- promote the success of all learners through advocacy and action and support the development of leadership throughout the community.
build trust and garner support for a vision of inclusive schools that value diversity.

Guidance and Counseling Certification

The Master of Science (M.S.) program in Guidance and Counseling prepares counselors for New York State certification as School Counselors. The program is designed to develop specific areas of competency in human growth and development; social and cultural foundations; helping relationships; groups; career development; appraisal; research and evaluation; and professional orientation.

The program prepares school counselors to:

- help elementary and secondary pupils gain understanding of their social, intellectual, and emotional development,
- be knowledgeable about educational, occupational, and social opportunities,
- have decision-making and planning skills,
- communicate effectively with school personnel, parents, and particularly with students, about issues that facilitate or inhibit personal planning, self-esteem, achievement, and choice.

The collaboration between Sage's Psychology and Education programs ensures that students receive a solid foundation in both. Cooperative planning in program development and administration ensures that students get a solid foundation in psychology, including counseling and human development, as well as education, including special populations (handicapped and gifted), teaching, learning, and the organization of schools. The elementary education orientation of many education faculty members also contributes toward preparing counselors to work with elementary pupils.

Graduates of the Guidance and Counseling program have demonstrated that they are ready to assume a role that is central, rather than peripheral, to teaching and learning in the schools; to involve parents in the choices, plans, decisions, and learning activities of the students; and to view guidance and counseling in a framework that is developmental and comprehensive, from kindergarten through 12th grade.

After completing their M.S. degree, school counselors seeking to earn New York State permanent certification are encouraged to enroll in the program’s 12-credit post master’s certificate program.

All matriculated students complete a signed program schedule. Any change in stated coursework must receive written approval of the assigned faculty advisor.

Admission Requirements

Candidates for admission to the Master of Science program in Guidance and Counseling should schedule an interview after all written materials have been submitted. See the Sage Graduate School admission requirements for more information.

Degree and Certification Requirements

New York State presently requires successful completion of 30 hours of graduate study and a supervised internship for provisional certification as a school counselor. This certification is valid for five years. Permanent certification requires further graduate study through completion of a total of 60 credits in guidance and counseling, attainment of the master’s degree and two years of relevant experience.

- Applicants for New York State certification will have to be fingerprinted and undergo a criminal history review, per New York State Law.
- United States citizenship or Declaration of Intent to become a U.S. citizen is a requirement for certification in New York State.
- The School of Education requires all students to subscribe to LiveText, an electronic portfolio system.

Program Prerequisites

Nine credits in social science, a course in statistics, EDU 201 or other educational foundations course, and PSY 570 or other developmental psychology course are prerequisites to the program.

Master of Science in Health Services Administration

The health services industry is now the third largest employer in the nation. According to the U.S. Department of Labor, the professional field of health services administration will be ranked among the top 10 occupations by percentage increase in employment during the 21st century. Both nationally and regionally, there are numerous opportunities for health service administrators in hospitals, nursing homes, hospices, health maintenance organizations, home care agencies, hospital associations, health insurance companies, managed care companies and governmental health planning and regulatory agencies. Sage’s Master of Science in Health Services Administration has been designed to prepare health services managers to meet the diverse needs of this rapidly expanding field.

The multidisciplinary design of the program reflects the faculty’s conviction that health managers must be prepared for widely varying roles. The program also reflects content recommended by senior managers in the health care field. The program at Sage prepares Health Services Administration students to assume management responsibilities that span a number of departments in an agency, hospital, long-term care facility, clinic, or other health care organization. The program provides an opportunity to gain expertise in more specific responsibilities. Sage M.S. H.S.A. graduates have accepted a variety of roles in health services organizations, some management and some that combine management and clinical practice. The program prepares students for both career paths.

Core courses offer the inservice health administrator - or the student learning to become one - a comprehensive set of managerial and analytical skills, which will improve problem solving, human relations, finance and budgeting, program planning and analysis capabilities. The program also presents the most current content in managed care and health care marketing.

Admission Requirements

Applicants to the program must meet the general admission requirements for Sage Graduate School.

Options for Specialization

Students may choose to complete the Health Services Administration program with a track in Dietetic Internship or Gerontology (total credits are listed below). For further information about the Dietetic Internship track, contact Melodie Bell-Cavallino, program director for the Dietetic Internship, at (518) 244-2075. For further information about the Gerontology track, contact Dr. Barbara Pieper, program director for Gerontology, at (518) 244-3150.

Master of Science in Literacy/Special Education (Childhood)

The School of Education is accredited by the National Council for the Accreditation of Teacher Education (http://www.ncate.org/).

Conceptual Framework

The Sage Colleges is a federation of three colleges. Sage's School of Education offers degree programs at all three: Russell Sage College, an undergraduate college for women; Sage College of Albany, an undergraduate coeducational college; and Sage Graduate School, a coeducational graduate college. The motto of Russell Sage College, “To Be, To Know, To Do,” informs the educational purpose of The Sage Colleges, where the common effort is to translate learning into action and application, within a framework that recognizes the obligation of educated persons to lead and serve their communities. In the School of Education, this motto is extended to form the basis for our programs. We expect Sage educators, counselors, and leaders to be well-grounded in knowledge about schools/communities, learners and learning; to know curricular content and models of instruction; and to do what is necessary to ensure the success of all learners, including collaboration with families/community members in respectful, culturally responsive ways. Underlying this motto is a commitment to leadership, regardless of role. We expect Sage students to take ongoing leadership actions in order to create the optimal educational outcome for all learners.

The mission of the School of Education is to prepare highly effective educators, school counselors, and school leaders who believe in full inclusion, value diversity, and are reflective and knowledgeable about best practices. Therefore, we ask Sage students to consider two essential questions throughout their studies and field experiences: "Who am I in the lives of those with whom I work?" "Who am I in the life of my educational community?"

I. To be well-grounded in knowledge about schools/communities, learners and learning, Sage candidates will:

- understand self in relation to learners, their families and others, particularly in terms of power, privilege and knowledge with regard to culture, class, language, ability and gender;
- use collaborative attitudes and skills which result in successful partnerships with colleagues, families and other community members; improve society by promoting modeling and using democratic practices in their settings;
- demonstrate a commitment to substantive self reflection (including quantifiable and qualitative sources of information), on-going learning and professional development;

II. To know curricular content and models of instruction, Sage candidates will:

- demonstrate an ability to respond to the strengths and needs of all learners, using assessment data to inform instructional decisions;
- use knowledge in their designated fields to inspire learners to grow and to meet high standards;
- employ/promote pedagogical practices that engage learners in active ways;
- demonstrate knowledge in their content areas ensuring maximum achievement for all learners;

III. To do what is necessary to ensure the success of all learners--and to collaborate with families/community members in respectful, culturally responsive ways, Sage candidates will:

- engage in reflective practices;
- demonstrate a positive, respectful view of learners and their families;
- listen deeply to the experiences and perspectives of all those within the community;
- model ethical behavior and active citizenship;
- promote the success of all learners through advocacy and action and support the development of leadership throughout the community.
- build trust and garner support for a vision of inclusive schools that value diversity.
National Accreditation Advantage

Sage’s School of Education received accreditation from the National Council for the Accreditation of Teacher Education (NCATE) in October 2001. NCATE accreditation means that graduates are recognized as having completed an Education program that meets the highest standards in the field. Sage graduates should note the NCATE accreditation on their resumes and be prepared to talk about its significance.

- Sage is one of only 28 colleges and universities in New York State to receive prestigious NCATE accreditation. Across the nation, relatively few private colleges can claim this level of excellence in teacher education programs.
- The NCATE accreditation process helped articulate what qualities a Sage educator, counselor, or leader possesses: belief in full inclusion, valuing diversity, reflection, and knowledge about best practices. NCATE accreditation is a mark of assurance that teachers, counselors, and leaders educated at Sage are competent, caring, and highly qualified.
- NCATE accreditation means that Sage graduates are better prepared to help their students reach high standards.
- Graduates of NCATE accredited programs can more easily receive certification and teaching jobs in other states; NCATE is recognized throughout the nation.

M.S. in Literacy/Special Education (Childhood)

The dual masters in Literacy/Special Education (Childhood) is intended for teachers who are already certified in elementary education or childhood education. This degree prepares teachers to effectively serve students with disabilities and reading difficulties and is intended to prepare teachers to serve as consultant teachers.

One of the goals of this program is to help diminish the artificial distinctions between teachers of disabled and non-disabled students. Another goal of the program is to prepare expert consultant teachers. In this model, the student with disabilities is not removed from the regular class to be served full time in a self-contained class or part time in a “resource” room. The consulting teacher, trained to work with students with disabilities in the regular classroom, collaborates with the regular classroom teacher to accommodate the child’s needs in the regular program and also delivers instruction in the regular classroom, either individuals or in small instructional groups.

The program at Sage is relatively small, allowing faculty and students to work closely together. This advisor/student relationship begins when a faculty advisor and a student meet to develop a program tailored to meet the student’s educational needs and continues through all the student’s coursework, culminating in a project and portfolio.

All matriculated students complete a signed program schedule. Any change in stated coursework must receive written approval of the assigned faculty advisor.

Admission Requirements

Applicants to the Literacy/Special Education (Childhood) program must meet general admission requirements for Sage Graduate School and must be current certified teachers. In addition, applicants to the Literacy/Special Education program complete an:

- Interview with an appropriate advisor after all materials have been submitted
- Assessment of writing skills

The School of Education requires all students to subscribe to LiveText, an electronic portfolio system.

Field Experience Stipend Program

The Field Experience Stipend Program is a collaborative program between The Sage Colleges and the local public schools. This collaboration allows Sage to provide graduate students with coursework concurrent with opportunities to build competencies in implementing teaching approaches with children and young adults. The program is a 10 month (September-June) full-time placement in an elementary school setting. Local school districts provide a stipend to interns for the public school year. Placements are open to Sage graduate students who are matriculated in Special Education, Literacy, and Childhood Education programs, and are taking at least one course per semester of the Field Experience Program. For more detailed information, contact the field experience coordinator in the School of Education at (518) 244-2277.
Master of Science in Literacy Education

The School of Education is accredited by the National Council for the Accreditation of Teacher Education (http://www.ncate.org/).

Conceptual Framework

The Sage Colleges is a federation of three colleges. Sage's School of Education offers degree programs at all three: Russell Sage College, an undergraduate college for women; Sage College of Albany, an undergraduate coeducational college; and Sage Graduate School, a coeducational graduate college. The motto of Russell Sage College, "To Be, To Know, To Do," informs the educational purpose of The Sage Colleges, where the common effort is to translate learning into action and application, within a framework that recognizes the obligation of educated persons to lead and serve their communities. - NCATE accreditation means that Sage graduates are better prepared to help their students reach high standards.
- Graduates of NCATE accredited programs can more easily receive certification and teaching jobs in other states; NCATE is recognized throughout the nation.

**M.S. in Literacy Education**

Reading, writing, listening, and speaking are communication skills all persons must possess to fully participate in our society. Recent state mandated curriculum guidelines have overwhelmingly endorsed the integration of the language arts and also reaffirmed the critical importance of meaningfulness in learning. Despite these emphases on developing active, strategic readers and writers, difficulties in reading and/or writing all too frequently preclude advancement in academic areas as well as growth in personal areas. Given the increased use of statewide literacy assessments and the societal demands for citizens prepared for a technological world, the need for teachers who understand the reading and writing processes and their applications to learning has never been greater.

Sage’s graduate literacy programs prepare master's level teachers for developmental and remedial literacy instruction. It refines teachers’ theoretical and practical knowledge about reading and writing, enabling them to provide classroom reading instruction which is appropriate for students reading at, above, or slightly below grade level. Additionally, through extensive coursework and practica, it prepares teachers to become literacy specialists who are highly proficient in the diagnosis and remediation of severe reading and writing difficulties.

Sage’s graduate literacy programs foster a close working relationship between students and faculty. This relationship begins when a faculty advisor and student meet to develop a plan of study tailored to the student’s personal educational needs. It continues through the entire program of study, culminating in the seminar in which the student pursues an in–depth study in the field of reading and/or writing under the direction and supervision of the faculty advisor.

The Literacy program is designed for:

- Candidates who possess or meet the requirements for New York State provisional or initial certification and who seek professional certification in literacy for grades K–6 and the master’s degree.
- Candidates who possess or meet the requirements for New York State provisional or initial certification and who seek professional certification in literacy for grades 5–12 and the master’s degree.

All matriculated students complete a signed program of study. Any change in stated coursework must receive written approval of the assigned faculty advisor.

**Admission Requirements**

Applicants must meet the general admission requirements for Sage Graduate School. In addition, applicants meet with a faculty advisor after all materials have been submitted.

Management Certificate Programs

In addition to the Master of Business Administration (M.B.A.), Sage Graduate School offers three distinct certificate programs: Human Resources, Managing Not-for-Profit Organizations, and Marketing. These certificates provide students with the specific tools necessary to compete in today’s marketplace. Completion of each certificate program requires five complementary courses necessary to build the skills and insight within each discipline. The five certificate courses may be used as electives in the M.B.A. degree program.

Master of Arts in Teaching

The School of Education is accredited by the National Council for the Accreditation of Teacher Education (http://www.ncate.org/).

Conceptual Framework

The Sage Colleges is a federation of three colleges. Sage's School of Education offers degree programs at all three: Russell Sage College, an undergraduate college for women; Sage College of Albany, an undergraduate coeducational college; and Sage Graduate School, a coeducational graduate college. The motto of Russell Sage College, “To Be, To Know, To Do,” informs the educational purpose of The Sage Colleges, where the common effort is to translate learning into action and application, within a framework that recognizes the obligation of educated persons to lead and serve their communities. In the School of Education, this motto is extended to form the basis for our programs. We expect Sage educators, counselors, and leaders to be well-grounded in knowledge about schools/communities, learners and learning; to know curricular content and models of instruction; and to do what is necessary to ensure the success of all learners, including collaboration with families/community members in respectful, culturally responsive ways. Underlying this motto is a commitment to leadership, regardless of role. We expect Sage students to take ongoing leadership actions in order to create the optimal educational outcome for all learners.

The mission of the School of Education is to prepare highly effective educators, school counselors, and school leaders who believe in full inclusion, value diversity, and are reflective and knowledgeable about best practices. Therefore, we ask Sage students to consider two essential questions throughout their studies and field experiences: “Who am I in the lives of those with whom I work?” “Who am I in the life of my educational community?”

I. To be well-grounded in knowledge about schools/communities, learners and learning, Sage candidates will:

- understand self in relation to learners, their families and others, particularly in terms of power, privilege and knowledge with regard to culture, class, language, ability and gender;
- use collaborative attitudes and skills which result in successful partnerships with colleagues, families and other community members; improve society by promoting modeling and using democratic practices in their settings;
- demonstrate a commitment to substantive self reflection (including quantifiable and qualitative sources of information), on-going learning and professional development;

II. To know curricular content and models of instruction, Sage candidates will:

- demonstrate an ability to respond to the strengths and needs of all learners, using assessment data to inform instructional decisions;
- use knowledge in their designated fields to inspire learners to grow and to meet high standards;
- employ/promote pedagogical practices that engage learners in active ways;
- demonstrate knowledge in their content areas ensuring maximum achievement for all learners;

III. To do what is necessary to ensure the success of all learners—and to collaborate with families/community members in respectful, culturally responsive ways, Sage candidates will:

- engage in reflective practices;
- demonstrate a positive, respectful view of learners and their families;
- listen deeply to the experiences and perspectives of all those within the community;
- model ethical behavior and active citizenship;
- promote the success of all learners through advocacy and action and support the development of leadership throughout the community;
- build trust and garner support for a vision of inclusive schools that value diversity.

M.A.T. Programs

The M.A.T. program leads to certification in grades K - 12 in Art education and in adolescence (grades 7-12) education in Biology, English, Mathematics and Social Studies. In each of these five areas, candidates complete 12 credits of coursework in their discipline at the graduate level. 12 credits of pedagogy and 6 credits of internship or student teaching. Candidates may elect to complete the program in one full time year or may complete the program part-time in two years or longer.

All matriculated students complete a signed program of study. Any change in stated coursework must receive written approval of the assigned faculty advisor.
Admission Requirements

Applicants must meet Sage Graduate School general admission requirements. In addition, applicants must have a 2.75 overall GPA and a 3.0 GPA (on a 4.0 scale) in their undergraduate major, which must correspond to the certificate area.

- One of the required letters of reference must be from a professor in the student’s chosen field of study.
- Applicants must complete an assessment of writing skills.

Student transcripts are evaluated relative to the appropriate NYS Content Learning Standards. If a student lacks depth or breadth in a particular area, s/he will be required to complete additional graduate or undergraduate coursework to address the deficiency. It is important to note that the 12 credits of content study included in each M.A.T. are specifically designed to strengthen graduate students’ content knowledge relative to the Learning Standards. Prerequisite courses may be completed at the undergraduate or graduate level, or through CLEP.

Internship or Student Teaching

Candidates completing the program in one year will complete an academic year internship at two levels (half a year in each): grades 7 - 9 and grades 10 - 12, or in Art, in grades K - 6 and 7 - 12. Candidates completing the program on a part-time basis have the option of completing an internship or student teaching. Student teaching consists of two placements in one 14-week semester: grades 7 - 9 and grades 10 - 12, or in Art, grades K - 6 and 7 - 12. Application for the internship must be submitted by May 1 preceding the fall semester in which the internship will begin. Application for student teaching must be submitted by the second Friday of the October preceding a spring semester student teaching experience or by the second Friday of March preceding a fall semester student teaching experience.

Biology Content Core
Applicants for New York State certification must be fingerprinted and undergo a criminal history review, per New York State Law.

Candidates for NYS teaching certificates must pass the New York State Teacher Certification examinations, including the Liberal Arts and Sciences Test (LAST), the Assessment of Teaching Skills - Written, (ATS-W), at the appropriate level, and the Content Specialty Test(s) (CST) in each certificate area.

United States citizenship or Declaration of Intent to become a U.S. citizen is a requirement for certification in New York State.

Electronic Portfolio

The School of Education requires all students to subscribe to LiveText, an electronic portfolio system.

Application and Admission

Candidates for the Master of Arts in Teaching are expected to have an undergraduate degree in the area for which they are seeking certification – Art, Biology, English, Mathematics or Social Studies. Those who do not have a major in the discipline, have completed a degree in a related area or have completed a minor rather than a major in the discipline may apply to the program and additional coursework will be identified to assist the candidate in developing the equivalent of a major in the certificate area. The requirements for admission include a 3.0 in the major, two satisfactory letters of reference, one from a professor in the discipline, a career goals statement, interview and a written critical analysis.

The written critical analysis is an on-demand writing sample which candidates complete in the School of Education Office, where they are given two hours to read a short essay and prepare a written response. Prospective students who live more than an hour from Sage may be admitted contingent on completion of the written critical analysis within 30 days of beginning the first course at Sage.

Click here for the application for admission to Sage Graduate School. The application may also be requested by mail by calling SGS Admission at 1 888 VerySage or 518 244-6878. When applications are complete, including submission of the Written Critical Analysis, the file is forwarded to the School of Education for a recommendation regarding acceptance. When the file is complete, a decision is generally made within a week.

A provisional admission may be offered to students who meet most of the admission requirements but who may need to complete additional undergraduate requirements or pre-requisite courses. Candidates who do not meet the admission requirements but who show promise, may be invited to complete coursework that will allow them to build a record of achievement that will support admission to the program. For further information regarding these decisions and options, prospective candidates should contact the M.A.T. program advisor.

Certification

The Master of Arts in Teaching (M.A.T.) degree leads to certification in Art Education (grades K – 12) and Adolescence Education (grades
7 – 12) in Biology, English, Mathematics and Social Studies. In addition to the degree program, candidates for certification must also complete three NYS Teacher Certification Examinations, [click here](#).

for additional information: the Liberal Arts and Sciences Test (LAST), Assessment of Teaching Skills – Written (ATS-W) and the Content Specialty Test (CST) in the certificate title area. These tests may be scheduled at any time during the program, but should be completed by the time of graduation so that the candidate will be eligible for certification at graduation.

When candidates apply for graduation (October 1 for December graduation, February 1 for May graduation and June 1 for August graduation), their files are reviewed to determine eligibility for degree completion. Also at that time, candidates will begin to complete their applications for certification, including the required criminal background review through the Department of Criminal Justice Services which involves submitting fingerprints, for which packets may be obtained in the School of Education Office, Education Building 103, Troy Campus. [Click here](#) for information about the requirements and application for certification.

Upon satisfactory completion of the criminal background check, submission of the three required NYS Teacher Certification Examinations, submission of the application for certification with payment and including the Sage transcript showing the conferral of the M.A.T. degree, the candidate is eligible for NYS initial teacher certification in the designated program area.

### One year, Two year and Individual Sequences

Candidates may complete the program in one fulltime year, two years of part-time study, or part-time study that spans more than two years. The one year program is selected by students who can devote one full year of intensive effort, often those who have recently completed their undergraduate degrees and move directly into graduate study. The part-time option is more often selected by career changers and those who have competing responsibilities, such as work and family duties.

#### One year sequence

By mid-August, candidates must have completed all undergraduate requirements (e.g., language, additional coursework required in the major area), pre-requisites (EDU 201, 206, 474/574 and a Developmental Psychology or Human Development course). EDU 201 and 206 are offered both Summer I and Summer II, as well as Fall and Spring semesters, with evening and weekend sections requiring 50% online study via Blackboard. EDU 474/574 is offered twice in Summer II, on Monday-Wednesday evenings, 6 to 9, and on the 2nd, 4th and 6th Saturdays in Summer II. The Saturday section requires 50% online study through Blackboard. It is to the candidate’s advantage to complete the pre-requisites during their undergraduate program, if possible. If there are questions about which course at other institutions will satisfy pre-requisites requirements, the candidate should email the M.A.T. advisor (frazec@sage.edu), including the course description, for prior approval.

With all the pre-requisites and undergraduate courses complete by mid-August, candidates will complete their program in this sequence:

<table>
<thead>
<tr>

</table>
Internship: Candidates in the one-year program enroll in an internship in the Fall and Spring semesters. The internship involves a ¼ day placement in the schools from September through June. One internship will include a K-6 placement for Art Educators and a 7-9 placement for Biology, English, Mathematics and Social Studies Educators. The second placement for Art Educators will be in grades 7 – 12 and for Biology, English, Mathematics and Social Studies Educators will be in grades 9 – 12.

Fieldwork: All candidates for certification in any area must complete 100 hours of fieldwork, generally required before student teaching. In the one year M.A.T. sequence, candidates may not have completed all of their fieldwork before beginning their internship. In this circumstance, candidates must complete the required hours by the end of the Fall semester. The fieldwork hours will be scheduled in addition to the internship hours.

Required workshops: The three NCR workshops, NCR 070 Reporting and Identifying Child Abuse and Maltreatment, NCR 071 School Violence Prevention, NCR 317 Health Education Standards, must be completed before the candidate begins the internship. These workshops will ordinarily be offered during the week immediately preceding the beginning of the internship.

Internship seminar meeting: M.A.T. candidates attend a two-day required seminar immediately preceding the beginning of the internship semester, during which they will participate in activities designed to prepare them for the internship, the preparation of the portfolio, meet with their college supervisors and review the assessments and policies that are used during the internship by cooperating teachers and college supervisors. Candidates will also meet five times or more per placement, as scheduled by the Director of Student Teaching Placements and the college supervisors.

Two year sequence

Candidates in the two year sequence will complete any undergraduate liberal arts requirements (e.g., language other than English), the prerequisites and the content area courses in the first year, during the Summer, Fall, Spring or following Summer. The content area courses are only offered once per year, so it is very important to complete these when they are offered. The pre-requisites are offered every semester, including summers, and some of them may be completed at other institutions. Candidates should forward course descriptions from other institutions to their advisor to receive prior approval of the content.

By mid-August of the second year, candidates must have completed all undergraduate requirements (e.g., language, additional coursework required in the major area), pre-requisites (EDU 201, 206, 474/574 and a Developmental Psychology or Human Development course) and the content area courses in the specific discipline – Art, English, Biology, Mathematics or Social Studies. EDU 201 and 206 are offered both Summer I and Summer II, as well as Fall and Spring semesters, with evening and weekend sections requiring 50% online study via Blackboard. EDU 474/574 is offered twice in Summer II, on Monday-Wednesday evenings, 6 to 9, and on the 2nd, 4th and 6th Saturdays in Summer II. The Saturday section requires 90% online study through Blackboard. It is to the candidate’s advantage to complete the pre-requisites during their undergraduate program, if possible. If there are questions about which course at other institutions will satisfy prerequisites requirements, the candidate should email the M.A.T. advisor (frazec@sage.edu), including the course description, for prior approval.

Fieldwork: 100 hours of fieldwork must be completed before student teaching. In the event that candidates are unable to complete these hours before beginning the second year of the program, the hours must be completed during the Fall semester, before the Spring student teaching begins.

Required workshops: The three NCR workshops, NCR 070 Reporting and Identifying Child Abuse and Maltreatment, NCR 071 School Violence Prevention, NCR 317 Health Education Standards, must be completed before the candidate begins student teaching. These workshops will ordinarily be offered during the week immediately preceding the beginning of student teaching.

Student teaching seminar meeting: M.A.T. candidates attend a two-day required seminar immediately preceding the beginning of student teaching, during which they will participate in activities designed to prepare them for the student teaching and the preparation of the portfolio, meet with their college supervisors and review the assessments and policies that are used during student teaching by cooperating teachers and college supervisors. Candidates will also meet weekly during each placement, as scheduled by the Director of Student Teaching Placements and the college supervisors.

The content area courses are offered according this schedule:

<table>

| Year I credits | 12 | 12 |

Student teaching: Candidates in the two-year program enroll in student teaching in the Spring semester. Student teaching requires two
placements, a K-6 placement for Art Educators and a 7-9 placement for Biology, English, Mathematics and Social Studies Educators and a second placement for Art Educators will be in grades 7 – 12 and for Biology, English, Mathematics and Social Studies Educators will be in grades 9 – 12.

On completion of the pre-requisites, undergraduate courses and content area courses by mid-August, candidates will continue the program in this sequence:

<table>
<thead>
<tr>
<th>Year II – two year plan</th>

</tr>
</tbody>
</table>

**Individual sequence**

Some students may wish to complete their program over a period longer than two years, especially if extensive undergraduate coursework is needed to complete the equivalent of an undergraduate major or concentration. For example, an individual with a degree in Engineering may wish to prepare for the M.A.T. in Mathematics and might need to complete additional coursework in mathematics to be eligible for the program. This candidate would complete the undergraduate courses in mathematics in the first year, the pre-requisites and content area courses in the second year, and the courses in education and the student teaching in the third year.

Other candidates may wish to hold the internship or student teaching until all coursework has been completed. Often those who have fulltime employment and family responsibilities will wish to maintain their employment until all coursework is finished and complete a student teaching experience in the year after completing all course requirements.

Candidates who wish to complete an individual sequence will meet with their advisor to develop and plan and schedule.

**Internship and Student Teaching Placements**

All interns and student teachers complete two placements at two different grade levels. Interns complete the experiential component of their program through assignment to the schools in half days for a full academic year, September through June. Student teachers complete the experiential component of their program in two fulltime placements, each lasting for seven weeks.

Interns and student teachers will complete one of their placements in a NYS-identified high-need school. The second placement will be in another setting selected on the basis of availability, quality of experience, the potential to expand the candidate’s experience and other factors that affect the cooperative relationship between candidates, the college and the school.

Candidates are supervised by college supervisors and may expect an initial visit and three supervisory visits during each placement in which written feedback will be provided. The cooperating teacher and the college supervisor provide narrative evaluations which may then be placed in the candidate’s Career Services placement folder to support the candidate’s search for a position when the program is complete.

Applications for the internship or student teaching are submitted according to the following schedule:

Internship applications for the following September through June placement must be submitted by the second Friday in June.

