

Inactive Student Status

Any matriculated student who has enrolled during one semester and who does not register for credit the subsequent semester will be **administratively withdrawn** (in-activated) from the College unless the student requests and is granted a leave of absence or officially withdraws from the College. A student who has been withdrawn may seek readmission by contacting the Office of Admission. Inactive student status does not release the student from financial obligations. Upon re-enrolling, students are newly matriculated under the current catalog in effect at the time of re-enrollment.
