

Campus Crime Statistics

Russell Sage College has two very safe campuses, as reflected in the security and fire safety reports available on [Sage.edu](https://www.russellsage.edu) (Office of Public Safety). Crime statistics are reported on a calendar year basis, rather than by academic year, and that the Department of Education now mandates the reporting of some criminal activity occurring off campus, as well as the activity occurring on campus.

There are four categories for location of criminal activity, defined as follows:

“Campus” means any building or property controlled by an institution of higher education within the same reasonably contiguous geographic area of the institution and used by the institution in direct support of, or in a manner related to, the institution’s educational purposes, including residence halls and, property within the same reasonably contiguous geographic area of the institution that is owned by the institution but controlled by another person, is used by students, and supports institutional purposes (such as a food or other retail vendor).

“Non-Campus Building or Property” means any building or property controlled by a student organization recognized by the institution, and any building or property (other than a branch campus) owned or controlled by an institution of higher education that is used in direct support of, or in relation to, the institution’s educational purposes, is used by students, and is not within the same reasonably contiguous geographic area of the institution.

“Public Property” means all public property, all public property that is within the same reasonably contiguous geographic area of the institution, such as a sidewalk, a street, other thoroughfare, or parking facility, and is adjacent to a facility owned or controlled by the institution if the facility is used by the institution in direct support of, or in a manner related to the institution’s educational purposes.

“Residence Hall” means residential facilities for students on campus