Student teaching applications ([click to locate form online](#)) must be submitted by the second Friday in October for the following Spring and by the second Friday in March for the following Fall.

Separate grades are given for each internship or student teaching placement, for the internship or student teaching seminar and for the internship or student teaching portfolio. The Internship and Student Teaching Seminar and Portfolio courses are zero credit and will be graded as Pass/Fail, but must be satisfactorily completed before graduation.

**Program of Study**

http://catalog.sage.edu/06-07sgs.php
The program of study outlines the candidate’s program requirements, including undergraduate coursework and pre-requisite courses, if any, as well as the courses and internship/student teaching required for the master’s degree. Each candidate accepted to the program is expected to return a signed program of study, which then defines the requirements for graduation as long as the program is completed with the six year time limit.
Master of Science in Nursing

Advanced practice nurses have opportunities to serve as innovative leaders and skilled practitioners, and contribute to the improvement of nursing practice. The demand for nurse practitioners, clinical nurse specialists, nurse educators, and nurse administrators/executives continues to grow in the rapidly changing and expanding health care systems.

Graduate study provides the opportunity to examine historical and contemporary perspectives of emerging theory and practice and utilize academic, clinical, and research activities to contribute to the body of theory relevant to nursing practice. Graduate study also provides an avenue for the development of knowledge and skills, the utilization of technology necessary to practice at a high level of expertise, and the opportunity for specialization in advanced practice.

The mission of the Department of Nursing is to provide and promote baccalaureate and graduate education in nursing in an environment which emphasizes the development of individuals as professional nurses with a vision of their own power and a clear sense of self and their professional role. The department endeavors to prepare graduates who are critical thinkers; who utilize, transmit, and develop new knowledge through systematic modes of inquiry; and who demonstrate a commitment to lifelong learning. Preparation for excellence in nursing practice is achieved through the integration of arts and sciences, humanistic concern for the health and well being of others, and an awareness and appreciation of cultural diversity in a pluralistic society. Sage strives to prepare graduates who are assertive and proactive client advocates, enabling clients to maximize their own potential. The multidimensional milieu in which the nursing profession continues to evolve is emphasized, with the expectation that our graduates will assume leadership roles as professionals and citizens in organizations, to influence health care delivery and the welfare of society.

The Graduate Nursing Program at Sage has been a leader in providing education for advanced practice for more than 30 years. Alumni are in leadership and advanced practice roles in New York and many other states. The graduate program is designed to:

- Provide for advanced study in a specialized area of clinical nursing;
- Provide preparation for the role of educator, clinical specialist, nurse practitioner, or administrator/executive in nursing;
- Prepare nurses for leadership and executive roles utilizing evidence-based practice to advance nursing theory and science.

The bachelor's and master's degree programs in nursing at The Sage Colleges are accredited by the Commission on Collegiate Nursing Education (CCNE), One Dupont Circle, NW, Suite 530, Washington, DC 20036, (202) 887-6791, and the New York State Education Department.

The Department of Nursing is a member agency of the American Association of Colleges of Nursing, the National League for Nursing, and the Council of Deans of Nursing in Senior Colleges and Universities in New York State.

Admission Requirements

Applicants to the Department of Nursing must be a registered professional nurse and meet Sage Graduate School admission requirements.

B.S./M.S. Option

A B.S./M.S. option exists for undergraduate nursing students at The Sage Colleges who meet certain criteria. These criteria include: recommendations from two faculty members, completion of 21 credits of nursing courses, and a minimum undergraduate GPA of 2.75. RNs may request admission directly into the B.S./M.S. sequence.

RNs with Bachelor’s Degree in Fields Other Than Nursing

Official transcripts and professional work experience will be evaluated. Certain undergraduate nursing prerequisites (normally NSG 331, 332, 402 or 404 and 406) will be required to prepare the student for advanced study in nursing.

M.S. Nursing/M.B.A. Dual Degree Option

Applicants must meet the requirements and be admitted to both programs. Interviews with directors or advisors in each program are required.

Nurse Practitioner Certificate

Upon completion of the master’s degree or post-master’s certificate curriculum, graduates receive a certificate of completion as a nurse practitioner from The Sage Colleges. Nurse practitioner students must complete a minimum of 500-680 hours of clinical practicum depending on their specialty. delete Family nurse practitioners and psychiatric-mental health nurse practitioners are required to have a minimum of 600 hours

http://catalog.sage.edu/06-07sgs.php
General Information

Students may attend the M.S. degree program with a major in nursing on a full-time or part-time basis. The program takes a minimum of three to four terms for full-time students. Selected required courses are available during the first summer session.

Students enrolled in clinical courses need to submit evidence of the following, one month prior to each clinical course:

- Current licensure as a registered professional nurse;
- Current professional liability insurance (as a student nurse practitioner if in a NP program);
- Required immunizations, titers, and tuberculin test (within six months of clinical);
- Recent physical exam (within three months of starting a clinical course);
- Current CPR preparation.

Graduates with the required number of clinical hours are eligible to take the advanced-level certification examinations offered by the American Nurses Credentialing Center for clinical nurse specialists, administrators, or nurse practitioners. Graduates of the nurse practitioner tracks are eligible for certification by New York State as nurse practitioners in the specialty area.

Working students, full-time students, and those commuting long distances will find courses conveniently scheduled. Courses are offered during the daytime and evenings on a weekly, every-other-week, or weekend institute basis. Several classes are offered partially online. It may be possible to take two or three courses on one particular day.

Individualized program plans are made for each student to insure that students complete their programs within the required seven year time limit. Each student is expected to maintain a current plan with a faculty advisor so that course needs can be anticipated.

Program Offerings

Completion of the Master of Science in Nursing necessitates the selection of one nursing clinical specialty and one functional role area. Depending on the selection, it may be possible through elective courses to pursue a second or part of a second clinical specialty or functional role. Advisement is helpful.

The following grid identifies the possible initial selection combinations.

Adult Health Nursing Program

The Adult Health Nursing program relies on an integration of theories from nursing and other disciplines in developing a model of advanced practice. In addition to a core clinical focus, students also select an indirect care focus in either clinical specialization/case manager, administrator/executive or educator roles. Students select a clinical practicum specific to the course requirements and clinical focus.

Adult Nurse Practitioner Program

The practitioner role necessitates a strong clinical background. Therefore, applicants need to have at least one year’s full time experience (2,000 hours) as a registered professional nurse before beginning nurse practitioner clinical courses. The autonomous and collaborative roles of the nurse practitioner in primary care demand socialization into those roles, knowledge of multiple practice models, and development of accountability for direct provision of health care services. Clinical experiences with faculty and preceptors provide a variety of experiences with physicians and nurse practitioners in varied geographic locations, and with clients from different social, cultural and economic backgrounds. There are intensive clinical placements with preceptors. A total of 500 clinical hours and 42 credits are required in order to meet the changing professional expectations in this practice area.

**Recommended as beginning course, but not required for Administrator/Executive Role.**

***Sage's PAD/HSA 588 or HSA 565 can be substituted for NSG 652.***
Community Health Nursing Program

In addition to the clinical focus of the program, students may choose a functional area of 9 to 12 credits in administration or education. There are electives in the program which students may use to pursue particular interests. For example, students interested in administration may take courses in administration or budgeting. Students interested in an individual client care focus may choose courses in Advanced Physiology, Client Coping and Adaptive Strategies, or Nursing Interventions.

**Family Nurse Practitioner Program**

The Family Nurse Practitioner (FNP) has a combined clinical and functional role. The practitioner role necessitates a strong clinical background in evaluating clients and making judgments about interventions. Therefore, applicants need to have at least one year's full time experience (2,000 hours) as a Registered Professional Nurse before beginning FNP clinical courses. The autonomous and collaborative roles of the nurse practitioner in primary care demand socialization into those roles, knowledge of multiple practice models, and development of accountability for direct provision of health care services. Clinical experiences with faculty and preceptors include a variety of physicians and nurse practitioners, geographic locations, and clients from different social, cultural, and economic backgrounds. There are intensive clinical placements with preceptors. A total of 680 clinical hours and 48 credits are required in order to meet the changing professional expectations in this practice area.

**Program Summary**
Gerontological Nurse Practitioner Program

The Gerontological Nurse Practitioner (GNP) has a combined clinical and functional role. The practitioner role necessitates a strong clinical background. Therefore, applicants need to have at least one year’s full time experience (2,000 clinical hours) as a registered professional nurse before beginning GNP clinical courses. The autonomous and collaborative roles of the nurse practitioner in primary care demand socialization into those roles, knowledge of multiple practice models, and development of accountability for direct provision of health care services. Clinical experiences with faculty and preceptors provide variety of experience with nurse practitioners and physicians, in varied geographic locations, and with clients from different social, cultural and economic backgrounds. There are intensive clinical placements with preceptors. A total of 500 clinical hours and 42 credits are required in order to meet the changing professional expectations in this practice area.

Psychiatric Mental Health Nursing

Clinical Nurse Specialist/Nurse Practitioner

Graduates of the Psychiatric-Mental Health track are eligible to be certified by New York State as psychiatric nurse practitioners and to take the examination for certification at the national level from the American Nurses Credentialing Center as clinical nurse specialists in psychiatric-mental health nursing and/or psychiatric nurse practitioner.

Consistent with the changing health care system, graduates of this program will have the theoretical knowledge and clinical skills to provide primary and continuing mental health care: promote mental health, prevent mental illness, and diagnose and treat clients who demonstrate acute and chronic mental illness and/or substance abuse. Treatments include counseling, psychotherapy, and prescribing drugs.

A sound theoretical base of neurobiology, physiology, pharmacology, and human behavior theories provide the underpinnings for courses and practica related to comprehensive mental health assessment, diagnostic formulations, and therapeutic interventions. Psychotherapeutic processes include individual, group, and family therapy. Further, graduates would be qualified to provide case management, conduct and develop education programs, supervise support service staff, and provide consultation in non-psychiatric settings.

Post–Master’s Certificate Programs in Nursing

The certificate program provides an opportunity for professional nurses who have completed a master’s degree in nursing to obtain a Sage certificate in a clinical specialization or functional role area different from their initial graduate nursing focus. The program enables career change and fosters an exchange of ideas and networking at the post–graduate level. Candidates for the certificates may attend on a full– or part–time basis depending on the area of study. The program can vary from 9 credits to 31 credits depending on the individual’s background and the desired certificate. It is expected that candidates for post-master’s certificates will have taken courses in their master’s program equivalent to NSG 558 and NSG 559. Students may be able to waive certain courses depending on previous coursework. Students may be required to take additional courses depending on previous coursework. Consult with the Program Director to discuss options.

Admission Requirements
In addition to the general admission requirements for Sage Graduate School (see page 4), applicants must have a master’s degree in nursing. An interview with the Director of the Graduate Program in Nursing is recommended. Certificate program students are not eligible for federal, state, or institutional financial aid.

Master of Science in Occupational Therapy

Occupational Therapy (OT) is a health care profession in which therapists work with people whose abilities to manage everyday tasks of living are affected by developmental deficits, the aging process, environmental barriers, physical injury or illness, or psychosocial problems. Occupational therapists are in high demand across the country as critical caregivers in today’s rapidly growing health care system. The profession offers many opportunities for a career rich in both meaning and reward.

Occupational therapists help individuals of all ages identify and return to the occupations and activities that are important to them. The word *occupation* refers to how people use time, or are *occupied* in their daily lives. Occupational therapists assist people to adapt old methods or learn new strategies so they can participate in valued life activities and roles after illness or injury. OTs are employed in a variety of settings including hospitals, rehabilitation centers, nursing homes, homecare, schools, private practice, and community agencies.

The MS in Occupational Therapy at Sage is the only accredited master-level Occupational Therapy Program in New York’s Capital Region. Qualified men and women who possess a bachelor’s degree and who fulfill the prerequisite courses for the Occupational Therapy Program may apply directly through the Sage Graduate School. Students can complete the 85-credit program in just over two years, including a research project and six months of full time fieldwork. Upon successful completion of academic, research and fieldwork courses, students are awarded an MS degree in Occupational Therapy and are eligible to sit for the certification exam that leads to national certification and eligibility for state licensure.

Program Accreditation

The Sage Colleges Occupational Therapy Program is registered with the New York State Education Department and accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association, 4720 Montgomery Lane, Bethesda, MD 20824-1220, 301/652-2682. The most recent reaccreditation was granted in March 2000. Upon graduation, students are eligible to sit for the national certification exam administered by the National Board for Certification in Occupational Therapy (NBCOT). In addition, most states require licensure in order to practice occupational therapy; however state licenses are usually based on the results of the national certification exam. A felony conviction may affect a graduate’s ability to sit for the certification exam or to attain state licensure.

Mission and Philosophy

The mission of the Occupational Therapy Program is to prepare students to be knowledgeable, ethical and competent therapists. The OT Program is based on a framework that considers how biological, psychological, and socio-cultural factors influence occupational behavior. Faculty believes the study and practice of occupational therapy encompasses philosophical principles that affirm the inherent value of occupation across the lifespan. They view education as a process where students progress in their abilities to become client-centered and evidence-based practitioners. Students are assisted in acquiring the knowledge, skills, and judgment needed for skilled practice in traditional and emerging settings. They are similarly encouraged to progress toward the more long-range roles of master clinician, educator, advocate, administrator and researcher.

Occupational Therapy Curriculum Model

The occupational therapy curriculum is developed around humanistic values and incorporates a student-centered, experiential approach to learning. Foundation and upper level clinical courses promote an understanding of the dynamic relationship between health and well-being and occupational engagement, or a person’s ability to participate in valued life activities and roles. Students are immersed in learning opportunities to both promote clinical reasoning skills and develop a systemic view of health and the health care system. The curriculum model is organized around three elements: Foundations of Practice, Evaluation and Intervention in Practice Settings, and Research and Specialty Practice. It is further supported by three major themes that are infused throughout coursework: Person-Environment-Occupation Relationship, Therapeutic Style and Interactions, and Competent Practice.

Organizing Elements

Foundations of Practice

Initial courses provide students with a basis for understanding the unique occupational perspective of the profession. Through these foundation courses students explore the physical, psychosocial, cultural, and spiritual aspects of occupational participation on lifestyle and valued life roles. The Occupational Therapy Practice Framework is introduced along with the major practice models and theories that define the language and philosophy of occupational therapy. Early courses explore the wellness-illness continuum and the concept of disability.

Evaluation and Intervention in Practice Settings

Evaluation courses focus on clinical and community-based practice settings, and provide a framework for developing client-centered intervention skills. The application of theories and practice models within this content guides the development of critical thinking. Students engage in fieldwork experiences to apply knowledge gained in the classroom to clinical settings, hone clinical reasoning skills, and achieve independent practice competence.
Research & Specialty Practice

A multi-course research sequence provides students with content leading to basic proficiency in research while preparing them to be evidence-based practitioners. Working collaboratively with clinic and community-based sites, student teams develop and implement research studies whose outcomes add to the literature and meet the information needs of research partners. The culminating requirement is a presentation at the annual Graduate Research Symposium. Students learn about the roles and associated responsibilities of the OT through coursework that addresses issues of advocacy, consultation, and administration, as well as specialty practice. Through these experiences, students develop the broad perspective required for promoting and providing best practice.

Supporting Themes

Person-Environment-Occupation Relationship

Students explore how personal factors, environmental influences, and occupation-related characteristics impact participation, health, and well-being. Throughout the curriculum students engage in literature reviews, case-based learning, and field experiences with clients, families and communities. Together these activities assist students to better understand the factors that enable and constrain occupational performance.

Therapeutic Style and Interactions

Students develop skills in forming therapeutic relationships through activities that foster self-awareness, personal maturity, and effective communication. Exposure to client-centered practice supports the student’s ability to engage in a collaborative intervention process.

Competent Practice

Competence as an occupational therapist is facilitated through the development of critical thinking skills, therapeutic use of self, and professionalism. The application of ethics, evidence-based practice, and clinical reasoning are woven throughout coursework and fieldwork experiences. Students develop the knowledge, skills, and behaviors required for best practice.

Fieldwork

Students complete five part time and full time fieldwork experiences to refine clinical reasoning and therapeutic skills while working with clients. Level I fieldwork involves three multi-week experiences in clinical settings integrated within first and second-year coursework. Level II fieldwork involves two full time, 12-week internships during the summer and fall following the second year of study. These affiliations give students the opportunity to practice the clinical skills learned in the classroom in occupational therapy settings under appropriate supervision. The expected outcome of Level II fieldwork is entry-level therapist performance and independent practice. Sage has formal agreements with over 150 clinical sites located throughout the country.

Faculty

Students enjoy an excellent student-to-faculty ratio of 8:1 that facilitates personal attention and close working relationships. The Sage Occupational Therapy faculty are specialists in the fields of pediatrics, psychosocial practice, rehabilitation, gerontology and research. To ensure fresh program content delivery, Sage faculty are engaged in scholarly work and clinical practice in addition to their teaching responsibilities. Sage professors hold advanced certification in pediatrics, neurorehabilitation, sensory integration, neurodevelopmental treatment, and hand therapy. Faculty doctoral degrees and advanced study include occupational therapy, expressive arts, education, and psychology. They are able to bring new ideas and technologies into the classroom, and expose students to contemporary practice in their respective therapy specialties. Students also benefit from faculty expertise through collaboration in ongoing research projects.

OT Program Prerequisite Courses

The following prerequisite courses must be completed prior to entry to the graduate OT Program:

- Anatomy & Physiology I and II (with labs);
- Physics I (with lab);
- 9 credits in psychology including Human development and Abnormal Psychology;
- Statistics.

Fieldwork Requirements: Yearly physical examinations, immunizations, and CPR certification are required by fieldwork sites. In addition, many settings require students to be fingerprinted and undergo a criminal history review. Students are responsible for the arrangements and costs of these, as well as for transportation to and from fieldwork settings.

OT Program Outcome Statements

Outcomes Related to a Strong Professional OT Program

Graduates will demonstrate:

- Knowledge of the health care delivery system, the role of the occupational therapist, different levels of practice, and different settings in which these are appropriate.
- Knowledge of the history of the profession, the emergence of various theories and the relationship of theory development on current assessment and intervention strategies.
- Knowledge of state, federal and professional standards or statutes/regulations that define or shape clinical practice in various settings.
- Knowledge and appreciation of how environment and culture impact multiple facets of the health care delivery system.
- Knowledge of professional ethics, attitudes and behaviors reflective of ethical standards and values.

Outcomes that Contribute to Individual Competence

Graduates will demonstrate:

- Competence in direct care and service delivery congruent with the standards of entry-level practice in all areas of occupational therapy, including pediatrics, physical dysfunction, and psychosocial/community health.
- Ability to apply critical thinking and analytic reasoning strategies to investigation, learning, and professional issues.
- Ability to communicate orally to a variety of audiences, speak extemporaneously from brief notes, and deliver an impromptu address.
- Ability to communicate in writing using appropriate formats for a variety of purposes and audiences.
- Appreciation of and skill in developing and sustaining a helping relationship.
Commitment to the continuing pursuit of individual professional growth and knowledge.

Understanding of one’s own life as it relates to others and society.

Outcomes that Advance the OT Profession

Graduates will demonstrate:

- Ability to solve authentic multi-faceted problems by collecting appropriate qualitative and quantitative data; organizing it for analysis; synthesizing; and presenting and defending the solution before an audience.
- Proficiency in research methods, the development of a research design, and implementation of a research study.
- Participation in community pro bono projects and membership and participation in occupational therapy professional organizations.

Academic Standards of the Graduate OT Program

In addition to meeting the academic standards of Sage Graduate School, students must achieve the following to remain in good standing in the graduate OT program:

- To be eligible for a graduate degree, a student must have a 3.0 grade point average at the time of graduation. A student whose grade point average falls below a 3.0 may be dismissed from the program.
- Students must achieve a grade of “C” or better in all professional courses and a grade of “P” in any professional level pass/fail course.
- Students who achieve grades of “C” in more than two professional courses may be required to repeat courses; complete other remedial work to assure competence for clinical practice; or could be dismissed from the program.
- Students must successfully complete all oral/practical comprehensive and lab proficiency examinations (minimum passing grade of 80%) to achieve a passing grade for the laboratory course.
- Students must demonstrate competency in all safety items in order to successfully pass the lab practical exam or proficiency.
- Students must demonstrate effective professional behavior, including interpersonal communication skills and judgment, prior to beginning fieldwork education.
- Students must successfully complete Level II Fieldwork within 15 months beyond the date of completion of evaluation and intervention courses, or repeat the course(s), and/or demonstrate academic and clinical competency in the course(s) prior to beginning fieldwork experiences.
- Students who fail a fieldwork experience must obtain permission of faculty prior to repeating the fieldwork. Failure to complete a fieldwork or having to be removed from a placement may result in a student’s dismissal from the program. Students who need to repeat more than one Level II fieldwork course will be dismissed from the program.
- Students must be continuously matriculated in the program. If there is inactivity in coursework, or there are two or more years since completion of the last Level II Fieldwork experience, students will be required to repeat all of the evaluation and intervention courses, or demonstrate academic and clinical competency in each of these courses, via examination, to be eligible to graduate.

Dismissal

Students who fail to meet the program and/or academic requirements or who fail to demonstrate professional behavior may be dismissed from the program, required to repeat courses, or complete remedial plans as specified by the program faculty. Students are referred to the Graduate Student Occupational Therapy Handbook for further details about program policies, standards, and fieldwork education requirements. Upon request, students who withdraw or who are dismissed from the program may request readmission. Readmission will be determined by the faculty based on qualifications and any additional criteria required at the discretion of the faculty.

Admission Requirements

All applicants are strongly urged to visit the college and meet with a representative of the Occupational Therapy program. Candidates should call the OT program office at (518) 244-2267 to schedule an appointment with the program director. There are two points of entry into the M.S. in Occupational Therapy Program: direct entry through Sage Graduate School or through Russell Sage College via the 3+2 accelerated program or more typical 4+2 program.

Direct Entry through Sage Graduate School

Qualified men and women who possess a baccalaureate degree and who have fulfilled the prerequisite courses for the graduate program in Occupational Therapy may apply directly to the M.S. in Occupational Therapy program through Sage Graduate School. In addition to meeting the general requirements for admission to Sage Graduate School, the successful applicant to the M.S. in Occupational Therapy program will demonstrate evidence of the following:

- Earned baccalaureate degree from an accredited college or university.
- Minimum GPA of 3.0 in undergraduate study, minimum 3.0 GPA in OT Program prerequisites, and minimum 2.75 GPA in prerequisite sciences.
Completion of OT program prerequisite courses with grades of “C” or better in each required course.
Completion of at least 20 hours of clinical observation under the supervision of an occupational therapist before beginning the professional program. Applicants are encouraged to complete clinical observation hours as early as possible. Students who are unable to complete observations prior to submitting the admission application must include a letter outlining a plan for completion of these hours with their applications (see observation documentation form in application packet).
Submission of Academic Standards Statement and Documentation of Clinical Observation Hours Form with the Sage Graduate School Application (forms are available on the Sage OT program website).
Submit complete application by February 1 priority deadline.

Entry through RSC 3+2 Accelerated Program

Women entering college directly from high school or transferring at the undergraduate level may apply to Russell Sage College for the 3+2 bachelor’s degree leading to the M.S. in Occupational Therapy. Students admitted to the accelerated five-year program at Russell Sage College will choose an RSC undergraduate major. The bachelor's degree in the chosen major is awarded from Russell Sage College at the end of the fourth year and the M.S. in Occupational Therapy is awarded from Sage Graduate School at the end of the fifth year, plus fieldwork.

Undergraduate Academic Standards for Acceleration to the M.S. in Occupational Therapy Program

Students who enroll at RSC in the 3+2 bachelor's degree leading to the M.S. in Occupational Therapy may enroll in OT graduate courses during their fourth year of undergraduate study and are guaranteed acceptance to the graduate OT Program, providing they maintain the following academic requirements in the first three years of undergraduate study:

- Achieve a minimum cumulative GPA of 3.0 in undergraduate study;
- Achieve a minimum 3.0 GPA in OT Program prerequisite courses;
- Achieve a minimum science GPA of 2.75 in prerequisite science courses (Anatomy & Physiology I & II and Physics I);
- Achieve a grade of “C” or better in all OT program prerequisite courses;
- Complete and document 20 hours of observation with a licensed occupational therapist; and
- Complete undergraduate major requirements, RSC general education courses, and OT program prerequisites.
Master of Science in Organization Management

In today's service and information oriented organizations, both non-profit and for-profit, there is a need for managers who can broker information, sustain employee commitment, understand the work environment, and expedite customer service. Jobs such as these require managers educated in organization dynamics, personnel and human resources management principles, management control, and quality production methods. Sage Graduate School Master of Science (M.S.) in Organization Management is designed to create knowledgeable and highly skilled managers in these important operational areas and in closely related areas of management. The Organizational Management student will gain skills and knowledge within a framework of 30 credit hours or 10 courses. With the master's degree in Organization Management and sharpened skills in management, graduates of this program are able to assume leadership positions in many different types of organizations, firms, government, and service provision agencies, or community organizations.

Admission Requirements

Applicants must meet the general requirements for admission to Sage Graduate School.

Program Requirements

This graduate program of study is structured around four important areas of management: organizational foundation principles, personnel principles, management control principles, and the understanding of the management environment.

Total Credits: 30
Institute for Palliative Care

The “aging” of the general population and the increasing numbers of persons with chronic illness are making gerontology, palliative care, and end of life care some of the most significant arenas facing the health care industry and society in general. Both nationally and locally, there is a need for individuals with clinical and administrative knowledge and skills to meet the demands of these emerging practice areas.

The aim of the Institute is to develop highly prepared professionals, through advanced certificate programs, who seek to participate in and shape the quality of health care for older adults and those facing quality of life decisions.

Advanced Certificate in Palliative Care

This unique 15-credit post-baccalaureate Certificate in Palliative Care is an interdisciplinary program designed to prepare the student to work in this area within his or her own discipline. Professionals who might consider this program include: nurses, occupational and physical therapists, nutritionists, social workers, pastoral care workers, psychologists, long term care clinicians and administrators, pharmacists, attorneys, and health service administrators. Course content includes broad system issues and policy in palliative care.

Students have the opportunity to work on discipline-specific role development through electives as well as their role within the interdisciplinary team. There is a clinical component, along with opportunities for research and project development with faculty. Graduates work in a variety of health and community settings, in addition to developing skills they can use to expand their current professional role.

Employment opportunities include direct care, administration, consulting, program development, advising, and planning and advocacy, as well as one's own entrepreneurial opportunities. This learner-centered program allows the student to develop skill in working with a patient population or practice setting of his or her choice, including children and older adults, and in hospital-based and community settings.

Faculty come from a variety of fields such as nursing, occupational therapy, psychology, and bioethics, and include graduates of ELNEC and the Harvard Medical School post-doctoral program in Palliative Care.

Admission Requirements

Applicants to the program must meet Sage Graduate School admission requirements.

Program Requirements

The advanced Certificate in Palliative Care is a sequence of five courses for 12 credits, plus a discipline-specific elective. Students may select electives from special topics (PAL 599) in pain and symptom management; spirituality; gerontology and chronic illness; as well as courses in bereavement and loss.

Doctor of Physical Therapy (DPT)

The three year Doctor of Physical Therapy (DPT) program is offered through the School of Nursing and Health Sciences. Physical therapists are health care professionals who provide services to patients and clients of all ages. Through a comprehensive process of examination, evaluation, diagnosis, prognosis, intervention and outcome assessment, physical therapists provide care to patients to alleviate impairments and functional limitations, disabilities, or changes in physical function and health status resulting from injury, disease, or other causes. Physical therapists also have an active role in consultation, education, critical inquiry, administration, and supervision of physical therapy services as well as provision of prevention and wellness services, including screening and health promotion. Physical therapists interact and practice in collaboration with a variety of professionals, including nurses, physicians, educators, social workers, occupational therapists, speech-language pathologists, audiologists, and dentists. Physical therapists work in a variety of practice settings, including hospitals, outpatient clinics, rehabilitation centers, skilled nursing, extended care or sub-acute facilities, home health, education or research centers, schools (preschool, primary and secondary schools), hospices, corporate health centers, industrial or other occupational environments, athletic facilities (collegiate, amateur, and professional), fitness centers, and sports training facilities.

