

## ENG 202 : British Literature II

The primary purpose of the course is to familiarize students with readings by selected British writers from 1650 through 1830. Major trends of the 18th century and Romantic literary periods will be observed in works of fiction, poetry, and drama. Readings will be approached not only as individual works of art to be read creatively and enjoyed imaginatively and intellectually, but also as representatives of major cultural movements in the English-speaking world.
