

PSY 320 : Community Psychology

Community psychology examines the impact of socio-cultural, economic, political, and environmental forces on individuals and communities, and draws upon social change efforts to improve individual and community quality of life, empower community members, and promote social justice. This course will provide you with an introduction to community psychology, with specific emphasis on the history of the field; the guiding theories, principles, and values inherent in the field; and community-based research and intervention. You will learn how to apply the theories, principles, and values to understand and address social phenomena.