Philosophy and Mission

The professional Doctor of Physical Therapy Program is based on a solid foundation in the liberal arts. The mission of the DPT program is to prepare competent, autonomous, and professional entry-level doctors of physical therapy who deliver culturally sensitive care and evidence-based services to their patients and clients in a rapidly changing health care environment.

New York State and Accrediting Agency Approval

The Doctor of Physical Therapy program at Sage is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE) of the American Physical Therapy Association, 1111 North Fairfax Street, Alexandria, VA 22314-1488. The program is also registered with the New York State Education Department, Education Building, Albany, New York 12234, (518) 474-3852.

Program Length: The three calendar year graduate program begins in the summer and includes seven academic semesters, two summer internships, and one fall internship. Students graduate in May following completion of the third year of the DPT program.

Licensure: Upon successful completion of the program, students are eligible to sit for the national professional licensing exam and, after passing the exam, be licensed in any state. Sage graduates consistently perform better on the national licensing exam than state and national averages.

Grievance/Appeal Procedure: Students may appeal any decision regarding their grade or status in the program by following the procedures for grievance/appeals specified in the Sage Graduate School Catalog. Students should first seek resolution through the course instructor, program director, and department chair before seeking resolution outside the program. If a student wishes to appeal a grade, the student must submit in writing to the course instructor the reasons for requesting a change in grade. For grades on an exam, clinical proficiency, lab practical, or assignment, this request must be submitted within two weeks of the graded work being returned to the student. To appeal the final course grade, the request must be submitted within the first two weeks of the next academic semester that follows the semester in which the course was taken (e.g., summer course grades must be appealed within the first two weeks of fall semester; fall course grades must be appealed within first two weeks of spring semester; and spring course grades must be appealed within the first two weeks of the fall semester).

Physical Therapy Curriculum Model

The DPT curriculum emphasizes a problem-solving approach with collaboration and critical thinking skills for clinical decision-making in patient/client management, communications, interpersonal interactions, and clinical research applications. The professional program begins in the summer of each year. Graduation is in May following the third year.

The professional program curriculum is designed to prepare students to become knowledgeable, active participants in our society and culture and to deliver evidence-based physical therapy services safely and effectively. The curriculum design is based on educational principles that foster the development of the student in the cognitive, psychomotor, and affective domains. The professional program is consistent with the American Physical Therapy Association (APTA) Vision 2020, A Normative Model of Physical Therapist Professional Education and the Guide to Physical Therapist Practice. The professional program has been developed along six organizing elements: the Musculoskeletal System, Neuromuscular System, Cardiovascular and Pulmonary System, Integumentary System, Critical Inquiry, and Human Interaction. Each of the professional courses is linked to at least one of these organizing elements. In addition, five curricular themes, consistent with Professionalism in Physical Therapy: Core Values, extend across the curriculum and are reflected throughout the courses and co-curricular activities: Safety, Communication Skills, Ethical Personal Behavior, Social Responsibility, and Professional Behavior.

Prerequisite Courses for the DPT

The following courses must be completed prior to beginning the professional program:
### Required Professional Course Sequence

Expected Student Outcomes

Upon completion of the Doctor of Physical Therapy program, graduates will:

2. Practice in a safe manner that minimizes risk to patient, self, and others.
3. Present self in a professional manner.
4. Demonstrate professional behavior during interactions with others.
5. Adhere to ethical practice standards.
6. Adhere to legal practice standards.
7. Communicate in ways that are congruent with situational needs.
8. Create, develop, and sustain a therapeutic helping relationship with patients and clients.
9. Demonstrate skill in oral expression by defending a point of view, interpreting a written article, speaking extemporaneously from brief notes, delivering an impromptu address, and describing significant events, before an audience.
10. Produce documentation to support the delivery of physical therapy services.
11. Adapt the delivery of physical therapy care to reflect respect for and sensitivity to the impact that environment, culture, and technology have on the delivery of physical therapy services, the patient/client and physical therapist.
12. Apply the principles of logic and the scientific method to the practice of physical therapy.
13. Apply critical inquiry skills, including design, methodology, data collection and interpretation, as evidenced by completion of a capstone experience.
14. Screen patients using procedures to determine the effectiveness of and need for physical therapy services.
15. Perform a physical therapy examination.
16. Evaluate clinical findings to determine physical therapy diagnoses and outcomes of care.
17. Design a physical therapy plan of care that integrates goals, treatments, outcomes, and discharge plans.
18. Perform physical therapy interventions in a competent manner.
19. Educate others (patients, family, caregivers, staff, students, other health care providers) using relevant and effective teaching methods.
20. Participate in activities addressing quality of service delivery.
21. Provide consultation to individuals, businesses, schools, government agencies, or other organizations.
22. Address the patient needs for services other than physical therapy as needed.
23. Manage resources (e.g., time, space, equipment) to achieve the goals of the various professional practice settings.
24. Incorporate an understanding of economic factors in the delivery of physical therapy services.
25. Use support personnel according to legal standards and ethical guidelines.
26. Demonstrate that a physical therapist has professional/social responsibilities beyond those defined by work expectations and job description.
27. Formulate a self-directed plan for professional development and lifelong learning.
28. Address primary and secondary prevention, wellness, and health promotion needs of individuals, groups, and communities.

Technical Standards for Physical Therapy Practice

Physical therapists seek to: (1) prevent injury, impairments, functional limitations and disability; (2) maintain and promote fitness, health, and quality of life; and (3) ensure availability, accessibility, and excellence in the delivery of physical therapy services to the patient/client.

In order to successfully complete the Doctor of Physical Therapy program, applicants must be able to meet the technical requirements of the program. The technical standards for the DPT program include the ability to:

1. Acquire information from demonstrations and experiences in the basic and clinical sciences, including, but not limited to, information conveyed through laboratory dissection and physiologic and physical demonstrations.
2. Acquire information from written documents and interpret information presented in images from paper, videos, transparencies, and slides.
3. Accurately elicit from a patient/client a history and other pertinent information required to adequately and effectively assess and manage the patient/client’s condition.
4. Select and perform examinations including, but not limited to, assistive and adaptive devices; anthropometric characteristics; arousal and attention; aerobic capacity and endurance; community and work integration and reintegration; environmental, home, and work barriers; gait, locomotion, and balance; ergonomics and body mechanics; integumentary integrity; joint integrity and mobility; motor function, muscle performance, neuromotor development, and sensory integration; pain; posture; prosthetic requirements; range of motion; reflex integrity; self-care capability; sensory integrity; and ventilation, respiration, and circulation.
5. Use and interpret information from diagnostic maneuvers (observation, palpation, auscultation) in the course of conducting a comprehensive physical therapy examination.
6. Make clinical judgments based on the data obtained in a comprehensive examination and evaluation of the patient/client to determine a physical therapy diagnosis.
7. Synthesize information from the evaluation and other documented sources to formulate a plan of care.
8. Problem solve and think critically to judge which theory and/or strategy of assessment and intervention is most appropriate for facilitating the attainment of the highest level of function for individual patients and clients.

9. Perform therapeutic interventions including, but not limited to, therapeutic exercise; patient or client related instruction; functional training; manual therapy; airway clearance; wound management; electrotherapeutic modalities; physical and mechanical modalities; and the prescription, application, and fabrication of assistive/supportive/protective devices.

10. Communicate effectively and efficiently with faculty, patients, clients, families, and all members of the health care team about a patient’s condition.

11. Develop effective and appropriate relationships with patients, clients, colleagues, coworkers, and relevant others.

12. Practice in a safe manner at all times and respond appropriately to emergencies and urgencies.

13. Provide patient- and client-related education and consultation to identify problems, recommend solutions, or produce a specified outcome on behalf of a patient/client.

14. Impart information or skills, and instruct peers or other health care providers, in activities related to physical therapy.

15. Read and interpret professional literature in evaluating the efficacy of new and established interventions and technologies.

16. Adapt and function effectively under the various circumstances and rigors which are inherent in the clinical practice of physical therapy.

**Admission**

Students may be admitted in one of the two points of entry to the Doctor of Physical Therapy program: direct entry to Sage Graduate School or the 3+3 program through Russell Sage College.

**Direct Entry through Sage Graduate School**

Qualified men and women who possess or are completing a baccalaureate degree and have fulfilled the prerequisite courses for the professional program in Physical Therapy may be accepted directly to the Doctor of Physical Therapy program through Sage Graduate School.

In addition to meeting the general requirements for admission to Sage Graduate School, the successful applicant to the Doctor of Physical Therapy at Sage Graduate School will demonstrate evidence of the following:

- Earned baccalaureate degree from an accredited college or university.
- Minimum cumulative grade point average (GPA) of 3.0.
- Minimum science GPA of 3.0 in the required science courses.
- Completion of all prerequisite courses for the professional Doctor of Physical Therapy program with a grade of “C” or better in each required course.
- Completion of at least 40 hours of physical therapy clinical observation under the direction of a licensed physical therapist before beginning the professional program.
- Submission of the Academic Standards Statement and Documentation of Clinical Observation Hours with the Sage Graduate School Application.

**Partnership Agreements with 4-Year Colleges**

Sage has developed partnership agreements with several four-year colleges to guarantee admission to the Sage Doctor of Physical Therapy program for qualified students. These agreements provide for:

- Automatic acceptance into the DPT program for students who have completed DPT program course prerequisites, after initial advisement and interview, with completed application and evidence of academic eligibility;
- Waiver of Sage Graduate School application fee;
- Early acceptance (for students who submit applications prior to October 15 of their senior year);
- Advisement to coordinate undergraduate electives and coursework to address DPT program prerequisites; and
- Opportunity to apply early for graduate assistantships.

Qualified students will:

- Earn a baccalaureate degree prior to entering the DPT program;
- Maintain a minimum overall 3.0 GPA in their undergraduate programs and 3.0 GPA in the DPT program prerequisite science courses;
- Complete an admission interview with PT program faculty; and
- Document completion of clinical observation hours under the supervision of a physical therapist.

For more information about the agreements, please visit the [DPT program web site](http://catalog.sage.edu/06-07sgs.php).

**Entry through the 3+3 at Russell Sage College**
Women who are entering directly from high school or transferring at the preprofessional level may apply to Russell Sage College for the 3+3 bachelor’s degree leading to the Doctor of Physical Therapy. Students entering this six-year program at Russell Sage College will choose an undergraduate liberal arts major in one of the following disciplines: Biology, Biopsychology, Chemistry, English, Health and Wellness Science, History, Interdisciplinary Studies, Psychology, Sociology, Spanish, or Therapeutic Studies. Students need to have completed 91 credits prior to entering the summer of the fourth year, which is the start of the DPT program coursework. The baccalaureate degree is awarded from Russell Sage College in December of the fourth year, and students participate in the spring commencement ceremony. The Doctor of Physical Therapy is awarded from Sage Graduate School at the end of the sixth year.

Students who enroll at RSC in the 3+3 bachelor's degree leading to the Doctor of Physical Therapy are eligible to advance to the professional Doctor of Physical Therapy program in their fourth year and are guaranteed acceptance into the DPT program providing they have met the following academic requirements in the first three years of undergraduate study:

- Achieve a minimum cumulative GPA of 3.0 in undergraduate study.
- Achieve a minimum science GPA of 3.0 in the prerequisite science courses: Biology 201, 202, 220; Chemistry 103 and 104 or 111 and 112; Physics 101 and 102; and Science 310.
- Complete at least 40 hours of observation with a licensed physical therapist.
- Complete the undergraduate major requirements and RSC general education requirements and DPT program prerequisites.

The first formal review for eligibility to continue into the professional program will take place after the fall semester of the third year.

**Procedures for Acceleration into the DPT Program**

By April 1 of the third year (or equivalent) of undergraduate academic study at RSC, students who are accelerating into the DPT program will:

- Arrange for a meeting with PT Program Coordinator
- Complete PT Program Acceleration packet available from the Physical Therapy Department (Academic Standards Statement, Student Information Form, Clinical Observation Document);
- Submit a current resume;
- Provide transcripts from all college institutions attended; and
- Provide a list of courses in progress and planned during the third undergraduate year.

**Academic Standards for the Professional Doctor of Physical Therapy**

In order to remain in good academic standing in the DPT program, the student must:

- Maintain a minimum professional GPA of 3.0 (includes all PTY courses).
- Achieve a grade of “C” or better in all professional courses. Students who achieve grades in the “C” range in multiple professional courses may be required to repeat courses, or complete other remedial work to assure competence for clinical practice or may be dismissed from the program.
- Achieve a grade of “P” in all clinical education courses. Students who fail to complete a clinical education experience or who are removed from the clinical education experience may be dismissed from the program.
- Successfully complete all oral/practical comprehensive examinations (minimum passing grade is 80 percent). Students who are repeatedly not successful in passing oral/practical exams on the first attempt may be dismissed from the program or required to complete remedial plans as specified by the program faculty.
- Successfully complete all laboratory proficiency exams (minimum passing grade is 80 percent ). Students who are repeatedly not successful in laboratory proficiency exams, on the first attempt, may be dismissed from the program or required to complete remedial plans as specified by the program faculty.
- Demonstrate effective professional behavior, including interpersonal communication skills and judgment, necessary for the clinical education experiences and professional practice.
- Students must be continuously enrolled in the DPT program.

**Dismissal**

Students who fail to meet the program, academic, and / or clinical requirements or who fail to demonstrate professional behavior may be dismissed from the program, required to repeat courses, or complete remedial plans as specified by the program faculty. Please refer to the Graduate Student Physical Therapy Handbook for further details about program policies, standards and clinical education requirements. Upon request, students who withdraw or who are dismissed from the program may have their records reviewed for consideration of readmission. Readmission will be determined by the faculty based on qualifications and any additional criteria required at the discretion of the faculty.

**Grievance/Appeal Procedure:**

Students may appeal any decision regarding their grade or status in the program by following the procedures for grievances/appeals specified in the Sage Graduate School Catalog. Students should first seek resolution through the course instructor, program director and department.
chair before seeking resolution outside the program. In the event that a student wishes to appeal a grade, the student must submit in writing to the course instructor the reasons for requesting a change in grade. For grades on an exam, clinical proficiency, lab practical, or assignment, this request must be submitted within two weeks of the graded work being returned to the student. To appeal the final course grade, the request must be submitted within the first two weeks of the next academic semester that follows the semester in which the course was taken (e.g., summer course grades must be appealed within the first two weeks of fall semester; fall course grades must be appealed within the first two weeks of spring semester; and spring course grades must be appealed within the first two weeks of the fall semester).

**Transitional Doctor of Physical Therapy Program (tDPT)**

In June 2000, APTA's House of Delegates endorsed the APTA Vision Statement for Physical Therapy 2020 which envisions that physical therapy will be provided by physical therapists who are doctors of physical therapy:

"Physical therapy, by 2020, will be provided by physical therapists who are doctors of physical therapy and who may be board-certified specialists. Consumers will have direct access to physical therapists in all environments for patient/client management, prevention, and wellness services. Physical therapists will be practitioners of choice in clients' health networks and will hold all privileges of autonomous practice. Physical therapists may be assisted by physical therapist assistants who are educated and licensed to provide physical therapist-directed and supervised components of interventions.

Guided by integrity, life-long learning, and a commitment to comprehensive and accessible health programs for all people, physical therapists and physical therapist assistants will render evidenced based service throughout the continuum of care and improve quality of life for society. They will provide culturally sensitive care distinguished by trust, respect, and an appreciation for individual differences.

While fully availng themselves of new technologies, as well as basic and clinical research, physical therapists will continue to provide direct patient/client care. They will maintain active responsibility for the growth of the physical therapy profession and the health of the people it serves." (APTA)

APTA and Sage are unequivocally committed to a fully inclusive transition to the status of a doctoring profession. Inclusiveness means that every U.S.-licensed physical therapist will be afforded the opportunity to attain degree parity with those practitioners who possess the DPT. In addition to the benefits for the physical therapist, an inclusive transition also benefits the profession as a greater critical mass of physical therapists are prepared to practice using the most current body of knowledge and skills, including all aspects of patient/client management.

**tDPT Program Purpose**

The purposes of the transitional Doctor of Physical Therapy Program (tDPT) at The Sage Colleges are to provide:

1. A quality educational program, primarily through a distance learning online curricular format, that reflects an augmentation in the physical therapist professional body of knowledge and practice over the last five to 10 years, allowing physical therapists to complete the program in a format that supports continued employment.
2. A mechanism whereby experienced physical therapists may augment their knowledge and skills in areas that, together with any specialized knowledge and experience acquired over the years, would position them more strongly as a provider of physical therapy in a competitive health care system.
3. A valuable and exciting context for learning, including the rich and diverse interactions between physical therapists whose respective experiences provide an invaluable source of shared learning.
4. A curriculum that is customized to particular learners based on the date and degree level awarded in physical therapy, and their knowledge and experience, thereby minimizing the prospects for duplication of content.
5. A learning context, including the learner's experience and discourse, that reflects a breadth and depth of experience that cannot be present in a professional degree program with students who have no clinical experience.
6. Credentialing at the clinical doctorate level with the opportunity for graduates to achieve parity with other clinical and associated professions that have converted to the doctoral level, including optometry, podiatry, audiology, pharmacy and law.

**Admission Requirements**

1. Earned entry-level bachelor's, master's, combined bachelor's/master's degree in Physical Therapy from an accredited program
2. Official transcripts from all post-secondary institutions attended
3. Current license to practice physical therapy in the United States
4. Current resume
5. Two professional letters of recommendation
6. A career goals statement/personal essay
7. Portfolio of professional development courses and activities if requesting course waivers

**Evaluation of Equivalency of Required tDPT Courses**

Clinicians who are able to demonstrate equivalency in formal graduate level academic coursework or through advanced clinical professional development courses or activities may be granted equivalency credit or have some of the required courses waived.
tDPT Curriculum

Sage's tDPT curriculum is based on the APTA's Preferred t-DPT Curricular Guide and is also consistent with the Guide to Physical Therapist Practice and A Normative Model of Physical Therapist Professional Education, Version 2004. Eight core courses in the tDPT curriculum are designed to "bridge" the gaps typically found between the entry-level bachelor's and master's programs and the current entry-level DPT programs. The tDPT curriculum reflects an augmentation in the physical therapist professional body of knowledge and practice over the last 10 years and includes content in physical therapy differential diagnosis, screening for medical referral, medical imaging, pharmacotherapeutics, business management and administration, principles of evidenced-based practice and scientific inquiry. A capstone experience provides students the opportunity to engage in a faculty-mentored clinical inquiry/research project related to their area of clinical practice. At the completion tDPT, students present their research/culminating project at the annual Sage Graduate School Research Symposium.

Delivery Model

The tDPT program will be delivered in a combination on-site/distance learning format, with the majority of the coursework delivered in an online format. The students enrolled in the tDPT program are practicing clinicians who will need minimal laboratory experiences, which lends itself to the online format. Students meet on campus one weekend each semester with each course meeting from 4-8 hours during the weekend.

Grievance/Appeal Procedure:

Students may appeal any decision regarding their grade or status in the program by following the procedures for grievance/appeals specified in the Sage Graduate School Catalog. Students should first seek resolution through the course instructor, program director and department chair before seeking resolution outside the program. In the event that a student wishes to appeal a grade, the student must submit in writing to the course instructor the reasons for requesting a change in grade. For grades on an exam, clinical proficiency, lab practical, or assignment, this request must be submitted within two weeks of the graded work being returned to the student. To appeal the final course grade, the request must be submitted within the first two weeks of the next academic semester that follows the semester in which the course was taken (eg. fall course grades must be appealed within the first two weeks of spring semester; and spring course grades must be appealed within the first two weeks of the fall semester).
Master of Science in Public Administration

The Capital District of New York is both the seat of government and a home to many not-for-profit and community-based public service organizations. Not only are skilled senior managers, administrators and analysts in government, human services, and the not-for-profit sector in great demand, but the region also provides excellent opportunities for research and for gaining practical experience in the field. The Master of Science in Public Administration (M.S.P.A.) program provides a deeper understanding of the relationship between policy and program, government and agencies, and not-for-profit organizations and government at all levels. The M.S.P.A also develops skills in managing, finance and budgeting, operations and human resources, and organizational design and development.

Sage M.S.P.A graduates are successful in the professional marketplace. As one indicator of this success, a significant number of Sage M.S.P.A graduates have been awarded the prestigious New York State Public Management Internship. New York State recruits from a nationwide pool of applicants for this valuable program. Sage M.S.P.A. graduates completing the NYS Public Management Internship have gone on to successful careers in the public sector.

Since many students in Sage’s M.S.P.A. program are already employed in government and not-for-profit organizations, they find that the Sage degree has helped them accelerate their careers. Students consistently praise the Sage program as highly relevant to their work needs. The Sage M.S.P.A. degree means enhanced career advancement and mobility.

Admission Requirements

Applicants must meet the general requirements for admission to Sage Graduate School.

Options for Specialization

Students may choose to complete the M.S.P.A. program with a Dietetic Internship or Gerontology track for the same total credits listed below. For further information about the Dietetic Internship, contact Melodie Bell-Cavallino, program director for the Dietetic Internship, at (518) 244-2075. For further information about the Gerontology track, contact Dr. Barbara Pieper, program director for Gerontology, at (518) 244-3150.

Master of Science in School Health Education

The School of Education is accredited by the National Council for the Accreditation of Teacher Education (http://www.ncate.org/).

Conceptual Framework

The Sage Colleges is a federation of three colleges. Sage's School of Education offers degree programs at all three: Russell Sage College, an undergraduate college for women; Sage College of Albany, an undergraduate coeducational college; and Sage Graduate School, a coeducational graduate college. The motto of Russell Sage College, “To Be, To Know, To Do,” informs the educational purpose of The Sage Colleges, where the common effort is to translate learning into action and application, within a framework that recognizes the obligation of educated persons to lead and serve their communities. In the School of Education, this motto is extended to form the basis for our programs. We expect Sage educators, counselors, and leaders to be well-grounded in knowledge about schools/communities, learners and learning; to know curricular content and models of instruction; and to do what is necessary to ensure the success of all learners, including collaboration with families/community members in respectful, culturally responsive ways. Underlying this motto is a commitment to leadership, regardless of role. We expect Sage students to take ongoing leadership actions in order to create the optimal educational outcome for all learners.

The mission of the School of Education is to prepare highly effective educators, school counselors, and school leaders who believe in full inclusion, value diversity, and are reflective and knowledgeable about best practices. Therefore, we ask Sage students to consider two essential questions throughout their studies and field experiences: "Who am I in the lives of those with whom I work?" "Who am I in the life of my educational community?"

I. To be well-grounded in knowledge about schools/communities, learners and learning, Sage candidates will:

- understand self in relation to learners, their families and others, particularly in terms of power, privilege and knowledge with regard to culture, class, language, ability and gender;
- use collaborative attitudes and skills which result in successful partnerships with colleagues, families and other community members; improve society by promoting/ modeling and using democratic practices in their settings;
- demonstrate a commitment to substantive self reflection (including quantifiable and qualitative sources of information), on-going learning and professional development;

II. To know curricular content and models of instruction, Sage candidates will:

- demonstrate an ability to respond to the strengths and needs of all learners, using assessment data to inform instructional decisions;
- use knowledge in their designated fields to inspire learners to grow and to meet high standards;
- employ/promote pedagogical practices that engage learners in active ways;
- demonstrate knowledge in their content areas ensuring maximum achievement for all learners;

III. To do what is necessary to ensure the success of all learners--and to collaborate with families/community members in respectful, culturally responsive ways, Sage candidates will:

- engage in reflective practices;
- demonstrate a positive, respectful view of learners and their families;
- listen deeply to the experiences and perspectives of all those within the community;
- model ethical behavior and active citizenship;
- promote the success of all learners through advocacy and action and support the development of leadership throughout the community;
- build trust and garner support for a vision of inclusive schools that value diversity.

National Accreditation Advantage

Sage’s School of Education received accreditation from the National Council for the Accreditation of Teacher Education (NCATE) in October 2001. NCATE accreditation means that graduates are recognized as having completed an Education program that meets the highest standards in the field. Sage graduates should note the NCATE accreditation on their resumes and be prepared to talk about its significance.

- Sage is one of only 28 colleges and universities in New York State to receive prestigious NCATE accreditation. Across the nation, relatively few private colleges can claim this level of excellence in teach education programs.
- The NCATE accreditation process helped articulate what qualities a Sage educator, counselor, or leader possesses: belief in full inclusion, valuing diversity, reflection, and knowledge about best practices. NCATE accreditation is a mark of assurance that...
teachers, counselors, and leaders educated at Sage are competent, caring, and highly qualified.

- NCATE accreditation means that Sage graduates are better prepared to help their students reach high standards.
- Graduates of NCATE accredited programs can more easily receive certification and teaching jobs in other states; NCATE is recognized throughout the nation.

M.S. in School Health Education

The Master of Science (M.S.) program in School Health Education is designed to prepare health teachers for initial or professional certification in accordance with New York State Education Department regulations. This master's degree prepares health educators for certification across grade levels K - 12.

Admission Requirements

Applicants for admission to the School Health Education program must meet the general admission requirements to Sage Graduate School and must complete an:

- Interview with an appropriate advisor after all materials have been submitted
- Assessment of writing skills

- Interview with an advisor after all materials have been submitted
- Assessment of writing skills

(Note: All coursework, including NCR workshops, must be complete before student teaching.)

**Deadlines:**

- For Fall semester, second Friday of previous March
- For Spring semester, second Friday of previous October
Applicants for New York State certification must be fingerprinted and undergo a criminal history review, per New York State Law.

Candidates for NYS teaching certificates must pass the New York State Teacher Certification examinations, including the Liberal Arts and Sciences Test (LAST), the Assessment of Teaching Skills - Written, (ATS-W), at the appropriate level, and the Content Specialty Test(s) (CST) in each certificate area.

United States citizenship or Declaration of Intent to become a U.S. citizen is a requirement for certification in New York State.

**Electronic Portfolio**

The School of Education requires all students to subscribe to LiveText, an electronic portfolio system.
Master of Science in Special Education (Childhood)

The School of Education is accredited by the National Council for the Accreditation of Teacher Education (http://www.ncate.org/).

Conceptual Framework

The Sage Colleges is a federation of three colleges. Sage's School of Education offers degree programs at all three: Russell Sage College, an undergraduate college for women; Sage College of Albany, an undergraduate coeducational college; and Sage Graduate School, a coeducational graduate college. The motto of Russell Sage College, “To Be, To Know, To Do,” informs the educational purpose of The Sage Colleges, where the common effort is to translate learning into action and application, within a framework that recognizes the obligation of educated persons to lead and serve their communities. In the School of Education, this motto is extended to form the basis for our programs. We expect Sage educators, counselors, and leaders to be well-grounded in knowledge about schools/communities, learners and learning; to know curricular content and models of instruction; and to do what is necessary to ensure the success of all learners, including collaboration with families/community members in respectful, culturally responsive ways. Underlying this motto is a commitment to leadership, regardless of role. We expect Sage students to take ongoing leadership actions in order to create the optimal educational outcome for all learners.

The mission of the School of Education is to prepare highly effective educators, school counselors, and school leaders who believe in full inclusion, value diversity, and are reflective and knowledgeable about best practices. Therefore, we ask Sage students to consider two essential questions throughout their studies and field experiences: “Who am I in the lives of those with whom I work?” “Who am I in the life of my educational community?”

