

# HSC 204 : Introduction to Health Professions

This is a survey course introducing students to a wide variety of professions within the health sciences field. Guest speakers will present information regarding their role in the health care system, educational and professional licensure requirements, professional practice settings, professional associations and other related information. This course is delivered in a seminar format with potential guest speakers in the areas of physical and occupational therapy, counseling, medicine, health administration, health education, nursing, nutrition, pharmacy, nuclear medicine, speech pathology, complementary medicine and other professions based on speaker availability. Restricted to HSC majors or by permission of the Health Sciences Program Director.