I. To be well-grounded in knowledge about schools/communities, learners and learning, Sage candidates will:

- understand self in relation to learners, their families and others, particularly in terms of power, privilege and knowledge with regard to culture, class, language, ability and gender;
- use collaborative attitudes and skills which result in successful partnerships with colleagues, families and other community members; improve society by promoting/ modeling and using democratic practices in their settings;
- demonstrate a commitment to substantive self reflection (including quantifiable and qualitative sources of information), on-going learning and professional development;

II. To know curricular content and models of instruction, Sage candidates will:

- demonstrate an ability to respond to the strengths and needs of all learners, using assessment data to inform instructional decisions;
- use knowledge in their designated fields to inspire learners to grow and to meet high standards;
- employ/promote pedagogical practices that engage learners in active ways;
- demonstrate knowledge in their content areas ensuring maximum achievement for all learners;

III. To do what is necessary to ensure the success of all learners—and to collaborate with families/community members in respectful, culturally responsive ways, Sage candidates will:

- engage in reflective practices;
- demonstrate a positive, respectful view of learners and their families;
- listen deeply to the experiences and perspectives of all those within the community;
- model ethical behavior and active citizenship;
- promote the success of all learners through advocacy and action and support the development of leadership throughout the community;
- build trust and garner support for a vision of inclusive schools that value diversity.

National Accreditation Advantage

Sage’s School of Education received accreditation from the National Council for the Accreditation of Teacher Education (NCATE) in October 2001. NCATE accreditation means that graduates are recognized as having completed an Education program that meets the highest standards in the field. Sage graduates should note the NCATE accreditation on their resumes and be prepared to talk about its significance.

- Sage is one of only 28 colleges and universities in New York State to receive prestigious NCATE accreditation. Across the nation, relatively few private colleges can claim this level of excellence in teach education programs.
- The NCATE accreditation process helped articulate what qualities a Sage educator, counselor, or leader possesses: belief in full inclusion, valuing diversity, reflection, and knowledge about best practices. NCATE accreditation is a mark of assurance that
teachers, counselors, and leaders educated at Sage are competent, caring, and highly qualified.
- NCATE accreditation means that Sage graduates are better prepared to help their students reach high standards.
- Graduates of NCATE accredited programs can more easily receive certification and teaching jobs in other states; NCATE is recognized throughout the nation.

**M.S. in Special Education (Childhood)**

The graduate Special Education - Childhood program prepares teachers of students with disabilities in grades 1 - 6. It combines advanced study and research in the field with supervised practica. It is our belief that a sound theoretical background with practical experience creates quality special education teachers. The program builds on education courses taken at the undergraduate level, and focuses on mild as well as significant disabilities. The program at Sage is relatively small, allowing faculty and students to work closely together. This close working relationship begins when a faculty advisor and student meet to develop a program tailored to meet the student’s educational needs. This relationship, which continues throughout the student’s coursework, culminates in a portfolio.

The Special Education program is designed for candidates who possess or meet the requirements for New York State provisional or initial certification in Childhood Education or other area and who seek professional certification in special education (grades 1–6) and the master’s degree.

All matriculated students complete a signed program schedule. Any change in stated coursework must receive written approval of the assigned faculty advisor.

**Admission Requirements**

Candidates must meet Sage Graduate School admission requirements. In addition, applicants to the Special Education program complete an:

- Interview with an advisor after all materials have been submitted
- Assessment of writing skills

Applicants for New York State certification must be fingerprinted and undergo a criminal history review, per New York State Law.

Candidates for NYS teaching certificates must pass the New York State Teacher Certification examinations, including the Liberal Arts and Sciences Test (LAST), the Assessment of Teaching Skills - Written, (ATS-W), at the appropriate level, and the Content Specialty Test(s) (CST) in each certificate area.

United States citizenship or Declaration of Intent to become a U.S. citizen is a requirement for certification in New York State.

**Electronic Portfolio**

The School of Education requires all students to subscribe to LiveText, an electronic portfolio system.

**Field Experience Stipend Program**

The Field Experience Stipend Program is a collaborative program between The Sage Colleges and the local public schools. This collaboration allows Sage to provide graduate students with coursework concurrent with opportunities to build competencies in implementing teaching approaches with children and young adults. The program is a 10 month (September-June) full-time placement in an elementary school setting. Local school districts provide a stipend to interns for the public school year. Placements are open to Sage graduate students who are matriculated in Special Education, Literacy, and Childhood Education programs, and are taking at least one course per semester of the Field Experience Program. For more detailed information, contact the field experience coordinator in the School of Education at daverl@sage.edu or (518) 244-2277.
Course Descriptions

**ART-511 Art Criticism and Aesthetics**
An in-depth experience with various theories and practices of criticism and aesthetics as they relate to both the Western European tradition and non-western art. Students will examine both craft forms as well as high art. Candidates will participate in group and individual critiques of their own and their classmates' art work.

**ART-520 Media Literacy**
This course focuses on exploring the uses of media and technology in the classroom. The course addresses the development of media literacy skills. There is a focus on Macintosh computer based exploration with interactive media applicable to the art classroom. There is an open lab component to this course offering hands on experience in available technologies. Multi-media integrated arts presentations will be developed for field testing in K-12 classrooms.

**ART-521 Topics: Dimensions in Art**
There are three topic areas: Art & Ethnicity, Art & Society and Art Past & Present. The courses will be rotated so that each is taught once every three years. Topics of seminars and the focus of studio strategies are based on current concerns in the visual art profession such as multiculturalism and reaching diverse audiences and student populations. Focus is placed on developing an understanding of the types of cultural and personal forces that form visual art and in turn shape diverse cultures of past and present societies.

**ART-557 Ideas in Visual Art**
This course focuses on the creation of art that communicates ideas through different materials. Two and three dimensional materials and methods are explored. There is an emphasis on using materials to explore the possibilities for self-expression. There is also a focus on linking these skills to the ability to develop visual arts curricula for P-12 students. This course emphasizes making 3-D sculptural and 2D design projects from materials that are accessible in candidate and student environments using processes appropriate for use with individuals of all ages.

**BIO-500 Independent Study**
to be arranged with faculty

**BIO-512 Methods in Biology**
This course provides MAT biology teacher candidates with opportunities to consider issues relevant to curriculum instruction and assessment and to model educational methodologies from a contemporary national and statewide perspective. The history of science education and the nature of science will be considered as well. Students will be responsible for designing, carrying out and assessing lessons that are aligned with the current NYS Living in the Environment Core Curriculum. Attention will also be paid to classroom management strategies that relate to human safety and to animal welfare.

**BIO-522 Environmental Literacy**
The instruction of biology rests heavily on the standards surrounding environmental literacy i.e. ecology and the impact that human decisions and activities have on the physical and living environment. This course provides MAT biology teacher candidates with opportunities to consider issues relevant to environmental literacy as they are portrayed in the national science standards as well as the current NYS Living in the Environment Core Curriculum. Through readings, lecture discussion, laboratory experiences, debates and field trips students will be exposed to ideas related to environmental literacy and will design and carry out inquiry-based activities pertinent to this topic.

Take BIO-512;

**BIO-553 Adv Human Physiology**
Concepts of basic normal human physiology with particular emphasis on homeostatic and the interrelationships between various organ systems. Includes water and electrolyte balance, blood cells, the cardiovascular system, renal system, autonomic nervous system, digestive system, and respiratory system.

**BIO-557 Molecular Genetics**
This is a lecture and laboratory course concentrating on the fundamental principles and applications of DNA and RNA technologies. The course is intended to provide students with an operational understanding of gene expression genetic constructs which employ cloning vectors, genomic libraries, gel electrophoresis, restriction end nuclease mapping and polymerase chain reaction techniques. Students will individually perform each of these techniques during the laboratory component of the course.

**BIO-584 Neurobiology**
This course will focus on the central nervous system, its cell types, functional implications of cellular connections in the cortex theories of sleep, central mechanisms of pain neural coding of sensation learning and memory, intra-hemispheric integration and the segregation of tasks, intracellular metabolism and physiological changes associated with various mental states, inherited disorders affecting the CNS and biochemical theories of mental disorders.
BIO-599  Special Topics in Biology

to be arranged with faculty

EDU-401  Childhood Stud. Teach.(gr 1-3)

Student teaching consists of supervised practice teaching in grades 1 2 and or 3 with coordinated academic responsibilities. A weekly seminar is required. Prerequisites: EDU-307 EDU-312 EDU-313 EDU-314 EDU-315 EDU-319 EDU-337.

Take EDU-307 EDU-312 EDU-313 EDU-314 EDU-315 EDU-319 EDU-337;

EDU-474  Reading/Writing-Content Areas

Methods and materials for delivering content area instruction through reading and writing are examined. Candidates will design instruction that develops literacy skills and broadens and enriches student learning of academic subjects. In addition effective teaching strategies for helping struggling and disabled students in inclusive classrooms are covered in detail.

M.A.T. candidates enrolled in EDU-474 must concurrently enroll in EDU-474F (fieldwork).

EDU-500  Independent Study

EDU-502  Crit Thinking: Res Into Pract

The purpose of this course is to provide candidates with strategies for locating and analyzing educational research.

Research studies exemplifying the best of quantitative and qualitative traditions will be examined candidates will critically read experimental correlational survey ethnographic single subject design and teacher inquiry studies available in referred educational journals. Technology will be used throughout the course particularly in library research. The purpose of the course is for teachers and teacher candidates to develop critical thinking skills for reading research and drawing conclusions about its implications for classroom instruction.

EDU-503  Teach All Learners in El Sch.

This course investigates best practices in delivering instruction in inclusive settings. Emphasis is on planning for multi-level structured learning experiences for students with diverse characteristics. Intervention for diverse teaching challenges are investigated within the context of inclusive classrooms. A variety of teaching strategies are presented critiqued and practiced based on a philosophy of interactive and reflective teaching. Candidates develop knowledge about multiple learning styles the full range of learner characteristics partnerships with parents and other educational personnel and developing critical thinking skills in students in grades 1-6.

EDU-511  Lit for Interdiscipl Courses

This course presents both theoretical foundations and practical strategies for constructivist inquiry based approaches that connect learning across the content areas in the secondary school. The focus of this course is using literacy to learn preparing adolescent students who are better able to understand recall and apply academic course content. Incorporating New York State Learning Standards as a framework for instructional planning emphasis is placed on multilevel planning and differentiated instruction that engage at-risk learners including students with special needs pupils acquiring English as a second language and reluctant learners evidencing negative attitudes toward learning. M.A.T. candidates enrolled in EDU-511 must concurrently enroll in EDU-511F (fieldwork). All other candidates enrolled in EDU-511 are required to prepare an additional critique of a current text pertaining to adolescent reading and writing.

EDU-512  Contemporary Middle School Edu

This course explores the nature of teaching and learning in the middle school. Curriculum and pedagogical decisions are based on the needs of the young adolescent in contemporary society. Interdisciplinary instruction and responsive teaching that actively engage middle school learners in the school community are considerations in the course.

EDU-520  Foundations of Literacy

This course addresses approaches to literacy which reflect best practice and research about learning. The key focus is for all students to become literate across cultures and capabilities. Basic reading and developmental linguistic theories models of reading instruction and teaching methods are studied. Participants prepare and teach lessons covering various aspects of literacy. Candidates enrolled in EDU-520 must concurrently enroll in EDU-520F (fieldwork).

EDU-521  Literacy in Middle School

An examination of the multiple literacies of middle school students and the teacher's responsibilities in guiding young adolescents' literacy development across the curricula are the major features of this course. Emphasis is placed in developing strategies for readers/writers and assisting struggling learners to mature.

EDU-522  Teaching in Math, Sci & Tech

This course is designed to help students employ inquiry strategies to teach mathematics science and technology (MST) according to national and NYS Learning Standards. Multilevel instruction integrating mathematics science and technology (MST) will be the focus of this course with emphasis on processes of analysis inquiry and design; using information systems processes to understand MST; designing instructional models for integrated MST instruction for delivery in heterogeneous and diverse classes; designing innovative principled uses of information technology for improving instruction in MST; and integrating MST with applications to interdisciplinary problem-solving. A twenty-five hour field
experience is required. This course must be taken concurrently with EDU-522F (fieldwork).

**EDU-523**  
**Teaching in the Humanities**  
Multi-level instruction integrating social studies the arts reading writing and oral language based on national and NYS Learning Standards will be the focus of this course with emphases on knowledge of the academic disciplines in the humanities constructive pedagogies and complex instruction models in heterogeneous and diverse classes. Planning curricula will be directed toward learners' unique characteristics and cultures as well as their overall development in knowledge and learning. This course should be taken concurrently with EDU-522.

**EDU-535**  
**Conflict Resolution in Sch Set**  
This course will provide a history philosophy and theory of conflict resolution as it applies in educational settings. Utilizing peer mediation as a specific technique for handling conflict resolution among students will be emphasized. Classroom teachers and guidance counselors will be prepared to help organize programs in schools where such programs are not currently in place and to assume an effective leadership role where peer mediation programs are currently in use.

**EDU-550**  
**Social & Cult Influ on Lit Edu**  
This course investigates the influences of social and cultural diversity in literacy education for adolescents. Major topics include institutional adaptations to difference language and dialect differences in literacy culturally responsive teaching critical literacy bi-culturalism and bi-dialectism multicultural literature and society's response to the literacy needs of minoritized groups.

**EDU-572**  
**Assessment Approaches**  
This is an introductory course in educational assessment and evaluation. It examines issues pertaining to the interpretation of school-wide classroom and individual assessment information. Specific topics include principles and concepts in assessment standardized testing performance-based and teacher made assessment strategies.

**EDU-574**  
**Reading/Writing-Content Areas**  
Methods and materials for delivering content area instruction through reading and writing are examined. Candidates will design instruction that develops literacy skills and broadens and enriches student learning of academic subjects. M.A.T. candidates enrolled in EDU-574 must concurrently enroll in EDU-574F (fieldwork).

**EDU-576**  
**Emergent Language & Literacy**  
This course explores how language acquisition contributes to literacy development. Particular attention is paid to emergent reading and writing and the interrelationships of language learning literacy development and children's interactions with literature. Effective teaching practices for including children with disabilities in inclusive classrooms are examined.

**EDU-578**  
**Collaboration in Ed Settings**  
Candidates review theories of collaboration and develop skills in applying the practices of collaboration and consultation in school settings as well as the regulatory structure within which collaboration and consultation practices are employed in schools. Methods of conducting effective child study and other team meetings consultation between general and special educators and partnerships with parents will be discussed and role played.

**EDU-579**  
**Soc.Justice Read-Childrln Lit**  
Designed for childhood literacy and special education teachers and teacher candidates the course requires students to critically analyze children's literature for its depiction of concepts events and protagonists pertaining to social justice. Candidates review the professional literature related to children's literature its impact on instruction and the extent to which children's literature replicates and or advances educational systems' inclusion of diverse populations.

**EDU-588**  
**Building Learning Communities**  
Students will gain experience in planning implementing and evaluating a variety of individual and group management techniques in their own classrooms. Both instructional management and classroom management will be examined as means of increasing pupils' time on task and opportunity to learn. Student-teacher interaction models will be explored.

**EDU-593**  
**Integrating Litrcy-Thry&Pract.**  
This course examines current theories research and effective practices for teaching reading comprehension. Using a constructivist model of understanding factors influencing students' understanding of text are analyzed. Special attention is given to teaching all students particularly those with disabilities in regular classroom settings.

**EDU-594**  
**Teacher-Reseacher-Portfolio**  
This course is prerequisite to Student Teaching. Candidates focus on the applications of research in teaching grades 1 - 12. A literature review is completed and a research project designed.

**EDU-599**  
**Topic:**

This course is designed for in-depth discussion and analysis of one major educational topic. This is a multi-sectional course.
with each section centering upon one topic of national importance which has both immediate and long-range educational implications. The content is focused upon those factors which may be causing the topic to remain visible and the variety of ways in which concerns are expressed.

**EDU-649 Student Teaching/Elementary I**

Practice teaching for prospective elementary school teachers is arranged by the college in each fall semester for students who have satisfied the liberal arts requirements for certification in NY state and who have completed the 30 professional credits including courses in Phases I and II of the childhood program in Education and EDU 594 Teacher as Researcher. Students planning to student teach must fill out an application and interview in the spring semester preceding the student teaching in the fall. These courses are designed to permit a comprehensive review of the teaching role at the same time students will identify persistent problems questions or issues and evaluate the various methodologies available for bringing them to resolution. Prerequisite: Matriculation all courses in Phases I and II of the childhood program in education and EDU 594 (Edu 594 may be taken concurrently).

Take EDU-510 EDU-520 EDU-530 EDU-540 EDU-572 EDU-574 EDU-578 EDU-586 EDU-587 EDU-588;

**EDU-650 Student Teaching/Elementary II**

Practice teaching for prospective elementary school teachers is arranged by the college in each fall semester for students who have satisfied the liberal arts requirements for certification in New York State and who have completed the 30 professional credits including courses in Phases I and II of the childhood program in Education and EDU 594 Teacher as Researcher. Students planning to student teach must fill out an application and interview in the spring semester preceding the student teaching in the fall. These courses are designed to permit a comprehensive review of the teaching role at the same time students will identify persistent problems questions or issues and evaluate the various methodologies available for bringing them to resolution.

Take EDU-510 EDU-520 EDU-530 EDU-540 EDU-572 EDU-574 EDU-578 EDU-586 EDU-587 EDU-588;

**EDU-654 Seminar in Literacy**

The purpose of this course is three-fold: first students will be guided in the completion of in-depth research pertaining to literacy; second students will be assisted in their preparation of a teaching portfolio which is required in the Masters of Literacy Education program; third students will participate in an analysis of a shared topic in literacy education. These topics vary each year and have addressed issues pertaining to gender and literacy diversity effective intervention practices and school reform efforts. Prerequisites: EDU 572 and 593.

Take EDU-572 EDU-593;

**EDU-656 Adolescence Educ Internship7-9**

The college establishes the teaching internship for one semester of the public school calendar (i.e. September-January or February-June) for junior high/middle school prospective teachers who have satisfied the content requirements for certification in New York State. Preservice teachers spend half of each day actively engaged in teaching their content in grades 7-9. This experience satisfies the NYS certification requirement for student teaching. Students planning to enter the internship must request a placement in the spring semester (by March 15) preceding their internship year. Prerequisites: MTA 578.

Take MTA-578;

**EDU-657 Adolesc Ed Internship 10-12**

The college establishes the teaching internship for one semester of the public school calendar (i.e. September-January or February-June) for high school prospective teachers who have satisfied the content requirements for certification in New York State, Preservice teachers spend half of each day actively engaged in teaching their content in grades 10-12. This experience satisfies the NYS certification requirement for student teaching. Students planning to enter the internship must request a placement in the spring semester (by March 15) preceding their internship year. Prerequisites: MTA 578.

Take MTA-578;

**EDU-658 Adolesc Student Teaching 7-9**

Practice teaching in grades 7-9 for prospective content teachers is arranged by the college in each spring semester for candidates who have completed all coursework in the M.A.T. program with the exception of EDU 594 and who have completed the specified pedagogical and content courses in the Master of Arts in Teaching program. Students planning to teach must request a placement in the fall semester (by October 15) preceding the student teaching semester. Prerequisites: MTA 578 502 EDU 511 and the 12 credits required in the content area.

Take EDU-511 MTA-502 MTA-578;

**EDU-659 Adolesc Student Teaching 10-12**

Practice teaching in grades 10-12 for prospective adolescence educators is arranged by the college in each spring semester for candidates who have completed all coursework in the M.A.T. program with the exception of EDU 594 and who have completed the specified pedagogical and content courses in the Master of Arts in Teaching program. Students planning to teach must request a placement in the fall semester (by October 15) preceding the student teaching semester. Prerequisites: EDU 511 MTA 502 and 578.

Take EDU-511 MTA-502 MTA-578;
EDU-661 Internship in Art Educ (K-6)
EDU-662 Internship in Art Educ (7-12)
EDU-663 Student Teach Art Educ (K-6)
EDU-664 Student Teach Art Educ (7-12)
EDU-670 Internship in Childhd/Spec Ed
EDU-671 Internship in Childhd/Spec Ed

ENG-511 Contemp Appr to Young Adlt Lit
This course provides students with the knowledge and skills to elect interpret and use recent approaches to young adult literature (e.g. interdisciplinary multicultural). We will survey the theories and practices of curriculum integration and develop frameworks for cross-curricular and cross-cultural learning activities and assessment. The class will model thematic units as organizing principles by focusing on one topic each semester (e.g. war and peace environments heroes and anti-heroes).

ENG-520 Adv. Studies in Linguistics
After reviewing and extending their knowledge of the core areas of linguistics (phonetics phonology syntax morphology semantics) students will apply the precepts and analytic procedures they have developed to practical situations particularly those most relevant to teaching. Issues include language change; language acquisition (especially as it applies to second language learning); societal segmentation and linguistic variation; images of gender in linguistic form; and communicative behavior in the school setting.

ENG-521 Advanced Stud in Writ & Rhet.
This course engages students in a close examination of language and discourse. Subjects include process writing approaches; a thorough review of traditional grammar (framed by its usefulness n talking about writing); techniques of rhetoric and discourse; and the evolution of expository writing. The class will model collaborative work peer review reflective self-assessment and portfolio assessment as well as the use of technology as a tool for writers and teachers of writing.

ENG-557 Canon, Canonicity & Coverage
This course will examine the concept of a literacy canon. How was the canon formed how has it changed and what is its place if any in current English studies? Are there particular works or authors that everyone must read and how do these must reads change over time and across cultures? An important part of this course will be each student's review of her/his English studies to detect gaps in coverage even as we debate the worthiness of the coverage concept as a facet of teacher preparation. Each student will construct and complete a reading list to mend the gaps in his/her background.

ENG-599 Selected Topics in English

GDC-502 Crit Thinking: Res Into Pract
The purpose of this course is to provide graduate students wit strategies for locating and analyzing educational research. Research studies exemplifying the best of quantitative and qualitative traditions will be examined: students will critically read experimental correlational survey ethnographic single subject designs and teacher inquiry studies that are available in refereed educational journals. Technology will be used throughout the course for library research skills. The purpose of the course is for counselors to develop critical thinking skills for reading research and drawing conclusions about its implications for school counseling.

GDC-535 Conflict Resolution in Sch Set
This course will provide a history philosophy and theory of conflict resolution as it applies in educational settings. A definition description in process for integration in core curricula will be considered. Utilizing peer mediation as a specific technique for handling conflict resolution among students will be emphasized. Classroom teachers and guidance counselors will be prepared to help organize programs in schools where such programs are not currently in place and to assume an effective leadership role in conflict resolution techniques and in the safe schools effort.

Take GDC-550;

GDC-550 Role of the Counselor
In considering the function and responsibilities of school counselors at the elementary middle school and high school level emphasis will be placed upon the counselor's role as a student advocate and agent of change. Educational requirements established by the Board of Regents the needs of special populations ethical standards and the interaction of the counselor with all of the various school publics to be served will be addressed. Opportunities to interact with school counselors and other school personnel will be provided through school-based interviews an observations.

http://catalog.sage.edu/06-07sgs.php
GDC-553  Career Counseling
This course will examine approaches to career counseling helping strategies in career counseling assessment and evaluation principles for using career information successfully and types of delivery systems for the elementary middle and high school settings. In addition students will learn about developmental issues and career counseling information retrieval career and vocational guidance strategies for decision making and problem solving as well as the development and staffing of career guidance centers.

GDC-566  Practicum in School Counseling
The student's practicum includes 40 hours of direct service with students including experience in individual counseling and group work; weekly interaction with an average of one hour per week of individual and/or triadic supervision; an average of 1.5 hours per week of group supervision provided over the course of the one semester practicum.

GDC-571  Working w/Parents in Educat’n
This course is intended to develop appreciation for parents as active participants in their children's education and awareness of the diversity of families. A survey of theories and practices focusing on effective communication skills between parents and school personnel and between parents and their children will be addressed. Preparing school counselors will engage in a simulated parent education group and will be asked to attend representative parent evening programs in school districts of their choosing.

GDC-575  Appraisal in School Counseling
Students will be prepared to apply sound principles of measurement and appraisal in the counseling process with students staff and parents. Current issues related to the use of standardize tests and alternative forms of assessment will be considered. Computer applications and systems appropriate to school counselor functions will be included. Basic steps in the planning and conducting of research in the school setting will be emphasized.

GDC-578  Collaboration in Ed Settings
The purpose of this course is to survey the theories and practices of consultation in schools. Methods of conducting effective child study and other team meetings consultation between regular and special educators and partnerships with parents will be discussed. Case studies will be role played.

GDC-585  Counsl'g Cultur'ly Diverse Pop
The focus of this course will be on preparing counselors who will be able to assure students of culturally diverse backgrounds access to appropriate services and opportunities that promote maximum development. Counseling students will be expected to conduct self-examination of their personal values attitudes and beliefs regarding cultural diversity in the schools. Counseling techniques will be explored which foster the interest of culturally diverse students in careers that have been traditionally limited or closed. Also emphasized will be small group and classroom activities which enhance self-esteem and cultural awareness and which develop acceptance and appreciation of cultural diversity.

Take PSY-571;

GDC-587  Internship-Guidance/Counseling
The school counselor internship requires placement in a public school the equivalent of full time for one semester or part time over a full year. Interns will work under the direct supervision of an experienced school counselor and will participate in the entire range of activities and functions of a school counselor. Prerequisites: Completion of 36 graduate credits.

GDC-589  Issues in Guidance & Counseling
Utilizing a seminar format this course will deal with issues presently confronting school counselors. Selection of specific topics will be determined by staff in consultation with prospective students. Potential topics include effective practices in elementary and middle school counseling designing and implementing a comprehensive K-12 guidance program guidance and counseling or the gifted student developing students' study skills supervision and evaluation of school counselors models of classroom management The Counselor Ethics and School Law. Prerequisite:GDC 587.

Take GDC-587;

GDC-590  Advanced Practicum/Internship
Students will have an opportunity in their school setting or in a second internship at a different level from their first internship to apply counseling skills and techniques. While serving in the role of a professional staff member students will have the opportunity to develop and apply specific counseling strategies to effect positive change in their counselor’s academic career and personal/social development. A counseling tape with a student will be required. Students will be expected to practice counseling skills during the weekly seminar. Prerequisite: GDC 587.

Take GDC-587;

GDC-599  Topic:
This course is designed for in-depth discussion and analysis of one major topic in guidance and counseling. The topic will be of national importance having both immediate and long-range implications in the field of guidance and counseling. Prerequisite: GDC 587.
GNT-501 Perspectives on Aging
This course provides opportunity to define at a personal and societal level the following questions: What is aging? Who are the elderly? What are the issues that impact the experience of aging? Answers to these questions are explored through scientific subjective qualitative and fictive accounts of age and aging in the historical and cultural tradition of the arts and humanities. Offered fall only on even numbered years. (Theory - 37.5 Hrs).

GNT-502 Physiological Aging: Imp. & Ad
Each system of the body will be studied to understand its general structure and function and to learn the effects aging has on that system. The implications of physiological changes on the general function and well-being of the individual at the physical psychological and societal level will be presented. Students will learn what can be done to facilitate and maintain the health quality of life and optimal functioning of the individual.

GNT-503 Psych. Adaptations to Aging
This course examines aging and its effects on people using concepts and methods taken from the social sciences and the humanities. The objective is to increase the student's ability to move from societal to individual considerations and back without losing sight of the larger humanistic consideration and questions. Assignments will include: reading and critiquing psychosocial contributions to the gerontological literature observing settings where older people live and interacting with older adults in these settings. The latter assignment will facilitate students' understanding of the opportunities older adults have to interact with members of their own and younger cohorts. Prerequisites: An undergraduate course in psychology or sociology is highly recommended.

GNT-504 Publ Pol/Serv Del Aging Pop
This social and health policy course will focus on two critical issues: our aging population and end of life care. These issues will be considered individually and where they overlap in the public policy arena. Public policy and service delivery for America's aging population and end of life care appear to be at a crossroads as our society struggles to meet the demands of competing political philosophies advances in medical technology and a rapidly changing demographic profile. In the current political debate the only thing that is clear is the inevitability of change and the certain challenge to existing social political and economic institutions. This graduate level course provides an overview of the significant social and health care policies and programs that affect end of life care and aging populations. Though the focus of the course is aging and end of life care there is content that is relevant to diverse and vulnerable populations the public policy making process and policy analysis. Content will include historic perspectives current programs and their impact on various groups and the future of social and health care policy and programs. Areas for in-depth analysis will include: health care income security long term care end of life issues health care finance and formal and informal support systems. When ever possible the course content will be related to the students' work in their major area of study and their professional fields. Particular attention will be paid to Social Security and Medicare budget deficits political ideology and how they are employed as issues in the political arena.

GNT-587 Internship
The goal of the final project is to integrate knowledge gained from the preceding courses and to apply this knowledge either through practical experience or a scholarly project (see Culminating Project in Gerontology). The particular content and form of the project will depend on the student's background interest and needs and will be tailored to each individual student. Prerequisites: Completion of GNT 501 502 503 and 504.

Take GNT-502 GNT-503 GNT-504;

GNT-590 Culminating Project
The goal of the final project is to integrate knowledge gained from the preceding courses and to apply this knowledge either through practical experience (see Internship in Gerontology) or scholarly project. The particular content and form of the project will depend on the student's background interests and needs and will be tailored to each individual student. Prerequisites Completion of GNT 501 502 503 and 504.

Take GNT-502 GNT-503 GNT-504;

HED-502 Crit Thinking: Res Into Pract
The purpose of this course is to provide candidates with strategies for locating and analyzing educational research. Research studies exemplifying the best of quantitative and qualitative traditions will be examined: candidates will critically read experimental correlational survey ethnographic single subject design and teacher inquiry studies available in refereed educational journals. Technology will be used throughout the course particularly in library research. The purpose of the course is for teachers and teacher candidates to develop critical thinking skills for reading research and drawing conclusions about its implications for classroom instruction.

HED-508 Personal Behavior Choice
This course provides an opportunity to explore the full range of personal health concerns of individuals in the United States especially those issues which can be addressed through health education processes. Emphasis of the course is on examining personal health issues and developing effective health education strategies to assist individuals to improve their health status.
HED-535 Conflict Resolution
This course will provide a history philosophy and theory of conflict resolution as it applies in educational settings. Utilizing peer mediation as a specific technique for handling conflict resolution among students will be emphasized. Classroom teachers and guidance counselors will be prepared to help organize programs in schools where such programs are not currently in place and to assume an effective leadership role where peer mediation programs are currently in use.
Take GDC-550;

HED-541 Nutrition and Physical Fitness
This course will examine the reciprocal nature of nutrition and physical fitness in health. The health educator will learn content and strategies for working with youth.
Take HED-508 HED-558;

HED-542 Chemical Dep Educ & Prevention
From this course students will develop an understanding of the causes of chemical use and abuse. Emphasis will be on the acquisition of knowledge and skills useful in developing strategies or implementing effective research based chemical dependence education and prevention programs. Prerequisites: HED 508 and 558
Take HED-508 HED-558;

HED-543 Human Sexuality
The course examines sexual knowledge attitudes and behaviors as well as a range of sexual variations and their relationship to cultural and societal norms. Participants will develop plans to present human sexuality training. Prerequisites: HED 508 and 58
Take HED-508 HED-558;

HED-558 Foundations of Health Educ
Roles practices and functions of the health educator will be placed in a historical context. Special attention will be given to behavior models and program models with a view to understanding ways of influencing health practices and delivering health education. Current trends and issues will also be discussed. This course should be taken early in the program. Twenty-five hours in the schools are required.

HED-564 Health Education Methods
This course is designed to prepare students to present health education lessons and programs in school and community settings for a variety of audiences. Topics will include: instructional design; learner-centered instructional strategies and evaluation methods. The focus will be on the needs of the learners in different health education settings emphasizing the importance of personal decision-making. Twenty-five hours in the schools are required. Prerequisites: HED 502 508 and 558.
Take HED-502 HED-508 HED-558;

HED-570 Stress Management Techniques
This course will analyze stress sources and their effects on health. Techniques for recognizing stress symptoms reducing their negative effects inducing tension relief and achieving a healthy lifestyle will be examined.

HED-578 Collaboration in Ed Settings
The purpose of this course is to survey the theories and practices of consultation in schools. Methods of conducting effective child study and other team meetings consultation between regular and special educators and parental concerns will be discussed. Case studies will be role played. Observation of consultation practices within a school will be analyzed to enhance practical applications.

HED-585 Couns'lg Cult. Div. Pop.
The focus in this course will be on preparing counselors who will be able to assure students of culturally diverse backgrounds access to appropriate services and opportunities which promote maximum development. Counseling students will be expected to conduct self-examination of their personal values attitudes and beliefs regarding cultural diversity in the schools. Counseling techniques will be explored which will foster the interest of culturally diverse students in careers that have been traditionally limited or closed. Also emphasized will be small group and classroom activities which enhance self-esteem and cultural awareness and which develop acceptance and appreciation of cultural diversity. Prerequisite: PSY 571 or permission of instructor.

HED-594 Teacher As Researcher
This course is a prerequisite to student teaching. Students and faculty focus on aspects of the research and practice of teaching. A literature review is completed and a research project designed to be undertaken during the culminating supervised field experience. Students design and plan to carry out research in the classroom as part of the culminating field experience to be written in publishable format and presented at the Graduate Student Research Symposium. Prerequisite: HED 564.
HED-599 Topic:
This course is designed for in-depth discussion and analysis of one major topic in health education. Each section will center upon one topic of national importance which has both immediate and long-range educational implications.

HED-640 Issues in Community Health:
This course will present concepts and methods for identifying and addressing community health problems. Topics will include: analysis of community structure and process; assessment communication strategies and techniques for working with different population groups; planning budgeting implementing and evaluating community change. Ethical issues related to working with competing priorities and limited resources will be examined.

HED-649 Health Ed Stud Teaching K-8

HED-650 Health Ed Stud Teaching 9-12
Practice teaching for prospective school teachers is arranged by the college in each fall semester. Students planning to teach must request placement in the spring semester preceding the student teaching semester. Students will participate in a required weekly seminar. Prerequisites: All core courses wellness sequence & HED 594. Also current Red Cross First Aid and CPR certifications.

HED-652 Community Health Education Pr
This course is designed to provide a culminating experience for the students in the Community Health Education track by affording them an opportunity for a supervised practicum experience. Individual placements will be based on the student's personal career goals. Written documentation of the practicum experience will be required. Students will meet regularly with their advisor and also have the opportunity to share with other students working in the field. Prerequisite: Completion of all other program requirements or prior written approval by the Graduate Program Director.

HIS-511 Historical & Social Inquiry
In this course students will explore the different approaches methods and source material of historical and social research interpretation and writing. The course will also explore the use of both older (tape recorders video camera) and newer technologies (computer Internet) for both research and presentation. The course will be team-taught by a historian and a social or political scientist because of its cross disciplinary character.

HIS-520 Issues in United States Hist.
This is an advanced graduate seminar in topics and issues of New York and United States history from pre-Columbian era to the present. To provide focus each semester this seminar will be organized around important recent studies and themes of US/ North American History which are subjects of current and heated debate in the US history Community. Themes might include: culture race/ethnicity gender politics economics international relations; and will be selected by the history faculty before each seminar offered. The works and themes will provide a window to see larger issues of US history and historiography and to pursue third particular interests within those issue areas. The course will be particularly valuable to students such as secondary teachers who want to gain a solid overview of recent understandings in selected issue areas of US history and want to deepen their knowledge of a particular aspect of those areas. Whenever possible coverage will include New York State history.

HIS-521 Issues in Global History
This course deals with the methodology and historiography of Global history. It is specifically designed to build on student understanding of 8 thematic eras. These include: Ancient World civilizations and religions (400bc-300ad) Expanding zones of exchange and encounter (500-1200AD) global interactions (1200-1650) the first global age (1450-1770) The age of revolution(1750- 1914), a half century of crisis and achievement the 20th century since 1945 and global connections and interactions. These eras are keyed to the NY State social studies learning standard for global history. Hence students completing this course will not only increase their knowledge of global history as a content field but will also be better prepared to teach this subject in New York State.

HSA-555 Admin of Hlth Facil & Agencies
Organization and administrative characteristics of voluntary public and proprietary health care institutions will be examined. Study will focus on goal setting and organization building; a overview of the administrator's internal functions including relationships with the governing board medical staff and departments and responsibilities for coordination and control; personnel staff development and employee relations policies and programs; financial planning and accountability; developing and using policy and procedures manual; community relations; and related critical administrative aspects of hospitals nursing homes mental health agencies homecare agencies and other provider organizations. Prerequisite: HSA 553 or permission of instructor.

Take HSA-553;

HSA-565 Health Care: Fin & Mgt Systems
An examination of systems and data needs for budget financial and management operations and decision making in hospitals nursing homes ambulatory care facilities and health and social agencies. Requirements of third-party payers and
governments cash-flow management cost containment provider and consumer relationships quality care maintenance related to the needs of the patient and family and interfaces with other human service delivery systems will also be covered. Prerequisite: HSA 553

Take HSA-553;

**HSA-572 Planning, Pgm Analysis & Eval**
An orientation to the planning analysis design implementation evaluation and administrative control of government programs. Emphasis will be on integration of these phases the role of information systems use of analytic techniques and accountability to policy makers and the public.

Take HSA-553 HSA-555 HSA-578 HSA-557 HSA-558;

**HSA-577 Practicum in Health Srvc Admin**
Designed for part-time students the practicum provides an intensive research or analytic experience in an appropriate governmental or health service agency. In conjunction with the organization and instructor the student will produce a research report or policy analysis. Prerequisites: HSA 553 555 578 557 558

Take HSA-553 HSA-555 HSA-578 HSA-557 HSA-558;

**HSA-579 Advanced Research Methods**
Presents hypothesis testing and selected multivariate techniques. The course will also consider quasi-experimental design models appropriate in evaluation and field experiments. It will include computer applications appropriate to data analysis and processing. Prerequisite: HSA 578 or equivalent.

Take HSA-578;

**HSA-587 Internship-Health Srvcs Admin**
Designed for full-time students the internship will provide a placement for half time for a term or full time for a summer in an administrative or analytical job in an appropriate agency for the student's concentration area. The student will prepare a written report describing and analyzing the experience in reference to relevant theory. Prerequisites: HSA 553 555 578 557 558

Take HSA-553 HSA-555 HSA-578 HSA-557 HSA-558;

**HSA-596 Seminar in Health Srvcs Admin**
This course is designed as the capstone of the master's program in health services administration. Students are expected to deal with major issues of theory and practice in the field. The production and presentation of a major research paper is the key aspect of the course. Prerequisites: HSA 553 555 578 557 558

Take HSA-553 HSA-555 HSA-578 HSA-557 HSA-558;

**HSA-605 Managed Health Care**
This course is intended to acquaint students with the issues processes consequences decision-making and public policy involved with managed care in today's health care environment. Managed care is the dominant form of health care coverage in the current patient-provider-third party payer milieu. It is essential that health care administrators providers and patients all have an understanding of how managed care operates. The course is intended to provide a historical overview of managed care description of its processes and coverage of related topics to create for the student knowledge and understanding sufficient to navigate in the managed care world of health care.

**MAT-511 Prob Solv, Commun & Reason**
The instruction of mathematics rests heavily on the first three standards of the National Council of Teachers in Mathematics: problem solving communication and reasoning. This course is organized around these three intertwined themes each of which is crucial and pertinent to primary middle and secondary teaching. The premise for this course is that the learning of mathematics by you and by your future students is best achieved by active student participation and involvement discovery critical thinking working collaboratively in groups written and verbal communication of ideas the use of graphical representations when appropriate and the exploration of more open ended problems.

**MAT-520 Educ Tech in the Math Classrm**
This course is an overview to many of the uses of technology in the mathematics classroom. In this course you will explore graphics calculators and the Internet study various mathematics software packages including a computer algebra system statistics package Geometer's Sketchpad and Microsoft Office and learn to critique software lessons and packages.

**MAT-557 Selected Topics: Upr Lev. Math**
This course is intended to extend the mathematical knowledge base of students by focusing on a particular area of pure mathematics. Common to all areas is the notion of proof requiring rigorous command of the language of mathematics along with a certain level of mathematical maturity.

**MAT-599 Independent Study**

**MBA-552 Economic Analysis**
This course provides an intensive analysis of microeconomics and macroeconomics as an explanation of how contemporary free enterprise systems function. Major economic concepts are thoroughly examined and then applied to the real world of economic activity.

**MBA-554 Competitive Advantage**
This cross-functional course examines how today's corporations identify, select, foster, and implement their competitive strategies. Topics include developing new corporate paradigms, screening of environmental opportunities, the role of human and technical innovation, and building organizational excellence through transformational management. A major consulting project within outside firms is required. Prerequisite: MBA 576 and 578.

Take MBA-576 MBA-578;

**MBA-555 Administrative Organiz & Behav**
The basic purpose of the course is to provide the student with a broad overview of the vast and varied literature concerned with the nature of organizations and theory and research pertaining to management in organizations. Since management approaches are ultimately linked to their organizational context, the first part of the course focuses on the theory of organizations and is aimed toward the development of an understanding of organizations in terms of structure function process and environment. The second half of the course concerns behavior in organizations and focuses on the individual within the organization. Topics covered and linked to theory include leadership, motivation, interpersonal relationships, decision making, and problem solving. The course will prepare students to face supervisory management problems organizational dynamics, work design, and ethical confederations for working with people within organization systems.

**MBA-563 Legal Environment**
This course provides an analysis of the legal issues impacting businesses that operate in the United States. The American legal system will be studied in depth. The course covers substantive topics such as contracts, torts, securities, anti-trust, and employment laws. Case studies are utilized to aptly illustrate the legal implications of business decisions and practices. This course prepares business managers to understand legal issues rising in the current business environment.

**MBA-574 Financial Management**
The role of the financial manager is examined in context with the legal operating and tax environment of contemporary business firms. Attention is focused on financial analysis and planning, the time value of money, risk-return relationships, cash flow, asset/liability management, as well as investment priorities. Capital structure, valuation techniques, and capital budgeting applications are covered. Special concerns dealing with mergers, restructuring, and international finance are also addressed. Prerequisites: MBA 551 and 553 or permission of program director.

Take MBA-551 MBA-553;

**MBA-578 Corp Decision Mkng & Modeling**
Operations management and research grounds students in the techniques necessary to plan and control the production and operations functions in manufacturing and service environments. Students learn to recognize operational problems and formulate quantitative approaches in product design, capacity scheduling, inventory control, quality control, and transportation. Pre-requisite: MBA 553 or permission of program director. Prerequisite: MBA 053 553 561

Take MBA-053 MBA-553 MBA-561;

**MBA-596 Topics in Human Resources**
Current significant topics in the specialization will be presented.

**MBA-597 Topics in Finance**
Current significant topics in the specialization will be presented by faculty

**MBA-598 Topics in Marketing**
Current significant topics in the specialization will be presented by faculty

**MBA-599 Topics in Management**
Current significant topics in this specialization will be presented by faculty

**MBA-656 Pers Development-Mgt Positions**
In this course students develop an appreciation of the scope and content of managerial work by examining the personal attributes, skills, and behaviors necessary for success. Through class activities and application assignments students will explore their personal strengths and weaknesses and begin development of competency in a range of activities. These include but are not limited to the following: conflict resolution, use of power and influence, effective oral and written communication, personal stress and time management, and creative problem solving.

**MBA-657 Innovative Org Communications**
An overview of communication theory and general communication processes will be the starting point of the course. The course will then examine a study of communication processes necessary for creativity, innovation, and performance that will
enable the creation of a workplace that is capable and accepting of change. Communication for learning to work in environments of change will also be covered. Emphasis is placed on the role of the leader/executive in the development of organizational communication.

MBA-666 Financial Markets & Instruments
An analysis of financial institutions and markets in the U.S. economy. The course examines the functions policies organization and regulation of financial institutions and markets. Topics include: commercial banking system and other depository institutions; regulation of financial system; market for mortgage corporate and government securities; innovation in the financial markets including market bonds derivative instruments and their application futures and options. In addition the factors that determine the structure of interest rates are examined. Prerequisites: MBA 561 and 574.

Take MBA-561 MBA-574;

MBA-671 Management Information Systems
Students will learn computer and technology based controls of information for organizations in business government nonprofit and health environments. The course will apply software applications such as databases internet interfaces and related software and hardware issues. Emphasis will be placed on students advancing their skills through online experiences and working directly with applications in an information technology environment. Various software packages such as databases spreadsheets and related software are required.

MBA-681 Marketing Research
This course focuses on the research process with specific attention to the problems inherent to applied research. Emphasis will be divided between exploratory and confirmatory strategies and how each is utilized to support marketing decisions. Research designs will be explained and evaluated in the context of typical marketing procedures that they are designed to address. Prerequisites: MBA 553 576 or permission of MBA Director.

Take MBA-553 MBA-576;

MBA-685 Quality Management
The quality management course offers students a basis for a comprehensive understanding of management practices and concepts aimed at enhancing organizational quality and productivity. The course also provides coverage of these topics from the health organization perspective. Current literature in health and management are reviewed and analyzed for quality approaches quality best practices quality policy initiatives and perspectives from selected international organizations. Topics include statistical measurement techniques systems analysis work design performance and quality and root cause analysis.

MBA-695 Strategy/Exec Decision Making
The Strategy and Executive Decision Making course begins with the key decision making area of Strategy development. The development of strategy is then connected to organization mission organization design and organizational performance. Key areas covered include systems analysis modern strategy concepts and best practices applications. Students are required to make executive decisions through case exercises and simulations. Students are assessed on the development of strategic plans for the cases chosen and the simulations of true to life executive strategy decisions. Students should speak with Graduate Programs in Management Director before enrolling.

MGT-554 Competitive Advantage
This cross-functional course examines how today's corporations identify select foster and implement their competitive strategies. Topics include: developing new corporate paradigms screening of environmental opportunities the role of human and technical innovation and building organizational excellence through transformational management. A major consulting project with an outside firm is required. Prerequisites: MBA 576 and 578

Take MBA-576 MBA-578;

MGT-555 Administrative Organiz & Behav
The basic purpose of the course is to provide the student with broad overview of the vast and varied literature concerned with the nature of organizations and theory and research pertaining to management in organizations. Since management approaches are ultimately linked to their organizational context the first part of the courses focuses on the theory of organizations and is geared toward the development of an understanding of organizations in terms of structure function process and environment. The second half of the course concerns behavior in organizations and focuses on the individual within the organization. Topics covered and linked to theory include leadership motivation interpersonal relationships decision making and problem solving. The course will prepare students to face supervisory management problems organizational dynamics work design and ethical confederations for working with people within organization systems.

MGT-561 Organization Design & Develop
Students explore the utility or organization theory and research for improving organizational effectiveness. Both theory and application are emphasized in addressing the central question of how to design effective organizational systems including communication decision making authority autonomy and participation influence models leadership and motivation. Approaches to planned change such as quality management will be considered. Students will apply problem solving systems concepts and environmental analysis to develop skills in the analysis planning and evolution of organizational
change.

MGT-568 Public Policy Process
The scope and methods of a number of disciplinary approaches to the public policy process are analyzed. Policy development and formulation will be covered but policy analysis is emphasized. Techniques include cost/benefit operations research and systems analysis.

MGT-595 Seminar in Public Management
This course is designed to serve as the capstone of the master's concentration in public management. The class meetings will involve seminar discussion of the major issues of the theory and practice in the field. A key aspect of the course is the writing an major research paper on an important problem in public management. Prerequisites: Three courses in the public management concentration and required core courses or permission of the program director.

Take PAD-576 PAD-578 PAD-560 PAD-574 PAD-568 PAD-558;

MGT-657 Innovative Org Communication
An overview of communication theory and general communication processes will be the starting point of the course. The course will then examine a study of communication processes necessary for creativity innovation and performance that will enable the creation of a workplace that is capable of accepting change. Communication for learning to work in environments of change will also be covered. Emphasis is placed on the role of the leader/executive in the development of organizational communication.

MGT-671 Management Information Systems
Students will learn computer and technology based controls of information for organizations in business government nonprofit and health environments. The course will apply software applications such as databases internet interfaces and related software and hardware issues. Emphasis will be placed on students advancing their skills through online experiences and working directly with applications in an information technology environment. Various software packages such as databases spreadsheets an related software are required.

MGT-685 Quality Management
The quality management course offers students a basis for a comprehensive understanding of management practices and concepts aimed at enhancing organizational quality and productivity. The course also provides coverage of these topics from the health organization perspective. Current literature in health and management are reviewed and analyzed for quality approaches quality best practices quality policy initiatives and perspectives from selected international organizations. Topics include statistical measurement techniques systems analysis work design performance and quality and root cause analysis.

MGT-695 Strategy/Exec Decision Making
The Strategy and Executive Decision Making course begins with the key decision making area of strategy development. The development of strategy is then connected to organization mission organization design and organizational performance. Key areas covered include systems analysis modern strategy concepts and best practices applications. Students are required to make executive decisions through case exercises and simulations. Students are assessed on the development of strategic plans for the cases chosen and the simulations of true to life executive strategy decisions. Students should speak with Graduate Programs in Management Director before enrolling.

MTA-502 Crit Thinking: Res Into Pract
The purpose of this course is to provide pre-service adolescence educators with strategies for locating and analyzing educational research in pedagogical and assessment practice. Research studies exemplifying the best of quantitative and qualitative traditions will be examined: students will critically read experimental correlational survey ethnographic single subject designs and teacher inquiry studies that are available in referenced educational journals. Candidates will employ technology will be used throughout the course for library research skills. The purpose of the course is for teachers to develop critical thinking skills for reading research and drawing conclusions about its implications for classroom instruction.

MTA-578 Collab Skills in Sec Settings
The purpose of this course is to survey the theories and practices of collaboration in secondary schools. Methods for working with a range of team members as well as the goals for teaming will be explored (e.g. co-teaching designing activities for the diverse classroom developing authentic partnerships with parents conducting effective meetings.)

NCR-070 Rep & Ident Child Abuse & Malt
This workshop provides training for mandated reporters such as teachers social workers and medical workers. The syllabus is provided by New York State and each student participating in the course receives a copy. The New York State Education certification and licensure units require that applicants verify completion of this training. Sage's workshop is a state-approved offering and participants are provided with the necessary numbered NYS form to accompany applications for certification and licensure.
NCR-071 School Violence Prevention
This workshop provides training in school violence prevention and intervention in accordance with Safe Schools Against Violence Education Act. The New York State certification and licensure units require that applicants verify completion of this training.

NCR-316 Physical Edu Standards WS
This workshop covers the NYS Physical Education Learning Standards. The content of this workshop covers materials required for certification in New York State.

NCR-317 Health Education Standards WS
In addition to covering the New York State Health Education Learning Standards this workshop provides information for the purpose of preventing child abduction as well as preventing alcohol, tobacco, and other drug use. Moreover, safety education as well as fire and arson prevention are presented. The content of this workshop satisfies Education Law sections 803-a, 804, 806, and 808 as required for certification in New York State.

NSG-501 Perspectives on Aging
This course provides opportunity to define at a personal and societal level the following questions: What is aging? Who are the elderly? What are the issues that impact on the experience of aging? Answers to these questions are explored through scientific subjective qualitative and fictive accounts of age and aging in the historical and cultural tradition of the arts and humanities. Offered fall only on even numbered years. (Theory - 37.5 Hrs.)

NSG-508 Nursing Research Methods
An overview of research as an integral part of the theory and practice of nursing is the focus of this course. Research utilization evidence based practice, the process of development of a research idea and supporting research strategies are integrated in the basis for the study of methodology quantitative and qualitative methodology concepts of measurement utilization of appropriate statistical approaches the development of a research study and presentation of results are included. Prerequisite: Undergraduate Statistics.

NSG-557 Group Processes in Health Care
Integration of the concepts of group dynamics, therapeutic group approaches, and facilitative leadership styles in working with clients and/or staff. Emphasis is on the utilization of the theoretical and research literature or group processes in clinical practice. Experiential learning related to task groups, self-actualization groups, and therapy groups facilitates self-growth. Optimal group membership behaviors and leadership skills. Offered spring only. (Theory - 37.5 Hrs.)

NSG-558 Paradigms & Persp Adv Prac Nsg
Analysis of the advanced practice role with emphasis on the knowledge of the discipline and the skills necessary to enact the role of the advanced practice nurse. Students become acculturated to the advanced art and science of nursing which enables them to identify their practice paradigm work within a variety of practice theories and communicate within the language of the discipline. This course serves to introduce students to the graduate program in nursing and helps students identify their chosen program of study. Offered fall spring and summer.

NSG-559 Nursing in Sociopolitical Env
Analysis of the sociopolitical environment of the nursing system as it related to the evolving health care system and the broad social and global environment. Students synthesize advance practice role expectations through a critical examination of contemporary theory, macro system trends, emerging health care policy, and selected nursing issues. The analysis includes evidence of understanding the historical and political roots of nursing practice. Offered fall spring and summer.

NSG-567 Epidemiology & Health Research
Concepts, principles, and methods of epidemiology/research are related to health problems of populations and the evaluation of community interventions. Students gain experience in using biostatistics, descriptive statistics, and critical analysis of study designs used in assessing health risks and epidemiologic research. Offered fall only on even numbered years. (Theory - 37.5 Hrs.)

NSG-604 Curriculum Development
Provides an introduction to the theory and process of curriculum/program development and evaluation in nursing education and staff development. Analysis of current trends in the curriculum theory and practice in nursing education. Development of educational and staff development programs that reflect current nursing theory and practice such as clinical judgment, caring, and commitment. Offered spring only. (Theory - 37.5 Hrs.)

NSG-605 Nurse Educator Practicum
Seminar and clinical experience provide opportunity for the graduate student to develop increasing teaching expertise in the role of faculty in higher education or staff development. The course focuses on the development of the professional educator's role including critical analysis of issues in nursing and higher education and evaluation in class and clinical settings. Offered fall only. (Theory - 1.5 Cr. 19 Hrs; Practicum - 1.5 Cr. 60 Hrs.) Pre/co-requisites: NSG 604 and 609 and at least three credits in advanced clinical courses.
Take NSG-604 NSG-609;

**NSG-606 Pract Mdl in Coun/Psychother**
Analysis of major practice models that nurses use in counseling clients in brief treatment (psychodynamic behavioral cognitive person-centered existential reality crisis spirituality multi-cultural and bio-psychosocial). These models have application in mental health promotion mental health intervention bereavement palliative care and coping with acute or chronic medical disorders (Theory 3 cr 37.5 hours). Offered fall only. Prerequisite: NSG 503 BIO 584~

**NSG-609 Instructional Development**
Overview of instructional development in nursing education and staff development. Cognitive science provides the basis for the study of teaching/learning and evaluation. Methods such as clinical instruction distance learning and classroom teaching are included. The process of teaching thinking clinical judgment critical thinking and caring is analyzed. Offered fall only. (Theory - 37.5 Hrs.)~

**NSG-610 Family Processes**
Analysis of major concepts of family dynamics and processes. Overview of assessment tools and intervention strategies. Nursing application of these to selected target populations. Clinical experience are individually designed and involve supervised experience with at least one family. These should be arranged prior to the first class (Theory - 2 Cr. 25 Hrs.; Clinical - 1 Cr. 40 Hrs.). Offered spring only. Prerequisite: NSG-503~
Take NSG-503;

**NSG-611 Research Seminar**
Designed to facilitate the student's completion of a research project in nursing. It is intended as a culminating experience to build on a core knowledge of advanced nursing and research methods. Students enrolled in this course are expected to be actively involved in the writing of their previously conceived research project. Offered fall and spring. (Theory - 37.5 Hrs.) Prerequisites: NSG 508 and at least 6 credits of clinical sequence.~
Take NSG-508;

**NSG-615 Diagn MH Assmt & Intervention**
Assessment of and interventions with clients with mental health problems. Short-term interventions and measurable outcomes within a managed-care environment are addressed. Critical thinking skills emphasized in making differential diagnoses of mental health disorders. Experiential opportunities provided to assess and diagnose mental health disorders. Offered spring only.~

**NSG-616 Adv Clinical Role Practicum**
Clinical practice and scholarly activities designed to provide leadership in functioning as a clinical specialist or administrator. Emphasis is on initiating change in meeting delivery system trends: improving clinical practice through consultation teaching research and program development; and utilizing information systems and applying macro-system decision making. Offered fall only. (Theory - Cr. 12.5 Hrs.; Practicum - 2 Cr. 80 Hrs.) Pre/co-requisites: NSG 649 Plus one of the following sets: NSG 625 626 627 or NSG 635 636 637 or NSG 557 606 615 610.~
# Take NSG-649; # Take 3 courses; From courses NSG-625 NSG-626 NSG-627 NSG-635 NSG-636 NSG-637 NSG-557 NSG-606 NSG-615;

**NSG-617 Clinical Spec/Psy-Mental Hlth**
An individualized practicum of clinical practice and scholarly activities designed to develop advanced practice skills and strategies for collaborative care management within an area of Psychiatric Mental Health Nursing. Emphasis is on synthesis and evaluation of previous coursework. (Seminar - 13 Hrs.; Clinical - 80 Hrs. required for CNS area.) Prerequisite: NSG 606 NSG 615 BIO 584~
Take NSG-606 NSG-615 BIO-584;

**NSG-619 Diagnostic Health Assessment**
Focus in on the development of diagnostic health assessment skills and recording methods used by the Nurse Practitioner in Primary Care. Content includes the critical thinking skill necessary for differential diagnosis the rationales for intervention special techniques and interpretations of exams and laboratory data including diagnostic studies to make differential diagnoses of health problems. Offered fall only. (Theory - 1 Cr. Clinical; 2 Cr. Clinical Practicum.) Pre/co-requisites: Passing Score on Health Assessment Validation Exam (fee) Director/Course Faculty approval BIO 553 NSG 503~
Take BIO-553;

**NSG-622 Adv Pharm-Acute & Chronic Care**
In-depth study of pharmaco dynamics and pharmacokinetics therapy of common health problems. Includes implications of age drug interactions client and family lifestyles. Technical aspects of prescriptions and legal factors. Teaching and monitoring domains of advanced practice are emphasized. Restricted to matriculated graduate nursing students or permission of program director. Offered spring only. (Theory-37.5 Hrs.) Prerequisites: BIO 553.~

http://catalog.sage.edu/06-07sgs.php
Take BIO-553;

NSG-623 Clinical internship and scholarly activities designed to develop the direct care high level competence of the family adult and geriatric nurse practitioner with a selected population. 200 hours of preceptored practicum (final practicum). Offered fall and spring. (1 Cr. Theory 12.5 class hours; 2 Cr. Clinical Practicum 200 clinical practice hours.) Prerequisites: NSG 621b or NSG 661

Take NSG-621B or NSG-661;

NSG-624 Advanced Psychopharmacology
In-depth study of pharmaco dynamics and pharmacokinetics of drugs used in treating mental disorders. The course is an extension of NSG 622 Advanced Pharmacology. Restricted to matriculate graduate nursing students. Offered spring only. (Theory - 12.5 Hrs.) Pre/co-requisites: BIO 584

Take BIO-584;

NSG-625 Client Coping/Adaptv Stratg's
Opportunity to develop a theoretical model of advanced clinical practice for adult nursing with an emphasis on client coping and adaptive strategies. Concept of self-management of chronic illness and comfort theory are integrated into the scholarly analysis of practice research and theory for an adult client population with chronic illness utilizing critical thinking. Offered fall only. (Theory - 1.5 Cr. 19 Hours. Clinical - 1.5 Cr. 60 Hrs.) Pre/co-requisites: NSG 503.

Take NSG-558;

NSG-626 Care of Acutely Ill Client
Emphasis on care of the acutely ill adult client in a high technological managed care environment. Natural sciences nursing theories with an emphasis on Benner and Watson ANA Standards Scope of Practice and research findings are used as the framework for critical thinking and clinical decision making in acute/critical care. Focus on analysis of parameters in assessment therapeutic interventions monitoring and evaluation of the adult client with episodes of acute illness. Discussion and application of pathophysiological phenomena using critical thinking to develop strategies for clients and families with an acute illness experience. Offered spring only. (Theory - 37.5 Hrs.) Pre/co-requisites: BIO 553 and NSG 503.

Take NSG-558 BIO-553;

NSG-627 Intervention Strategies
Emphasis on theory and application of restructuring health care and system redesign in managing adult client population. Discussion and application of care management strategies using current theory and research to improve health outcomes and quality of care. Offered spring only. (Theory - 1.5 Cr. 19 Hrs.; Clinical - 1.5 Cr. 60 Hrs.) Prerequisites: NSG 625 or permission of instructor.

Take NSG-625;

NSG-628 Adv.Pract-Adult Health Nursing
Emphasis on development of advanced practice skills and strategies for collaborative care management with specific client population groups. This course is designed to build upon and enhance knowledge of the continuum of care for client groups in a manage care environment. Development of role specialization through synthesis of knowledge integration of research activities advanced clinical practice experience and application of management practices. Offered fall only. (Theory - 1 Cr. 12.5 Hrs.; Clinical - 2 Cr. 80 Hrs.) Pre/co-requisites: NSG 626 627.

Take NSG-626 NSG-627;

NSG-635 Population Based Nurs Practice
This course emphasizes the advanced nursing role as aggregate/clinician for community health problems which require policy formulation community changes or program development to improve health care. Provides an opportunity for the student to integrate theories from nursing social and public health sciences to health problems of population groups in primary secondary and tertiary settings. Analysis of issues research trends and theory related to community health nursing. Offered spring only on odd numbered years. (Theory - 2 Cr. 25 Hrs.; Clinical - 1 Cr. 40 Hrs.) Pre/co-requisite: NSG 503 and 567 or permission of instructor.

Take NSG-558 NSG-567;

NSG-636 Health, Healing & Self Care
Analysis and application of conceptual models for health promotion and protection and healing for advanced nursing practice an research. Design and implementation of autonomous nursing interventions and selected complimentary therapies which facilitate lifestyle changes for individuals groups and communities. Sociopolitical implications related to prevention self-care and health promotion are examined. The consulting and teaching nursing domains are emphasized. Clinical practicum required. Offered all and spring. (Theory-2.5 Cr. 31 Hrs.; Clinical-0.5 Cr. 20 Hr.) Pre/co-requisite: NSG 503.

Take NSG-558;
NSG-637  Case Management
The case management process emphasizing its role across the continuum of care will be examined. A professional model of nursing case management with aggregates will be analyzed integrating the community as setting and concepts of health and illness. Broad issues of evolving systems of care ethics economics policy and legislation related to case management are explored. Offered spring only on even numbered years. (Theory-1.5 Cr 20 hrs; clinical 1.5 Cr 60 hrs) Pre/co-requisites: NSG 503 and 567.
Take NSG-558 NSG-567;

Emphasis on development of advanced practice strategies and care management with specific client population groups. This course is designed to build upon and enhance knowledge of health/illness trajectories of high-risk client groups in a managed-care environment. Development of role specialization through synthesis of knowledge advanced clinical practice leadership responsibilities in managed care and research activities are highlighted. Offered fall only. (Theory - 1 Cr. 12.5 Hrs.; Clinical - 2 Cr. 80 Hrs.) Prerequisites: NSG 635 636 and 637.
Take NSG-635 NSG-636 NSG-637;

NSG-642  Acute Care Nurse Prac Role
Knowledge and application of the advanced practitioner in direct role as clinician and case manager indirect role as educator researcher and consultant. Course content includes analysis of health policy organizational change legislative and economic trends which influence health care delivery and impact the legal ethical regulatory fiscal and professional activities related to acute care nurse practitioner practice. Offered summer. (Theory - 1 Cr. 12.5 Hrs.; Clinical - 2 Cr. 80 Hrs.) Prerequisites: Core courses BIO 553 and NSG 619.
Take NSG-619 BIO-553;

NSG-643  Adv Role Practicum I
This course focuses on utilization of critical thinking skills in clinical decision making in a collaborative professional environment with the Acute Care Nurse Practitioner as the principal manager of care for a select group of adult clients. Seminars focus on common problems encountered by client with acute illnesses and/or acute exacerbation of chronic illnesses related to pulmonary cardiovascular renal and endocrine conditions and the impact on quality of life with regards to ethnicity culture age and gender. Offer fall only. (Theory - 1 Cr. 12.5 Hrs.; Clinical - 2 Cr. 200 hrs.) Prerequisites: BIO 553 NSG 622 636 and 619. Co-requisite: NSG 642.
Take BIO-553 NSG-642;

NSG-644  Adv Role Practicum II
This course focuses on utilization of critical thinking skills in clinical decision making in a collaborative professional environment with the Acute Care Nurse Practitioner as the principal manager of care for a select group of adult clients. This experience includes a minimum of 200 hours of a preceptored internship and clinical and didactic seminars. Seminars focus on common problems encountered by clients with acute illnesses and/or acute exacerbation of chronic illnesses related to endocrine neurologic renal genitourinary gynecologic hematologic oncologic immunologic and musculoskeletal conditions and the impact on quality of life with regard to ethnicity culture age and gender. Offered spring only. (Clinical - 200 Hrs. with Clinical Seminars.) Prerequisite: NSG 643.
Take NSG-643;

NSG-647  Adv.Pract-Psyc Mntl Hlth Nsg
Clinical practice and scholarly activities based on synthesis ad evaluation of previously learned concepts. Evaluation of current social economic legal and political issues and trends interrelated with advanced practice. Internships are individually designed with emphasis on psychotherapeutic and prescriptive practice. Clinical supervision provided by agency preceptor with prescriptive privileges. Offered fall only. (Seminar 12 Hrs.; internship - 240 Hrs.) Prerequisites: NSG 606 615 622 624. Co- requisites: NSG 616 647 649.
Take NSG-606 NSG-610 NSG-615 NSG-622 NSG-624;

NSG-649  Transforming Advanced Nsg Role
The purpose of this course is to synthesize the practice leadership management research and teaching knowledge into role application for functioning in the dynamic health care environment. The current and future trends in health care impact on this role and the fulfillment of the role depth competence cohesiveness and flexibility across the health care continuum. Theories from administration management consultation and teaching with emphasis on initiation of change and delivery system trends will be explored to facilitate the student's development of this role. Offered fall and summer. (Theory - 37.5 Hrs) Prerequisite: NSG 503 NSG 552 or permission of instructor.
Take NSG-558 NSG-559;

NSG-650  Psych Ment Hlth-Nurse Prac II
This practicum focuses on the application of theory and critical thinking in clinical decision making in a collaborative professional environment as the provider of care for a group of patients. (Final Practicum). Offered spring only. (Seminar - 12 Hrs.; internship 240 Hrs.) Prerequisites: BIO 584 NSG 606 610 615 622 624. Co- requisites: NSG 616 647 649.
Take NSG-606 NSG-610 NSG-615 NSG-622 NSG-624 BIO-584;

**NSG-652 Clinical Delivery Syst:Op&Fin**

This course provides an in-depth examination of the fiscal concepts and tools used to operationalize the vision and mission of health care systems in the delivery of clinical services. Integration of resources finances and outcomes for program initiatives across community systems is explored. Tools such as forecasting data systems and policy analysis as they apply to health care decision-making are analyzed. (Theory - 37.5 Hrs.) Prerequisites: NSG 649

Take NSG-649;

**NSG-653 Practicum I:Clinical Deliv Sys**

Emphasis on analysis of the nursing leadership role in creating the organizational vision dynamics of collaborative leadership in managing interdisciplinary relationships and evaluating effectiveness of systems through didactic learning and precepted practicum. Fall only. (Theory - 1 Cr. 12.5 Hr.; 2 Cr. Practicum - 80 Hrs.) Prerequisite: NSG 558 Co-requisite: NSG 652.  

Take NSG-652;

**NSG-654 Practicum II:Clinical Deliv Sy**

Focus on analysis of dynamics in health care systems utilization of information systems and application in macro-system decision making and ethical allocation of resources. Fall only. (Theory - 1 Cr. 12.5 Hr.; 2 Cr. Practicum - 80 Hrs.). Prerequisite: NSG 558 Co-requisite: NSG 652.  

Take NSG-652;

**NSG-660 Women & Children's Hlth Theory**

Family Nurse Practitioners care for women infant growing child and adolescent throughout the life span. Theoretical focus includes epidemiological selection of most commonly encountered health problems advanced health assessment and therapeutic interventions using biomedical and advanced nursing models. Focus is on the management of client/family health and illness teaching/counseling healing and monitoring and ensuring the quality of care. Prerequisites: NSG 619 NSG 622

Take NSG-619 NSG-622;

**NSG-661 Women & Chdren's Hlth Clin Pra**

Family Nurse Practitioners care for women infant growing child and adolescent throughout the life span. Clinical experience includes epidemiological selection of most commonly encountered health problems advanced health assessment and therapeutic interventions using biomedical and advanced nursing models. Focus is on the management of client/family health and illness teaching/counseling healing and monitoring and ensuring the quality of care. Pre/co-requisites: NSG 660. 

Take NSG-660;

**NTR-502 Advanced Food Science**

This course analyzes the chemical and physical changes in food components during production processing and preservation using instrumental ans qualitative techniques. Methodological and statistical issues in food science research are discussed. Current research pertinent to food science is examined.  

Take NTR-311;

**NTR-504 Medical Nutrition Therapy**

This course is designed to apply the principles and theories of both normal and aberrant metabolism to the practice of diet therapy. Research and reference resources relating to the practice of medical nutrition therapy are explored. Maternal infant and child nutritional needs are also included in this course. A community nutrition education project is required.  

Take NTR-311;

**NTR-517 Nutrition and Human Disease**

This course examines the etiology and current medical management of diseases where diet modifications are prescribed in the treatment of the patient. An examination of the nutritional concerns of the elderly is included in this course. A community nutrition education project is required.  

Take NTR-311 NTR-404;

**NTR-530 Practicum/Clinical Nutrition**

This course is designed for full-time and part- time DI interns The practicum provides 14 weeks of supervised experiences format least three different health care settings (medical center community hospital and long-term care facility) within a 50-mile radius of Troy NY. The intern will work (one-on-one) with Registered Dietitians who specialize in the following clinical areas: cardiology critical care diabetes mellitus gastrointestinal disorders geriatrics immunology oncology medical/surgical renal respiratory and weight control. The final three weeks are spent at one facility for entry-level practice where the intern functions as a general entry-level clinical dietitian. Field trips will be scheduled and attendance at professional meetings/seminars will be required. Prerequisite: Enrollment in the Dietetic Internship.

**NTR-531 Pract/Food Serv Sys Mgmt**
The course is designed for full-time and part-time DI interns. The practicum provides 14 weeks of supervised experiences from at least three different health care settings (government agency hospital nursing home contract food service company school lunch program or college food service). The intern will work with Registered Dietitians and food service managers to cover the following areas: menu planning supply and food procurement food production and service systems sanitation safety waste management recycling merchandising and marketing management functions and skills information and financial resource management human resource management state and federal regulations and quality assurance management systems. Field trips will be scheduled and attendance at professional meetings/seminars will be required. Prerequisite: Enrollment in the Dietetic Internship.

NTR-532 Practicum in Community NTR I
The practicum course is designed for full-time and part-time dietetic interns and registered dietitians seeking community experience. The practicum provides 264 hours of supervised experience at two community placements. The field experience emphasizes the functional role of public health and community nutritionists. Students participate in the development implementation and evaluation of community-based food and nutrition programs throughout the practicum experience.

NTR-533 Practicum in Community NTR II
This course is designed for full-time and part-time dietetic interns with some prior community experience or registered dietitians seeking additional community nutrition experience. The practicum provides 160 hours of supervised experience at a community placement. The field experience emphasizes the functional role of public health and community nutritionists. Students participate in the development implementation and evaluation of community-based food and nutrition programs throughout the practicum experience. Prerequisite: Concurrent enrollment in the Dietetic Internship or by special approval of the instructor.

NTR-548 Contemp Topics in Dietetics
Recent developments current trends and issues in the planning and implementation of food and nutrition services will be examine. Emphasis will be placed on the role and responsibilities of the registered dietitian in a variety of settings. The course will focus on several topics and highlight controversies which currently affect the practice of dietitians. Prerequisites: Enrolled in Dietetic Internship or Approval by Instructor.

NTR-549 Nutrition & Disease Mgmt: Peds
Nutrition plays a major role in the management of chronic disease and developmental disorders. This course presents a broad base of technical content for children with special health care needs. Topics include developmental disorders eating and behavior disorders feeding problems various chronic diseases and hereditary metabolic disorders. Systems developed to deliver and finance nutrition services for this population policy issues trends and regulations are also discussed. Multiple state and local level programs serving this population are evaluated for their effectiveness in delivering nutrition services. Prerequisite: Enrolled in Dietetic Internship or Approval by Instructor.

NTR-561 NTR prog & interv: thry/pract
This course examines current community nutrition programs and interventions and their influence on participants’ food and nutrition behavior. Emphasized is the importance of research in evaluating interventions in the community and the theories and principles needed to help people in various settings improve their food and nutrition behavior.

NTR-562 Weight Management
The course will examine the epidemic of obesity and how various behavioral and environmental factors place individuals at risk of becoming overweight. Sources of influence as well as management options to enable long-term patient compliance and sustained success will be discussed.

NTR-571 Cont Tpcs Ntr I: Nutrigenomics
A series of evolving topics and concepts directly related to professional practice in nutrition. While subject matter will change from semester to semester possible topics include nutrigenomics functional foods food insufficiency and biotechnology. The exact nature of the content will be published with each semester’s schedule.

NTR-572 Cont Tpc in NTR II: Func Food
A series of evolving topics and concepts directly related to professional practice in nutrition. While subject matter will change from semester to semester possible topics include nutrigenomics functional foods food insufficiency and biotechnology. The exact nature of the content will be published with each semester’s schedule.

NTR-573 Cont Tpc in NTR III: Food Sec
A series of evolving topics and concepts directly related to professional practice in nutrition. While subject matter will change from semester to semester possible topics include nutrigenomics functional foods food insufficiency and biotechnology. The exact nature of the content will be published with each semester’s schedule.

NTR-601 Nutrition Seminar I
This course is designed to enhance the student’s knowledge and critical thinking skills in the foundational principles of...
nutrition research. Activities include preparing a high-quality research article review and leading a class discussion. Subject matter will change from semester to semester. The exact nature of the content will be published with each semester’s schedule.

NTR-602 Nutrition Seminar II
This course is designed to enhance the student’s knowledge and critical thinking skills in the foundational principles of nutrition research. Activities include preparing a high-quality research article review and leading a class discussion. Subject matter will change from semester to semester. The exact nature of the content will be published with each semester’s schedule.

NTR-690 Directed Research (thesis)
Designed to facilitate the student’s completion of a research project in nutrition. Students enrolled in this course are expected to be actively involved in preparation of a literature review and methods for a research project submission of IRB form data collection analysis and/or the writing of their research project.

OTH-501 Neuroscience
This course is an integrated approach to the structure and function of the human nervous system. The laboratory/discussion format is devoted to topographical study clinical problems concept of the neurobehavioral sciences the study of sensory systems the quality of motor responses and an introduction of neurological assessment. Open only to matriculated OT students.

OTH-503 Models & Theories in OT Pract
This course will emphasize the application of three theories commonly used in occupational therapy practice. Case-based discussion and critical analysis of the literature will enable students to develop the clinical reasoning skills necessary for the application of theoretical frameworks in occupational therapy clinical practice.

OTH-504 Foundations of OT
This course will introduce students to the field of occupational therapy. The course provides an overview of the history philosophy professional identity models of practice scope of practice standards and regulations that guide practice and professional conduct and behavior. The concept of occupation and participation as a means of influencing wellness and disability are explored. The practice framework is introduced along with professional values and ethics. Additional topics include culture the concept of disability patient’s rights the ADA and universal design. The laboratory will focus on concepts of the selection of therapeutic media teaching-learning and activity analysis. Students will develop skill in grading and adapting activities to meet various occupational performance needs. Some or all of this content may be delivered online through Blackboard.

OTH-507 Func Anatomy & App Kinesiology
This course provides an overview of the anatomical and movement dimensions of human occupation. Emphasis is on understanding how musculoskeletal function within an environmental context can support or hinder occupation. Case based discussions focus the concepts in both lecture and lab. Through lectures discussions and experiential learning students will develop an understanding and appreciation of the dynamic relationship among movement environment and occupation. The impact of pathology and aging on the biomechanics of human posture and movement will be introduced. Students will also develop a proficiency in anatomy/medical terminology. Two labs accompany this lecture. In the Functional Anatomy lab students utilize problem based learning to explore the prospected cadaver specimen. In the Applied Kinesiology lab students develop skills in palpation biomechanical activity analysis and the assessment of range of motion strength and resultant occupational performance within the context of normal movement. Prerequisite: Matriculated student in the OT program.

OTH-512 Tech & Adapt in OT Practice
This course focuses on the adaptation of the individual and/or the environment to enhance or improve occupational performance. Students learn to facilitate clients improved functioning and/or independence through the use of assistive technology. Students will gain an understanding of high and low tech assistive devices adaptive seating wheelchairs computer utilization and other technology all of which can influence an individual's ability to interact within the environment. Students are expected to master beginning presentation skills through PowerPoint software. This course is presented in an online and lecture format that utilizes Blackboard for discussion and assignments.

OTH-514 Occup Perf in Child & Youth
This course will present an integrated view of human growth and development and occupational performance from a variety of perspectives. Both typical and atypical development will be discussed with particular focus on the performance concerns and diseases/disabilities that occupational therapists would likely encounter in clinical practice. This portion of the course covers material from conception to adolescence; the remainder of the life span is covered in the companion course OTH 515.

OTH-515 Occup Perf in Adulthood
This course focuses on knowledge and understanding of occupational performance in adulthood. Topics include the
temporal physical social and cultural environments that promote or inhibit occupational performance. Neurobiological and cognitive changes associated with the aging process trauma and/or illness will be reviewed in relation to occupational performance. Disability as an illness experience will be emphasized as well as the use of narrative reasoning in occupational therapy. The laboratory component focuses on development of therapeutic relationships and methods for eliciting occupational narratives. Additionally students will learn health and wellness promotion skills such as relaxation training stress management approaches the principles of lifestyle redesign and goal setting. Students will examine the influence of personal beliefs and values on behavior including personal attitudes related to illness disability sexuality spirituality and death. Open only to matriculated OT students.

**OTH-567 Res Mthds for Hlth Professions**
This course is the first of a multi-course research sequence. Students are introduced to different models and paradigms of research and presented with an opportunity to examine quantitative and qualitative approaches to conducting research. Topics include: conducting literature reviews occupational research data collection and analysis strategies writing research proposals. Upon completion of this course students will submit a research proposal for future study.

**OTH-599 Topic:**

**OTH-606 Eval/Intv: Hand/Up Ext Rehab**
The purpose of this course is to explore the occupational therapist's role with clients who have difficulty performing their everyday occupations due to common musculoskeletal problems with an emphasis on the upper extremity hand. Issues discussed include the impact of disabling events on occupational performance and the role of the occupational therapist in assisting the client to adapt their home work and leisure activities and environments. Students will learn the evaluation and intervention process including planning selecting appropriate methods developing skills in assessment and progressing interventions over time. Beginning documentation skills will be practiced in the form of evaluations SOAP Notes and intervention plans. The role of the Occupational Therapy Assistant in evaluation and intervention will be explored with a focus on the collaborative nature of the supervisory relationship. Laboratory activities will focus on clinical reasoning and skill in evaluation techniques and planning/ implementing appropriate interventions. Universal precautions will be discussed and utilized in laboratory activities. Prerequisite: completion of OTH 507 and OTH 514 or 515

# Take OTH-507; # Take OTH-514 or OTH-515;

**OTH-608 Foundations of Physical Rehab**
The purpose of this course is to learn the practice skills and preparatory methods used in rehabilitation settings. Topics include splinting transfers bed and wheelchair mobility assistive dressing and the use of physical agent modalities. Practice skills will be presented as preparation for improved occupational performance. Laboratory activities will focus on assisting the student to become competent in the skilled safe use of practice skills and preparatory methods. Universal precautions will be discussed and utilized in laboratory activities. Prerequisite: OTH 507 and OTH 514 or 515

# Take OTH-507; # Take OTH-514 or OTH-515;

**OTH-609 Eval/Intv: Psychosoc Settings**
This course will focus on psychosocial evaluation and intervention in various settings. Individuals and families are viewed within a framework that considers how biological psychological socio-cultural and diversity issues influence occupational behavior. A client-centered approach will be emphasized with a corresponding interest in the client's subjective experience of meaning through activity. Though this course will focus on occupational therapy in mental health settings implications for psychosocial practice in other domains will be discussed. Course content is intended to broaden the student's psychosocial perspective applicable theoretical base and clinical reasoning skills in working with individuals and families in various practice settings. Prerequisite: completion of 503 514 515.

Take OTH-503 OTH-514 OTH-515;

**OTH-611 Neurorehabilitation**
This course provides an exploration of how occupational performance is impacted by movement related issues and deficits. Current theories of CNS dysfunction motor control and motor learning are examined. Theoretical frames of reference that guide OT evaluation and intervention of CNS dysfunction are reviewed. These include motor relearning NDT SI PNF Brunnstrom and Rood. Evidence based practice as it applies to neurorehabilitation will be explored. Students use a client-centered approach to develop skill in assessment of neuromotor cognitive and perceptual problems as they impact movement and handling skills and occupation based intervention for movement related dysfunction. Laboratory will focus on the development of observation and clinical reasoning skills for movement analysis in children and adults with CNS dysfunction problem solving handling skills and initial intervention planning. Prerequisite: OTH 501 503 514 515

Take OTH-501 OTH-503 OTH-514 OTH-515;

**OTH-612 Management of OT Services**
This course provides students with an opportunity to explore the organization and management of occupational therapy services. Offered prior to student's full time Level II Fieldwork students learn about the range of practice contexts and how policy issues influence OT practice; trends in models of service delivery; and managerial functions including human resource management financial management and program management. Issues of reimbursement marketing program
evaluation and advocacy are explored. Special emphasis is on understanding the supervisory role OT/OTA collaborative relationships and supervision as it relates to developing and implementing fieldwork education. Prerequisite: OTH 624 or 623 or 626

Take OTH-624 OTH-623 or OTH-626;

**OTH-616 Eval/Intv: School Based Prac**
The focus of this course is school-based practice. Students will develop appropriate observational and clinical skills necessary to evaluate and develop individual and group intervention plans in both private and public school settings. Professional communication team issues IEPs and legislation are explored using case studies and fieldwork experiences. Laboratory experiences include demonstration of hand-writing programs; practice in writing goals and objectives; use of formal and informal assessment; strategies to develop skills in teaching/learning; use of assistive devices technology and adaptive equipment; and the progression of intervention plans (IEPs) through case studies videotape cases and actual fieldwork cases.

**OTH-617 Eval/Intv: Early Intv Settings**
The focus of this course is in comparing and contrasting typical and atypical growth and development to support the development of students observational and clinical skills that are necessary to evaluate and formulate a comprehensive intervention plan in pediatric practice for early intervention and preschool-age children. Lecture topics include application of neurodevelopment theory to assessment and treatment; motor control and motor learning; therapeutic use of toys in play; application of sensory integration theory in various practice settings; oral fine and gross motor development; orthopedic aspects of developmental disabilities interdisciplinary team coordination; the child with multiple handicaps; the role of the OTA; supervision safety management of practice environments; the impact of culture and environment on intervention practices and outcomes; home based interventions; and the IFSP community based programs and evidence-based practice with young children. Prerequisite: OTH 611

**OTH-618 Eval/Intv: Adult Phys Rehab**
This course provides students with knowledge and skills in the evaluation and intervention of areas of adult occupational performance across community and clinical settings. A person-environment-occupation focus is used to discuss how client factors context and activity demands impact occupational participation. A client-centered case study focus is used to address evaluation and intervention strategies with issues such as pathology disease injury wellness disability and aging. Emphasis will be on the impact of acute and chronic disability on occupation. Clinical reasoning skills are developed through assessment intervention planning and documentation. Prevention and client and caregiver education will be addressed. Students will explore the relationship of other healthcare team members in the intervention process. Laboratory will focus on skill development in observation assessment and intervention. Prerequisite: OTH 606 608 611

Take OTH-606 OTH-608 OTH-611;

**OTH-620 OT Community Practice**
This course is designed to provide students with a community orientation to the practice of occupational therapy. Course discussions and exercises will examine how community-oriented policies theories and models can be effectively bridged into practice. Students will work in small groups to examine the interrelationships of person environment and occupation within a community-based setting. They will collaborate with local agency staff and the people served to identify programmatic needs; determine the contribution of occupational therapy consultation; develop a client-centered program; and investigate funding mechanisms to meet the needs of the agency and its consumers. Prerequisite: OTH 503 504 514 515

Take OTH-503 OTH-504 OTH-514 OTH-515;

**OTH-622 Fieldwork Seminar**
The fieldwork seminar is a prerequisite to Level II Fieldwork. It is designed to assist students in their professional socialization and to identify issues related to professional behavior. Students will participate in a group process to effect personal change to develop and apply communication skills and to facilitate professional development. Through discussion and role-plays students are encouraged to become reflective practitioners who are more personally aware of themselves the roles they are expected to play and how their values and communication patterns may facilitate or interfere with the therapeutic process. Topics include: values as determinants of behavior; ethics; effective communication; group leadership and dynamics teaching tools and strategies and professional portfolio development. Prerequisite: OTH 624 or 623 or 626

Take OTH-624 OTH-623 or OTH-626;

**OTH-623 Lev I Fldwk: Psychosoc Setting**
The overall purpose of the student fieldwork experience is to provide students with exposure to role emerging psychosocial practice settings where occupational therapy services can benefit consumers. The opportunity to work in primarily community settings with diverse populations and service providers will help students to develop an understanding of how occupational therapists can address the needs of underserved populations. The focus of the learning experience will be the application of skills learned through coursework to include observation written and verbal communication professional behavior individual and group participation with clients and beginning level evaluation and treatment planning. Prerequisite: OTH 503 OTH 504 OTH 514 OTH 515

Take OTH-503 OTH-504 OTH-505 OTH-514 OTH-515;
OTH-624  Level I Fieldwork: Phys Rehab
The overall purpose of the fieldwork experience is to provide students with exposure to clinical settings through observation and participation in the treatment process. The opportunity to work with clients and therapists helps students to examine their reactions to clients themselves and other personnel while integrating academic learning with clinical practice. The focus of the learning experience will be the application of skills learned through coursework to include observation written and verbal communication professional behavior individual and group participation with patients and clients and beginning level evaluation and treatment planning. Prerequisite: completion of OTH 606 608

Take OTH-606 OTH-608;

OTH-626  Lev 1 Fldwk: Pediatric Setting
The overall purpose of the student fieldwork experience is to provide students with exposure to clinical practice through observation and participation in the treatment process. The opportunity to work with clients and therapists helps students to examine their reactions to clients themselves and other personnel while integrating academic learning with clinical practice. The focus of the learning experience will be the application of skills learned through coursework to include observation written and verbal communication professional behavior individual and group participation with patients and clients and beginning level evaluation and treatment planning. Prerequisite: OTH 501 OTH 514 py Program.

Take 55 credits; From Department OTH;

OTH-627  Level II Fieldwork-Part 1
This full time 12-week affiliation is one of two fieldwork Level II experiences that follow successful completion of evaluation and intervention coursework. This clinical education component gives the student an opportunity to apply didactic material and to interact with clients/patients in a therapeutic setting. Practice of evaluation goal setting note writing and application of therapeutic techniques appropriate to the student's skill level are carried out under the supervision of a registered occupational therapist or other qualified personnel. Students are expected to be functioning as entry-level therapists at the end of each fieldwork experience. Successful completion of this fieldwork education component is a requirement for graduation from the Occupational Therapy Program. Prerequisite: Take 55 credits from the department of OTH

Take 55 credits; From Department OTH;

OTH-628  Level II Fieldwork-Part 2
This full time 12-week affiliation is one of two Fieldwork Level II experiences that follow successful completion evaluation and intervention coursework. This clinical education component gives the student an opportunity to apply didactic material and to interact with clients/patients in a therapeutic setting. Practice of evaluation goal setting note writing and application of therapeutic techniques appropriate to the student's skill level are carried out under the supervision of a registered occupational therapist or other qualified personnel. Students are expected to be functioning as entry-level therapists at the end of each fieldwork experience. Successful completion of this fieldwork education component is a requirement for graduation from the Occupational Therapy Program. Prerequisite: 55 credits in professional program

Take 55 credits; From Department OTH;

OTH-629  Fieldwork Remediation
This course is a fieldwork-readiness experience offered to students when faculty determines that additional clinical exposure is required for the student to successfully complete the program's fieldwork requirements. This clinical education component gives the student an opportunity to apply didactic material and to interact with clients/patients in a therapeutic setting. Practice of evaluation goal setting documentation treatment planning and application of therapeutic principles appropriate to the student's skill level are carried out under the supervision of a qualified practitioner. Successful completion of this fieldwork experience is a requirement for graduation from the Occupational Therapy Program. Prerequisite: Incomplete or poor performance in fieldwork

OTH-631  Clinical Seminar Spec Topics
This course will focus on the analysis of issues directly related to professional practice in an area of occupational therapy. Included will be an analysis of current literature on a series of advanced topics relevant to treating individuals with occupational performance needs. While course offerings change each year topics have included pediatrics hand rehabilitation neurorehabilitation autism and related disorders and spirituality.

OTH-632  Clinical Seminar Spec Topics
This course will focus on the analysis of issues directly related to professional practice in an area of occupational therapy. Included will be an analysis of current literature on a series of advanced topics relevant to treating individuals with occupational performance needs. While course offerings change each year topics have included pediatrics hand rehabilitation neurorehabilitation autism and related disorders and spirituality.

OTH-640  Professional Issues
This course occurs during students final Level II fieldwork placement. It provides students with an opportunity to explore multiple professional issues related to both academic and clinical experiences. Students analyze issues and policies that effect the profession within including the legal and ethical aspects of practice. Topics include credentialing career management and professional development ethics and fieldwork education. Some or all of this content may be delivered on-line through Blackboard. Prerequisite: 55 credits in professional program

Take 55 credits; From Department OTH;

**OTH-669 Advanced Seminar/Final Project**

This seminar is a continuation of a curricular sequence designed to provide students with an opportunity to conduct research. Prerequisites for this seminar include successful completion of OTH 567 and the online research certification course. Throughout the seminar students will perform critical reading exercises and facilitate in-class discussions intended to develop new understandings about research. Students will work in research teams and participate in a variety of tasks including: obtaining study approval with the Institutional Review Board, collecting quantitative and qualitative data to address the research questions proposed in their studies, and exploring preliminary interpretations with their research sites. This course will further prepare students to complete their final research project. Prerequisite: OTH 567

Take OTH-567;

**OTH-670 Research Seminar II**

The Research Seminar is designed to be the culminating experience of the master of science in occupational therapy. This course will continue to provide students with a working knowledge of research methodology focusing on data analysis, writing, and reporting skills. Data collected in the previous semester will be analyzed, interpreted, and reported back to research participants. The class meetings will involve data entry using computer software programs, peer debriefings, and other analytic discussions related to formulating the research findings. Each student will be required to write a final manuscript following the format outlined by a peer-reviewed journal. As a final requirement, students are required to present their research experiences at the Graduate School Research Symposium. Prerequisite: OTH 567

Take OTH-567;

**PAD-555 Administrative Organiz & Behav**

The basic purpose of the course is to provide the student with broad overview of the vast and varied literature concerned with the nature of organizations and research pertaining to management in organizations. Since management approaches are ultimately linked to their organizational context, the first part of the course focuses on the theory of organizations and is geared toward the development of understanding of organizations in terms of structure, function, process, and environment. The second half of the course concerns behavior in organizations and focuses on the individual within the organization. Topics covered and linked to theory include leadership, motivation, interpersonal relationships, decision making, and problem solving. The course will prepare students to face supervisory management problems, organizational dynamics, work design, and ethical confederations for working with people within organization systems.

**PAD-561 Organization Design & Develp**

Students explore the utility of organization theory and research for improving organizational effectiveness. Both theory and application are emphasized in addressing the central question of how to design effective organizational systems including communication decision making, authority autonomy, and participation influence models. Leadership and motivation approaches to planned change such as quality management will be considered. Students will apply problem-solving systems concepts and environmental analysis to develop skills in the analysis, planning, implementation, and evaluation of organizational change.

**PAD-563 Admin Law for Gov't/Non-Profit**

Public law, criminal justice, and regulatory processes of concern to public and non-profit administrators will be surveyed. Topics will include the nature of the law, the constitutional framework, the legislative process, evolution of judicial control, growth of the administrative process, governmental agency, rule making, and enforcement administrative hearings, relief from agency decisions, and the administrator’s legal responsibilities.

**PAD-568 Public Policy Process**

The scope and methods of a number of disciplinary approaches to the public policy process are analyzed. Policy development and formulation will be covered but policy analysis is emphasized. Techniques include cost/benefit operations research and systems analysis.

**PAD-572 Planning, Pgm Analysis & Eval**

An orientation to the planning analysis design, implementation, evaluation, and administrative control of government programs. Emphasis will be on integration of these phase the role of information systems, use of analytic techniques, and accountability to policy makers and the public.

**PAD-577 Practicum in Public Admin**

Designed for part-time students the practicum provides an intensive research/analysis experience in an appropriate governmental health or human service agency. Each student will design in conjunction with the organization and instructor or an applied research and analysis project which will culminate in a written research report and action recommendations. Prerequisites: Four core courses PAD 576 578 560 574 568 558 563

Take 4 courses; From courses PAD-576 PAD-578 PAD-560 PAD-574 PAD-568 PAD-558 PAD-563;

**PAD-579 Advanced Research Methods**

Presents hypothesis testing and selected multivariate techniques. The course will also consider quasi-experimental design.
models appropriate in evaluation and field experiments. It will include computer applications appropriate to data analysis and processing. Prerequisite: PAD 578 HSA 578

Take PAD-578 or HSA-578;

**PAD-587 Internship in Public Admin**

Designed for full-time students the internship will provide a placement for half time for a term or full time for a summer in an administrative or analytical job in an appropriate agency for the student’s concentration area. The student will prepare a written report describing and analyzing the experience in reference to coursework taken in the curriculum.

Prerequisites:PAD 560 PAD 563 PAD 576 PAD 578

Take PAD-560 PAD-563 PAD-576 PAD-578;

**PAD-591 Personnel/Human Resource Admin**

This seminar will review the development and current role of personnel administration human resources development quality of work-life programs in public and third-sector organizations focusing on issues and new challenges of interest to the class such as unionization arbitration productivity human resources planning comparable worth in salary administration equal employment opportunity programs for the disadvantaged and the political arenas of public employees. Seminar papers will be discussed.

**PAD-595 Seminar in Public Management**

This course is designed to serve as the capstone of the master concentration in public management. The class meetings will involve seminary discussions of the major issues of theory and practice in the field. A key aspect of the course is the writing and class presentation of a major research paper on an important problem in public management. Prerequisites:PAD 576 578 560 574 568 558 563 and three courses from PAD 554 570 586 588 581 HSA 557 556 555 573

#Take PAD-576 PAD-578 PAD-560 PAD-574 PAD-568 PAD-558 PAD-563; #Take 3 courses; From courses PAD-562 PAD-572 PAD-593 PAD-559 PAD-561 PAD-579 PAD-590 PAD-591 PAD-566;

**PAL-504 Pub Pol/Serv Deliv - Aging Pop**

This social and health policy course will focus on two critical issues: our aging population and end of life care. These issues will be considered individually and where they overlap in the public policy arena. Public policy and service delivery for America's aging population and end of life care appear to be at a crossroads as our society struggles to meet the demands of competing political philosophies advances in medical technology and a rapidly changing demographic profile. In the current political debate the only thing that is clear is the inevitability of change and the certain challenge to existing social political and economic institutions. This graduate level course provides an overview of the significant social and health care policies and programs that effect end of life care and aging populations. Though the focus of the course is aging and end of life care thereis content that is relevant to diverse and vulnerable populations the public policy making process and policy analysis. Content will include historic perspectives current programs and their impact on various groups and the future of social and health care policy and programs. Areas for in-depth analysis will include: health care income security long term care end of life issues health care finance and formal and informal support systems. When ever possible the course content will be related to the students' work in their major area of study and their professional feilds. Particular attention will be paid to Social Security and Medicare budget deficits political ideology and how they are employed as issues in the political arena.

**PAL-522 Intro to Palliative Care**

Students are introduced to palliative care concepts delivery systems and the multidisciplinary team. Opportunities for designing palliative care experiences for a variety of populations are explored and delivery systems examined. Research related to care is evaluated. Common care areas to be addressed include: quality of life communications skills care-giver support self-care standards of care scope of practice and role responsibilities of the team wellness spirituality advocacy death across the lifespan planning for a good death.

**PAL-533 Ethics for End of Life/Illness**

Provides an overview and investigation of broad ethical and legal issues in palliative and end of life care. Included are moral frameworks for addressing issues issues in decision making and communication dilemmas in end of life care advanced care planning organizational ethics and standards of professional practice. Fall only 1 cr. Prerequisite: PAL 522 PAL 533

**PAL-555 Clinical Practicum**

Practical and scholarly activities designed to provide leadership and role skills in functioning as a specialist in palliative care. Emphasis is on exploring and defining a professional role within the interdisciplinary palliative care team and designing a plan to acquire a discipline specific skill set. Improving clinical practice through consultation teaching and program development along with individual skill development will be emphasized. Students will identify and work in a mentoring relationship with a professional in their selected field. Spring only 3 cr. Prerequisite: PAL 522 PAL 533 PAL 555

Take PAL-522 PAL-533;

**PAL-566 Ind Prj Dev in Palliative Care**

This course is designed to facilitate the student's completion of a culminating project in palliative care. It is intended as a culminating experience building on core knowledge in palliative care. Students enrolled in this course will be actively involved in developing and enacting a capstone project which draws upon previous course work in palliative care and knowledge of their professional role in the field. 2 Credits.

Take PAL-522 PAL-533 PAL-555;

**POL-557 Politics, Law & Public Policy**

The study of American political development is the central focus of this historically oriented course on major challenges and turning points of American's political and constitutional development. How did English Puritans face the challenge of founding a colony in the wilderness? Why did the Framers turn to their colonial and early state experiences for answers in framing the U.S. Constitution? What was the importance of New York State in that constitutional experience? Are Tocqueville's concerns for American democracy still valid? Are Lincoln's ideas of leadership and union still relevant? What is the story of American freedom? Were Americans always good citizens? How effective was America's transition from an agrarian republic to an industrial democracy? Has New York been first last or simply peculiar in America's history of democracy? How is American public policy really made? What is the verdict of American democracy on trial today? How can today's ordinary citizen make a difference in this age of cynicism?

**PSY-206 Educational Psychology**

This course includes a survey of the facts and principles of educational psychology and the results of psychological research as they relate to the major activities and problems of the teacher. Also considered is the general nature of growth and the principles of learning the nature of reasoning the realm of values and the relation of mental health to education. A 25 hour practicum placement is required.

**PSY-500 Independent Study**

To be arranged with faculty.

**PSY-505 Intro to Forensic Psychology**

Practitioners in the forensic arena need to be familiar with the mental health and criminal justice systems. This course is an overview of clinical research and policy issues which pertain to these two systems. Topics covered included how mental disorder intersects with the community police, jails and prisons. Incompetence to stand trial the insanity defense recovered memory and risk assessment are also covered. Prerequisite: CRM-111 CRM-311.

**PSY-530 Working with Forensic Populat**

An advanced clinical course focusing on the evaluations and treatment of individuals most likely to be encountered in forensic settings. Special emphasis will be given to children and youth chemical dependency serious and persistent mental illness/personality disorders as well as evaluation and treatment of victims of crime. Prerequisite: PSY-505 PSY-531 PSY-575 PSY-588.

Take PSY-505 PSY-531 PSY-575 PSY-588;

**PSY-531 Forensic Assessment**

An introduction to the theories methods and psychological instrumentation used in evaluation of individuals within the judicial and corrections systems. Emphasis will be placed on forming appropriate questions gathering data from a variety of sources and understanding the logic used to combine data to reach conclusions relevant in forensic settings. Prerequisite: PSY-572 PSY-505 PSY-575.

Take PSY-572 PSY-505 PSY-575;

**PSY-532 Current Topics:Forensic Psych**

This course will survey issues of importance in forensic psychology. Topics include mental health law ethics in forensic psychology the juvenile justice system domestic violence and women in the criminal justice system. Prerequisite: PSY-505 PSY-531.

Take PSY-505 PSY-531;

**PSY-533 Internship in Forensic Psy I**

A supervised field experience in a community agency providing mental health services to a forensic population. Students will gain practice in evaluation treatment and case management within the framework of dual systems of intervention. Prerequisite: PSY-551 PSY-530.

# Take PSY-551 PSY-530; # Take 33 credits;

**PSY-534 Internship in Forensic Psy II**

An advanced supervised field experience providing mental health services to a forensic population. The placement may be in either a correctional or mental health setting. Students will gain experience in evaluation case management and group therapy. Prerequisite: PSY-530 PSY-562 and 30 credits.

Take PSY-534;

**PSY-551 Comm Psy:Framework for Interv**
This course provides an introduction to the importance of understanding community systems and their influence on interactions roles norms and values. Emphasized is the role of change agents (community psychologists community-based and school counselors community health educators forensic psychologists etc.) in interventions in the community and the theories and principles needed to help people in various settings achieve maximum quality of life.~

**PSY-558 Community Based Prev & Interv**
The development of strategies for prevention and intervention is examined from the perspective of the importance of such strategies along the full spectrum of social problems (e.g. AIDS alcoholism serious physical or mental illness parental divorce etc.). Additionally theories and strategies which guide optimal development specifically in the context of school work and careers are addressed. Potential roles of community psychologists in facilitating planned change (prevention or intervention) are explored.

Take PSY-551;

**PSY-562 Community Mental Health**
A study of mental health procedures as they relate to the community. Special emphases include crisis intervention prevention and the contributions possible by specific kinds of community agencies. Prerequisite: PSY-551~

Take PSY-551;

**PSY-563 Behavioral Research Methods**
A consideration of the sources materials and techniques of behavioral research including experimental descriptive developmental case and field study correlation causal experimental and quasi-experimental research. Prerequisite: PSY-551 SOC-207 PSY-207ECO-215 MAT-220 CSI-220 OR PSY-551.~

Take PSY-551;

**PSY-566 Externship**
The student selects a field placement setting in the community with the approval of the instructor and the student works under supervision in this setting. Minimum externship time: 240 hours.~

# Take PSY-551 PSY-563; # Take 33 credits;

**PSY-567 Group Counseling Dynamics**
Students examine selected theories of group counseling and group process and learn about the stages of group development including the characteristics of each stage. Effective and ineffective group member and group leader behaviors pertinent to each stage are examined. The processes of forming counseling and task oriented groups are discussed and theory and research on small group functioning is examined. In class exercises are utilized to illustrate the dynamics of counseling group functioning. Techniques for establishing counseling groups for children adolescents and the elderly are explored.

Take PSY-571;

**PSY-570 Developmental Psychology**
This course will survey psychological development across the life span including the processes of physical social emotional cognitive and personality development. Emphasis will be placed on general developmental issues through the examination of theory and research.~

**PSY-571 Counseling**
This course will survey theories of counseling and psychotherapy. Process and outcome research will be examined along with major ethical and professional issues.~

**PSY-572 Assessment in Counseling**
This course addresses the theoretical issues and techniques related to the assessment of personality intellectual ability and career choices through the study of the appropriate psychological and vocational assessments. Included are methodological issues such as reliability and validity and issues of application in problematic situations both in interpersonal relations and in the community.

Take PSY-551 or GDC-550;

**PSY-575 Abnormal Psychology**
An examination of the research and theories surrounding the psychopathology of the human personality and the interactions with the community. Prerequisite: PSY-551 or GDC-550~

Take PSY-551 or GDC-550;

**PSY-581 Program Evaluation**
A consideration of the theories and methods available to evaluate the need for effectiveness and progress of programs implemented by human service agencies elementary middle and high schools and other community settings. Prerequisite: PSY-551 or PSY-563~

Take PSY-551 PSY-563;
PSY-585 Sources/Outcomes Stress-Child
This course will present a framework for understanding the nature of stress in a developmental context. This framework will be applied in the study of stressors (normal extraordinary scheduled and unscheduled) and their effects on families leading to an examination of particular outcomes of stress in children. Prerequisite: PSY-570

Take PSY-570;

PSY-587 Family Counseling
This course provides an overview of the field of family therapy including an examination of underlying assumptions and central concepts. Major schools of family therapy will be studied along with their various techniques and strategies for system change. Prerequisite: PSY 571

Take PSY-571;

PSY-588 Counseling Skills
This course is designed to enable students to utilize basic attending skills and basic influencing skills with a client in a counseling session. Students view training videos observe live demonstrations of counseling skills and practice these counseling skills in small work groups in class. The multicultural implications of each skill are discussed. Prerequisite: PSY-571 PSY-555

Take PSY-571 PSY-555;

PSY-590 Research Seminar
As a culminating experience students will complete and present a scholarly paper which will assess the state of the art of some topic of their choice under faculty supervision. Students should have completed at least 33 credits and passed the comprehensive exam.

Take 33 credits;

PSY-592 Alc/Drug Add: Vul,Dyn,Problems
The bio-psychosocial vulnerabilities as well as the motivation for alcohol/drug use will be discussed. The course will thoroughly examine the psychological dynamics and physiological consequences of alcoholism/addiction. The student will learn to recognize the signs and symptoms of the illness of alcoholism/addiction. Finally the course will examine the major problems resulting from alcoholism/addiction as well as the process of long-term sobriety based on AA and rehabilitative research.

PSY-599 Selected Topics/Psych

PSY-603 Clinical Internship in Art Thp
Consists of 700 hour placement within a community setting. The site is selected by the student with the approval of their instructor. Prerequisite: Completion of all coursework.

PSY-610 Internship in Counseling I
Advanced field experience in counseling whereby students have the freedom and independence to demonstrate and add to acquired competencies in a real counseling setting. Prerequisite: PSY-551 PSY-588

Take PSY-551 PSY-588;

PSY-611 Internship in Counseling II
A continuation of the field experience in PSY 610. Prerequisite: PSY 610

Take PSY-610;

PTY-501 Neuroscience
4 lecture hours per week. This course addresses the neuroscience issues important to the practice of physical therapy. Lecture topics include the structure and function of the central nervous system the neuron somatosensory receptors the study of sensory and motor systems neuroplasticity neurology of walking and reaching the autonomic nervous system the limbic system and pain and consciousness. Students must be enrolled in PTY-501 Lab while taking this course. This course is open only to students enrolled in the entry level DPT program.

PTY-502 Gross and Functional Anatomy
The study of human anatomy is undertaken through lectures demonstrations computer programs and student participation in cadaver dissections. The course is presented on a regional basis stressing the interrelationships of structure with function. Emphasis is put on the study of the musculoskeletal cardiovascular pulmonary and peripheral nervous systems. Students must be enrolled in PTY-502 Lab while taking this course. This course is only open to students enrolled in the entry level DPT Program.

PTY-503 Physical Therapy Interventions
This course is designed as an on-line lecture and laboratory experience to introduce the use of physical agents and interventions utilized in physical therapy practice. Primary lecture content will be online with discussion sections to
integrate problem-solving skills related to selection of appropriate interventions. Physical therapy practice in the acute care setting will be introduced. Emphasis is placed on problem solving skills and clinical decision making to assist the student in choosing the appropriate intervention. Prerequisites: PTY-506 502. Students must be enrolled in PTY-503 Lab while taking this laboratory course. This course is only open to students enrolled in the entry level DPT Program.

Take PTY-506 PTY-502;

**PTY-504 Intro to the Pt Profession**
This course introduces the student to the profession of physical therapy. The course will explore such topics as writing professional papers the history of physical therapy the role of various health professionals collaboration specialties in physical therapy different practice settings The Guide to Physical Therapy Practice documentation reimbursement professional behavior legal and ethical issues cultural competence communication and the APTA. Embedded within the class is a self-study course in which the students learn common medical terminology. This course is only open to students enrolled in the entry level DPT Program.

**PTY-505 Surface Anatomy**
This Surface Anatomy course is designed to be a hands-on experience that allows the student to develop proficiency in palpating bony and soft tissue structures. Emphasis will be placed on recognition identification and palpation of human anatomical structures that are being studied in the Gross & Functional Anatomy course. Students will develop an awareness of the wide range of normal that exists in the population. Professional communication and interactive skills will also be emphasized. Students must be enrolled in PTY 502 Gross & Functional Anatomy while taking this course. This course is only open to students enrolled in the entry level DPT Program.

**PTY-506 Human Biomechanics**
Biomechanics is the application of the principles of physics and Newtonian mechanics to movement of the human body. Through lectures laboratory demonstrations and experiences and class projects students will develop an understanding of and be able to analyze apply synthesize and evaluate the effects of physical properties and Newtonian mechanics on human movement and on the human body. The following content areas will be included: biomechanical principles and properties of biological material kinematics kinetics as well as the application of biomechanical principles to functional activities. Students must be enrolled in PTY 506 Lab while taking this course. This course is only open to students enrolled in the entry level DPT Program.

Take PTY-506 PTY-502 PTY-522;

**PTY-507 PCM: Musculoskeletal System I**
4 Lecture hrs per week. This course is a introduction to the patient with musculoskeletal problems. Topics include an introduction to the Guide to Physical Therapist Practice examination and documentation as well as discussion of specific musculoskeletal topics such as fractures joint replacements pediatric orthopedics prosthetic/orthotics and amputation. Other topics include an introduction to the management of spinal dysfunction and ergonomics. Manual skills are emphasized in both the lecture and laboratory including muscle energy joint mobilization and therapeutic exercise. The clinical decision making process is introduced via the use of patient problems only. Prerequisites: PTY-506 502 522. Students must be enrolled in PTY-520 and in PTY-507 Lab while taking this course; This course is open only to students enrolled in entry level DPT program.

Take PTY-506 PTY-502 PTY-522;

**PTY-509 Patient/Client Mgmt Integ Sys**
3 Lecture hours per week. This course will examine the causes and physiologic characteristics of a variety of wounds. Intervention and prevention strategies will be discussed in detail. Wound dressings and their function in relation to wound characteristics will be discussed. Students will develop a decision-making algorithm for the use of various types of wound dressing materials. Physical Therapy technologies and modalities will be discussed in relation to the phases of wound healing and their ability to contribute to the expected outcomes. Students will practice the use of standard and universal precautions while performing sharp debridement techniques and dressing applications. Therapeutic positioning techniques and pressure management medical devices will be used to achieve off-loading and wound prevention for a variety of client needs. Prerequisites: PTY-521. Students must be enrolled PTY-519 and in PTY-509 Lab while taking this course; This course is open only to students enrolled in the entry level DPT program.

Take PTY-521;

**PTY-519 Clinical Appl: Integum System**
This part-time clinical education experience is concurrent with PTY 509 Integumentary System. This part time clinical education component gives the students an opportunity to observe examination evaluation goal setting documentation and application of interventions for patients with integumentary dysfunction. Students are expected to practice in a safe professional ethical manner with adherence to legal practice standards including maintaining patient confidentiality in accordance with HIPAA guidelines. Students are responsible for their own transportation to and from the assigned clinical facility. Must be enrolled in PTY-509 Lab and PTY-519 ; This course is open only to students enrolled in entry level DPT program.

**PTY-520 Clinical Appl: Musculoskeletal**
This part-time clinical education experience is concurrent with PTY 507 Musculoskeletal System I & PTY 503 Physical
Therapy Interventions. This clinical education component gives the students an opportunity to apply their didactic material and to interact with patients in an orthopedic setting. Practice of examination evaluation goal setting documentation and application of physical therapy interventions appropriate to the student's skill level are carried out under the supervision of a licensed physical therapist. Students are expected to practice in a safe professional ethical manner with adherence to legal practice standards. Students are responsible for their own transportation to and from the assigned clinical facility. Must be enrolled in PTY-507 and PTY-507 Lab; This course is open only to students enrolled in the entry level DPT program.

PTY-521 Pathophysiology I
2 Lecture hrs per week. This course will explore the pathological changes inherent in common disease processes across the lifespan in the following systems: cardiovascular endocrine hematologic immunologic integumentary pulmonary and renal. Biological processes will be studied via a systems approach to understand their impact on the health and quality of life for humans facing change. The student will gain insight into the etiology pathology signs and symptoms differential diagnosis prognosis medical/surgical management and general physical therapy management that applies to a variety of illnesses. Cases related to selected systems will be used to reinforce the medical/surgical and physical therapy management of patients as well as the prognostication skills of the student. This course is open only to students enrolled in the entry level DPT program.

Take PTY-521;

PTY-608 Clinical Education I
This full-time clinical education experience during the summer follows successful completion of the first year of the professional curriculum. This clinical education component gives the students an opportunity to apply their didactic material and to interact with patients in a general health care facility hospital skilled nursing facility or private practice. It is expected that the majority of patients encountered in the first clinical education component will be those who have orthopedic/musculoskeletal or integumentary impairments. Some patients with CNS and/or cardiopulmonary dysfunction as a primary diagnosis may be seen but these should not be the major caseload for student at this level. Practice of examination goal setting documentation and application of physical therapy interventions appropriate to the student's skill level are carried out under the supervision of a licensed physical therapist. Students are expected to practice in a safe professional and ethical manner with adherence to legal practice standards. Prerequisites: PTY-503 507 509 611. This course is open only to students enrolled in the entry level DPT program.

Take PTY-503 PTY-507 PTY-509 PTY-611;

PTY-610 Hlth, Cult, Soc: Impl Phy Ther
2 Lecture hours per week. The purpose of this course is to explore the relationship between culture and health and the implications for physical therapy practice. Disease illness curing and healing will be explored as culture constructions. Discussion will center on the impact of gender age race ethnicity socio-economic status sexuality and disability on health and illness. Through a better understanding of cultural variability and cultural uniqueness students will learn to become more effective in their communications with patients. This course is open only to students enrolled in the entry level DPT program.

PTY-611 Neurorehabilitation
4 Lecture hours per week. This course will provide the student with an in-depth exploration of current theories of CNS development dysfunction and recovery. Topics will include current research on brain function motor development motor control and specific theoretical models of neurorehabilitation (e.g.: sensory integration motor learning Neuro-Developmental Treatment Proprioceptive Neuromuscular Facilitation). Practical application of techniques and problem-solving situations will be provided in the laboratory sections to further illustrate clinical relevance. Prerequisites: PTY-501. Students must be enrolled in PTY-611 Lab while taking this course. This course is open only to students enrolled in the entry level DPT program.

Take PTY-501;

PTY-612 PCM Musculoskeletal Syst II
3 Lecture hrs per week. This course is designed to assist the student in formulating an approach to evaluation and treatment of the cervical and thoracic spine rib cage and the upper quarter using clinical decision-making models. Students will build upon their observational and clinical skills necessary for evaluation and formulation for intervention of programs. Practical application of techniques and problem-solving situations will be provided in the laboratory sections to further illustrate clinical relevance. In addition to advanced manual skills inclusive of high velocity low amplitude mobilization techniques the student will be exposed to strategies associated with clinical practice including but not limited to methods of service.
delivery and delegation of responsibilities to support staff. Prerequisites: PTY-507 503. Students must be enrolled in PTY-612 Lab while taking this course. This course is open only to students enrolled in the entry level DPT program.

Take PTY-507 PTY-503;

PTY-613       PCM Musculoskeletal Syst III
3 Lecture hours per week. This course is designed to assist the student in formulating an approach to evaluation and treatment of the limbic sacral spine and lower quarter using clinical decision-making models. Students will build upon their observational and clinical skills necessary for evaluation and formulation of intervention programs. Practical application of techniques and problem-solving situations will be provided in the laboratory sections to further illustrate clinical relevance. In addition to advanced manual skills inclusive of high velocity low amplitude mobilization techniques the student will be exposed to strategies associated with clinical practice including but not limited to methods of service delivery and delegation of responsibilities to support staff. Prerequisites: PTY-612. Students must be enrolled in PTY-613 Lab while taking this course. This course is open only to students enrolled in the entry level DPT program.

Take PTY-612;

PTY-614       Clinical Sem: Patient Prac Iss
2 Lecture hours per week. This seminar course follows successful completion of the first full-time clinical education experience. It is designed to assist students in their professional socialization and to identify issues related to professional behavior. Students will have the opportunity to share their experiences from their previous clinical education experience in relationship to patient/practitioner issues. Through discussion of topics related to client and staff interaction and issues pertinent to today's health care environment students are encouraged to become more personally aware of themselves the roles they are expected to play and how their values and communication patterns may facilitate or interfere with the therapeutic process. Prerequisites: PTY-608. This course is open only to students enrolled in the entry level DPT program.

Take PTY-608;

PTY-615       Clinical Res Mthds for Pt
3 lecture hours per week. This course provides the student with a basis to critique physical therapy research. The focus of this course is on understanding the components of a research article and analyzing the content. Experimental and non experimental methods will be explored in relation to physical therapy practice. Topics include searching the literature research ethics and common statistical techniques and methods. This is the first of a three course research sequence required of all students enrolled in the Doctor of Physical Therapy program and will prepare students for the courses that follow: Analysis of Professional Literature in Physical Therapy (PTY 647) and one of the Capstone Experiences: Evidence-Based Practice Project (PTY 768) or Faculty-Mentored Research Project (PTY 769). Only open to DPT and tDPT students. This course is open only to students in the entry level or Transition DPT programs. It is offered in the traditional classroom setting for entry-level DPT students and online with reduced seat time for the DPT students.

Take PTY-611;

PTY-616       PCM: Adult Neuromuscular Syst
4 lecture hours per week. This course is designed to provide a comprehensive and systematic learning environment for students to develop basic skills competencies and understanding of the evaluation and treatment of adults with neurological deficits. The principles and purpose of evaluation as a basis for treatment planning is re-emphasized along with the planning of comprehensive intervention programs for patients as well as their families. Philosophical approaches such as NDT and motor relearning program will be presented but the major treatment focus will be the integration of these approaches with an emphasis on motor learning and relearning. Specific neurological dysfunctions to be discussed include CVA TBI MS Parkinson Disease cerebella dysfunction brain tumors spinal cord injury and adults with developmental disabilities. Diagnostic procedures will be presented along with other topics such as pharmacology respiration wheelchair positioning and orthotics. Prerequisites: PTY-611. Students must be enrolled in PTY-620 and PTY-616 Lab while taking this course. This course is open only to students enrolled in the entry level DPT program.

Take PTY-611;

PTY-617       Pediatric Neuromuscular System
3 Lecture hours per week. The focus of this course is examination evaluation and intervention and outcome assessment for children with neuromuscular impairments. Students develop appropriate observation and clinical skills necessary for completing a comprehensive evaluation and formulating a plan of care that considers relevant developmental social economic and cultural factors. Students will apply models of clinical decision making that include evidenced-based practice. Lecture topics will emphasize the elements of the patient and client management model for pediatric patients with neuromuscular impairments. This course is only open to students enrolled in the entry level DPT Program. Prerequisites: PTY 611 lecture and lab. Students must be enrolled in PTY-617 Lab while taking this course. This course is open only to students enrolled in the entry level DPT program.

Take PTY-611;

PTY-620       Clinical Appl: Adult Neuromusc
This part-time clinical education experience is concurrent with PTY 616 Adult Neuromuscular System. This part time clinical education component gives the students an opportunity to apply their didactic material and to interact with patients in a nursing home rehabilitation center or hospital. Practice of examination evaluation goal setting documentation and application of physical therapy interventions appropriate to the student's skill level are carried out under the supervision of a licensed physical therapist. Students are expected to practice in a safe professional ethical manner with adherence to legal
practice standards. Students are responsible or their own transportation to and from the assigned clinical facility. Students must be enrolled in PTY-616 and PTY-616 Lab; This course is open only to students enrolled in the entry level DPT program.

**PTY-625 Clinical Appl: Cardio & Pulmon**
This part-time clinical education experience is concurrent with PTY 627 Cardiovascular & Pulmonary Systems. This part time clinical education component gives the students an opportunity to apply their didactic material and to interact with patients in a general health care facility or hospital. Practice of examination evaluation goal setting documentation and application of physical therapy interventions appropriate to the student's skill level are carried out under the supervision of a licensed physical therapist. Students are expected to practice in a safe professional ethical manner with adherence to legal practice standards. Students are responsible for their own transportation to and from the assigned clinical facility. Students must be enrolled in PTY-627 and PTY-627 Lab. This course is open only to students enrolled in the entry level DPT program.

Take PTY-521 PTY-522;

**PTY-647 Analysis of Prof Lit in Phy Th**
3 lecture hours per week. This course extends the concepts related to critical inquiry discussed in PTY 615 into the development practice and refinement of these skills. The emphasis of the course is on increasing the students' ability to critically read the scientific literature and apply it to physical therapy practice using evidence-based practice skills. Students will critique journal articles and work in groups to complete an evidence-based practice project. Students in the entry level program will begin writing the introduction and methods section of their Capstone Experience. Prerequisites: PTY-615; This course is only open to students in the entry level or Transition DPT programs. This course is offered in the traditional classroom setting for entry-level DPT students and online with reduced seat time for tDPT students.

Take PTY-615;

**PTY-718 Clinical Education II**
This full-time 12-week clinical education experience is the first of two clinical experiences that follows successful completion of the second full year of the professional curriculum. This clinical education component gives the students an opportunity to apply their didactic material and to interact with patients in a therapeutic setting. It is expected that the majority of patients encountered in this clinical experience will be those who have orthopedic musculoskeletal/sports cardio pulmonary integumentary and/or neuromuscular impairments since students have fully completed those areas of the academic curriculum. Students will begin to integrate the five elements of patient/client management (as outlined in Guide to Physical Therapist Practice) - examination evaluation diagnosis prognosis and intervention under the supervision of a licensed physical therapist. Successful completion of this clinical education component is a requirement for completion of the physical therapy curriculum. Prerequisites: PTY-608 613 616 617 627. This course is open only to students enrolled in the entry level DPT program.

Take PTY-608 PTY-613 PTY-616 PTY-617 PTY-627;

**PTY-719 Clinical Education III**
This full-time 12-week clinical education experience is the final clinical experience. This clinical education experience gives the students an opportunity to apply their didactic material and to interact with patients in a therapeutic setting. It is expected that the majority of patients encountered in this clinical experience will be those who have orthopedic musculoskeletal/sports cardiopulmonary integumentary and/or neuromuscular problems since students have fully completed those areas of the academic curriculum. At the completion of this experience students will be able to integrate the five elements of patient/client management (as outlined in the Guide to Physical Therapy Practice) - examination evaluation diagnosis prognosis and intervention under the supervision of a licensed physical therapist. Successful completion of this clinical education component is a requirement for completion of the physical therapy curriculum. Prerequisites: PTY-718. This course is open only to students enrolled in the entry level DPT program.

Take PTY-718;

**PTY-720 Admin, Ldrshp & Bus Mgt for Pt**
This course is designed to enhance the participant's knowledge and critical thinking skills in managerial and supervisory principles for Physical Therapists and student physical therapists with little or no formal preparation in business. It provides the participant with: an understanding of health care business principles an opportunity to develop management and business related skills and the ability to apply business principles and leadership skills in the context of physical therapy practice. Prerequisites: PTY-718 OR matriculated in the Transition DPT program. This course is open only to students enrolled in the entry level or Transition DPT programs. This course is offered in the traditional classroom setting for entry-level DPT students and online with reduced seat time for tDPT students.
PTY-721  Post Clinical Specialty Sem
This course focuses on health promotion and wellness throughout the lifespan. Issues related to current health concerns such as obesity eating disorders nutrition fitness programs child and elder abuse and domestic violence will be explored from a lifespan perspective. A component of this course is on women's health specifically osteoporosis prenatal and postpartum exercise urinary incontinence treatment and breast cancer. Male incontinence will also be discussed. Another component will explore several important topics related to geriatrics. Topics include physiology of aging psychology of aging attitudes towards older adults and ageism and different types of living environments. Prerequisite: PTY-718. This course is open only to students enrolled in the entry level DPT program.
Take PTY-718;

PTY-722  Ed Strategies for Clinical Prcc
This course is designed to provide students with an understanding of and skill in the application of teaching and learning strategies as they relate to the professional practice of Physical Therapy. Topics will include learning and teaching styles domains of learning a variety of teaching methods and their applicability to the learning domains and practice settings methods and tools for assessment of learning in oneself and others construction of effective teaching sessions that incorporate behavioral objective development that resonates with the needs of the learner and the content incorporation of effective teaching technologies methods and tools for assessment of achievement of desired educational objectives and outcomes the role of the clinical instructor in the delivery of clinical education and as an important component of personal professional development and the role of the physical therapist in the academic setting. Prerequisites: PTY-718 OR matriculated in the Transition DPT program. This course is open only to students enrolled in the entry level or Transition DPT programs. This course is offered in the traditional classroom setting for entry-level DPT students and online with reduced seat time for tDPT students.

PTY-723  Medical Imaging for Pt
The purpose of the course is to provide a basic understanding of the various types of medical imaging used to diagnose problems in the musculoskeletal neurological and cardiovascular and pulmonary practice patterns. Students will learn specific imaging techniques the rationale for their selection and their use in inferential diagnosis. The integration of radiological finding with physical therapy practice will also be emphasized. Prerequisites: PTY-718 OR matriculated in the Transition DPT program. This course is open only to students enrolled in the entry level or Transition DPT programs. This course is offered in the traditional classroom setting for entry-level DPT students and online with reduced seat time for tDPT students.

PTY-724  Pharmacotherapeutics for Pt
This course is designed to enhance the student's knowledge and critical thinking skills in the foundational principles of pharmacology. This will include an understanding of the pharmacotherapeutics pharmacokinetics and pharmacodynamic properties of common drug classifications. Factors affecting pharmacokinetics such as age gender body composition disease other drugs nutrition and hydration will be discussed. Dose-response relationships administration routes absorption and distribution biotransformation and excretion potential activities/techniques and the physiological aspects of substance abuse will also be presented. Students will explore current trends and factors in pharmacological issues relevant to socioeconomic cultural legal and psychological issues. This course is open only to students enrolled in the entry level or Transition DPT programs. This course is offered online with reduced seat time for tDPT students.

PTY-725  Differential Diagnosis for Pt
This course is designed to enhance the students knowledge of and critical thinking skills in the process of differential diagnosis related to the physical therapy profession. Students will develop and enhance their ability to integrate the findings from medical screenings medical tests and images in the physical therapy patient/client management model. This course is designed to explore the physical therapist's role as an independent practitioner working within the collaborative medical model. The responsibilities of the physical therapist associated with medical screening and referral will be discussed. The course will also include presentation and discussion of circumstances that support consulting with or referring a patient to another health care provider. Medical conditions that warrant urgent or immediate communication with the physician will be presented. Effective communication strategies with physicians and patients will be addressed. Selected disease systemic processes that mimic musculoskeletal impairments encountered by physical therapists will be explored. Prerequisites: PTY-718 OR matriculated in the Transition DPT program. This course is open only to students enrolled in the entry level or Transition DPT programs. This course is offered online with reduced seat time for tDPT students.

PTY-730  Professional Issues in Phy Th
The course follows full-time clinical education experiences and provides students with an opportunity to explore multiple professional issues in physical therapy. Students will analyze issues related to current physical therapy practice and future health care delivery systems. Issues related to regulation legal aspects legislative concerns and strategies malpractice issues risk management reimbursement professional organizations supervision and ethics in professional practice will be analyzed. Prerequisites: PTY-718. This course is open only to students enrolled in the entry level DPT program.
Take PTY-718;

PTY-768  Capstone: Evid Basd Prac Proj
This course is the culmination of the three course physical therapy research sequence. For the third course students elect PTY 768 or 769. Under faculty supervision students will complete a clinical case report or single subject design study. Students will thoroughly search and analyze the research literature and apply their findings to clinical decision making. An evidence-based practice project will also be completed. Students will present their case report or single subject study at the Graduate Research Symposium. Prerequisites: PTY 647. This course is open only to students enrolled in the entry level or Transition DPT programs. This course is offered in the traditional classroom setting for entry level DPT students and online with reduced seat time for tDPT students.

Take PTY-647;

**PTY-769 Capstone: Fcty Ment Resrch Prj**

3 Lecture hours per week This course is designed to guide students in the completion of a Master's level thesis and is the culmination of a three course sequence in critical inquiry in Physical Therapy (PTY 615 647 and 768 or 769). Students are taught research design and research writing style in the first course (PTY 515). The second course fosters the students ability to critically analyze and synthesize research literature (PTY 547). Students will be offered the opportunity to perform an individual research project based on their performance in PTY 547. The selection process occurs in the prerequisite course so students are expected to enter this course with a clearly defined problem in the form of a research question or hypothesis and with specified methodology. This third course is where data is analyzed the results are interpreted and the thesis manuscript is written to final format. Students will be mentored as they prepare to make presentations to faculty and peers at a research symposium.

Take PTY-647;

**R WL-502 Crit Thinking: Res Into Pract**

This course examines current theories research and effective practices for teaching reading comprehension. Using a constructivist model of understanding factors influencing students' understanding of text are analyzed. Special attention is given to teaching all students particularly those with disabilities in regular classroom settings.

**R WL-594 Teacher-Researcher-Portfolio**

The purpose of this course is three-fold: first students will be guided in the completion of an in-depth research pertaining to literacy; second students will be assisted in their preparation of a teaching portfolio which is required in the Masters of Literacy Education program; third students will participate in an analysis of a shared topic in literacy education. These topics vary each year and have addressed issues pertaining to gender and literacy diversity effective intervention practices and school reform efforts. Prerequisites: EDU 572 and 593.

Take EDU-572 EDU-593;

**R WL-599 Special Topics**

**R WL-602 Diagnosis-Reading/Writing Diff**

Materials methods and procedures appropriate to reading and writing diagnosis are the focus of the course. Students learn to work closely with families and develop authentic assessment strategies. Fifteen tutorial hours are required in addition to class meetings.

Take EDU-572;

**R WL-604 Teaching Struggling Readers**

Instructional programs and strategies for developing children's literacy are presented. Learning activities are designed to assist classroom teachers literacy specialists and special educators. Fifteen hours of tutoring are required in addition to class meetings. Prerequisites: EDU 572 and EDU/ SED 602.

Take EDU-572 EDU-602;

**R WL-606 Practicum-Reading/Writing Diff**

The practicum is a supervised clinical experience in the diagnosis and remediation of reading and writing difficulties for learners encountering serious problems in schooling. Test data material from records and interviews plus observational information are used to develop treatment plans and subsequent evaluation. Prerequisites:EDU 602 and 604

Take EDU-572 EDU-602 EDU-604;

**R WL-615 Teach Mid & Sec Stud W/Lit Dif**

This is the second of a three part clinical sequence in adolescent literacy. In this course teachers examine theories and practices for improving adolescents' reading and writing. Broad programmatic issues in adolescent literacy education are first examined. Teachers then investigate ways to integrate technology with literacy improve family and community involvement with schools use culturally responsive teaching methods instruct second language learners and effectively teach adolescents strategies for improving their vocabulary comprehension study and test taking skills report and essay writing. Prerequisites: EDU 613.

Take EDU-572 RWL-613;

**R WL-617 Prac W/Adol Readers & Writers**

This is the final in a 3 part course sequence in adolescent literacy. The purpose of this course is to translate theory into
practice in an instructional setting. Teachers will be required to use what they have learned from the previous courses to
effectively assess and teach adolescents who find learning to read and write difficult. The goals for this practicum are that
teachers learn to efficiently sample and validly interpret students' literacy performance; effectively plan and implement
instruction that improves students' literacy learning; learn to effectively communicate students' literacy performance and
needs to parents, teachers and school administrators. A weekly seminar accompanies the practicum. Graduate students are
required to share their assessments lessons and assignments during the seminar. In addition the seminar is used to examine
critical issues in adolescent literacy. Teams of graduate students will assume a key role in these seminars by leading
discussion of self-selected articles about adolescent literacy. Prerequisites: EDU 613 and 615.

Take EDU-613 EDU-572 EDU-615;

SCI-310 Exercise Physiology
Physiologic adjustments and adaptations to varying conditions of physical activity are explored. Topics for study include
physiological aspects of humans in sports and exercise environmental effects on human performance the role nutrition
plays in fitness and activity and application of physiological principles to the training and conditioning process. The course
is presented as a systems approach stressing the energy transport system and its interrelationship of structure with function
during physical activity in healthy and diseased populations.

SED-502 Crit Thinking: Res Into Pract
The purpose of this course is to provide graduate students with strategies for locating and analyzing educational research.
Research studies exemplifying the best of quantitative and qualitative traditions will be examined. Students will critically
read experimental correlational survey ethnographic single subject designs and teacher inquiry studies that are available in
refereed educational journals. Technology will be used throughout the course for library research skills. The purpose of the
course is for teachers to develop critical thinking skills for reading research and drawing conclusions about its implications
for classroom instruction.

SED-503 Teach All Learners in El Sch
This course investigates best practices in delivering instruction in inclusive settings. Emphasis is on planning for multi-
level structured learning experiences for students with diverse characteristics. Intervention for diverse teaching challenges
are investigated within the context of inclusive classrooms. A variety of teaching strategies are presented critiqued and
practiced based on a philosophy of interactive and reflective teaching. Candidates develop knowledge about multiple
learning styles the full range of learner characteristics partnerships with parents and other educational personnel and
developing critical thinking skills in students in grades 1-6.

SED-531 Individual Program Design I
This experience focuses on children who have individualized education programs (those considered to have mild as well as
significant disabilities). Major emphases are characteristics of students with disabilities issues controversies referral and
placement procedures collaborative planning and implementation of educational activities in inclusive settings.
Instructional materials technologies and approaches which facilitate social and academic growth are explored Field
Experience Required (3 Hours).
Take SED-554 SED-555;

SED-532 Individual Program Design II
This experience focuses on children (grades 1-6) who have individualized education programs and builds on the content of
Individual Program Design I. Major emphases are instructional approaches learning and generalization strategies
developing Individual Education Programs adapting goals methods and materials-including assistive technologies.
Take SED-554 SED-555 SED-531;

SED-533 Strat for Math: Stud W/Dis
This course is designed to build expertise in facilitating students' mathematical problem solving abilities and
understandings of mathematical properties rules operations and topics with particular focus on students whose disabilities
affect this area of their academic development. Co-planning and co-teaching strategies for success in general classes will
be the context for the use of approaches. Field experience hours may be required.

SED-554 Assessment Strategies
This course provides students with the knowledge and skills to elect use and interpret various assessment instruments and
methodologies appropriate for students with various disabilities. Students also are involved in analyzing and reporting
assessment information and making IEP and instructional recommendations for students with disabilities. Prerequisites:
Matriculation and SED 502 & EDU 503.

SED-555 Positive Appr to Behav Issues
Knowledge and understanding of positive approaches for facilitating behavioral changed in students are explored.
Strategies for understanding the functions and communicative intent of different behaviors are examined as well as
implementing and evaluating behavior change plans. Field experience hours may be required

SED-567 Legal & Hist. Found of Spec Ed
This course will explore the legal foundations of special education within a historical context including the role of parents and other advocates in the development of federal legislation ensuring a right to free and appropriate education for all children and youth. Special education law in its current form will also be investigated with a focus on the implications for development of IEP's due process rights and rights and responsibilities of school personnel, students, and families.

SED-574 Reading/Writing-Content Areas
Methods and materials for delivering content area instruction through reading and writing are examined. Candidates will design instruction that develops literacy skills and broadens and enriches student learning of academic subjects. M.A.T. candidates enrolled in EDU 574 must concurrently enroll in EDU 574F (fieldwork).

SED-576 Emergent Language & Literacy
This course explores how language acquisition contributes to early literacy development. Particular attention is paid to emergent reading and writing and the interrelationships among language learning, literacy development, and children's interactions with literature. Effective teaching practices for including children with disabilities in regular classrooms are examined. Prerequisites: Matriculation required and completion of EDU 520 or other graduate reading course or provisional certification in elementary or special education.

Take EDU-520;

SED-578 Collaboration in Ed Settings
The purpose of this course is to survey the theories and practices of consultation in schools. Methods of conducting effective child study and other team meetings, consultation between regular and special educators, and parental concerns will be discussed. Case studies will be role played. Observation of consultation practices within a school will be analyzed to enhance practical applications.

SED-579 Soc. Justice Read-Childrn Lit.
Designed for elementary classroom and reading teachers, the course requires students to critically analyze children's literature for its depiction of concepts, events, and protagonists pertaining to social justice. Students will acquire teaching strategies to improve children's awareness about the importance of diversity and justice through literature. Prerequisites: Matriculation.

SED-582 Strat for Lit Dev: Stud W/Dis
The purpose of this course is to present a general framework in the theory and literacy practice which will provide a foundation for students with mild as well as significant disabilities. Accommodations and modifications of the general language arts program that support the inclusion of students with disabilities are examined and evaluated. The process of reading, writing, speaking, and listening as well as specific considerations in teaching reading and writing to students with disabilities are explored. Twenty Hours of Field experience are required.

SED-594 Teacher As Researcher
This course is prerequisite to Student Teaching. Candidates focus on the applications of research in teaching grades 1 - 12. A literature review is completed and a research project designed.

# Take EDU-502 or SED-502; # Take EDU-503 or SED-503;

SED-595 Student Teaching in Spec Ed
This course provides direct supervised experience teaching students with disabilities. Students will assess, plan, implement, and evaluate instruction for school-age students with disabilities. Prerequisites: Matriculation SED 531 532 and 594 (SED 594 ay be taken concurrently. A fee of $150 is required for each placement. The fee is non-refundable after August 1.

Take SED-554 SED-575;

SED-606 Practicum-Reading/Writing Diff
The 25 hour practicum is a supervised clinical experience in the diagnosis and remediation of reading and writing difficulties or learners encountering serious problems in schooling. Test data material from records and interviews plus observational information are implemented in treatment plans and subsequent evaluation.

Take EDU-572 EDU-602 EDU-604;

SED-670 Internship in Childhd/Spec Ed

SED-671 Internship in Childhd/Spec Ed
